

## **Information Required by the Mitigation Fee Act**

### **A Report on In-Lieu Fees collected for the Fiscal Year Ending June 30, 2016**

The Mitigation Fee Act requires the City to make available to the public, on an annual basis, the following information concerning In-Lieu fees within 180 days after the last day of the fiscal year:

- Type of fee
- Amount of the fee
- Beginning and ending balances if the account or fund
- The overall interest earned by the program
- An identification of each public improvement for which fees were expended and the amount of the expenditures related to each improvement (including the total percentage of the cost of the public improvement that was funded with in-lieu fees);
- An identification of an approximate date by which the construction of the public improvements will commence for those improvements where sufficient funds have been collected to complete financing of the improvement;
- A description of each interfund transfer or loan, if any, including the public improvement on which the transferred or loaned fees will be expended and the date upon which any loan will be repaid with the amount of interest on the loan; and,
- The amount of any refunds made pursuant to Government Code section 66001(e) and any allocations made pursuant to Government Code section 66001(f).

The Mitigation Fee Act (Government Code Section 6000 et seq.) requires public agencies to account for and make findings regarding fees collected by an agency as a condition of development approval. The law also requires that the agency annually review and make available to the public a report accounting for the development fees held by the agency.

There are several fees that the City requires as a condition of development in-lieu of requiring the construction of certain improvements that are subject to an annual reporting requirement. In-Lieu fees collected for the following improvement programs include Utility Undergrounding Fee Program, Landscaped Median Islands, Traffic Signals, Street Improvements, Flood Control Districts and Area-Wide Traffic Calming Improvements.

Additionally in 1989, the City Council adopted Ordinance Number 23187, amending Title 15 of the San Jose Municipal Code by adding a new chapter 15.26 establishing a program, including In-Lieu Fees, for Undergrounding of Utilities. The purpose of the utility undergrounding fee program is to implement the urban design policies of the general plan for the City of San Jose, by requiring new development to contribute to a fund which shall be used solely for the conversion of the overhead utility facilities to underground facilities.

This report provides information on In-Lieu fees collected for the Fiscal Year ending June 30, 2016. The In-Lieu fees collected in FY 2015-2016 are deposited into 2 different accounts. In-Lieu Undergrounding fees collected are deposited into Fund 416 for the sole purpose of projects that complete conversion of the overhead utility facilities to underground facilities. In-Lieu Undergrounding Fees collected are summarized in Exhibit A provided below. The remaining In-Lieu Fees collected are deposited into Fund 138 and are combined to pay for various public improvements as outlined in Exhibit B provided below. All construction projects listed have or will commence within the next five years.

**SUMMARY**

**IN-LIEU FEES COLLECTED FOR UNDERGROUNDUNG**

FY2015/16 UNDERGROUNDUNG IN-LIEU FEES COLLECTED	\$2,042,900
-------------------------------------------------	-------------

**IN-LIEU FEES COLLECTED FOR MEDIAN ISLANDS, TRAFFIC SIGNALS, STREET IMPROVEMENTS,  
FLOOD CONTROL**

FY15-16 BEGINNING FUND BALANCE	\$8,064,861
TOTAL FUND REVENUE (FY15-16)	\$910,275
TOTAL TRANSFERS (FY15-16)	(\$800,000)
TOTAL FUND EXPENDITURES (FY 15-16)	(\$2,632,690)
TOTAL DEVELOPER REFUNDS (FY15-16)	(\$166,999)
INTERST INCOME (FY15-16)	\$48,811
ADMINISTRATION TRANSFER TO FUND 001	(\$201,028)
FY15-16 ENDING FUND BALANCE	\$5,223,230
