**GLOSSARY OF TERMS**

**Accrual Basis**

Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

**Appropriation**

The legal authorization granted by the City Council to the Administration to make expenditures and incur obligations for purposes specified in the Appropriation Ordinance.

**Balanced Budget**

Budgeted revenue levels are equivalent to budgeted expenditure levels, including use of reserves and fund balance.

**Base Budget**

The ongoing expense level necessary to maintain service levels previously authorized by the City Council.

**Capital Budget**

A financial plan of capital projects and the means of financing them for a given period of time.

**Capital Expenditures**

Expenditures to acquire, rehabilitate, or construct general fixed assets and major improvements.

**Capital Improvement Program (CIP)**

On December 18, 1986, the City Council, in order to delineate the purpose of the Five-Year Capital Improvement Plan, adopted the following definition: The Five-Year Capital Improvement Plan (Program) is a long-range study of financial wants, needs, expected revenues, and policy intentions. It provides the necessary information for prudent budget recommendations. It compares the organization's various needs over a period of five years with the various anticipated revenues and puts them into a single focus for analytical purposes. It is not law, such as an annual budget, but a planning tool that provides a collection of facts, trends, and suggestions to the City Administration and Council. After it is adopted by the City Council, it is a non-binding assertion of future intent only. However, when an appropriation for the annual capital budget is adopted as part of the regular budget, it represents the amount which will be used to implement part of the Program in the coming year.

**Carryover**

Unspent funds, either encumbered, reserved, or unobligated, brought forward from prior fiscal years.

### GLOSSARY OF TERMS

#### **City Service Area (CSA)**

City Service Areas integrate Core Services provided by individual departments into the City's key lines of business, as viewed from the community's perspective. CSAs enable the City to plan and show results of the collaboration among the departments at a higher organizational level. There are six CSAs, five of which deliver direct services (Community and Economic Development, Environmental and Utility Services, Neighborhood Services, Public Safety, and Transportation and Aviation Services). The sixth, Strategic Support, represents functions that provide guidance and support contributing to the delivery of direct services.

#### **CSA Primary Partners**

City departments with Core Services most directly responsible for overall CSA service delivery.

#### **CSA Outcome**

A desirable overall condition or "Picture of Success." At the CSA level, the specified outcomes are the "ends" toward which the plans, efforts, resources, and results of the CSA are directed.

#### **Contingency Reserve**

An appropriation of funds to cover unforeseen events during the budget year, such as emergencies, newly required programs, shortfalls in revenue, or other unforeseen eventualities.

#### **Contractual Services**
