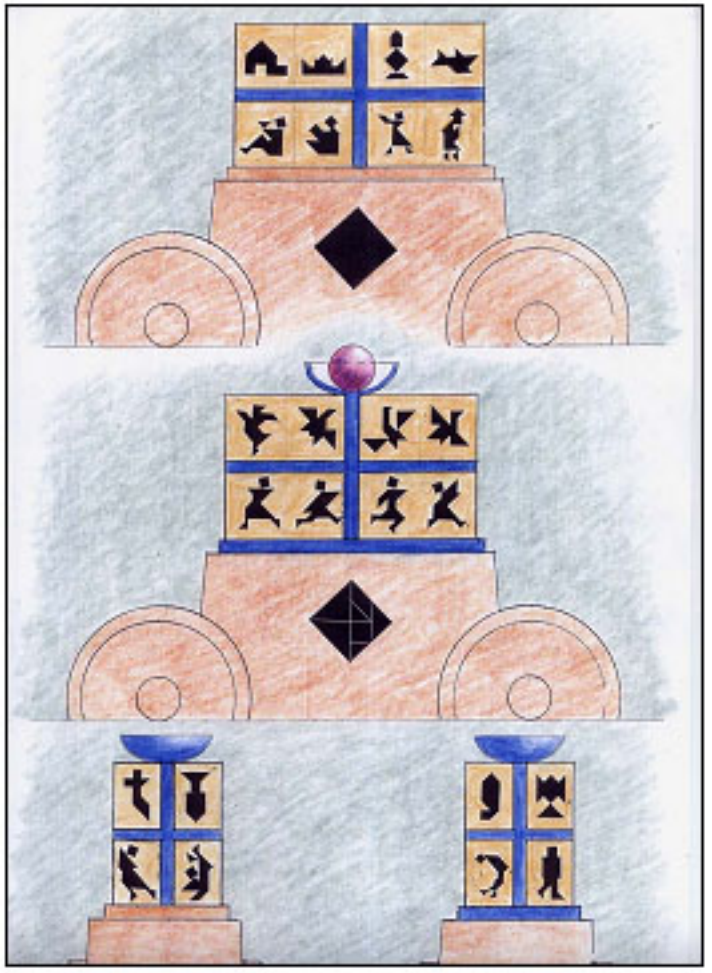
Future (peace and hope)



Future (peace, hope, etc.) This float represents the future and how our actions may or may not shape its outcome. Around the box containing the "Future", are inscribed 24 figures from the Tangram – the ancient Chinese puzzle game called "The Board of Wisdom" or the "Seven Board of Cunning". Each different figure is made from the same exact seven shapes initially formed from a square. So in essence, although we all start from the same moment in time, our independent actions predicated upon our impulses, ambitions, values, opportunities etc. shape and mold our interconnected futures.
