Proposed Grading Information

Does this project have Environmental Clearance? Yes / No (Circle one)

Please list the Planning Permit(s), if any, that authorize this work: _____

Is this site in a Geologic Hazard Zone or State Seismic Landslide Zone? Yes / No (Circle one)
 If 'Yes', a separate Geologic Hazard Clearance will be required unless this project already has a current one on file.

Is this site in a State Seismic Liquefaction Zone? Yes / No (Circle one)
 If 'Yes', a Soils Report addressing Liquefaction will be required and an additional review fee will be due.

Quantity of Cut: _____ Cubic Yards Quantity of Fill: _____ Cubic Yards
 If material needs to be imported or exported, the borrow/fill site will need to be approved prior to issuance of the permit.

Does this project require Shoring? Yes / No (Circle one)
 If 'Yes', a separate shoring plan will be required. See handout titled 'Shoring Review' for detailed requirements.

Area of land disturbed: _____ Acres
 Actual area of the site being disturbed by Grading / Construction Activities.

New Impervious Surface: _____ SF
 Area of raw land being converted to impervious surfaces such as building footprints, streets, driveways, etc.

By signing below, I agree that the information provided is true and correct, and that my grading project will adhere to all matters of Chapter 17.04.280 of the San Jose Municipal Code.
