3. What Ideas Do you Have?

- What kind of information should we gather on options?
- We believe it is important to identify what other employers are doing to see if there are any strategies we should consider. What employers should we look at? What kind of information should we get from employers?
- What ideas do you have that you think the City and its stakeholders should consider?
- How do you want to be involved as the City and its stakeholders consider options?

4. What next steps will we be taking and how can stakeholders stay informed about the progress we are making?
