Subject: Envision 2040-public comment

Hi Andrew,

My name is Korey Richardson, a homeowner in the Five Wounds/Brookwood Terrace SNI. I attended the Envision 2040 event on the Roosevelt Community Center on Saturday. Here are my comments:

- I support the Rail-to-Trails plan (convert the rail-line to trails). Also, we need townhomes to face the trail especially during the long stretch of trail between intersections.
- I support zoning the Coyote Meadows area (former Story Road Landfill) as future parkland (two other residents mentioned this on Saturday). The area is too close to the creek to build. It should make a great mountain biking area some day.
- I support the BART village. However, the area should have a balance retail, office space and housing in the area. The current plan emphasizes a job center. I'm not sure how realistic that is to having an employment center in our neighborhood so I doubt it would ever get built.

Thanks.

Korey Richardson
