

EDUCATION & ENRICHMENT

CHESS BASICS

Feed your mind with a fun and challenging game. Introduction to chess mats, pieces and how they move, and set up and clean up. Learn rules and basic strategies to develop your game. This is a skill that few people have, and is sure to test and challenge your mind as you learn the game.

EARTH, WIND, INSPIRE

Neither rain, nor sleet, nor snow will prevent us from having a great time in this session of Mad Science. We'll learn all about weather as we explore meteorology and clouds. Take a voyage to the center of the earth as we investigate how our planet formed and the forces that keep changing things. Discover how science is used to solve crimes, and take home your own I.D. kit. Learn all about pulleys, levers and catapults in Mad Science Machines and make your own Rocket Racer. Discover first-hand how movie special effects are created. Turn your kitchen into a virtual lab as you learn about the chemical reactions that take place there. Explore the science behind your favorite toys, as well as some that you may not have played with, but your parents probably did. You won't want to miss a minute of this exciting series!

(Mad science)

INTRO TO COMPUTERS

This computer class will get you through the basics on a PC computer. We will show you how to turn on your computer, use your mouse and navigate the internet. Once you are comfortable with your computer, we will show you how to create basic documents using Microsoft Word and Excel to name a few.

MATH MENTORING

Math Tutoring will give your child the confidence needed to succeed and a helping hand to develop skills. Students must bring in their math homework, math book, their own pencil and paper to each class. Six students in each class.

PLAY-WELL ENGINEERING FUNDAMENTALS WITH LEGO

Have your child become a Play-Well engineer! With over 50,000 pieces of LEGO®, take on real-life engineering challenges that explore concepts in physics, mechanical/ structural engineering, and architecture. From motorized machines to castles & catapults, this is a hands-on and minds-on camp suitable for LEGO® building system novices to "maniacs." Designed by engineers, the curriculum challenges both new and returning students to reach the next level of engineering comprehension all while having fun. Your child will have the chance to build what they have only dreamed of with the guidance of an experienced Play-Well engineering instructor. (Play –Well)

PUBLIC SPEAKING

Effective public speaking skills are beneficial and needed in today's highly competitive culture. Public speaking is a crucial skill that can be used in school, the workforce and in everyday life. This course will cover strategies for organizing and delivering speeches and will build confidence. Set yourself apart from the rest by becoming an effective communicator!

EDUCATION & ENRICHMENT

READING REMEDIES

Reading Remedies course is designed to improve your child's vocabulary, spelling and reading comprehension. Parents will need to provide reading materials requested by the instructor. Please bring pencil and lined paper to each class. Six students per class.

SIGN LANGUAGE- BEGINNING

Communicate using signed English. Learn useful conversations and greetings in simple sentences. New vocabulary weekly includes finger spelling and use of numbers. Take part in simple conversations requiring asking and answering questions. Continue to improve and add to your vocabulary.

SPANISH FOR ADULTS

Do you wish you could converse in Spanish at work, home, with friends or during your travels? ; This class will help you understand and speak Spanish in almost any situation. ; Vocabulary, grammar, and useful phrases will be taught by a native Spanish speaker. No previous knowledge of Spanish is required.

SPANISH FOR SCHOOL-AGE CHILDREN LEVEL 1

It's never too early to educate your kids about another culture by learning the language. Your child will learn the basics of this amazing language through fun, hands-on activities, worksheets, songs, stories, projects and games. They will celebrate all that they have learned at the end of the session with a Fiesta!

SPANISH FOR SCHOOL-AGE CHILDREN LEVEL 2

Se habla español We do! Students with knowledge of the alphabets and numbers or have taken a beginner Spanish class are perfect for this intermediate class. Join today to learn more! They will celebrate all that they have learned at the end of the session with a fiesta. Spanish 2 will be a continuation of what was learned in Level 1.*Student must have completed Level 1.

STOP MOTION ANIMATION

Participants work in small groups to learn how to story-board, create characters to animate, learn the stop-motion animation software and then get to work creating a short animated film. Characters can be legos or other toys or their own design. (Fresh)

VIDEO GAME DESIGN

Participants in this class will learn how to design the concept and elements of basic, 2-dimensional computer/video games. ; The instructor will help guide the software development, with design guidance from the students. ; Students work in small groups to collaborate on at least one finished game. (Fresh)

VIDEO GAME DESIGN & DEVELOPMENT

Participants in this class will learn basic programming to build their own 2-D video game. Students both design and develop through the computer software their own game, including all elements. Each student will collaborate with one other student to create a finished game. (Fresh)

EDUCATION & ENRICHMENT

YOUNG PLAYWRIGHTS- NEW

Write the stage! In this Young Playwrights class, students will learn the basics of writing a play. From monologues, to skits, to a one-act play, students will get the chance to write plays of their own. Students will be taught the importance of emotions and conflict in plays - as well as learning how to create great dialogue - while participating in interactive lessons and games. At the end of the session each student's best work will be published in an anthology available for purchase. All instructors are published authors with experience teaching. (Lekha)

YOUNG STORYTELLERS - THE BASICS

Nourish your child's imagination in this beginning basics class for young storytellers. ; Students will learn methods to overcome writer's block and start writing their own original stories and poems. At the end of the session each student's best work will be published in an anthology available for purchase. All instructors are published authors with experience teaching. (Lekha)

YOUNG STORYTELLERS - THE BASICS II

Cultivate the creativity in your child with this continuing class for young storytellers. Students will learn the importance of "showing" instead of "telling" and how to get inside their character's head. Students who have taken the previous course will learn the finer points of storytelling and more techniques to make their writing sing. At the end of the session each student's best work will be published in an anthology available for purchase. All instructors are published authors with experience teaching. (Lekha)
