SUMMER CAMPS

NASA: JOURNEY INTO OUTER SPACE

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in this new voyage of discovery. See the principles of thrust and propulsion at work in a real rocket launch. Explore the atmosphere on earth and beyond. Watch star dust burn, and journey through a galaxy as you investigate the life cycle of stars. Explore the farthest reaches of our solar system and create a lunar eclipse in the “mad” planetary tour. Probe the mysteries of meteors and bounce around satellite light as you learn about space phenomena. Experience the life of an astronaut as you suit up for a space flight. This is an experience that is truly out of this world.

NATURE & SCIENCE CAMP @ BERRYESSA

Science and Nature are cool! This exciting five day camp is divided into three categories: Outdoor adventures, scientific experiments, and nature exploration. Science camp will utilize fun, exciting, and challenging activities to feed your child’s interest in science and the natural world around us. Children should bring their own water bottles and comfortable shoes. Participant to staff ratio is 10:1.

NATURE CAMP

Nature Camp is an outdoor adventure and environmental wildlife education experience. Come with us as we explore the world of Nature! Campers will learn about trees, and plants that we have here in the park and the adjacent creek. Each day campers will take walks to explore and draw their surroundings. Participants should bring their own water bottles, sunscreen and shoes appropriate for walking outdoors.

NATURE’S ANATOMY ACADEMY

Learn where the wild things are in this action-packed week of Mad Science nature and biology. Kids will learn how animals big and small adapt to life here on earth. Learn how birds and beasts catch their prey without becoming someone else’s lunch, and then take the survival challenge in the pulse-pounding “Food Chain Survival” game. Discover what Mr. Owl had on his dinner plate during our owl pellet dissection. Have fun finding and magnifying Nature’s small critters, from insects to pond slime. Use a microslide viewer to see some of the tiny cellular machines that keep your body working, play the “Cell Game” to learn about the “stuff” inside cells, and whip up your own Mad Mucus. Build a real birdhouse to take home and have some creepy-crawly fun building a bughouse and searching for tenants!

REALITY GAMER CHALLENGE

Have you ever wondered what it would be like to play a video game in real life? If you have, and you're a video game fanatic, this camp is made for you. Throughout the week we will be playing video games and taking daily field trips to see if you are as good in real life as you are in the video game world! Each day Reality Gamers will meet and depart from the Community Center. Registration includes supervision (13:2), admission fees, and transportation (via City of San Jose vehicles, VTA Transit, or a chartered bus). Participants must bring a sack lunch.

ROBOTICS CAMP- BEGINNER

Robotics Camp introduces young people to the fun and excitement of science and technology while building knowledge and self-confidence. Participants will learn how to build and program different types of robots using LEGO NXT robotics kits. Our expert instructors will help them develop brainstorming and problem solving skills, and will give them a taste of what the FIRST LEGO League is all about. This is an introduction to LEGO robotics, so no prior experience with LEGOs or computers is required.

ROBOTICS CAMP- INTERMEDIATE

If you previously attended the Beginners Lego Robotics Camp, this intermediate level camp is for you! After a brief review of the LEGO Mindstorms NXT building, brainstorming, and programming skills you've already learned, you will discover how to creatively use programming, sensors and robot attachments to make your robot solve complex missions. You will design and program your own vehicle-style robot to master FIRST LEGO League (FLL) challenges from the most recent competition season. See firstlegoleague.org for more information about the FIRST LEGO League. Students must have previously attended the Beginner Robotics Camp, or get the instructor's permission
