

## Free Recycling Containers & Assistance through the City of San José Go Green Schools Program

### Welcome

Welcome to the on-line recycling supplies order process for the City of San José Go Green Schools Program (SJGGSP). Thank you for promoting recycling in San José schools!

### Free Recycling Containers and Assistance

SJGGSP provides free paper and bottle/can recycling containers for San José K-12 public and private schools, and free technical assistance to San José schools to create and expand successful, sustainable on-campus recycling programs. We also provide information on environmental resources for schools, including an annual schools environmental conference, a Resource Directory, Mini-grants and ways schools can save money through various conservation measures. Contact us at [sjgreenschools@sanjoseca.gov](mailto:sjgreenschools@sanjoseca.gov) for more information.

### How to Start a Paper or Bottle/can Recycling Program at Your School

### Sustainable Recycling Programs

The City of San José Go Green Schools Program pledges to work with your school to help make your recycling program successful and sustainable. Your recycling program can be tied in to state curriculum standards, community service and service learning programs. Recycling teaches students pride in their own accomplishments and can be the entry point for a world of learning about the environment. Help nurture this next generation of environmental stewards!
