

Here are some tips to get you started with the map...

Search by Address or Place

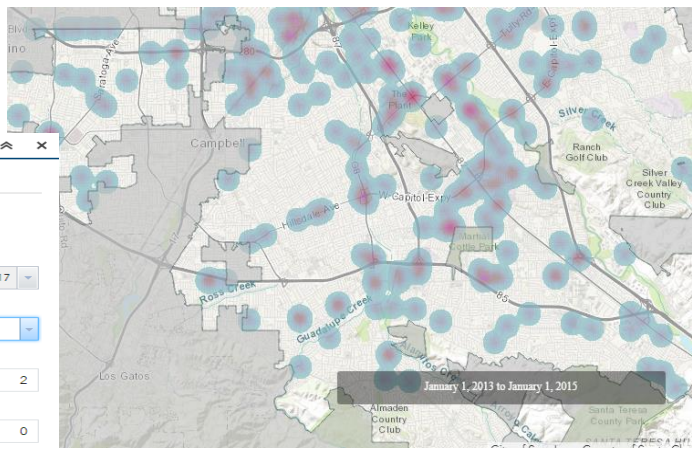

Interact with Points on the Map

Turn Different Crash Layers On/Off

Turn all Map Layers On/Off
Expand or Collapse the Map Legend

Use the Query Tool

Or, use the Time Slider Tool with the "Heat Map" layer to look at yearly trends

(AccidentDateTime is between April 1, 2014 and April 4, 2017) AND (UPPER(Involving) = 'PEDESTRIAN') AND (FatalInjuries >= 2) AND (MajorInjuries >= 0)
