Dear Neighbor,

The City of San José Planning Division, the Department of Public Works, and the Department of Transportation would like to invite you to a community meeting to discuss a proposed development in your area (see map on reverse). Planning and Public Works staff will facilitate the meeting, providing you an opportunity to learn about the proposal and get answers to your questions. We are very interested in your input and encourage your attendance at this meeting.

Project File No. PD16-017: Planned Development Permit to allow the construction of an eight story, 320,000 square foot mixed commercial use building, consisting of 30,000 square feet of ground floor retail and 290,000 square feet of office, and a five story parking structure on a 3.97 gross acre site.

Meeting Purpose: The Planning Division will first present the proposed project to the Community. The Departments of Public Works and Transportation will then present information and receive comments/feedback about the Protected Intersection Mitigation proposed for the proposed project.

Again, your participation in this process will help us analyze this project and consider the community's input. If you have any questions before the meeting or during the process, please contact:
