

**Information Required by the Mitigation Fee Act
A Report on Park Impact Ordinance and Parkland Dedication Ordinance Fees
for the Fiscal Year Ending June 30, 2019**

The Mitigation Fee Act requires the City to make available to the public, on an annual basis, the following information concerning Park Impact Ordinance (PIO – San Jose Municipal Code Chapter 14.25) park impact in-lieu fees within 180 days after the last day of the fiscal year:

- Type of fee
- Amount of the fee
- Beginning and ending balances of the account or fund
- Amount of fees collected and interest earned
- Identification of each public improvement on which fees were expended, and amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees
- Approximate date by which construction of the public improvement will commence
- Description of inter-fund transfers or loans, including the public improvement on which the transferred or loaned fees will be expended, date of loan repayment, and rate of interest that the fund will receive.

The City's PIO is administered in conjunction with the City's Parkland Dedication Ordinance (PDO – San Jose Municipal Code Chapter 19.38) and together the two ordinances work in concert to support the City's park levels of service and mitigate the impact of new residents on existing parkland. The ordinances require that residential developers dedicate land, improve parkland, and/or pay a parkland fee in lieu of land dedication to support providing new or improving existing neighborhood and community serving parklands. The PDO and PIO are most easily distinguished by the type of projects to which they apply. The PDO applies to the subdivision of land for ownership housing units, while the PIO applies to non-subdivided residential units, typically rental properties or the construction of new residential units that are not otherwise subject to the Parkland Dedication Ordinance (PDO).

While both the PDO and PIO are often discussed as impact fees, the two programs are actually empowered by two separate state legislations. The PDO is authorized through the Quimby Act while the PIO is secured through the Mitigation Fee Act. While there are many legal nuances between the ordinances, detail on this topic is too extensive for this report. Ultimately, they help ensure that every new resident, as well as existing neighborhoods, has adequate access to quality park and recreation facilities.

In brief, a residential housing project is assessed parkland fees under the PIO or PDO when it chooses not to mitigate its impacts through either the dedication of land or improvements to parkland or in combination of each. The schedule of fees assessed in lieu of land dedication is established through City Council resolution, based on the type of dwelling units, and an evaluation of land values. For large projects, the decision to require dedication, accept improvements, and/or assess fees is determined on a project by project basis according to City policy guidelines and executive decision making. Under both ordinances, projects of 50 units or less can only be required to pay the associated in-lieu fees, with land dedication or improvements offered only on a voluntary basis.
