RE: Information Request Dated March 29, 2011

Dear Yolanda and LaVerne:

I am in receipt of your information request dated March 29, 2011. This letter responds to the requests where information is readily available. Our responses to each of the information requests are below:

The list of job titles with current salary information, part-time, full-time classification, and date of hire for all CEO and MEF represented employees.

Please refer to Attachment A, which includes information related to MEF and CEO represented employees' base pay, full-time/part-time status, and start date with the City.

A complete breakdown of the MEF and CEO pie-charts that were presented, in particular the section titled other benefits.

On March 28, 2011, the City provided MEF and CEO pie charts that detailed the major components that comprise an employee's total compensation (Please refer to Attachment B). MEF and CEO further asked for clarification as to what is included in the category of Base Payroll and Other Benefits.

The components that comprise an employee's Base Pay are base pay, holiday pay, bilingual pay, and uniform pay. The components that comprise Other Benefits are EAP, Medicare, life insurance, vision insurance, benefit administration fee, and AFSCME Legal Trust Fund.

A table of sick leave payout in the format of the table provided to the Union in the 2008 negotiations.

Please refer to Attachment C, which details the sick leave payouts from Fiscal Year 2007-2008 to Fiscal Year 2009-2010 for MEF and CEO represented employees. Please note that the information provided is based upon PeopleSoft data and are approximates, as actual payouts by Fiscal Year are not readily available.

More detailed description as to what constitutes outpatient procedure.

Please refer to Attachment D, which details the procedures that would be considered outpatient procedures under the City's proposed $25 co-pay plan.

More details on the drug formulary.

Please refer to Attachment E, which includes the Blue Shield drug formulary and specialty drug list. The drug formulary and specialty drug list for Kaiser is not readily available. However, Kaiser members can utilize the below link to search Kaiser's drug formulary:

https://members.kaiserpermanente.org/kpweb/entryPage.do?cfe=422

Subsequent to the information request dated March 29, 2011, MEF and CEO sent the below information request via email asking for information related to sick leave balances:

Also, please provide us the individual sick leave balances for all MEF and CEO employees (separated by bargaining unit), including employee name, years of service, department, job classification, and their current hourly pay rate (including their current pay step), all sorted by sick leave balance numbers, then by years of service."

Please refer to Attachment F, which includes information related to MEF and CEO represented employees' sick leave balances. Please note that the sick leave balances are as of March 19, 2011.

Sincerely,

Gina Donnelly
Deputy Director of Employee Relations

Attachment A

Attachment D

Benefit	Member Copayment
Hospital Benefits (Facility Services)	
Inpatient Medically Necessary skilled nursing Services including Subacute Care	You pay nothing
Inpatient Services including semi-private room and board, operating room, intensive cardiac care units, general nursing care, Subacute Care, drugs, medications, oxygen, blood and blood plasma	$100 per Admission
Inpatient Services to treat acute medical complications of detoxification	You pay nothing
Outpatient dialysis Services	You pay nothing
Outpatient Services for surgery and necessary supplies	$100 per surgery
Outpatient Services for treatment of illness or injury, radiation therapy, chemotherapy and necessary supplies	You pay nothing

Outpatient Hospital Services:

1. Services and supplies for treatment (including dialysis, radiation and chemotherapy) or surgery in an Outpatient Hospital setting.
2. Services for general anesthesia and associated facility charges in connection with dental procedures when performed in a Hospital Outpatient setting because of an underlying medical condition or clinical status and the Member is under the age of 7 or developmentally disabled regardless of age or when the Member's health is compromised and for whom general anesthesia is Medically Necessary regardless of age. Excludes dental procedures and services of a dentist or oral surgeon.
3. Medically Necessary Services in connection with Reconstructive Surgery when there is no other more appropriate covered surgical procedure, and with regards to appearance, when Reconstructive Surgery offers more than a minimal improvement in appearance. In accordance with the Women's Health and Cancer Rights Act, surgically implanted and other prosthetic devices (including prosthetic bras) and Reconstructive Surgery is covered on either breast to restore and achieve symmetry incident to a mastectomy, and treatment of physical complications of a mastectomy, including lymphedemas. Surgery must be authorized as described herein. Benefits will be provided in accordance with guidelines established by the Plan and developed in conjunction with plastic and reconstructive surgeons.

No benefits will be provided for the following surgeries or procedures unless for Reconstructive Surgery:

1. Surgery to excise, enlarge, reduce, or change the appearance of any part of the body;
2. Surgery to reform or reshape skin or bone;
3. Surgery to excise or reduce skin or connective tissue that is loose, wrinkled, sagging, or excessive on any part of the body;
4. Hair transplantation; and
5. Upper eyelid blepharoplasty without documented significant visual impairment or symptomatology.

This limitation shall not apply to breast reconstruction when performed subsequent to a mastectomy, including surgery on either breast to achieve or restore symmetry.

Kaiser Benefit Highlights

Outpatient Services You Pay	
Outpatient surgery and certain other outpatient procedures	$100 per procedure

Outpatient Care

We cover the following outpatient care subject to the Cost Sharing indicated:

- Most primary and specialty care consultations and exams: **a $25 Copayment per visit**
- Routine physical maintenance exams, including wellwoman exams: **no charge**
- Well-child preventive exams for Members through age 23 months: **no charge**
- Family planning counseling, or to obtain internally implanted time-release contraceptives or intrauterine devices (IUDs) prescribed in accord with our drug formulary guidelines: **no charge**
- After confirmation of pregnancy, the normal series of regularly scheduled preventive care prenatal care exams and the first postpartum follow-up consultation and exam: **no charge**
- Alcohol and substance abuse screenings: **no charge**
- Developmental screenings to diagnose and asses potential developmental delays: **no charge**
- Immunizations (including vaccines) administered to you in a Plan Medical Office: **no charge**
- Flexible sigmoidoscopies: **no charge**
- Colonoscopies: **no charge**
- Allergy injections (including allergy serum): **a $5 Copayment per visit**
- Outpatient surgery: **a $100 Copayment per procedure** if it is provided in an outpatient or ambulatory surgery center or in a hospital operating room, or if it is provided in any setting and a licensed staff member monitors your vital signs as you regain sensation after receiving drugs to reduce sensation or to minimize discomfort. Any other outpatient surgery is covered at **a $25 Copayment per procedure**
- Outpatient procedures (other than surgery): **a $100 Copayment per procedure** if a licensed staff member monitors your vital signs as you regain sensation after receiving drugs to reduce sensation or to minimize discomfort. All outpatient procedures that do not require a licensed staff member to monitor your vital signs as described above are covered **at the Cost Sharing that would otherwise apply for the procedure** in this "Benefits and Cost Sharing" section (for example, radiology procedures that do not require a licensed staff member to monitor your vital signs as described above are covered under "Outpatient Imaging, Laboratory, and Special Procedures")
- Voluntary termination of pregnancy: **a $25 Copayment per procedure**
- Physical, occupational, and speech therapy: **a $25 Copayment per visit**
- Physical, occupational, and speech therapy provided in an organized, multidisciplinary rehabilitation daytreatment program: **a $25 Copayment per day**
- Urgent Care consultations and exams: **a $25 Copayment per visit**
- Emergency Department visits: **a $100 Copayment per visit**. The Emergency Department Copayment does not apply if you are admitted directly to the hospital as an inpatient for covered Services, or if you are admitted for observation and are then admitted directly to the hospital as an inpatient for covered Services (for inpatient care, please refer to "Hospital Inpatient Care" in this "Benefits and Cost Sharing" section). However, the Emergency Department Copayment does apply if you are admitted for observation but are not admitted as an inpatient
- House calls by a Plan Physician (or a Plan Provider who is a registered nurse) inside our Service Area when care can best be provided in your home as determined by a Plan Physician: **no charge**
- Acupuncture Services (typically provided only for the treatment of nausea or as part of a comprehensive pain management program for the treatment of chronic pain): **a $25 Copayment per visit**
- Blood, blood products, and their administration: **no charge**
- Administered drugs (drugs, injectables, radioactive materials used for therapeutic purposes, and allergy test and treatment materials) prescribed in accord with our drug formulary guidelines, if administration or observation by medical personnel is required and they are administered to you in a Plan Medical Office or during home visits: **no charge**
- Some types of outpatient consultations and exams may be available as group appointments, which we cover at **a $12 Copayment per visit**

Specialty Drug List [π]

This list reflects medications designated as specialty drugs under the pharmacy benefit, beginning on July 1, 2010. Most specialty drugs require prior authorization for medical necessity. If covered, specialty drugs cannot be obtained from a retail participating pharmacy and must be obtained from a Blue Shield Network Specialty Pharmacy. A Blue Shield Specialty Pharmacy may be located at www.blueshieldca.com under *Find a Pharmacy*. To see if this specialty drug designation applies to your coverage, please check your *Evidence of Coverage* or *Certificate of Insurance/Policy*. You may also call the customer service phone number listed on your Blue Shield ID card. Specialty drugs are listed under the most common medical condition for which they are used.

Arthritis/Psoriasis		
Cimzia syringe	Humira	Simponi
Enbrel	Kineret	
Blood Modifiers		
Aranesp *(Procrit preferred)*	Neulasta	Procrit
Leukine	Neumega	Promacta

ŦQuantities up to 11 or 14 days supply are available at retail pharmacies

Blue Shield drug formulary

Member Booklet

2010-2011

blue of california

blueshieldca.com

Dear Blue Shield member,

We are pleased to provide you with a copy of the 2010-2011 Blue Shield Drug Formulary to help inform you of medications covered on our list of preferred drugs. If you are new to Blue Shield, please take a moment to see if your prescribed drugs are on our formulary. Every health-coverage carrier has a different drug formulary, and you will want to make sure that your medications are covered under your pharmacy benefit plan.

The Blue Shield Drug Formulary is a list of preferred generic and brand-name drugs.

The Blue Shield Drug Formulary contains preferred medications that have been reviewed for safety, efficacy, bio-equivalency, and are approved by the Food and Drug Administration (FDA). This formulary is developed and maintained by the Blue Shield Pharmacy and Therapeutics (P&T) Committee. Voting members of the P&T Committee are licensed physicians and pharmacists in community practice who are not employees of Blue Shield. The P&T Committee is the governing committee responsible for all policies and procedures concerning formulary management, medication use evaluation, pharmacy-related quality improvement, medication educational programs, and any other medication-related matters pertaining to patient care.

Because there are thousands of medications included in your outpatient prescription drug benefit plan, we only list the most commonly prescribed ones. Please remember that this is not a complete list of medications covered under your plan. **The formulary is current as of the date listed on the back cover.** For the most current information, you can access the formulary on our website at **blueshieldca.com** by clicking on the *Pharmacy* tab, then selecting the *Drug Database & Formulary*.

For additional information about your prescription drug benefits, please consult your Blue Shield Summary of Benefits and your *Evidence of Coverage* (EOC) or *Certificate of Insurance* (COI)/Policy. You can also call the customer service number listed on your Blue Shield member identification card.

Note: The Blue Shield Drug Formulary applies to outpatient prescription drug benefits available through plans underwritten by Blue Shield of California and Blue Shield of California Life & Health Insurance Company (individually and/or collectively referred to as Blue Shield throughout this document).

Introduction to the drug formulary

What is a drug formulary?

A formulary is a list of preferred generic and brand-name medications approved by the Food and Drug Administration (FDA) that are covered under your Blue Shield prescription drug benefit. You can check your *Evidence of Coverage* (EOC) or *Certificate of Insurance* (COI), or call the member services number on your Blue Shield member ID card, to determine whether the formulary applies to your plan. The fact that a drug is listed in the formulary does not guarantee that it will be prescribed by your physician.

How is the drug formulary developed?

The formulary is developed and updated quarterly by the Blue Shield Pharmacy and Therapeutics (P&T) Committee. The P&T Committee reviews medical literature concerning safety, effectiveness, and current use in therapy to determine whether the drug should be included on our formulary. The medical information reviewed is from a variety of nationally recognized sources such as Medline, other databases, pharmaceutical manufacturers, medical professional associations, and peer-reviewed journals. The P&T Committee reviews and updates the formulary regularly to ensure that it continues to provide coverage for drugs that are cost effective and safe. Through the use of our drug formulary, we can help maximize treatment quality while keeping your prescription drug costs lower.

Additions or removal of drugs from the Blue Shield formulary that were approved by the P&T Committee are promptly listed on the online drug formulary. For the latest formulary updates, please check either the Drug Database & Formulary, or the Announcements section in the *Pharmacy* section of **blueshieldca.com**. In addition, printed addendums with updates to the drug formulary are also available by calling the customer service number on your Blue Shield member ID card.

If a drug is removed from the formulary, members who were already receiving the drug will continue to have the medication covered for as long as the treating physician continues to prescribe the drug, provided the drug is being prescribed appropriately and is considered safe and effective for treating the member's medical condition.

How to read the formulary

For your convenience, we've listed the drug formulary both by alphabetical order and by therapeutic class. Note that specialty drugs are only listed in the Specialty Drug List section at the end of this booklet. We have also provided a few quick reference tables:

- Non-formulary drugs requiring prior authorization
- Non-formulary drugs with quantity limits
- Formulary alternatives for commonly prescribed non-formulary drugs
- Specialty drugs

Other things to note when consulting this formulary:

- Generic drugs begin with lowercase letters.
- Brand-name drugs begin with capital letters.
- If a brand-name drug is followed by the text "(generic only)," it means that only the generic version is on Blue Shield's formulary.
- Drugs listed with a "◆" may require prior authorization from Blue Shield.
- If you cannot find a drug name in "List of formulary drugs", or "Formulary drugs by therapeutic class", please also check the Specialty Drug List section at the end of the booklet.

Please view your *Evidence of Coverage* or *Certificate of Insurance* for drugs that may not be covered due to a benefit exclusion.

This formulary list is subject to change on a quarterly basis. When medications are added or removed from the formulary, we notify members and physicians of the changes through newsletters and **blueshieldca.com**.

What is a brand-name drug?

A brand-name drug is a medication that has been approved by the FDA for sale and marketing in the U.S., and that has patent protection which limits which manufacturer(s) can make and sell the medication. Generic versions of brand drugs cannot be made or sold until the patent has expired. Once the patent has expired, generic versions of the medication can be sold alongside the brand version. Blue Shield's Drug Formulary includes many brand-name drugs.

What is a generic drug?

A generic drug has the same active ingredient and dosage form (e.g., tablet or capsule), and works in exactly the same way as its brand-name counterpart. When the patent on a brand-name drug expires, other drug manufacturers can apply to the FDA to make a generic version of the drug. The FDA approves generic drugs when manufacturers have proven that the generic version is equally safe and effective as the brand-name counterpart.

Generic drugs usually cost less than the brand-name equivalent. Therefore, using generic drugs instead of a brand-name drug is one of the easiest ways to reduce your prescription costs. Most Blue Shield health plans provide a lower copayment for generic drugs, compared with brand-name drugs. Most generic drugs are covered even if they are not listed in the drug formulary.

What are specialty drugs?

Specialty drugs are those drugs used to treat complex or chronic conditions, and which usually require close monitoring, such as multiple sclerosis, hepatitis, rheumatoid arthritis, cancer, and other conditions that are difficult to treat with traditional therapies. Specialty drugs may be self-administered in the home by injection (under the skin or into a muscle), by inhalation, by mouth, or on the skin. These drugs may

also require special handling, special manufacturing processes, and may have limited prescribing or limited pharmacy availability.

Specialty drugs are obtained from a Blue Shield specialty pharmacy, and may require prior authorization for medical necessity by Blue Shield. If coverage is approved, the drug can only be obtained through one of our specialty pharmacies.

You can find a list of specialty drugs at the end of this booklet.

What is prior authorization?

Drug prior authorization is a process to obtain advanced approval of coverage for a prescription medication. Most medications are covered by Blue Shield without requiring prior authorization. However, some select drugs require your doctor to provide information about your prescription to determine coverage. Your doctor may provide information for a prior authorization review by calling or faxing a form to Blue Shield Pharmacy Benefit Management. Your doctor will be notified whether your prescription is approved for coverage.

Prior authorization coverage requirements are determined by the Blue Shield P&T Committee to ensure that medications are prescribed for medically necessary reasons, used safely as recommended by the FDA and in medical studies, and used when formulary alternatives have been considered first. Drugs require prior authorization when:

- Other drugs are recommended as first-choice treatment, based on nationally recognized clinical guidelines, the FDA, or the medical literature.
- There is no significant clinical advantage compared with other formulary drugs that treat the same condition, based on clinical study results.
- The drug should be reserved for rare or uncommon conditions.
- The drug has a high potential for toxicity, abuse, or misuse.
- The dose, prescription quantity, or duration of use exceeds that recommended by the FDA.

Finally, prior authorization helps keep prescription costs affordable by suggesting use of formulary drugs first.

Here are other situations when prior authorization may be necessary to request an exception to the coverage status of a prescription:

- Non-formulary drugs for members in a closed formulary plan (check your *Evidence of Coverage or Certificate of Insurance/Policy* to see if your plan is a closed formulary plan, or call the customer service number on your member ID card).
- Prescriptions that exceed the maximum limits described in the drug formulary.

Drugs requiring prior authorization for medical necessity are listed in the formulary with either a "◆" or with a note regarding a quantity limit or maximum dose.

How long does it take to review a request for prior authorization?

Telephone requests for prior authorization can be determined immediately, while the prescriber or prescriber's agent is on the phone. Faxed prior-authorization requests that are urgent are reviewed within three business days, while non-urgent requests are reviewed in no more than five business days.

Who reviews a prior authorization request?

Pharmacists, pharmacy technicians, and medical directors review prior authorization requests to determine whether the information provided by a doctor meets the coverage requirements defined by the P&T Committee, or if an exception to the coverage requirements should be made due to your individual situation or medical history. When necessary, Blue Shield will ask external board-certified physician specialists to provide assistance with prior-authorization reviews.

What is step therapy?

Step therapy is the practice of beginning drug therapy for a medical condition with drugs considered first-line for safety and cost-effectiveness, then progressing to other drugs that may have more side effects or risks or that are more costly. The P&T Committee may determine that coverage of selected drugs requires step therapy with first-line drugs before covering the prescribed medication. Step therapy requirements are based on how the FDA recommends that a drug should be used, nationally recognized treatment guidelines, medical studies, information from the drug manufacturer, and the relative cost of treatment for a condition. Other common terms used for step therapy are: "prerequisite therapy," "prior therapy," or "step-therapy protocol."

If step-therapy coverage requirements are not met for a prescription and your doctor feels that the medication is medically necessary for you, your doctor may request an exception to the coverage requirements by requesting a prior-authorization review by contacting Blue Shield Pharmacy Benefit Management by phone or fax.

Blue Shield offers these types of outpatient prescription drug benefits

- A closed formulary plan provides coverage for generic drugs, formulary brand-name drugs, and specialty drugs. Non-formulary drugs and most specialty drugs are covered only when prior authorization is approved.
- An incentive formulary plan provides coverage for generic drugs, formulary brand-name drugs, and specialty drugs. Non-formulary drugs are also covered for a higher copayment. Prior authorization approval may be required to cover some specialty drugs and certain non-formulary drugs. If coverage for a non-formulary drug requiring prior authorization is approved, you are responsible for the non-formulary copayment. For a list of non-formulary drugs that require prior authorization, please refer to the tables at the end of this booklet.

- Some plans underwritten by Blue Shield of California Life & Health Insurance Company do not cover brand-name drugs. You may want to check your *Certificate of Insurance* (COI)/Policy, or call the customer service number on your Blue Shield member ID card, to determine whether you have brand-name drug coverage.

Copayments for generic drugs are always lower than the copayments for formulary brand name, non-formulary, and specialty drugs. For most plans, if you select a brand-name drug when a generic equivalent is available, you pay the difference between Blue Shield's cost for the brand-name drug and its equivalent generic drug, in addition to your generic copayment.

Drugs requiring prior authorization are listed in the formulary with a "◆" or with a note regarding a quantity limit or maximum dose.

Participating retail pharmacies

You may fill your prescriptions at any participating (network) pharmacy, unless it is a prescription for a specialty drug. Based upon your outpatient prescription drug plan, you may be limited to no more than a 30-day supply of medication from participating retail pharmacies. Blue Shield contracts with a wide network of retail pharmacies. To find a network pharmacy near you, check the *Pharmacy* section of **blueshieldca.com**.

Mail-service pharmacy

Blue Shield offers an easy-to-use mail-service prescription drug program through our contracted mail-service pharmacy, PrimeMail. Using the mail-service drug program can save you time and money, and is a convenient way to fill maintenance medications for up to a 60-day or 90-day supply, depending on your plan. Maintenance medications are those prescribed to treat chronic conditions (like asthma, diabetes) and taken on a regular basis to maintain health. After stabilizing your dose, using mail service helps you continue to have your maintenance medication on hand for regular use, and it may optimize your copay by making available more medication for your copay.

Your prescription(s) will be delivered directly to you in plain-labeled, FDA-approved packaging. You should allow 14 days to receive your prescription, from the time your prescription is received at the mail order pharmacy.

For more information on using the mail-order prescription benefit, please visit Mail-Service Prescriptions in the *Pharmacy* section of **blueshieldca.com**. To see if you have a mail-service benefit, please check your *Evidence of Coverage or Certificate of Insurance/Policy*, or call the customer service number listed on your Blue Shield ID card.

Using the Blue Shield Drug Formulary

To ensure that the medication your doctor prescribes is covered, and to minimize your out-of-pocket expenses, we recommend that you and your doctor consult the Blue Shield Drug Formulary before writing or filling prescriptions. It may be helpful to bring your Blue Shield Drug Formulary when you visit your doctor, so that you and your doctor can make decisions about alternative medications, if necessary. Ask your doctor to prescribe a generic drug when you need to be treated with medication. If a generic drug is not available, or if your doctor prescribes a brand-name drug that is not listed in the formulary, consider asking your doctor whether a formulary brand-name drug may be just as effective and right for you.

Always check the Drug Database & Formulary in the *Pharmacy* section of **blueshieldca.com** for the most current information about which drugs are on the formulary.

The Blue Shield Drug Formulary includes most generic drugs (unless otherwise excluded), even if they are not listed. Some generic drugs are in classes that are excluded from coverage, such as a drug used for cosmetic purposes. Please refer to your Blue Shield Summary of Benefits and your *Evidence of Coverage* (EOC) or *Certificate of Insurance* (COI)/*Policy* for benefit exclusions.

List of formulary drugs

This section lists formulary drugs alphabetically. Brand-name drugs begin with capital letters while generic drugs begin with lowercase letters.

A

acarbose
Accu-Chek test strips *(limit of 200/month)*

Non-formulary drugs requiring prior authorization

Note: If your plan has coverage for non-formulary drugs, the following drugs require prior authorization.

Non-formulary drug	
Acanya	medical necessity prior authorization
Actonel	if no prior therapy with alendronate *(Fosamax)*, quantity limit: 1/day *(5mg)*, *4/month (35mg)*, *2/month (75mg)*, 1/month *(150mg)*
Actonel with Calcium	if no prior therapy with alendronate *(Fosamax)*, quantity limit of 1 per day
Alinia	medical necessity prior authorization
Allegra-D,** Allegra-ODT**	if no prior therapy with nasal antihistamine or nasal steroid
Altabax	if no prior therapy with mupirocin
Altace tablet	medical necessity prior authorization
Amitiza	medical necessity prior authorization
Amrix	if no prior therapy with cyclobenzaprine *(Flexeril)*, quantity limit of 1 per day
Aplenzin	medical necessity prior authorization, quantity limit of 1 per day
Atacand, Atacand HCT	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Atralin	prior authorization required if over age 40 years
Avandaryl	medical necessity prior authorization
Avodart	medical necessity prior authorization, quantity limit of 1 per day
Azor	medical necessity prior authorization
Benicar,** Benicar HCT**	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Benzaclin pump	medical necessity prior authorization
Benzefoam	medical necessity prior authorization
Boniva**	if no prior therapy with alendronate *(Fosamax)* and Actonel *(prior therapy required)*
Bystolic**	medical necessity prior authorization
Caduet	medical necessity prior authorization, quantity limit of 1 per day
Cardura XL	if no prior therapy with tamsulosin (Flomax) *(prior drug therapy required)*, quantity limit of 1 per day
Celebrex**	medical necessity prior authorization, quantity limit of 2 per day
Cialis**	medical necessity prior authorization, quantity limit of 6 per month
Clarinex, Clarinex D	if no prior therapy with nasal antihistamine or nasal steroid
Clobex	medical necessity prior authorization
Coreg CR	if no prior therapy with carvedilol (Coreg)
Cozaar**	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Crestor**	medical necessity prior authorization, quantity limit of 1 per day
Detrol,** Detrol LA**	if no prior therapy with oxybutynin *(Ditropan, DitropanXL)*
Duetact	medical necessity prior authorization

** See formulary alternatives for non-formulary drugs on pages 69-70.

Non-formulary drugs requiring prior authorization, *continued*

Non-formulary drug	
Edluar	medical necessity prior authorization, quantity limit of 1 per day
Emend 40mg	medical necessity prior authorization, quantity limit of 1 per month
Epiduo	if > 40 years of age
Exalgo	medical necessity prior authorization, quantity limit of 1 per day (8mg), 5 per day (12mg), 4 per day (16mg)
Fentora	medical necessity prior authorization
Fexmid	If no prior therapy with cyclobenzaprine 5mg and 10mg
Flector**	medical necessity prior authorization, quantity limit of 2 per day
Fortamet	medical necessity prior authorization
Gelnique	if no prior therapy with Oxytrol *(prior drug therapy required)*
Glumetza	medical necessity prior authorization
Hyzaar**	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Intuniv	If no prior therapy with guanfacine
Invega	medical necessity prior authorization
Keppra XR	if no prior therapy with levetriacetam immediate release *(Keppra)*
Klonopin wafer	medical necessity prior authorization
Lamisil granules	medical necessity prior authorization
Lamictal ODT	medical necessity prior authorization, quantity limit of 1 dose-pack per month
Lamictal XR	medical necessity prior authorization, quantity limit of 1 per day *(25mg, 50mg, 100mg)*, 2 per day *(200mg)*, 1 titration pack per month
Lexapro**	medical necessity prior authorization, quantity limit of 1 per day
Lipitor**	medical necessity prior authorization
Lotronex	medical necessity prior authorization
Lovaza** *(formerly Omacor)*	medical necessity prior authorization
Lunesta**	if no prior therapy with zolpidem *(Ambien)* and Ambien CR, quantity limit of 1 per day
Lyrica**	medical necessity prior authorization, quantity limit 3 per day *(25mg, 50mg, 75mg, 100mg)*; 2 per day *(150mg)*; 1 per day *(200mg, 225mg, 300mg)*
Metozolv ODT	medical necessity prior authorization, quantity limit of 4 per day
Miacalcin Nasal Spray	medical necessity prior authorization
Micardis, Micardis HCT	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Nasacort AQ	if no prior therapy with 2 of the following: flunisolide *(Nasarel)*, fluticasone *(Flonase)*, Nasonex
Neobenz Micro	medical necessity prior authorization
Nexium**	if no prior therapy with Aciphex, Dexilant, and 1 of the following: omeprazole, lansoprazole, pantoprazole (Protonix)
Nucynta	medical necessity prior authorization, quantity limit of 6 per day *(50mg)*, 7 per day *(75mg, 100mg)*; cumulative dose of 700mg per day

** See formulary alternatives for non-formulary drugs on pages 69-70.

Non-formulary drugs requiring prior authorization, *continued*

Non-formulary drug	
Olux, Olux-E	medical necessity prior authorization
Omnans	if no prior therapy with 2 of the following: flunisolide *(Nasarel)*, fluticasone *(Flonase)*, Nasonex; quantity limit of 1 bottle per month
Onglyza	if no prior therapy with Januvia *(prior therapy required)* or Janumet *(prior therapy required)*, quantity limit of 1 tab per day
Onsolis	medical necessity prior authorzation, quantity limit of 4 per day
Opana	medical necessity prior authorzation, quantity limit of 12 per day
Opana ER	medical necessity prior authorization, quantity limit of 2 per day
Oravig	medical necessity prior authorization, quantity limit of 14 tabs per month
Panretin	medical necessity prior authorization
Pataday**	medical necessity prior authorization, quantity limit of 1 bottle *(2.5ml)* per month
Patanase	if no prior history of Astelin, quantity limit of 1 bottle per month
Pennsaid	medical necessity prior authorization, quantity limit of 1 bottle per month
Pexeva	medical necessity prior authorization
Prandimet	medical necessity prior authorization
Prevacid solutab**	if no prior therapy with Aciphex, Dexilant, and 1 of the following: omeprazole, lansoprazole, pantoprazole *(Protonix)*
Protopic**	medical necessity prior authorization, limit of 1 tube per month
Ranexa	medical necessity prior authorization, quantity limit of 2 per day
Rapaflo	if no prior therapy with tamsulosin (Flomax) *(prior drug therapy required)*, quantity limit of 1 per day
Rhinocort Aqua	if no prior therapy with 2 of the following: flunisolide *(Nasarel)*, fluticasone *(Flonase)*, Nasonex
Rozerem**	if no prior therapy with zolpidem *(Ambien)*, quantity limit of 1 per day
Rybix ODT	medical necessity prior authorization, quantity limit of 8 tabs per day
Ryzolt	medical necessity prior authorization, quantity limit of 1 per day
Sanctura,** Sanctura XR	if no prior therapy with oxybutynin, quantity limit of 2 per day
Sancuso	medical necessity prior authorization, quantity limit of 1 per chemotherapy cycle
Savella	medical necessity prior authorization, quantity limit of 2 per day
Solodyn	medical necessity prior authorization
Sporanox	medical necessity prior authorization
Stavzor	medical necessity prior authorization
Strattera**	medical necessity prior authorization, quantity limit of 4 per day *(10mg, 18mg, 25mg)*, 2 per day *(40mg)*, or 1 per day *(60mg, 80mg, 100mg)*
Symlin, Symlinpen	medical necessity prior authorization

** See formulary alternatives for non-formulary drugs on pages 69-70.

Non-formulary drugs requiring prior authorization, *continued*

Non-formulary drug	
Taclonex**	medical necessity prior authorization
Tazorac**	prior authorization required if over 40 years of age
Tekturna, Tekturna HCT	if no prior therapy with an ACE inhibitor, an ARB, and either a thiazide diuretic, a beta-blocker, or a calcium channel blocker; quantity limit of 1 per day
Teveten, Teveten HCT	if no prior therapy with an ACE inhibitor, quantity limit of 1 per day
Toviaz	if no prior therapy with oxybutynin *(Ditropan, DitropanXL)*
Treximet	medical necessity prior authorization, quantity limit of 9 tablets per month
Triaz towelette	medical necessity prior authorization
Twynsta	medical necessity prior authorization
Uloric	if no prior therapy with allopurinol, quantity limit of 1 per day
Ultram ER 300mg	medical necessity prior authorization
Uroxatral	if no prior therapy with tamsulosin (Flomax) *(prior drug therapy required)*
Valturna	if no prior therapy with an ACE inhibitor, an ARB, and either a beta-blocker, calcium channel blocker, or thiazide diuretic; quantity limit of 1 per day
Vanos	medical necessity prior authorization

Medications listed with a ◆ require your physician to obtain prior authorization for medical necessity.

Formulary alternatives for commonly prescribed non-formulary drugs

For your convenience, we have listed some of the most common brand-name drugs not included on our formulary, along with their covered alternatives.

Non-formulary drug	Formulary alternative(s)
Actonel	alendronate
Allegra-D◆, Allegra ODT◆	fexofenadine *(generic Allegra)*, fexofenadine/pseudoephedrine *(generic Allegra-D 12hour)*, Nasonex, fluticasone *(generic Flonase)*, flunisolide *(generic Nasarel)*
Avodart◆	finasteride *(generic Proscar)*
Benicar◆, Benicar HCT◆	losartan◆, Avapro◆, Avalide◆, Diovan◆, Diovan HCT◆ *(if no prior therapy with an ACE inhibitor)*
Boniva◆	alendronate
Bystolic◆	acebutolol, atenolol, bisoprolol, metoprolol
Celebrex◆	nabumetone, choline magnesium trisalicylate, etodolac, salsalate
Cialis◆	Levitra◆ *(prior authorization required, not covered for all plans)*
Cozaar◆	losartan◆, Avapro◆, Diovan◆ *(if no prior therapy with an ACE inhibitor)*
Crestor◆	Advicor, lovastatin, pravastatin, simvastatin, Vytorin *(prior drug therapy required for lower strengths)*
Cymbalta	For depression: citalopram, Effexor XR, fluoxetine, paroxetine, paroxetine controlled release, sertraline, venlafaxine *(generic Effexor)* For diabetic neuropathy: amitriptyline, doxepin, nortriptyline, despiramine, imipramine, gabapentin For fibromyalgia: citalopram, fluoxetine, paroxetine, sertraline, venlafaxine For anxiety: paroxetine, venlafaxine
Detrol◆, Detrol LA◆	oxybutynin, oxybutynin extended release, Enablex◆, Oxytrol◆ *(if no prior therapy with oxybutynin)*
Flector◆	diclofenac tablet, etodolac, ibuprofen, meloxicam, nabumetone, naproxen, salsalate, sulindac
Hyzaar◆	losartan/HCTZ◆, Avalide◆, Diovan HCT◆ *(if no prior therapy with an ACE inhibitor)*
Lexapro◆	bupropion, fluoxetine, paroxetine, paroxetine controlled release, Effexor XR, citalopram, sertraline
Lipitor◆	lovastatin, pravastatin, simvastatin, Vytorin *(prior drug therapy required for lower strengths)*
Lovaza◆ *(formerly Omacor)*	micronized fenofibrate *(generic Lofibra)*, gemfibrozil, Tricor
Lunesta◆	zolpidem

Medications listed with a ◆ require your physician to obtain prior authorization for medical necessity.

Formulary alternatives for commonly prescribed non-formulary drugs, *continued*

Non-formulary drug	Formulary alternative(s)
Lyrica◆	For neuropathic pain: gabapentin, carbamazepine, amitriptyline, clonidine transdermal, desipramine, divalproex sodium. For seizure: gabapentin, carbamazepine, divalproex sodium, valproic acid, phenytoin, topiramate For fibromyalgia: gabapentin, Effexor XR, venlafaxine, fluoxetine, paroxetine, paroxetine controlled release, sertraline For fibromyalgia: gabapentin, citralopram, fluoxetine, paroxetine, sertraline, venlafaxine
Nexium◆	omeprazole, lansoprazole, pantoprazole, Aciphex, Dexilant
Pataday◆	Patanol
Protopic◆	Elidel◆
Rozerem◆	zolpidem
Sanctura◆	oxybutynin, oxybutynin extended release, Enablex◆, Oxytrol◆ *(if no prior therapy with oxybutynin)*
Savella◆	For fibromyalgia: gabapentin, citralopram, fluoxetine, paroxetine, sertraline, venlafaxine. For depression: bupropion, citalopram, Effexor XR, fluoxetine, paroxetine, paroxetine controlled release, sertraline, venlafaxine *(generic Effexor)*
Strattera◆	amphetamine/dextroamphetamine *(generic Adderall XR)*, Concerta, dextroamphetamine, methylphenidate *(generic Ritalin, Ritalin SR)*, dexmethylphenidate *(generic Focalin)*
Taclonex	betamethasone dipropionate *(generic Diprolene)* with Dovonex
Tazorac◆	For acne vulgaris: benzamycin, topical tretinoin◆, Retin-A Micro◆; For psoriasis: topical corticosteroids, Dovonex, Drithocreme HP
Veramyst◆	fluticasone *(generic Flonase)*
Viagra◆	Levitra◆ *(prior authorization required, not covered for all plans)*
Voltaren gel◆	diclofenac tablet, etodolac, ibuprofen, meloxicam, nabumetone, naproxen, salsalate, sulindac
Vyvanse◆	Concerta, dexmethylphenidate *(generic Focalin)*, methylphenidate *(generic Ritalin, Ritalin SR)*, amphetamine/dextroamphetamine *(generic Adderall, Adderall XR)*, dextroamphetamine *(generic Dexedrine)*
Xyzal◆	fexofenadine *(generic Allegra)*, fexofenadine/pseudoephedrine *(generic Allegra-D 12hour)*, fluticasone *(generic Flonase)*, Nasonex, flunisolide *(generic Nasarel)*
Zetia◆	lovastatin, pravastatin, simvastatin, Vytorin *(prior drug therapy required for lower strengths)*

Medications listed with a ◆ require your physician to obtain prior authorization for medical necessity.

Specialty drugs

The following is a list of drugs considered as specialty drugs by Blue Shield of California. Most of these drugs require prior authorization before they are covered. If approved for coverage, the medication must be obtained exclusively from one of our specialty pharmacies; they are not available from a retail pharmacy unless otherwise indicated. If the drug is administered in the physician's office or other healthcare facility, coverage may be provided under the medical benefits.

Drugs in this list that are self-administered at home by injection are covered in the outpatient prescription drug benefit for most plans. Please check your *Evidence of Coverage* or *Certificate of Insurance*/Policy handbook.

Arthritis/psoriasis

Cimzia syringe	Humira	Simponi
Enbrel	Kineret	

Blood modifiers

Aranesp *(Procrit preferred)*	Neulasta	Procrit
Leukine	Neumega	Promacta *(25mg limited to 3 tabs/day; 50mg limited to 1 tab/day)*
Mozobil	Neupogen	

Blood thinner

Arixtra† *(prior authorization required if > 11 syr./2 months)*	Innohep	
Fragmin† *(prior authorization required if > 14 syr./2 months)*	Lovenox† *(prior authorization required if > 14 syr./2 months)*	

Cancer

Afinitor *(limit of 1 cap/day for 5mg or 2 caps/day for 10mg)*	Proleukin	Temodar capsule‡
etoposide capsule‡	Revlimid *(limit of 1 cap/day except 20mg limited to 2 caps/day)*	Thalomid
Gleevec	Sprycel	Tykerb
Iressa	Sutent	Votrient *(limit of 4 tabs/day)*
leuprolide 1mg kit	Tarceva	Xeloda‡
Nexavar *(limit of 4 tabs/day)*	Targretin‡	Zolinza *(limit of 4 caps/day)*
Oforta‡ *(limit of 40 tabs/month)*	Tasigna	

Osteoporosis

Forteo	Miacalcin inj.	

† 11- or 14-day supplies over a 2-month period are available at network retail pharmacies

‡ Medication does not require your physician to obtain prior authorization for medical necessity.

Growth hormone

Genotropin *(Nutropin, Saizen preferred)*	Nutropin	Saizen
Humatrope *(Nutropin, Saizen preferred)*	Nutropin AQ	Serostim
Norditropin *(Nutropin, Saizen preferred)*	Nutropin AQ Nuspin	Tev-tropin *(Nutropin, Saizen preferred)*
Norditropin Nordiflex *(Nutropin, Saizen preferred)*	Omnitrope *(Nutropin, Saizen preferred)*	

Immune system enhancers

Actimmune	Fuzeon	

Hepatitis

Infergen *(Pegasys preferred)*	Pegasys	Peg-Intron Redipen *(Pegasys preferred)*
Intron A	Peg-Intron *(Pegasys preferred)*	

Multiple sclerosis

Acthar H.P.	Betaseron *(limit of 15 inj./month) (Rebif preferred)*	Rebif‡ *(limit of 12 inj./month)*
Ampyra *(limit of 2 tabs/day)*	Copaxone‡ *(limit of 1 kit = 30 inj./month)*	
Avonex *(limit of 4 inj. month) (Rebif preferred)*	Extavia *(limit of 15 inj.month) (Rebif preferred)*	

Cystic fibrosis

Cayston *(limit of 1 box/month)*	Pulmozyme‡	Tobi *(limit of 1 box/month)*

Pulmonary arterial hypertension (PAH)

Adcirca	Revatio tablet *(Adcirca preferred)*	
Letairis *(limit of 1 tab/day)*	Tracleer *(Letairis preferred)*	

† 11- or 14-day supplies over a 2-month period are available at network retail pharmacies

‡ Medication does not require your physician to obtain prior authorization for medical necessity.

Specialty drugs *(continued)*

Miscellaneous

Updates to the 2010-2011 Blue Shield Drug Formulary Member Booklet

Blue Shield is committed to covering safe, effective, and affordable medications, so we regularly review and update our drug formulary. Changes to the formulary since June 2010 are listed below.

For the most current information, you can access the formulary on our Web site at blueshieldca.com by clicking the Pharmacy tab, then selecting the Drug Database & Formulary. You can also call Member Services at the number listed on your Blue Shield member identification card.

Drugs added to the formulary	Restrictions	Change Effective Date
Therapeutic class: Eye: anti-allergy		
Pataday (olopatadine)	Quantity limit restriction applies	9/3/2010
Therapeutic class: Endocrine: diabetes
