"Jasele" - The Beauty of Peregrine Falcons

A sudden, strong breeze helps you lift off as you spread your large wingspans and soar through the crisp, fresh air. Gliding through the sky with gracefulness, you suddenly spot a pigeon with your intense, sharp eyes; a plump pigeon, perfect for satisfying your appetite. With awe-strucking speed at 200 mph, you dash towards your target and it immediately knocks your target unconscious. Satisfied with your achievement, you head home with the pigeon in your sharp talons to enjoy it with your family. What kind of fascinating creature are you, one that contains superior qualifications and beauty? Such great character that dazzles everyone only belongs to the bold and intelligent peregrine falcons.

Clara and Esteban Colbert have successfully nurtured four adorable baby falcons since February 25. A unique name for one of the baby chicks would definitely be **Jasele**. The name **Jasele** originated from Hispanic, which means "fast, or swift to take action." This name precisely describes the characteristic of a peregrine falcon. Peregrine falcons are known as one of the fastest animals in the animal kingdom. They rely on their speed to help them catch predators. Their speed is vital to their survival. This is why the name "**Jasele**" would be a perfect name for one of the baby peregrine falcons!
