Moderate Income Weatherization Program

- 85% Medium Income
- Greater than 200% of Federal Poverty Guidelines (double low-income)

Moderate Income Measures

1. Insulation
2. CFL
3. Water Heater Blankets
4. Shower Heads
5. Aerators
6. AC Tune-Up
7. Duct Seal
8. Compact Fluorescent Fixtures
9. Touchiere Lamp

The Energy Partners Program provides income-qualified customers free energy education, weatherization measures and energy-efficient appliances to reduce gas and electric usage. Pacific Gas and Electric Company wants to help you feel more comfortable, save energy and lower your monthly bill. That's why we have designed this 5-step program:

1

Preliminary Energy Audit

We'll arrange for an Energy Specialist to visit your home -at no cost to you- and tell you what energy improvements you may be eligible to receive. He or she will gather information on your energy usage and give you some tips to start saving right away.

2

Home Energy Usage Analysis

We'll review your utility bills to show you how you've been spending your energy dollars. You'll see exactly where the energy-saving tips you've learned can make a big difference and how you can save even more.

3

Infiltration Measures

If you are to receive infiltration-reducing measures such as weather-stripping, caulking, or glass replacement, a safety check will be made of your gas appliances.

4

Free Energy Improvement Upgrades

If you qualify, a participating program contractor will come to your home to install free energy-saving upgrades that will keep you warmer in winter and cooler in summer. All of this at no cost to you.

5

Follow-Up

Many of you will be contacted to determine your satisfaction with this energy-saving program. If you have had attic insulation installed, you're guaranteed a visit from a certified inspector. But, if not, you can still request a follow-up inspection.

ENERGY PARTNERS

1-800-989-9744 or
www.pge.com/energypartners

The Energy Partners Program provides income-qualified customers free energy education, weatherization measures and energy-efficient appliances to reduce gas and electric usage.

Weatherization measures may include caulking, weather-stripping, installation of showerheads, compact fluorescent lamps, and attic insulation. Free energy-efficient appliances may include refrigerators and air conditioners.

You may qualify for the Energy Partners Program if you rent or own your home.

Energy Partners Income Guidelines	
Adults + Children Living in Household	Total Combined Annual Income*
1 - 2	\$30,500
3	\$35,800
4	\$43,200
5	\$50,600
6	\$58,000
Each Additional Person	+ \$7,400
Valid through May 31, 2009	

* Before taxes

Program services are provided until funds are depleted or the program is fully subscribed.
