I. PLANNING FEE INFORMATION

Planning fees have been adopted by a Resolution of the City Council to maintain cost-recovery levels, as related to the processing of development permit applications. For Planning Services without a designated fee or where there is significant staff work required beyond the scope of the associated fee, the **Planning Division hourly rate of \$209.22 will be charged based on the time required to complete the work.** Fees cannot be waived or suspended without an action by the City Council.

HOW TO CALCULATE FEES

In order to calculate fees, the type of Planning application required for the project must be determined. In the case of projects for which more than one Planning permit or process is required, fees for each permit or process are cumulative. For example, a project that involves a Conditional Use or Special Use, as well as new construction and removal of trees, fees will be charged for the Use Permit, Development Permit, and Tree Removal Permit. Additional fees will be applied to complex projects that require additional staff time. See sample project descriptions on Page 3.

NO PARTIAL PAYMENT

Full fee payment is required for the application to be deemed “complete.” Some fees, such as the Public Noticing Fee, are not calculated until the application appointment. Applicants paying with pre-prepared checks should also bring a credit card or an additional blank check to ensure the correct fee amount can be paid at the time of application.

Department policy requires full payment of fees at the time of application submittal. For the convenience of customers who arrive with pre-written checks that do not cover the complete cost of the application, staff will accept the application subject to the following conditions:

- Staff review of the application will not commence until all fees are paid in full.
- If full payment of fees is not received within 14 calendar days of application submittal, the application will be considered void and staff will initiate a refund of the fees paid, less a record retention fee. At this point, a new application and full payment of fees will be required to proceed with a project.

Fee estimates may be requested by providing a fully detailed project description to Patrick Kelly, Supervising Planner, at Patrick.Kelly@sanjoseca.gov. Each fee estimate requires approximately 30 minutes of staff time to prepare, and requires a fee of \$109.

FEE REFUNDS

A written request for a refund of fees paid for services not yet rendered may be submitted by the applicant. Please refer to the [Development Services Claim for Refund](http://www.sanjoseca.gov/DocumentCenter/Home/View/1864) form (www.sanjoseca.gov/DocumentCenter/Home/View/1864) for instructions on requesting a refund. A **\$289 Refund Processing Fee** is required, and refunds are subject to the following conditions:

- A claim for refund must be received by the Planning Division within 30 days of withdrawal of the Planning application. General Plan Amendment applications have specific deadlines for withdrawal requests. Fees will be not refunded if requests for withdrawal of proposed General Plan Amendments are received after the indicated dates, as provided by Citywide Planning staff.
- Refunds must be requested within one year from the date of payment, completed and signed by original payee. Refunds will be subject to administrative fees (minimum of one hour at the hourly rate of [])
- Refunds are paid to the party named on the payment receipt.
- The amount of the refund will be determined by the percentage of work already completed, by milestone.
- No refunds will be issued for applications deemed inactive by failure of the applicant to respond for more than six consecutive months to the City’s request for revisions, information, or materials.
- Record Retention fees included in each individual fee not refundable.

EXAMPLE PROJECT DESCRIPTIONS AND FEES

The following project descriptions and fees are provided for example only. Each application is unique, and other fees may potentially apply. Fee estimates can be requested by providing a fully detailed project description to Patrick Kelly, Supervising Planner, at Patrick.Kelly@sanjoseca.gov. Each fee estimate requires approximately 30 minutes of staff time, which is subject to a \$109 fee.
