**Subject: Phase I Environmental Site Assessment
600 South 1st Street
San Jose, California
Langan Project: 770641901**

Dear Ms. Jodoin:

Langan Engineering and Environmental Services, Inc. (Langan) is pleased to submit this Phase I Environmental Site Assessment (ESA), for the 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street properties located in San Jose, California.

In performing this Phase I ESA, we have endeavored to observe the degree of care and skill generally exercised by other consultants undertaking similar studies at the same time, under similar circumstances and conditions, and in the same geographical area.

We appreciate the opportunity to assist you with this project. If you have any questions or need any information clarified, please call Mr. Peter J. Cusack at (415) 955-5200.

Sincerely yours,
Langan Engineering and Environmental Services, Inc.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
600 South 1st Street
San Jose, California

E1.0 EXECUTIVE SUMMARY

Langan Engineering and Environmental Services, Inc. (Langan) has performed a Phase I Environmental Site Assessment (ESA) for the 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street properties herein referenced to as 600 South 1st Street and the "Site", located in San Jose, California (Figure 1). This Phase I ESA was performed on behalf of KT Urban (Client) to assist them with their due diligence for the Site.

This Phase I ESA was conducted in substantial conformance with the American Society for Testing and Materials (ASTM) Practice E1527-13 (Standard Practice for ESA: Phase I ESA Process), and the United States Environmental Protection Agency's (USEPA) 2006 All Appropriate Inquiry (AAI) Rule (40 CFR Part 312) now in effect. Completion of a Phase I ESA in accordance with the ASTM Practice and AAI Rule is needed to qualify for the bona fide prospective purchaser liability protections available under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The objective of this Phase I ESA was to identify the presence or likely presence, use, or release on the Site of hazardous substances or petroleum products as defined in ASTM E1527-13 as a recognized environmental condition (REC).

E1.1 Site Description

The Site is located in a mixed-use residential, commercial, and light industrial area of Downtown San Jose. The Site is directly bound by East Reed Street to the north, an un-named alley to the east, a two-story building (630 South 1st Street) to the south, and South 1st Street to the west.

The rectangular-shaped Site is approximately 0.42 acres in size and comprised of two parcels, Assessor's Parcel Numbers (APN): 472-26-089 and 472-26-090, and currently comprised of three separate street addresses: 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street. As shown in Figure 2, 600 South 1st Street is currently occupied by an at-grade asphalt-paved parking lot; 618 South 1st Street is currently occupied by a single-story brick building and at-grade asphalt-paved parking lot; and 8 East Reed Street is currently occupied by a two-story wood-framed building, which is comprised of four residential apartments/units.

E1.2 Environmental Database and File Review

As part of this Phase I ESA, we have reviewed the environmental database report prepared by Environmental Data Resources, Inc. (EDR) of Milford, Connecticut. The EDR report contains information from the environmental databases maintained by the United States Environmental Protection Agency (USEPA), state, and local agencies within the approximate minimum search distance. Additional inquiries were made and records searched within the Santa Clara Valley Water District (SCVWD), Santa Clara County Environmental Services Division (SCCESD), and City of San Jose Fire Department (SJFD); and online regulatory databases operated by the Santa Clara County Department of Environmental Health Local Oversight Program (SCCLOP), San Francisco Bay Area Regional Water Quality Control Board (RWQCB) (GeoTracker) and the Department of Toxic Substances Control (DTSC) (EnviroStor), regarding any additional files related to any past or current fuel and hazardous materials leaks reported at the Site.

The database review indicated that only one of the Site's 11 historically known street addresses was identified for environmental and/or regulatory information, in the databases searched. The 618 South 1st Street Site property was identified in both the CA HAZNET¹ and EDR Hist Auto databases. The CA HAZNET and EDR Hist Auto designations are related to the Site property's historical use as an automotive repair shop in 1985. No additional records were identified that would indicate a past documented spill(s) and/or release(s) at the Site.

E1.3 Known or Suspect RECs

REC 1: Active Fuel Leak Site at 598 South 1st Street

At the time of this Phase I ESA report, this property remains open for assessment and is identified as RWQCB and SCCLOP case numbers 14-225 and 07S1E17G02f, respectively. This property was operated as a Texaco service station from 1973 until about 1982. Gasoline was stored in three 10,000-gallon fiberglass USTs. A permit for the removal of the USTs was issued by the SJFD dated 10 December 1981. However, no formal documentation regarding the UST removal has been located by SAIC Energy, Environment & Infrastructure, LLC (SAIC, 2012).

Multiple subsurface investigations have been conducted at the Site which included soil, soil vapor and groundwater sampling. Groundwater monitoring wells and both groundwater and vapor extraction wells were previously installed both on- and off-Site. Remediation activities have included vapor extraction and treatment, and dual-phase groundwater injection and

¹ **HAZNET:** The HAZNET (Hazardous Waste Facility and Manifest Data) list is created from the copies of hazardous waste manifests received each year by the DTSC.

extraction, which have shown to significantly reduce the property's contamination plume. The most recent monitoring event, Second Quarter 2017, detected maximum concentrations of TPHg, TPHd, and benzene of 38,000 µg/L, 2,900 µg/L, and 3,000 µg/L, respectively.

Based on the former Texaco gasoline service station's upgradient to crossgradient and adjacent proximity to the Site; open regulatory case status; and documented residual groundwater contamination, this property is likely to affect environmental conditions at the Site. This property represents a REC to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

Controlled REC 1: Deed Restriction at 561-599 South Market Street and 60 Reed Street

This property, approximately two acres in size, is currently occupied by The Pierce Apartments. This property is associated with SCCLOP case number 07S1E17G06s.

A Deed Restriction, dated 17 July 2015, was placed on the property for the lead and PAH-contaminated soil detected above screening levels for residential land use that remain in-place at two and eight feet below the bottom of the new building slab. The Deed Restriction's site management requirements included no further excavation of contaminated materials without agency review and approval, no groundwater extraction at any depth without approval, notify damages to remedy and monitoring systems upon discovery, notify prior to change in land use, notify prior to development, notify prior to subsurface work, prepare a health and safety plan prior to subsurface work, and required all exposed surfaces be covered. As stated in the Deed Restriction, all Owners and Occupants of the Property "shall comply with the SMP" and "shall not damage, disturb, interfere with, or otherwise make contact with soil deeper than two feet below final grade in the designated area of the Property".

Based on the removal and abandoned-in-place former USTs, the documented soil over-excavation activities, and supplemental analytical results, the property was granted administrative case closure in a SCCESD Voluntary Cleanup Program Case Closure letter dated 24 July 2015. However, the closure letter stated that remaining residual contamination in soil, soil vapor, and groundwater could pose an unacceptable risk under certain site development activities.

Although this property was granted administrative case closure, the property's upgradient to crossgradient and adjacent proximity to the Site, and residual soil and groundwater contamination have the potential to affect environmental conditions at the Site. Due to the residual contamination that remains at the property, as documented in the case closure letter,

and land-use/deed restrictions, this property represent a controlled REC (CREC) to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

Historic REC 1: Undocumented UST Removal at 618 South 1st Street

During our Site reconnaissance and interview with the Site Owner, there was mention of a former underground storage tank (UST), formerly located within the 618 South 1st Street Site property. No record of this reported former UST was identified in any of the databases searched by EDR, or online databases searched by Langan. However, during our file review conducted at the SJFD, a one-page letter dated 16 August 1994 stated that UST closure at the 618 South 1st Street Site property occurred on 17 June 1994, and had been completed per SJFD's requirements. No further documents or files were located to corroborate the presence of a former UST on-Site. Based on the closure letter, this represents a historic REC (HREC) for the Site.

E1.4 Conclusions

Because soil and groundwater adjacent and upgradient of the Site had previously been identified containing elevated concentrations of petroleum hydrocarbon contaminants, soil and groundwater contamination is likely present beneath the Site. This Phase I ESA has not revealed any previous subsurface work performed at the Site to assess soil and groundwater conditions. Langan recommends a Site subsurface investigation (Phase II ESA or Environmental Site Characterization (ESC)), including soil and groundwater sampling, to assess current Site subsurface conditions and to determine if off-Site contamination is migrating on-Site.

If soil and/or groundwater contamination is detected at the Site, special handling and disposal will likely be required for any excavation activities associated with the proposed Site development. If soil and/or groundwater contamination is detected at the Site, Langan recommends the preparation of a Soil and Groundwater Management Plan (SGMP) prior to the start of any development activities. A SGMP will provide recommended measures to mitigate the long-term environmental or health and safety risks caused by the presence of contaminants at the Site. The SGMP will also contain contingency plans to be implemented during soil excavation if unanticipated hazardous materials are encountered; including USTs. Langan recommends the implementation of a SGMP which will mitigate potential risks associated with the handling of impacted soil and groundwater which may be encountered during construction activities.

1.0 INTRODUCTION

Langan Engineering and Environmental Services, Inc. (Langan) has completed this Phase I Environmental Site Assessment (ESA) for the 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street properties herein referenced to as 600 South 1st Street and the "Site", located in San Jose, California (Figure 1). This Phase I ESA was performed on behalf of KT Urban (Client) to assist them with their due diligence for the Site.

As shown in Figure 2, the rectangular-shaped Site is approximately 0.42 acres in size and currently comprised of an at-grade asphalt-paved parking lot (600 South 1st Street); a single-story brick building and at-grade asphalt-paved parking lot (618 South 1st Street); and a two-story wood-framed building (8 East Reed Street), which is currently comprised of four residential apartments/units.

This Phase I ESA was conducted in substantial conformance with the American Society for Testing and Materials (ASTM) Practice E1527-13 (Standard Practice for ESA: Phase I ESA Process), and the United States Environmental Protection Agency's (USEPA) 2006 All Appropriate Inquiry (AAI) Rule (40 CFR Part 312) now in effect. Completion of a Phase I ESA in accordance with the ASTM Practice and AAI Rule is needed to qualify for the bona fide prospective purchaser liability protections available under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The objective of this Phase I ESA was to identify the presence or likely presence, use, or release on the Site of hazardous substances or petroleum products as defined in ASTM E1527-13 as a recognized environmental condition (REC).

1.1 Purpose

The purpose of this Phase I ESA is to accomplish the following:

- (1) Identify Recognized Environmental Conditions (RECs) in connection with the Site, as defined in The Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, Designation E1527-13, which states: The presence or likely presence of any hazardous substances or petroleum products in, on, or at a Site: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. The term is not intended to include de minimis conditions that generally do not present a material

risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

- (2) Satisfy the criteria of United States Environmental Protection Agency (USEPA) 40 Code of Federal Regulations (CFR) Part 312 Subpart C Standards and Practices §312.20 AAI Rule.

1.2 Scope of Phase I ESA

This Phase I ESA was conducted utilizing a standard of good commercial and customary practice that is consistent with American Society for Testing and Materials (ASTM) E1527-13. Any significant scope-of-work additions, deletions, or deviations to ASTM E1527-13 are noted in Section 9.0 and 10.0 of this report. In general, the scope of this assessment consisted of obtaining information from the User; reviewing reasonably ascertainable information and environmental data relating to the Site; reviewing maps and records maintained by federal, state, and local regulatory agencies; interviewing persons knowledgeable about the Site; and conducting a Site reconnaissance. The specific scope of this assessment included the following:

1. A Site reconnaissance to observe conditions and assess the Site's location with respect to adjoining and surrounding property uses and natural surface features. The reconnaissance included the surrounding roads and observations of surrounding properties from public rights-of-way to identify obvious potential environmental conditions on neighboring properties. The Site reconnaissance was conducted in a systematic manner focusing on the spatial extent of the Site and then progressing to adjacent and surrounding properties. Photographs taken as part of the Site reconnaissance are provided in Appendix A.
2. As per ASTM E1527-13, a questionnaire was provided to the user and/or owner to obtain information related to the Site. Copies of the completed questionnaires are provided in Appendix B.
3. A review of environmental databases maintained by the United States Environmental Protection Agency (USEPA), state, and local agencies within the approximate minimum search distance. Environmental Data Resources, Inc.

(EDR) prepared the environmental database report, which is included in Appendix C.

4. Physical characteristics of the Site were determined through referenced sources for topographic, geologic, soils, and hydrologic data.
5. A review and interpretation of Sanborn Fire Insurance Maps (Sanborn Maps), aerial photographs, historical topographic maps, and city directories to identify previous activities on and in the vicinity of the Site. Copies are included in Appendices D, E, F, and G, respectively.

1.3 Assumptions, Limitations and Exceptions

This Phase I ESA was prepared for the Site, located in San Jose, California, on behalf of the Client. The report is intended to be used in its entirety. Excerpts taken from this report are not necessarily representative of the assessment findings. Langan cannot assume responsibility for use of this report for any property other than the Site addressed herein, or by any other third party without a written authorization from Langan.

Langan's scope of services, which is described in Section 1.2, was limited to that agreed to with the User and no other services beyond those explicitly stated are implied. The services performed and agreed upon for this effort comports to those prescribed in the ASTM Standard E1527-13. Sampling (e.g. soil borings and groundwater sampling) was not performed as part of this Phase I ESA.

This Phase I ESA was not intended to be a definitive investigation of possible environmental impacts at the Site. The purpose of this investigation was limited to determining if there is reason to suspect the possibility of RECs at the Site. It should be understood that even the most comprehensive Phase I ESA may fail to detect environmental liabilities at a particular property. Therefore, Langan cannot "insure" or "certify" that the Site is free of environmental impacts. No expressed or implied representation or warranty is included or intended in this report, except that our services were performed, within the limits prescribed by our Client, with the customary standard of care exercised by professionals performing similar services under similar circumstances within the same jurisdiction.

The services performed and agreed upon for this effort comports to those prescribed in the ASTM Standard E1527-13. Intrusive sampling (e.g., soil borings and groundwater sampling) was not performed as part of this Phase I ESA. The findings and opinions provided in this

report are based solely on the specific activities as required for the performance of ASTM E1527-13 and are intended exclusively for the purpose stated herein, at the specified Site, as it existed at the time of our Site reconnaissance.

1.4 Special Terms and Conditions and User Reliance

The Client requested no special terms or conditions regarding this study. Langan has prepared this report specifically for the use of the Client. Other parties cannot rely on this Phase I ESA, and the conclusions thereof, unless Langan receives a written request from the Client, at which time a "Reliance Letter" will be prepared for the interested party. The relying party will be subject to the same limitations as agreed to by the Client.

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

The Site is located in a mixed-use residential, commercial, and light industrial area of Downtown San Jose. The rectangular-shaped Site is approximately 0.42 acres in size and comprised of two parcels, Assessor's Parcel Numbers (APN): 472-26-089 and 472-26-090, and currently comprised of three separate street addresses: 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street.

2.2 Site and Vicinity General Characteristics

The Site is directly bound by East Reed Street to the north, an un-named alley to the east, a two-story building (630 South 1st Street) to the south, and South 1st Street to the west. According to the United States Geological Survey (USGS) Topographic Maps, reviewed by Langan in EDR's Historical Topographic Map Report, the Site is at an elevation of approximately 101 feet above mean sea level (msl). The Site topography is generally flat. Photographs showing the current Site use are provided in Appendix A.

2.3 Current Use of the Site and Adjoining Properties

The Site is currently occupied by an one-story brick building, a two-story wood-framed building, and paved parking lots. The following table summarizes the current ownership and uses of the APNs comprised within the Site.

Assessor Parcel Number (APN)	Associated Street Addresses	Current Site Owner	Parcel Size (Acres)	Current Parcel Use
472-26-090 (Parcel 1)	600 South 1st Street and 8 East Reed Street	James Alan Salata and Suzanne Marie Salata, Trustees of the Salata 2005 Living Trust (27 May 2005)	0.22	At-grade asphalt-paved parking lot and Two-story wood-framed residential building
472-26-089 (Parcel 2)	618 South 1st Street		0.2	Single-story brick building and at-grade asphalt-paved parking lot

The current uses/occupants of the Site-adjoining properties include the following:

- North of the Site: East Reed Street, Enterprise Rent-A-Car, and City Center Motel;
- East of the Site: Un-named alley, vacant/undeveloped lot, and single-family dwellings;
- South of the Site: Two-story commercial building (630 South 1st Street) and Interstate 280 (Joseph P. Sinclair Freeway); and
- West of the Site: South 1st Street, West Reed Street, two-story commercial building, and The Pierce Apartments.

2.4 Descriptions of Structures, Roads, and Other Site Improvements

As shown in Figure 2, the Site is currently occupied by two at-grade asphalt-paved parking lots, a single-story brick building, and a two-story wood-framed building, which is comprised of four residential apartments/units. The Site is directly bound by East Reed Street to the north, an un-named alley to the east, a two-story commercial building (630 South 1st Street) to the south, and South 1st Street to the west. A detailed description of current uses of the Site observed during the Site reconnaissance is discussed in Section 5.0. Photographs showing the current Site use are provided in Appendix A.

3.0 USER PROVIDED INFORMATION

3.1 User/Client and Owner Questionnaires

Per ASTM E1527-13, User and Owner questionnaires were provided to the User/Client to inquire about specialized information related to the Site.

Ms. Jennifer Jodoin, a representative of the Client, completed the User/Client questionnaire. Mr. James A. Salata, the Site's current Owner, completed the Owner questionnaire. Both Ms. Jodoin and Mr. Salata have no-first-hand knowledge of the Site and are not aware of any environmental cleanup liens and/or land use limitations associated with the Site. Copies of the completed User/Client and Owner questionnaires are included in Appendix B.

3.2 Title Records

The property's title is held by First American Title Insurance Company of San Jose, California. A copy of the Site's preliminary title report was provided to Langan by the Client, and is included in Appendix B.

3.3 Environmental Liens or Activity and Use Limitations

The User/Client and Owner are not aware of any environmental cleanup or liens in connection to the Site.

3.4 Specialized Knowledge

The User/Client and Owner do not have any specialized knowledge of the Site.

3.5 Commonly Known and Reasonable Ascertainable Information

The User/Client and Owner are not aware of any commonly known and reasonable ascertainable information regarding the Site.

3.6 Valuation Reduction for Environmental Issues

The User/Client and Owner are not aware of any valuation reduction for environmental issues in connection with the Site and that the value of the Site reflects market value.

3.7 Owner, Site Manager, and Occupant Information

Title records indicate that the Site is currently owned by James Alan Salata and Suzanne Marie Salata, Trustees of the Salata 2005 Living Trust dated 27 May 2005.

Currently, the Site's single-story brick building (618 South 1st Street) is occupied by Garden City Construction's offices. The south and adjacent parking lot is gated and serves as a private parking lot associated with Garden City Construction's offices. The Site's second at-grade asphalt-paved parking lot (600 South 1st Street) serves as overflow parking. The Site's two-story wood-framed residential building is comprised of four residential apartments/units, three of which are occupied and one of which is vacant.

3.8 Reason for Performing Phase I ESA

It is our understanding that the Client has requested this study as part of their environmental due diligence regarding the Site and its planned development.

4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources

Langan reviewed an environmental database search report, prepared by EDR, for the Site and surrounding area. The EDR report is a listing of properties identified on select federal and state standard source environmental databases within the approximate search radius specified by ASTM Standard Practice for E1527-13. This information is reported to Langan by EDR, and to EDR by government sources; therefore, neither Langan nor EDR can verify the completeness and accuracy of the database information. Langan reviewed each environmental database on a record-by-record basis to determine if certain sites identified in the report are suspected to represent a potential impact to the Site. A copy of regulatory database information was provided by EDR and is included in Appendix C.

The following summary table lists the number of properties by database within the prescribed search radius appearing in the EDR Radius Map Report:

Database (Date of government version)	Minimum Search Area	Site Listed	Properties Within Search Area
Federal Environmental Records			
National Priority List (NPL) (04/05/2017)	1 mile radius	No	1
Superfund Enterprise Management System Archive (SEMS-ARCHIVE) (02/07/2017)	1/2 mile radius	No	1
Resource Conservation and Recovery Act –Small Quantity Generators (RCRA –SQG) (12/12/2016)	1/4 mile radius	No	6
State and Tribal Environmental Records			
CA ENVIROSTOR Database (01/30/2017)	1 mile radius	No	7
CA Leaking Underground Storage Tank (LUST)	1/2 mile radius	No	46
CA Spills, Leaks, Investigations and Cleanups (SLIC)	1/2 mile radius	No	6
CA HIST LUST (3/29/2005)	1/2 mile radius	No	33
CA Underground Storage Tank (UST)	1/4 mile radius	No	2
CA Voluntary Cleanup Program (VCP) (1/30/2017)	1/2 mile radius	No	1
Hazardous Waste Facility and Manifest Data (CA HAZNET) (12/31/2015)	1/2 mile radius	Yes	7
Additional Environmental Records			
US Brownfields (03/02/2017)	1/2 mile radius	No	2
CA HIST Cal-Sites (8/8/2005)	1 mile radius	No	1
CA SWEEPS UST (6/1/1994)	¼ mile radius	No	6
CA Hist UST (10/15/1990)	¼ mile radius	No	8
CA Deed Restriction Listing (DEED) (03/06/2017)	1/2 mile radius	No	1
Record of Decision (ROD) (11/25/2013)	1 mile radius	No	1
CONSENT (9/30/2016)	1 mile radius	No	1
CA Certified Unified Program Agency (CUPA)	¼ mile radius	No	11
CA HIST CORTESE (4/1/2001)	½ mile radius	No	24
CA Notify 65 (12/16/2016)	1 mile radius	No	2
CA SAN JOSE HAZMAT (11/7/2016)	¼ mile radius	No	15
EDR High Risk Historical Records			
EDR Manufactured Gas Plants (MGP) (6/22/2017)	1 mile radius	No	1
EDR Hist Auto (6/22/2017)	1/8 mile radius	Yes	23
EDR Hist Cleaner (6/22/2017)	1/8 mile radius	No	7

A description of the reviewed databases is provided in the EDR Radius Map Report (Appendix C). A summary of Site database listings and other properties identified within the prescribed search area is presented below.

Site (600 South 1st Street)

The Site is currently comprised of the following three street addresses: 600 South 1st Street, 618 South 1st Street, and 8 East Reed Street. Our research indicates that the Site has historically been occupied by a total of 11 street addresses: 600, 602, 604, 606, 608, 618, and 620 South 1st Street, and 8, 10, 12, and 14 East Reed Street. All known Site addresses were searched by EDR. Additional inquiries were made and records searched within the Santa Clara Valley Water District (SCVWD), Santa Clara County Environmental Services Division (SCCESD), and City of San Jose Fire Department (SJFD); and online regulatory databases operated by the Santa Clara County Department of Environmental Health Local Oversight Program (SCCLOP), San Francisco Bay Area Regional Water Quality Control Board (RWQCB) (GeoTracker) and the Department of Toxic Substances Control (DTSC) (EnviroStor), regarding any additional files related to any past or current fuel and hazardous materials leaks reported at the Site.

The database review indicated that only one of the Site's 11 historically known street addresses was identified for environmental and/or regulatory information, in the databases searched. The 618 South 1st Street Site property was identified in both the CA HAZNET² and EDR Hist Auto databases. The CA HAZNET and EDR Hist Auto designations are related to the Site property's historical use as an automotive repair shop in 1985. No additional records were identified that would indicate a past documented spill(s) and/or release(s)

Additionally, during our Site reconnaissance and interview with the Site Owner, there was mention of a former underground storage tank (UST), formerly located within the 618 South 1st Street Site property. No record of this reported former UST was identified in any of the databases searched by EDR, or online databases searched by Langan. However, during our file review conducted at the SJFD, a one-page letter dated 16 August 1994 stated that UST closure at the 618 South 1st Street Site property occurred on 17 June 1994, and had been completed per SJFD's requirements. No further documents or files were located to corroborate the presence of a former UST on-Site. Based on the closure letter, this represents a historic REC (HREC) for the Site.

² **HAZNET:** The HAZNET (Hazardous Waste Facility and Manifest Data) list is created from the copies of hazardous waste manifests received each year by the DTSC.

Neighboring Properties

Based on our review of the surrounding properties, the following two upgradient properties were identified as an environmental concern to the Site. The remaining nearby listings reviewed by Langan had no violations, were closed by the regulatory agency, were hydrologically cross gradient or downgradient, or were determined to be a significant distance (greater than a 1/4 mile) from the Site.

Former Texaco Gasoline Service Station (598 South 1st Street)

This property, a former Texaco gasoline service station, is located approximately 183 feet north-northwest, adjacent, and upgradient of the Site. The property is currently an Enterprise Rental Car facility and historical uses include a car rental agency (most recently), used automobile sales dealer. At the time of this Phase I ESA report, this property remains open for assessment and is identified as RWQCB and SCCLOP case numbers 14-225 and 07S1E17G02f, respectively. This facility was listed in the CA HIST CORTESE, CA LUST, CA HIST LUST, CA WDS, and EDR Hist Auto databases. Additionally, the following reports were reviewed by Langan, and the relevant information is summarized below.

- SECOR International Incorporated, *Environmental Investigation Report, 598 First Street, San Jose, California* dated 16 February 1995;
- SECOR International Incorporated, *Passive Soil Vapor Survey Report, 598 South First Street, San Jose, California* dated 15 May 1997; and
- SAIC Energy, Environment & Infrastructure, LLC, *Additional Site Assessment Report, Former Texaco Service Station No. 211286, 598 South First Street, San Jose, California* dated 18 May 2012.

The property was operated as a Texaco service station from 1973 until about 1982. Gasoline was stored in three 10,000-gallon fiberglass USTs. A permit for the removal of the tanks dated 10 December 1981 was issued by the SJFD. However, no formal documentation regarding the UST removal has been located to confirm the UST removals (SAIC, 2012).

A Preliminary Subsurface Assessment report dated 25 May 1993 was conducted at the property by Soil Tech Engineering, Inc. (STE). STE's subsurface assessment included drilling five soil borings to determine the presence, if any, of petroleum products in the shallow soil and groundwater. STE encountered groundwater at depths ranging from 16 to 18 feet bgs. STE detected mild to strong levels of petroleum odors in each of the borings near the

saturation/vadose zone (approximately 14 to 15 feet bgs). The soil analytical results detected elevated levels of total petroleum hydrocarbons (TPH) as gasoline (TPHg) and diesel (TPHd), with the highest concentrations detected in B-5 at 13 feet bgs. STE summarized that the shallow groundwater beneath the site has been impacted with elevated levels of dissolved hydrocarbons and the highest hydrocarbon concentrations detected were either near the former USTs used for fuel, or near the water table (approximately 16 to 18 feet bgs). STE recommended an additional investigation to determine the extent of contaminants in the soil and groundwater.

An Environmental Investigation Report dated 16 February 1995, was completed by SECOR International Incorporated (SECOR) to assess the extent of petroleum hydrocarbon contamination in the subsurface. Four soil borings (SB-1 through SB-4) were advanced to 21.5 feet bgs for groundwater monitoring well installation and labeled MW-1 to MW-4, respectively. Three additional soil only borings (SB-5 through SB-7) were advanced to depths ranging from 16.5 to 18.5 feet bgs. The maximum concentration of TPHg detected in soil was 3,100 milligrams per kilogram (mg/kg), from boring SB-2/MW-2 at 11 feet bgs. The highest concentrations of petroleum hydrocarbons in groundwater were detected in monitoring well MW-3. The MW-3 groundwater sample detected TPHg, benzene, toluene, ethylbenzene, and xylenes (BTEX) at concentrations of 77,000 micrograms per liter ($\mu\text{g/L}$), 17,000 $\mu\text{g/L}$, 16,000 $\mu\text{g/L}$, 1,900 $\mu\text{g/L}$, and 9,300 $\mu\text{g/L}$, respectively. Additionally, elevated concentrations of petroleum hydrocarbon were detected in monitoring wells MW-1 and MW-2, located upgradient from the former dispenser and pump island areas. SECOR concluded that there may be an off-site contaminant source located to the southwest, based on elevated concentrations, groundwater flow direction, and proximity of the wells to the location of the former USTs.

In December 1995, during a subsequent groundwater monitoring well sampling event, additional groundwater analytical results indicates groundwater was impacted across the property. TPHg and benzene concentrations were the highest around monitoring wells MW-1 and MW-3. The maximum concentrations were detected in groundwater monitoring well MW-3, with concentrations of TPHg and benzene detected at concentrations of 85,000 $\mu\text{g/L}$ and 17,000 $\mu\text{g/L}$, respectively.

A Passive Soil Vapor Survey Report dated 15 May 1997, was completed by SECOR to delineate the extent of petroleum hydrocarbon contamination in the subsurface of the property. SECOR installed 38 GORE-SORBER™ (passive soil vapor sampling technology) (sorber) modules sampled in a grid pattern. SECOR installed 32 sorber locations on-site and 6 sorber locations

off-site and upgradient from the property. The modules were analyzed for TPHg, BTEX, and methyl tertiary butyl ether (MTBE). Based on the analytical results, two primary areas of concentrated TPHg detections were present beneath and in the vicinity of the property. SECOR concluded that one TPHg-contaminated area appeared to originate from the former USTs and dispenser islands closest to the building and trended toward the northwest. SECOR concluded that the remaining TPHg-contaminated area originated off-site at the intersection of South 1st and Market Streets and also trended toward the northwest.

IT Corporation (IT) completed a Summary and Groundwater Investigation Report dated 4 February 2002. IT advanced nine Geoprobe® borings, GP-1 through GP-9. The highest concentration of TPHg (2,400 mg/kg) were detected in the soil sample collected from boring GP-5 at a depth of 12 feet bgs. The highest concentration of benzene, (8.4 mg/kg) was detected in the soil sample collected from boring GP-1 at a depth of 20 feet bgs. Grab-groundwater samples were also collected from each boring. Groundwater analytical results detected TPHg concentrations ranging from 1,700 µg/L to 250,000 µg/L and benzene concentrations ranging from 11 µg/L to 31,000 µg/L.

IT prepared a Corrective Action Plan (CAP) dated May 2000 for groundwater remediation. The CAP recommended monitored natural attenuation (MNA) and the injection of oxygen-releasing compounds to enhance biodegradation in groundwater. The SCVWD did not approve of IT's recommendation because intrinsic biodegradation was not a long-term remediation solution. Subsequently, IT conducted a feasibility testing to evaluate the effectiveness of soil vapor extraction and treatment (SVET), groundwater extraction and treatment (GWET) or dual-phase extraction and treatment (DPET) at the property. IT decided on SVET as the preferred alternative, which was approved by SCVWD in 2001.

In December 2000, IT installed two on-site wells, MW-5 and MW-6, and two off-site wells, MW-7 and MW-8, to further delineate the lateral and horizontal extent of petroleum hydrocarbons in the soil and groundwater at the property and in the vicinity. The highest concentrations of TPHg and benzene (370 mg/kg and 7.7 mg/kg, respectively) were detected in the soil sample collected at monitoring well MW-5 at a depth of 15 feet bgs. Petroleum hydrocarbons were not detected in the soil samples from the other wells. Analytical results from the First Quarter 2001 groundwater monitoring event showed the highest concentrations of TPHg and benzene at MW-5 (110,000 µg/L and 16,000 µg/L, respectively).

In November 2002, Delta Environmental Consultants, Inc./ RRM, Inc. (Delta/ RRM) performed a utility survey and reviewed Sanborn maps and aerial photographs of the property. Results

indicated that utilities to the south and west were not likely to be pathways for the migration of petroleum hydrocarbons in groundwater near the property because groundwater beneath the property had historically been lower than the bottom elevation of the utility conduits. A review of the Sanborn maps and aerial photographs identified three properties that were potential upgradient sources of hydrocarbon impact. These potential sources are located at 569 and 591/595 South Market Street, and 589/699 South 1st Street.

In October 2004, SAIC installed three groundwater extraction wells, EX-1 through EX-3, and a vapor monitoring well, VW-1. Petroleum hydrocarbons were detected in all samples collected from each boring and the highest concentrations were generally detected at approximately 15 feet bgs. The highest concentrations of TPHg and benzene were detected at 23,000 mg/kg and 250 mg/kg, respectively were detected in a soil sample collected from boring EX-2 at 16 feet bgs.

SAIC made several attempts at remediating the groundwater petroleum hydrocarbon plume by installing a TPET system in October 2004, and a DPET system in Fourth Quarter 2008. The TPET system was shut down during Second Quarter 2007 and the SVET portion of the DPET system was shut down on 5 March 2010. Both systems were not successful at significantly reducing the dissolved petroleum hydrocarbon concentrations in groundwater.

In April 2012, SAIC oversaw the installation of two off-site groundwater monitoring wells (MW-9 and MW-10). The groundwater monitoring wells were installed to monitor groundwater in the upgradient direction of groundwater flow to the south and southeast of the property. The mean groundwater flow direction was found to be in the northwest direction, based on the 26 April 2012 groundwater monitoring event. Analytical results detected higher TPHg concentrations in the groundwater sample collected from MW-9, compared to the concentration in on-site monitoring well MW-5.

SAIC performed several soil vapor sampling events to evaluate the vapor intrusion risk associated with the petroleum hydrocarbons previously detected in the property's subsurface. The results from the October 2012 sampling event were compared to the screening criteria for the RWQCB's Low-Threat Underground Storage Tank Closure Policy. SAIC concluded there is no potential for vapor intrusion risk from petroleum hydrocarbons in the subsurface to indoor occupants, for the proposed development and nearby property structures.

On 9 May 2013, SAIC contracted ULS to perform a geophysical survey in the sidewalk area near off-site monitoring well MW-9 and an unmarked metal plate, believed to be a fill port. The

geophysical survey confirmed that there is a high possibility of a previously abandoned-in-place UST, located near monitoring well MW-9. The estimated capacity of the UST is about 500- to 750-gallon and depth below sidewalk at approximately 4 feet bgs. MW-9 is located in front of 605 South 2nd Street. SAIC (currently Leidos Engineering, LLC) proposed additional remediation to reduce the concentration of dissolved benzene in groundwater to meet water quality objectives in their Remedial Action Plan (RAP) and Site Conceptual Model Update (SCM) (Leidos 2015). Leidos recommended in-situ chemical oxidation (ISCO) and received concurrence from SCCESD in a letter dated 19 February 2015. Leidos also proposed that the aerial extent of contamination had been adequately defined and additional assessment in the crossgradient directions (north and south) was not warranted based on past sampling analytical data.

The first injection for ISCO took place on 4 October 2015. Stantec concluded that initial ISCO injection was a success and another round of injections were implemented from 24 July through 23 August 2016. Analytical results indicated that dissolved phase benzene concentrations in wells MW-3, MW-5, EX-1, EX-2, and MW-9 decreased by approximately two orders of magnitude or more, which demonstrated the effectiveness of ISCO. Based on 18 groundwater monitoring events, groundwater flow is from the west (Stantec, 2016). Stantec decommissioned the former DPET system in October 2016.

In July 2016, additional soil vapor assessment was performed on-site by Stantec. Soil concentrations detected were below respective RWQCB ESLs or laboratory method detection limits (MDLs). Stantec recommended no additional soil assessment. In December 2016 and March 2017, Stantec performed soil vapor assessments off-site. Based on no detections of petroleum hydrocarbons in the sub-slab vapor samples, Stantec recommended no further evaluation of vapor intrusion off-site.

In a letter from CSCDEH dated 7 April 2017, CSCDEH generally approved of AEI's SMP but had some further requests. CSCDEH also approved of proposed locations for the installation of five post construction monitoring wells and required AEI to complete four quarters of post-remediation verification groundwater sampling. AEI Consultants (AEI) prepared a revised Site Mitigation Plan (SMP) to address known petroleum hydrocarbon contamination in the event such contamination is encountered during future development at the site (AEI, 2017). For the SMP, AEI also collected four soil gas samples to further assess the threat of vapor intrusion as required by CSCDEH. Soil gas sample results slightly exceeding the residential ESLs for TPHg and benzene which were detected in a limited area around the planned elevator pit.

Based on the former Texaco gasoline service station's upgradient to crossgradient and adjacent proximity to the Site, and residual groundwater contamination remaining at this property, this property is likely to affect environmental conditions at the Site. This property represents a REC to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

The Pierce Development (561-599 South Market Street and 60 Reed Street)

This property is located approximately 313 feet to the west and upgradient of the Site, and is currently occupied by The Pierce Apartments. The property was listed in the CA DEED, CA SLIC, and EDR Hist Auto databases. Additionally, the following SMP and case closure report were reviewed by Langan, and the relevant information is summarized below.

- West Environmental Services & Technology, Inc., *Site Management Plan, Pierce Avenue & West Reed Street, San Jose, California* dated 14 June 2014; and
- County of Santa Clara Department of Environmental Health, *Voluntary Cleanup Program Case Closure: Pierce Development, 561-599 S. Market Street and 60 Reed Street, San Jose, California* dated 24 July 2015.

According to West's SMP, the following is a summary of investigations completed for the group of properties:

- Seven USTs associated with a former gas station, located at the 599 South Market Street address, were abandoned-in-place during the 1980s and 1990s. Groundwater samples collected from monitoring wells located adjacent and upgradient from the abandoned-in-place USTs detected little to no concentrations of petroleum hydrocarbons;
- The SCVWD granted closure of the seven abandoned-in-place USTs in 1996;
- Based on suspect recognized environmental conditions (RECs) identified in a previous Phase I ESA for the properties, a Phase II ESA was conducted in 2012;
- The Phase II ESA included a geophysical survey and collection of soil, soil gas, and groundwater samples and was completed in November 2012. Based on the geophysical survey, an exploratory excavation was advanced in May 2014, which encountered two additional USTs, located at 561 South Market Street, associated with a former gas station (historic street address of 545 Market Street). Shallow soil analytical results

detected TPHd and total lead above their respective RWQCB ESLs for direct exposure to construction workers. Soil gas analytical results detected benzene and ethylbenzene above their respective RWQCB residential and commercial soil gas ESLs. Groundwater analytical results detected TPHg, TPHd, and benzene above their respective ESLs in one sample. Groundwater and shallow soil sample exceedances were detected in samples collected near the corner of Pierce Avenue and South Market Street, and located within the area of the previously documented former gas station (545 Market Street); and

- Additional groundwater samples were subsequently collected near the groundwater exceedances, but did not detect contaminants at or above laboratory reporting limits or water quality objectives.

For the upper two feet of soil that detected TPH and lead concentrations above direct exposure construction worker ESLs, West proposed to take the excavated material to be consolidated within a deeper excavation on-site. Soil which previously detected TPH above ESLs will be segregated, transported, and disposed off-site at an appropriate disposal facility and not consolidated on-site.

West prepared a UST Removal Report dated October 2014, for the three USTs located at 561 South Market Street and removed as part of the Pierce Development project. One 1,000-gallon gasoline UST within the sidewalk and two 500-gallon gasoline USTs were removed and confirmation soil samples were collected. The larger UST, designated UST-1 by West, detected low levels of TPHg and TPHd, below ESLs. The smaller USTs, designated UST-2 and UST-3, were over-excavated due to higher petroleum hydrocarbon levels. One groundwater sample was collected at the base of the over-excavation which was within the saturated zone. Groundwater analytical results detected concentrations of TPHg and TPHd above ESLs.

A Deed Restriction, dated 17 July 2015, was placed on the property for the lead and PAH-contaminated soil detected above screening levels for residential land use that remain in-place at two and eight feet below the bottom of the new building slab. The Deed Restriction's site management requirements included no further excavation of contaminated materials without agency review and approval, no groundwater extraction at any depth without approval, notify damages to remedy and monitoring systems upon discovery, notify prior to change in land use, notify prior to development, notify prior to subsurface work, prepare a health and safety plan prior to subsurface work, and required all exposed surfaces be covered. As stated in the Deed Restriction, all Owners and Occupants of the Property "shall comply with the SMP" and "shall

not damage, disturb, interfere with, or otherwise make contact with soil deeper than two feet below final grade in the designated area of the Property”.

Based on the removal and abandoned-in-place former USTs, the documented soil over-excavation activities, and supplemental analytical results, the property was granted administrative case closure in a SCCESD Voluntary Cleanup Program Case Closure letter dated 24 July 2015. However, the closure letter stated that remaining residual contamination in soil, soil vapor, and groundwater could pose an unacceptable risk under certain site development activities. The following existing conditions were documented within the closure letter that allowed for case closure with site management and future land-use restrictions:

1. TPHg remains in soil at concentrations up to 4,900 parts per million (ppm) or mg/kg;
2. TPHg remains in groundwater at concentrations up to 39,300 parts per billion (ppb) or µg/L;
3. TPHd remains in groundwater at concentrations up to 30,500 ppb or µg/L;

Although this property was granted administrative case closure, the property’s upgradient to crossgradient and adjacent proximity to the Site, and residual soil and groundwater contamination are likely to affect environmental conditions at the Site. Due to the residual contamination that remains on-site, as documented in the case closure letter, and land-use/deed restrictions, this group of properties represent a controlled REC (CREC) to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

Firestone Building (599 South 1st Street)

This property, a former gasoline service station, is located approximately 50 feet to the west and upgradient to cross-gradient of the Site. It should be noted that this property is also associated with the previously documented Pierce Development properties, discussed in length, above, which are currently occupied by The Pierce Apartments. This individual property was listed in the CA HIST CORTESE, CA HIST LUST, CA HIST UST, CA LUST, and EDR Hist Auto databases.

Seven USTs, named T-1 through T-7, were associated with a former gasoline service station and later associated with the previously documented Pierce Development. As previously documented, West determined that USTs T-2 and T-5, located within the sidewalk along South

1st Street were improperly abandoned and were observed to not be backfilled with slurry (West, 2015). On 9 September 2014, USTs T-2 and T-5 were properly abandoned with oversight from CSCDEH and SJFD. Upon the removal of the former USTs, the property received administrative case closure from the SCVWD, in a letter dated 26 September 1996. However, as previously documented, residual petroleum hydrocarbons concentrations remain in the property's subsurface. This property is directly associated with the previously documented Pierce Development and the previously identified CREC to the Site applies to this property as well.

Orphan Listings

According to EDR, an orphan listing is a property that cannot be mapped due to poor or inadequate address information. Upon further research, Langan concluded that none of the orphan listings appear to be within applicable search distances to the Site and/or are not considered properties of concern to the Site.

4.2 Physical Setting Sources

Topography

According to the United States Geological Survey (USGS) Topographic Maps, reviewed by Langan in EDR's Historical Topographic Map Report, the Site is at an elevation of approximately 101 feet above mean sea level (msl). The Site topography is generally flat. Photographs showing the current Site use are provided in Appendix A.

Geology and Hydrogeology

Environmental borings drilled at properties adjacent to the Site indicate that the subsurface material primarily consists of fine-grained sediments (clay and silt) with a layer of silty sand to fine-grained sand encountered at depths ranging from approximately 10 to 18 feet bgs. The sand layer is contiguous across the site. Underlying the sand layer is clayey silt to silty clay at the total explored depth of 38 feet bgs (SAIC, 2012).

Additionally, environmental investigations performed at properties adjacent to the Site encountered groundwater at depths ranging from approximately 16 feet bgs to 18 feet bgs.

4.3 Surface Water and Flood Plain Conditions

Surface Water

The Guadalupe River is the closest surface water body, which is located approximately 0.4 miles west of the Site.

Flood Plain

According to the FEMA Map Service Center, the Site is located within map number: 06085C0234H and is outside of both the 1% and 0.2% annual flood (100-year) zone. Although the map does specifically designate the Site as within Zone D, an area in which flood hazards are undetermined, but possible. Overall, the Site is not considered a risk for flooding. Additionally, the Radius Map report provided by EDR (Appendix C) indicates that the Site is not located within any designated wetland areas.

4.4 Nearby Well Locations

Langan's Site reconnaissance and our review of the RWQCB online GeoTracker website did not identify any current wells on-Site. GeoTracker has identified a total of thirteen wells (EX-1 through EX-3, and MW-1 through MW-10) in the immediate vicinity associated with the former Texaco service station, located at 598 South 1st Street, and previously discussed in Section 4.1. Based on the Revised SMP by AEI, all groundwater monitoring wells remain active due to ongoing groundwater monitoring. Although, as of July 2017, the wells have been approved for destruction/abandonment.

4.5 Historical Use Information on the Site, Adjoining Properties, and Surrounding Properties

Sanborn Fire Insurance Map Review

Langan reviewed Sanborn Maps from EDR for the Site and adjoining properties. Sanborn Maps provide information on structures related to building construction and materials that could impact fires, i.e. gasoline tanks, chemical storage, etc. within these structures. We reviewed the following Sanborn Fire Insurance Maps provided by EDR: 1884, 1891, 1915, 1950, 1969, and 1984. Appendix D contains copies of the Sanborn Fire Insurance Maps from EDR.

In the 1884 Sanborn map, the Site is occupied by a single-story storefront at the corner of South 1st and Reed Streets. Additional Site structures include a cart storage house, a smaller out-building, and stables. The surrounding area appears to be moderately developed with similar commercial storefronts, residential dwellings, and vacant and undeveloped land.

In the 1891 Sanborn map, the Site's southernmost corner is occupied by the Fire Department Engine Co. No. 3. and more residential dwellings and commercial storefronts.

In the 1915 Sanborn map, the Site's northernmost corner is occupied by a large residential building of flats, identified as wood-framed and two-stories over one basement level. The eastern portion of the Site is occupied by an auto body shop, stables/garage, and a single-family dwelling. The Site's southernmost corner remains occupied by the previously documented Fire Department Engine Co. No. 3. The western portion of the Site is occupied by multiple commercial storefronts. At this time, the surrounding area appears to be fully developed with similar mixed-use residential and commercial properties.

In the 1950 Sanborn map, one of the previously described commercial storefronts within the western portion of the Site is listed as a printing shop, located at the 608 South 1st Street address. The remainder of the Site appears as previously documented. Surrounding properties of mention include but are not limited to a commercial storefront and a restaurant to the north; the Centella Methodist Church and associated halls and buildings to the east; an Auto Body Works to the south, including battery and brake services; and an auto service station with gas and oil services, and various commercial storefronts and residential dwellings to the west.

In the 1969 Sanborn map, the previously documented Fire Department Engine Co. No. 3 is no longer present. The entire southern portion of the Site is occupied by a vacant lot. The previously documented commercial storefront located at 618 South 1st Street is listed as a paint store. The remaining portions of the Site appear relatively unchanged from previous documentation. The areas south of the Site appear vacant and undeveloped, likely in preparation for the freeway construction.

In the 1984 Sanborn map, the Site is in an unmapped area. However, at this time, it does appear that the Interstate 280 freeway construction has been completed.

Aerial Photograph Review

Langan reviewed aerial photographs to evaluate past uses and relevant characteristics of the Site and surrounding properties. We reviewed the following aerial photographs from EDR: 1939, 1948, 1950, 1956, 1963, 1968, 1974, 1982, 1998, 2005, 2006, 2009, 2010, and 2012. Appendix E contains copies of the aerial photographs from EDR.

In the 1939, 1948, 1956, 1963, and 1968 aerial photographs, the Site appears to be occupied by various buildings and residential homes, as previously described when reviewing the Sanborn Maps, but cannot be seen in any particular detail.

In the 1974 aerial photograph, the Site appears relatively unchanged from previous documentation. At this time, the surrounding area appears fully developed, and the completed Interstate 280 is completed and operational.

In the remaining 1982, 1998, 2005, 2006, 2009, 2010, and 2012 aerial photographs the Site cannot be seen in any specific detail, but does appear as it exists presently.

Historical Topography Maps Review

Langan reviewed the following Historical Topography Maps from EDR: 1889, 1897, 1899, 1953, 1961, 1968, 1973, 1980, and 2012. Appendix F contains copies of the Historical Topography Maps. The Site is at an elevation of approximately 101 feet above msl, with a generally flat topography.

City Directory Review

Langan reviewed the following city directory search and abstract provided by EDR. For each address, the directory lists the name of the corresponding occupant at five year intervals. Business directories including city, cross reference, and telephone directories were reviewed, if available, at approximate five year intervals for the years spanning 1922 through 2014. Appendix G contains a copy of the City Directory Report. Below is a summary of the occupant listings for the 11 street addresses historically associated with the Site.

Site Address	Year	Occupant
600 South 1st Street	1930-1975	Various restaurants/ cafés/ taverns
	2000	Russo Clarence sheet metal
602 South 1st Street	1930	Vacant
	1935	Lowry CS Rubber Stamps
	1940	Vacant
	1950	John JF Cigars
604 South 1st Street	1925-1975	Barber Shop
	2000	No current listing
606 South 1st Street	1930	Vacant
	1935-1945	Various restaurants
	1950-1966	Lottie's Place Liquors and Tavern
	1970	Vacant
	1975-1991	El Paso Tavern

Site Address	Year	Occupant
608 South 1st Street	1922-1925	Various residential
	1930	Vacant
	1935	Lofano JD
	1940-1950	Lowry CS Rubber Stamps
	1955-1970	Reliable Rubber Stamp & Printing Co.
	1975	Vacant
618 South 1st Street	1922-1930	Various residential
	1935	Lofano JD Used Cars
	1940-1945	Electric Battery Station
	1950	Sears Roebuck & Co. warehouse
	1955	C & D Auto Service Repairs Trincherro Auto Parts
	1957-1970	Lowe Paint Co., Inc.
	1975	Brother Shop (motorcycle sales and services)
	1980	Dutras Carpet Service
	1985	Top Line Auto Body & Paint
2000-2014	Garden City Construction and Buccaneer Demolition	
620 South 1st Street	1930-1955	San Jose City Fire Department Engine Co. No. 3
8 East Reed Street	1922-2006	Various residential
	2010-2014	Drywall Handyman
10 East Reed Street	1922-2000	Various residential
12 East Reed Street	1922-2000	Various residential
14 East Reed Street	1922-2000	Various residential
	2006	No current listing

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

The Site reconnaissance was conducted in a systematic manner focusing on the spatial extent of the Site and then progressing to the adjacent and surrounding properties.

The assessment of the adjacent and surrounding properties was limited to identifying, if possible, any indications of past or current use that may involve the use, storage, disposal, or generation of hazardous substances or petroleum products; noting the general type of current use; the general topography of the surrounding area; and providing a general description of adjoining or adjacent structures.

Mr. Peter J. Cusack of Langan performed a Site and vicinity reconnaissance on behalf of Langan on 2 August 2017. Appendix A contains photographs from the Site reconnaissance. The tenant and current Site Owner, Mr. James A. Salata was present during the Site reconnaissance, and provided access to the Site

5.2 General Site Setting and Reconnaissance Observations

The Site is located in a mixed-use residential, commercial, and light industrial area of Downtown San Jose. The rectangular-shaped Site is approximately 0.42 acres in size and currently comprised of an at-grade asphalt-paved parking lot (600 South 1st Street); a single-story brick building and at-grade asphalt-paved parking lot (618 South 1st Street); and a two-story wood-framed building (8 East Reed Street), which is currently comprised of four residential apartments/units.

Past Use of Site

No evidence of past use of the Site was observed during the Site reconnaissance.

Description of Structures

Currently, the Site's single-story brick building (618 South 1st Street) is occupied by Garden City Construction's offices. The south and adjacent parking lot is gated and serves as a private parking lot associated with Garden City Construction's offices. The Site's second at-grade asphalt-paved parking lot (600 South 1st Street) serves as overflow parking. The Site's two-story wood-framed residential building is comprised of four residential apartments/units, three of which are occupied and one of which is vacant.

Roads

The Site is directly bound by East Reed Street to the north, an un-named alley to the east, and South 1st Street to the west.

Storm Drains

Storm drains were not observed on the Site.

5.3 Site Observations

Hazardous Substances and Petroleum Products in Connection with Identified Uses

Langan did not observe hazardous substances or petroleum products in connection with identified uses at the Site during the reconnaissance.

Hazardous Substances and Petroleum Products Containers in Connection with Unidentified Uses

Langan did not observe hazardous substances or petroleum products in connection with unidentified uses at the Site during the reconnaissance.

Storage Tanks

Langan did not observe any storage tanks at the Site during the reconnaissance, and did not observe any signs of USTs. However, the tenant and current Site Owner, Mr. James A. Salata mentioned a former 500-gallon UST that was removed from the Site prior to his purchase of the Site.

Odors

Langan did not notice any noxious odors at the Site during the reconnaissance.

Pools of Liquids

Langan did not observe pools of liquid at the Site during the reconnaissance.

Drums

Langan did not observe any drums at the Site during the reconnaissance.

PCBs

Langan did not observe PCBs or PCB-containing equipment at the Site during the reconnaissance.

Pits, Ponds, or Lagoons

Langan did not observe any pits, ponds, or lagoons at the Site during the reconnaissance.

Stained Soil or Pavement

During the reconnaissance, Langan did observe minor staining on the at-grade asphalt-paved parking surfaces, which is typical for a parking lot. This observed staining was minor and is considered a *de minimis* condition, which does not represent an environmental concern to the Site.

Stressed Vegetation

Langan did not observe stressed vegetation at the Site during the reconnaissance.

Solid Waste

Langan did not observe any solid waste on- Site during the reconnaissance.

Wastewater

Langan did not observe wastewater discharges at the Site during the reconnaissance.

Wells

Langan did not observe any wells at the Site during the reconnaissance.

Septic Systems

Langan did not observe septic systems at the Site during the reconnaissance.

Utilities

Utilities vaults believed to be related to water lines, electrical lines, and storm water lines are present along the Site boundaries and associated sidewalks.

6.0 INTERVIEWS

6.1 Subject Site User/Client and Owner

For the Phase I ESA, Langan was introduced to and interviewed both the User of this report (Client) and Owner, as defined in ASTM 1527-13. The object of the interviews is to obtain information indicating recognized environmental conditions (RECs) in connection with the Site and to provide further details regarding historical use of the Site.

Ms. Jennifer Jodoin, a representative of the User/Client, and Mr. James A. Salata, the Site's current Owner, completed our questionnaires. Both Ms. Jodoin and Mr. Salata have no-first-hand knowledge of the Site and are not aware of any environmental cleanup liens and/or land use limitations associated with the Site. Copies of the completed User/Client and Owner questionnaires are included in Appendix B.

However, Mr. James A. Salata (Owner) mentioned a former 500-gallon UST that was removed from the Site prior to his purchase of the Site, during the Site reconnaissance.

7.0 PHASE I ESA FINDINGS AND CONCLUSION

Langan's findings with respect to known and suspect RECs and de minimis conditions, and our opinion of these findings are as follows:

7.1 Known or Suspect RECs

Based on our review of regulatory files, the Site history, Owner interview, and our Site reconnaissance, this assessment identified one REC, one CREC, and one HREC directly associated with the Site.

7.1.1 REC 1: Active Fuel Leak Site at 598 South 1st Street

At the time of this Phase I ESA report, this property remains open for assessment and is identified as RWQCB and SCCLOP case numbers 14-225 and 07S1E17G02f, respectively. This property was operated as a Texaco service station from 1973 until about 1982. Gasoline was stored in three 10,000-gallon fiberglass USTs. A permit for the removal of the USTs was issued by the SJFD dated 10 December 1981. However, no formal documentation regarding the UST removal has been located by SAIC Energy, Environment & Infrastructure, LLC (SAIC, 2012).

Multiple subsurface investigations have been conducted at the Site which included soil, soil vapor and groundwater sampling. Groundwater monitoring wells and both groundwater and vapor extraction wells were previously installed both on- and off-Site. Remediation activities have included vapor extraction and treatment, and dual-phase groundwater injection and extraction, which have shown to significantly reduce the property's contamination plume. The most recent monitoring event, Second Quarter 2017, detected maximum concentrations of TPHg, TPHd, and benzene of 38,000 µg/L, 2,900 µg/L, and 3,000 µg/L, respectively.

Based on the former Texaco gasoline service station's upgradient to crossgradient and adjacent proximity to the Site; open regulatory case status; and documented residual groundwater contamination, this property is likely to affect environmental conditions at the Site. This property represents a REC to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

7.1.2 Controlled REC 1: Deed Restriction at 561-599 South Market Street and 60 Reed Street

This property, approximately two acres in size, is currently occupied by The Pierce Apartments. This property is associated with SCCLOP case number 07S1E17G06s.

A Deed Restriction, dated 17 July 2015, was placed on the property for the lead and PAH-contaminated soil detected above screening levels for residential land use that remain in-place at two and eight feet below the bottom of the new building slab. The Deed Restriction's site management requirements included no further excavation of contaminated materials without agency review and approval, no groundwater extraction at any depth without approval, notify damages to remedy and monitoring systems upon discovery, notify prior to change in land use, notify prior to development, notify prior to subsurface work, prepare a health and safety plan prior to subsurface work, and required all exposed surfaces be covered. As stated in the Deed Restriction, all Owners and Occupants of the Property "shall comply with the SMP" and "shall

not damage, disturb, interfere with, or otherwise make contact with soil deeper than two feet below final grade in the designated area of the Property”.

Based on the removal and abandoned-in-place former USTs, the documented soil over-excavation activities, and supplemental analytical results, the property was granted administrative case closure in a SCCESD Voluntary Cleanup Program Case Closure letter dated 24 July 2015. However, the closure letter stated that remaining residual contamination in soil, soil vapor, and groundwater could pose an unacceptable risk under certain site development activities.

Although this property was granted administrative case closure, the property’s upgradient to crossgradient and adjacent proximity to the Site, and residual soil and groundwater contamination have the potential to affect environmental conditions at the Site. Due to the residual contamination that remains at the property, as documented in the case closure letter, and land-use/deed restrictions, this property represent a controlled REC (CREC) to the Site, as it is likely that previous and residual soil and/or groundwater contamination has migrated onto the Site from this property.

7.1.3 Historic REC 1: Undocumented UST Removal at 618 South 1st Street

During our Site reconnaissance and interview with the Site Owner, there was mention of a former underground storage tank (UST), formerly located within the 618 South 1st Street Site property. No record of this reported former UST was identified in any of the databases searched by EDR, or online databases searched by Langan. However, during our file review conducted at the SJFD, a one-page letter dated 16 August 1994 stated that UST closure at the 618 South 1st Street Site property occurred on 17 June 1994, and had been completed per SJFD’s requirements. No further documents or files were located to corroborate the presence of a former UST on-Site. Based on the closure letter, this represents a historic REC (HREC) for the Site.

7.2 De Minimis Conditions

During the reconnaissance, Langan did observe minor staining on the at-grade asphalt-paved parking surfaces, which is typical for a parking lot. This observed staining was minor and is considered a *de minimis* condition, which does not represent an environmental concern to the Site.

7.3 Data Gaps

The Site history could not be researched in five-year intervals back to 1940 because of a lack of readily available information. It is Langan's opinion that this variation from the ASTM standard does not significantly affect the results of this Phase I ESA or the ability to assess the presence of a REC at the Site, because land use did not change frequently enough to warrant a five year interval Site history evaluation.

8.0 CONCLUSION

Because soil and groundwater adjacent and upgradient of the Site had previously been identified containing elevated concentrations of petroleum hydrocarbon contaminants, soil and groundwater contamination is likely present beneath the Site. This Phase I ESA has not revealed any previous subsurface work performed at the Site to assess soil and groundwater conditions. Langan recommends a Site subsurface investigation (Phase II ESA or Environmental Site Characterization (ESC)), including soil and groundwater sampling, to assess current Site subsurface conditions and to determine if off-Site contamination is migrating on-Site.

If soil and/or groundwater contamination is detected at the Site, special handling and disposal will likely be required for any excavation activities associated with the proposed Site development. If soil and/or groundwater contamination is detected at the Site, Langan recommends the preparation of a Soil and Groundwater Management Plan (SGMP) prior to the start of any development activities. A SGMP will provide recommended measures to mitigate the long-term environmental or health and safety risks caused by the presence of contaminants at the Site. The SGMP will also contain contingency plans to be implemented during soil excavation if unanticipated hazardous materials are encountered; including USTs. Langan recommends the implementation of a SGMP which will mitigate potential risks associated with the handling of impacted soil and groundwater which may be encountered during construction activities.

9.0 DEVIATIONS

This Phase I ESA has been performed without deviation to, and in conformance with, ASTM Practice E 1527-05 and E1527-13 (Standard Practice for ESA: Phase I ESA Process) except as noted. No expressed or implied representation or warranty is included or intended in the report, except that the services were performed within the limits prescribed by the Client, and with the customary thoroughness and competence of our profession.

10.0 ADDITIONAL SERVICES

The scope of services performed for this study did not include the following non-ASTM required Phase I ESA items: radon, asbestos containing materials (ACM), lead-based paint (LBP), lead in drinking water, polychlorinated biphenyl (PCB)-containing material, wetlands, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, mold, indoor air quality, and biological agents.

12.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

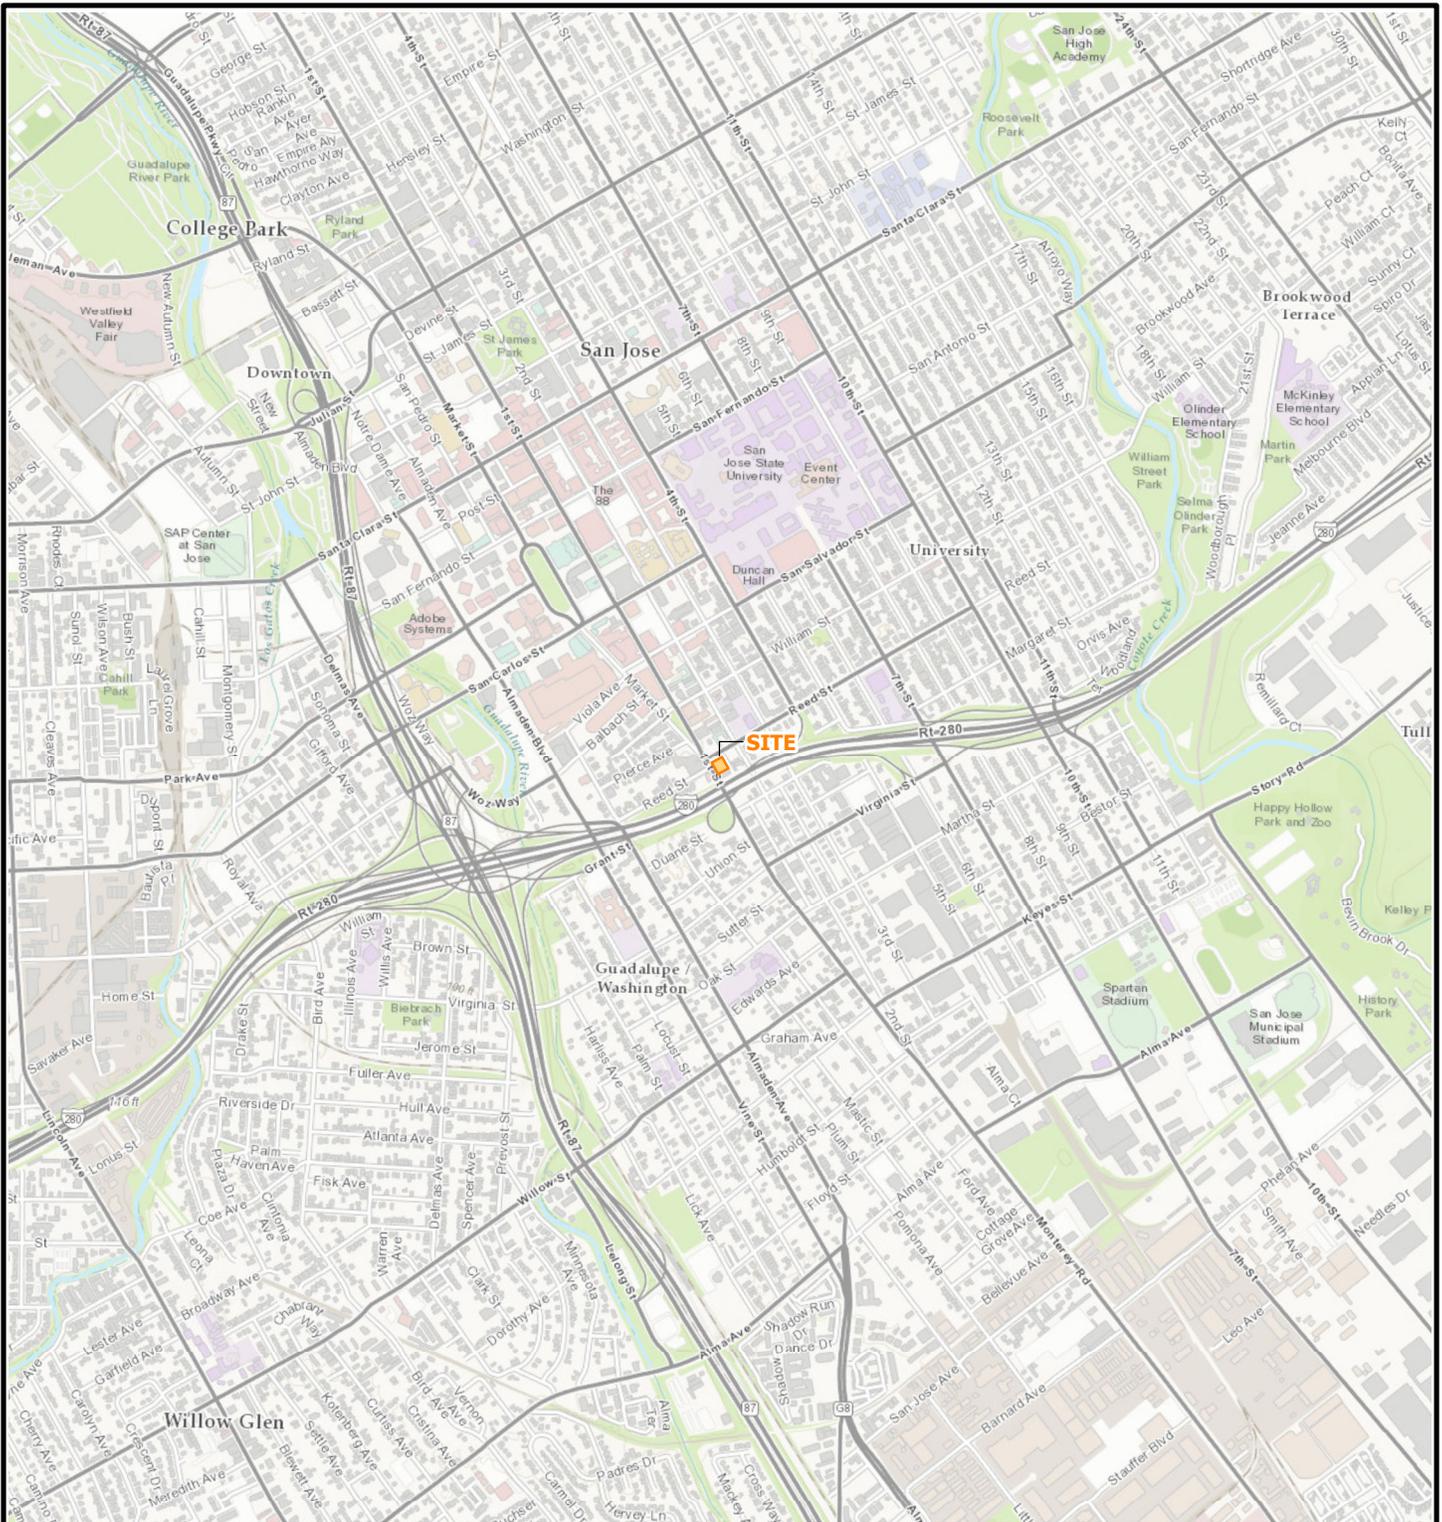

The signatures of the environmental professional(s) responsible for this Phase I ESA are provided on the submittal letter and/or cover page of this report.

13.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

The qualifications of the environmental professionals that conducted this ESA are presented in the resumes provided in Appendix H. Langan declares that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in #312.10 of 40 CFR 312. Langan has the specific qualifications based on education, training, and

experience to assess a property of the nature, history, and setting of the Site. Langan has developed and performed the all appropriate inquiries in general conformance with the standards and practices set forth in 40 CFR Part 312.

Reason Why Phase I ESA is required: Due Diligence

Site Contact (s): _____

Required Information

The citation at the end of each item (e.g. 40 CFR 312.XX) is the section of EPA's November 1, 2005 AAI Final Rule which discusses that item.

(1.) Environmental cleanup liens that are filed or recorded against the property (40 CFR 312.25).

Yes No

Did a search of recorded land title records (or judicial records where appropriate, see Note 1 below) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law? [Please note, unless specifically delegated in the Scope of Work for the Phase I ESA, it is the User's responsibility to undertake a review of recorded land title records and judicial records to identify any environmental liens and to report these liens to the environmental professional conducting a Phase I ESA.]

Note 1 – In certain jurisdictions, federal, tribal, state or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.

ASTM PRACTICE E 1527-13: USER/CLIENT QUESTIONNAIRE

- (2.) Activity and use limitations that are in place on the site or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and vi)).** Yes No

Did a search of recorded land title records (or judicial records where appropriate, see Note 1 above) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law? [Please note, unless specifically delegated in the Scope of Work for the ESA, it is the User's responsibility to undertake a review of recorded land title records and judicial records to identify any activity and use limitations and to report these limitations to the environmental professional conducting a Phase I Environmental Site Assessment.]

Yes No

- (3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).** Yes No

Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes No

- (4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).** Yes No

(a.) Does the purchase price being paid for this property reasonably reflect the fair market value of the property? [If no, proceed to Parts 4a and 4b.]

Yes No

(b.) If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Yes No

(c.) Identify an explanation for the lower price and provide a written record of such explanation as an attachment.

- (5.) Commonly known or reasonably known or reasonably ascertainable information about the property (40 CFR 312.30).** Yes No

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,

Yes No

(a.) Do you know the past uses of the property?

Yes No

(b.) Do you know of specific chemicals that are present or once were present at the property?

Yes No

(c.) Do you know of spills or other chemical releases that have taken place at the property?

Yes No

(d.) Do you know of any environmental cleanups that have taken place at the property?

Yes No

- (6.) The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate Investigation (40 CFR 312.31).** Yes No

Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

Yes No

ASTM E-1527-13, Section 10.9

Do you know of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property?

Yes No

Do you know of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property?

Yes No

ASTM PRACTICE E 1527-13: USER/CLIENT QUESTIONNAIRE

Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?

Yes No

ASTM E-1527-13, Section 10.8

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of April 26, 2017 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

JAMES ALAN SALATA AND SUZANNE MARIE SALATA, TRUSTEES OF THE SALATA 2005 LIVING TRUST DATED MAY 27, 2005

The estate or interest in the land hereinafter described or referred to covered by this Report is:

FEE

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2017-2018, a lien not yet due or payable.
2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.
3. The fact that the land lies within the boundaries of the Monterey Corridor Redevelopment Project Area, as disclosed by the document recorded October 09, 1997 as Document No. [13893597](#) of Official Records.
4. A deed of trust to secure an original indebtedness of \$323,000.00 recorded December 26, 2012 as Document No. [22018818](#) of Official Records.

Dated: December 19, 2012
Trustor: JAMES ALAN SALATA AND SUZANNE MARIE SALATA, TRUSTEES OF THE SALATA 2005 LIVING TRUST DATED MAY 27, 2005
Trustee: FIDELITY NATIONAL TITLE INS CO
Beneficiary: WELLS FARGO BANK, N.A

Said document contains an erroneous legal description.

(Affects PARCEL 1)

5. Rights of parties in possession.

INFORMATIONAL NOTES

NOTE to proposed insured lender only: No Private transfer fee covenant, as defined in Federal Housing Finance Agency Final Rule 12 CFR Part 1228, that was created and first appears in the Public Records on or after February 8, 2011, encumbers the Title except as follows: None

(Affects PARCEL 1)

- 1. Taxes for proration purposes only for the fiscal year 2016-2017.
 - First Installment: \$2,762.43, PAID
 - Second Installment: \$2,762.43, PAID
 - Tax Rate Area: 17-110
 - APN: 472-26-089

(Affects PARCEL 2)

- 2. Taxes for proration purposes only for the fiscal year 2016-2017.
 - First Installment: \$3,437.68, PAID
 - Second Installment: \$3,437.68, PAID
 - Tax Rate Area: 17-110
 - APN: 472-26-090

(Affects PARCEL 1)

- 3. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 618 South 1st Street, San Jose, CA.

(Affects PARCEL 2)

- 4. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Single Family Residence known as 600 South 1st Street, San Jose, CA.

(Affects PARCEL 1)

- 5. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

None

6. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.
7. Should this report be used to facilitate your transaction, we must be provided with the following prior to the issuance of the policy:
 - A. WITH RESPECT TO A CORPORATION:
 1. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
 2. A certificate copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
 3. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 4. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
 - B. WITH RESPECT TO A CALIFORNIA LIMITED PARTNERSHIP:
 1. A certified copy of the certificate of limited partnership (form LP-1) and any amendments thereto (form LP-2) to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendments;
 3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
 4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
 - C. WITH RESPECT TO A FOREIGN LIMITED PARTNERSHIP:
 1. A certified copy of the application for registration, foreign limited partnership (form LP-5) and any amendments thereto (form LP-6) to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendment;
 3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
 4. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
 - D. WITH RESPECT TO A GENERAL PARTNERSHIP:
 1. A certified copy of a statement of partnership authority pursuant to Section 16303 of the California Corporation Code (form GP-1), executed by at least two partners, and a certified copy of any amendments to such statement (form GP-7), to be recorded in the public records;
 2. A full copy of the partnership agreement and any amendments;
 3. Requirements which the Company may impose following its review of the above material required herein and other information which the Company may require.
 - E. WITH RESPECT TO A LIMITED LIABILITY COMPANY:
 1. A copy of its operating agreement and any amendments thereto;
 2. If it is a California limited liability company, a certified copy of its articles of organization (LLC-1) and any certificate of correction (LLC-11), certificate of amendment (LLC-2), or restatement of

- articles of organization (LLC-10) to be recorded in the public records;
3. If it is a foreign limited liability company, a certified copy of its application for registration (LLC-5) to be recorded in the public records;
 4. With respect to any deed, deed of trust, lease, subordination agreement or other document or instrument executed by such limited liability company and presented for recordation by the Company or upon which the Company is asked to rely, such document or instrument must be executed in accordance with one of the following, as appropriate:
 - (i) If the limited liability company properly operates through officers appointed or elected pursuant to the terms of a written operating agreement, such documents must be executed by at least two duly elected or appointed officers, as follows: the chairman of the board, the president or any vice president, and any secretary, assistant secretary, the chief financial officer or any assistant treasurer;
 - (ii) If the limited liability company properly operates through a manager or managers identified in the articles of organization and/or duly elected pursuant to the terms of a written operating agreement, such document must be executed by at least two such managers or by one manager if the limited liability company properly operates with the existence of only one manager.
 5. A certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
 6. Requirements which the Company may impose following its review of the above material and other information which the Company may require.
- F. WITH RESPECT TO A TRUST:
1. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
 2. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
 3. Other requirements which the Company may impose following its review of the material require herein and other information which the Company may require.
- G. WITH RESPECT TO INDIVIDUALS:
1. A statement of information.

The map attached, if any, may or may not be a survey of the land depicted hereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

APN: 472-26-089 (Affects: PARCEL 2) and 472-26-090 (Affects: PARCEL 1)

NOTICE I

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

If you have any questions about the effect of this new law, please contact your local First American Office for more details.

NOTICE II

As of January 1, 1991, if the transaction which is the subject of this report will be a sale, you as a party to the transaction, may have certain tax reporting and withholding obligations pursuant to the state law referred to below:

In accordance with Sections 18662 and 18668 of the Revenue and Taxation Code, a buyer may be required to withhold an amount equal to three and one-third percent of the sales price in the case of the disposition of California real property interest by either:

1. A seller who is an individual with a last known street address outside of California or when the disbursement instructions authorize the proceeds be sent to a financial intermediary of the seller, OR
2. A corporate seller which has no permanent place of business in California.

The buyer may become subject to penalty for failure to withhold an amount equal to the greater of 10 percent of the amount required to be withheld or five hundred dollars (\$500).

However, notwithstanding any other provision included in the California statutes referenced above, no buyer will be required to withhold any amount or be subject to penalty for failure to withhold if:

1. The sales price of the California real property conveyed does not exceed one hundred thousand dollars (\$100,000), OR
2. The seller executes a written certificate, under the penalty of perjury, certifying that the seller is a resident of California, or if a corporation, has a permanent place of business in California, OR
3. The seller, who is an individual, executes a written certificate, under the penalty of perjury, that the California real property being conveyed is the seller's principal residence (as defined in Section 1034 of the Internal Revenue Code).

The seller is subject to penalty for knowingly filing a fraudulent certificate for the purpose of avoiding the withholding requirement.

The California statutes referenced above include provisions which authorize the Franchise Tax Board to grant reduced withholding and waivers from withholding on a case-by-case basis.

The parties to this transaction should seek an attorney's, accountant's, or other tax specialist's opinion concerning the effect of this law on this transaction and should not act on any statements made or omitted by the escrow or closing officer.

The Seller May Request a Waiver by Contacting:

Franchise Tax Board
Withhold at Source Unit
P.O. Box 651
Sacramento, CA 95812-0651
(916) 845-4900

Privacy Policy

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its *Fair Information Values*, a copy of which can be found on our website at www.firstam.com.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's *Fair Information Values*. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

**CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
EXCLUSIONS**

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

- 1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - (a) building;
 - (b) zoning;
 - (c) land use;
 - (d) improvements on the Land;
 - (e) land division; and
 - (f) environmental protection.

This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.

- 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
- 3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
- 4. Risks:
 - (a) that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - (b) that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - (c) that result in no loss to You; or
 - (d) that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
- 5. Failure to pay value for Your Title.
- 6. Lack of a right:
 - (a) to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - (b) in streets, alleys, or waterways that touch the Land.
 This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows: For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

<u>Your Deductible Amount</u>	<u>Our Maximum Dollar Limit of Liability</u>
Covered Risk 16: 1% of Policy Amount or \$2,500.00 (whichever is less)	\$10,000.00
Covered Risk 18: 1% of Policy Amount or \$5,000.00 (whichever is less)	\$25,000.00
Covered Risk 19: 1% of Policy Amount or \$5,000.00 (whichever is less)	\$25,000.00
Covered Risk 21: 1% of Policy Amount or \$2,500.00 (whichever is less)	\$5,000.00

**ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)
EXCLUSIONS**

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

- 1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
 - (a) and use
 - (b) improvements on the land
 - (c) and division
 - (d) environmental protection

This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date.

This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.

- 2. The right to take the land by condemning it, unless:
 - (a) a notice of exercising the right appears in the public records on the Policy Date

- (b) the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking
3. Title Risks:
 - (a) that are created, allowed, or agreed to by you
 - (b) that are known to you, but not to us, on the Policy Date -- unless they appeared in the public records
 - (c) that result in no loss to you
 - (d) that first affect your title after the Policy Date -- this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
 4. Failure to pay value for your title.
 5. Lack of a right:
 - (a) to any land outside the area specifically described and referred to in Item 3 of Schedule A OR
 - (b) in streets, alleys, or waterways that touch your land

This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - a. a fraudulent conveyance or fraudulent transfer, or
 - b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not known to the Company, not recorded in the Public Records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - a. a fraudulent conveyance or fraudulent transfer, or
 - b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - i. the occupancy, use, or enjoyment of the Land;
 - ii. the character, dimensions, or location of any improvement erected on the Land;
 - iii. the subdivision of land; or
 - iv. environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - a. created, suffered, assumed, or agreed to by the Insured Claimant;
 - b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - c. resulting in no loss or damage to the Insured Claimant;
 - d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - a. a fraudulent conveyance or fraudulent transfer, or
 - b. a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.

charges that are imposed on Borrower or the Property by a condominium association, homeowners
association or similar organization.

(K) "Electronic Funds Transfer" means any transfer of funds, other than a transaction originated by
check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic
instrument, computer, or magnetic tape so as to order, instruct, or authorize a financial institution to debit
or credit an account. Such term includes, but is not limited to, point-of-sale transfers, automated teller
machine transactions, transfers initiated by telephone, wire transfers, and automated clearinghouse
transfers.

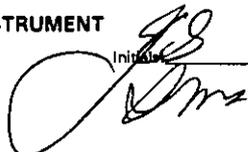

(L) "Escrow Items" means those items that are described in Section 3.

(M) "Miscellaneous Proceeds" means any compensation, settlement, award of damages, or proceeds paid
by any third party (other than insurance proceeds paid under the coverages described in Section 5) for: (i)
damage to, or destruction of, the Property; (ii) condemnation or other taking of all or any part of the
Property; (iii) conveyance in lieu of condemnation; or (iv) misrepresentations of, or omissions as to, the
value and/or condition of the Property.

(N) "Mortgage Insurance" means insurance protecting Lender against the nonpayment of, or default on,
the Loan.

(O) "Periodic Payment" means the regularly scheduled amount due for (i) principal and interest under the
Note, plus (ii) any amounts under Section 3 of this Security Instrument.

(P) "RESPA" means the Real Estate Settlement Procedures Act (12 U.S.C. Section 2601 et seq.) and its
implementing regulation, Regulation X (24 C.F.R. Part 3500), as they might be amended from time to
time, or any additional or successor legislation or regulation that governs the same subject matter. As used
in this Security Instrument, "RESPA" refers to all requirements and restrictions that are imposed in regard

Initials

to a "federally related mortgage loan" even if the Loan does not qualify as a "federally related mortgage loan" under RESPA.

(Q) "Successor in Interest of Borrower" means any party that has taken title to the Property, whether or not that party has assumed Borrower's obligations under the Note and/or this Security Instrument.

TRANSFER OF RIGHTS IN THE PROPERTY

This Security Instrument secures to Lender: (i) the repayment of the Loan, and all renewals, extensions and modifications of the Note; and (ii) the performance of Borrower's covenants and agreements under this Security Instrument and the Note. For this purpose, Borrower irrevocably grants and conveys to Trustee, in trust, with power of sale, the following described property located in the COUNTY of **SANTA CLARA** :

[Type of Recording Jurisdiction]

[Name of Recording Jurisdiction]

SEE EXHIBIT "A" ATTACHED HERETO AND INCORPORATED HEREIN FOR ALL PURPOSES

Parcel ID Number:
600 S 1ST STREET
SAN JOSE
("Property Address"):

which currently has the address of
[Street]
[City], California **95113** [Zip Code]

TOGETHER WITH all the improvements now or hereafter erected on the property, and all easements, appurtenances, and fixtures now or hereafter a part of the property. All replacements and additions shall also be covered by this Security Instrument. All of the foregoing is referred to in this Security Instrument as the "Property."

BORROWER COVENANTS that Borrower is lawfully seised of the estate hereby conveyed and has the right to grant and convey the Property and that the Property is unencumbered, except for encumbrances of record. Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. **Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges.** Borrower shall pay when due the principal of, and interest on, the debt evidenced by the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S.

[Handwritten initials]
Initials

currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be

Initials: _____

in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

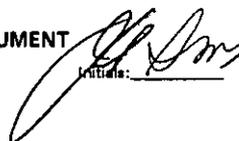

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the

Lender:

lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

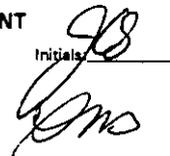

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee and Borrower further agrees to generally assign rights to insurance proceeds to the holder of the Note up to the amount of the outstanding loan balance. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee and Borrower further agrees to generally assign rights to insurance proceeds to the holder of the Note up to the amount of the outstanding loan balance.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with

the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.

9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable

attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

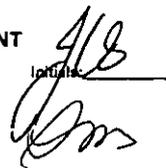

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

(a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.

Handwritten signature and initials in black ink, appearing to be 'JLB' and 'JMS'.

(b) Any such agreements will not affect the rights Borrower has - if any - with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.

11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

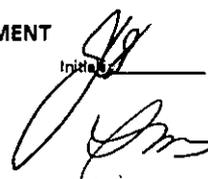

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender

Handwritten signature and initials in black ink, located at the bottom right of the page.

to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.

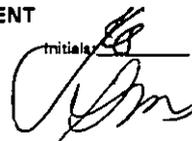

13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

Initials

16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA

requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

Initials:

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to bring a court action to assert the non-existence of a default or any other defense of Borrower to acceleration and sale. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may invoke the power of sale and any other remedies permitted by Applicable Law. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 22, including, but not limited to, reasonable attorneys' fees and costs of title evidence.

If Lender invokes the power of sale, Lender shall execute or cause Trustee to execute a written notice of the occurrence of an event of default and of Lender's election to cause the Property to be sold. Trustee shall cause this notice to be recorded in each county in which any part of the Property is located. Lender or Trustee shall mail copies of the notice as prescribed by Applicable Law to Borrower and to the other persons prescribed by Applicable Law. Trustee shall give public notice of sale to the persons and in the manner prescribed by Applicable Law. After the time required by Applicable Law, Trustee, without demand on Borrower, shall sell the Property at public auction to the highest bidder at the time and place and under the terms designated in the notice of sale in one or more parcels and in any order Trustee determines. Trustee may postpone sale of all or any parcel of the Property by public announcement at the time and place of any previously scheduled sale. Lender or its designee may purchase the Property at any sale.

Trustee shall deliver to the purchaser Trustee's deed conveying the Property without any covenant or warranty, expressed or implied. The recitals in the Trustee's deed shall be prima facie evidence of the truth of the statements made therein. Trustee shall apply the proceeds of the sale in the following order: (a) to all expenses of the sale, including, but not limited to, reasonable Trustee's and attorneys' fees; (b) to all sums secured by this Security Instrument; and (c) any excess to the person or persons legally entitled to it.

23. Reconveyance. Upon payment of all sums secured by this Security Instrument, Lender shall request Trustee to reconvey the Property and shall surrender this Security Instrument and all notes evidencing debt secured by this Security Instrument to Trustee. Trustee shall reconvey the Property without warranty to the person or persons legally entitled to it. Lender may charge such person or persons a reasonable fee for reconveying the Property, but only if the fee is paid to a third party (such as the Trustee) for services rendered and the charging of the fee is permitted under Applicable Law. If the fee charged does not exceed the fee set by Applicable Law, the fee is conclusively presumed to be reasonable.

24. Substitute Trustee. Lender, at its option, may from time to time appoint a successor trustee to any Trustee appointed hereunder by an instrument executed and acknowledged by Lender and recorded in the office of the Recorder of the county in which the Property is located. The instrument shall contain the name of the original Lender, Trustee and Borrower, the book and page where this Security Instrument is recorded and the name and address of the successor trustee. Without conveyance of the Property, the successor trustee shall succeed to all the title, powers and duties conferred upon the Trustee herein and by Applicable Law. This procedure for substitution of trustee shall govern to the exclusion of all other provisions for substitution.

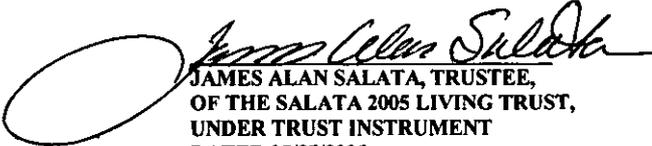

25. Statement of Obligation Fee. Lender may collect a fee not to exceed the maximum amount permitted by Applicable Law for furnishing the statement of obligation as provided by Section 2943 of the Civil Code of California.

Initials

The undersigned Borrower request that a copy of any Notice of Default and any Notice of Sale under this Security Instrument be mailed to him at the address of the Borrower set forth above. A copy of any Notice of Default and any Notice of Sale will be sent only to the address contained in this recorded request. If the Borrower's address changes, a new request must be recorded.

BY SIGNING BELOW, Borrower accepts and agrees to the terms and covenants contained in this Security Instrument and in any Rider executed by Borrower and recorded with it.

1-4 FAMILY RIDER (Assignment of Rents)

THIS 1-4 FAMILY RIDER is made this 19TH day of DECEMBER, 2012, and is incorporated into and shall be deemed to amend and supplement the Mortgage, Deed of Trust, or Security Deed (the "Security Instrument") of the same date given by the undersigned (the "Borrower") to secure Borrower's Note to WELLS FARGO BANK, N.A.

(the "Lender") of the same date and covering the Property described in the Security Instrument and located at: 600 S 1ST STREET, SAN JOSE, CA 95113

[Property Address]

1-4 FAMILY COVENANTS. In addition to the covenants and agreements made in the Security Instrument, Borrower and Lender further covenant and agree as follows:

A. ADDITIONAL PROPERTY SUBJECT TO THE SECURITY INSTRUMENT. In addition to the Property described in the Security Instrument, the following items now or hereafter attached to the Property to the extent they are fixtures are added to the Property description, and shall also constitute the Property covered by the Security Instrument: building materials, appliances and goods of every nature whatsoever now or hereafter located in, on, or used, or intended to be used in connection with the Property, including, but not limited to, those for the purposes of supplying or distributing heating, cooling, electricity, gas, water, air and light, fire prevention and extinguishing apparatus, security and access control apparatus, plumbing, bath tubs, water heaters, water closets, sinks, ranges, stoves, refrigerators, dishwashers, disposals, washers, dryers, awnings, storm windows, storm doors, screens, blinds, shades, curtains and curtain rods, attached mirrors, cabinets, paneling and attached floor coverings, all of which, including replacements and additions thereto, shall be deemed to be and remain a part of the Property covered by the Security Instrument. All of the foregoing together with the Property described in the Security Instrument (or the leasehold estate if the Security Instrument is on a leasehold) are referred to in this 1-4 Family Rider and the Security Instrument as the "Property."

B. USE OF PROPERTY; COMPLIANCE WITH LAW. Borrower shall not seek, agree to or make a change in the use of the Property or its zoning classification, unless Lender has agreed in writing to the change. Borrower shall comply with all laws, ordinances, regulations and requirements of any governmental body applicable to the Property.

C. SUBORDINATE LIENS. Except as permitted by federal law, Borrower shall not allow any lien inferior to the Security Instrument to be perfected against the Property without Lender's prior written permission.

D. RENT LOSS INSURANCE. Borrower shall maintain insurance against rent loss in addition to the other hazards for which insurance is required by Section 5.

Initials:
[Handwritten Signature]

E. "BORROWER'S RIGHT TO REINSTATE" DELETED. Section 19 is deleted.

F. BORROWER'S OCCUPANCY. Unless Lender and Borrower otherwise agree in writing, Section 6 concerning Borrower's occupancy of the Property is deleted.

G. ASSIGNMENT OF LEASES. Upon Lender's request after default, Borrower shall assign to Lender all leases of the Property and all security deposits made in connection with leases of the Property. Upon the assignment, Lender shall have the right to modify, extend or terminate the existing leases and to execute new leases, in Lender's sole discretion. As used in this paragraph G, the word "lease" shall mean "sublease" if the Security Instrument is on a leasehold.

H. ASSIGNMENT OF RENTS; APPOINTMENT OF RECEIVER; LENDER IN POSSESSION. Borrower absolutely and unconditionally assigns and transfers to Lender all the rents and revenues ("Rents") of the Property, regardless of to whom the Rents of the Property are payable. Borrower authorizes Lender or Lender's agents to collect the Rents, and agrees that each tenant of the Property shall pay the Rents to Lender or Lender's agents. However, Borrower shall receive the Rents until: (i) Lender has given Borrower notice of default pursuant to Section 22 of the Security Instrument, and (ii) Lender has given notice to the tenant(s) that the Rents are to be paid to Lender or Lender's agent. This assignment of Rents constitutes an absolute assignment and not an assignment for additional security only.

If Lender gives notice of default to Borrower: (i) all Rents received by Borrower shall be held by Borrower as trustee for the benefit of Lender only, to be applied to the sums secured by the Security Instrument; (ii) Lender shall be entitled to collect and receive all of the Rents of the Property; (iii) Borrower agrees that each tenant of the Property shall pay all Rents due and unpaid to Lender or Lender's agents upon Lender's written demand to the tenant; (iv) unless applicable law provides otherwise, all Rents collected by Lender or Lender's agents shall be applied first to the costs of taking control of and managing the Property and collecting the Rents, including, but not limited to, attorney's fees, receiver's fees, premiums on receiver's bonds, repair and maintenance costs, insurance premiums, taxes, assessments and other charges on the Property, and then to the sums secured by the Security Instrument; (v) Lender, Lender's agents or any judicially appointed receiver shall be liable to account for only those Rents actually received; and (vi) Lender shall be entitled to have a receiver appointed to take possession of and manage the Property and collect the Rents and profits derived from the Property without any showing as to the inadequacy of the Property as security.

If the Rents of the Property are not sufficient to cover the costs of taking control of and managing the Property and of collecting the Rents any funds expended by Lender for such purposes shall become indebtedness of Borrower to Lender secured by the Security Instrument pursuant to Section 9.

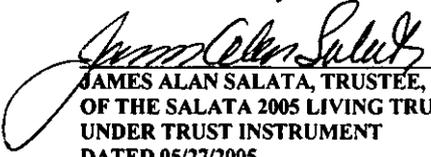

Borrower represents and warrants that Borrower has not executed any prior assignment of the Rents and has not performed, and will not perform, any act that would prevent Lender from exercising its rights under this paragraph.

Lender, or Lender's agents or a judicially appointed receiver, shall not be required to enter upon, take control of or maintain the Property before or after giving notice of default to Borrower. However, Lender, or Lender's agents or a judicially appointed receiver, may do so at any time when a default occurs. Any application of Rents shall not cure or waive any default or invalidate any other right or remedy of Lender. This assignment of Rents of the Property shall terminate when all the sums secured by the Security Instrument are paid in full.

I. CROSS-DEFAULT PROVISION. Borrower's default or breach under any note or agreement in which Lender has an interest shall be a breach under the Security Instrument and Lender may invoke any of the remedies permitted by the Security Instrument.

BY SIGNING BELOW, Borrower accepts and agrees to the terms and covenants contained in this 1-4 Family Rider.

INTER VIVOS REVOCABLE TRUST RIDER

DEFINITIONS USED IN THIS RIDER.

(A) "Revocable Trust." The **SALATA 2005 LIVING** Trust created under trust instrument dated **05/27/2005** , for the benefit of **JAMES ALAN SALATA AND SUZANNE MARIE SALATA**

(B) "Revocable Trust Trustee(s)." **JAMES ALAN SALATA AND SUZANNE MARIE SALATA** trustee(s) of the Revocable Trust.

(C) "Revocable Trust Settlor(s)." **JAMES ALAN SALATA AND SUZANNE MARIE SALATA** settlors(s) of the Revocable Trust signing below.

(D) "Lender." **WELLS FARGO BANK, N.A.**

(E) "Security Instrument." The Deed of Trust, Mortgage, or Security Deed and any riders thereto of the same date as this Rider given to secure the Note to Lender of the same date made by the Revocable Trust, the Revocable Trust Trustee(s) and the Revocable Trust Settlor(s) and any other natural persons signing such Note and covering the Property (as defined below).

(F) "Property." The property described in the Security Instrument and located at : **600 S 1ST STREET, SAN JOSE, CA, 95113**

[Property Address]

THIS INTER VIVOS REVOCABLE TRUST RIDER is made this 19 day of December, 2012, and is incorporated into and shall be deemed to amend and supplement this Security Instrument.

ADDITIONAL COVENANTS. In addition to the covenants and agreements made in the Security Instrument, the Revocable Trust Trustee(s), and the Revocable Trust Settlor(s) and the Lender further covenant and agree as follows:

A. INTER VIVOS REVOCABLE TRUST

1. CERTIFICATION AND WARRANTIES OF REVOCABLE TRUST TRUSTEE(S).

The Revocable Trust Trustee(s) certify to Lender that the Revocable Trust is an inter vivos revocable trust for which the Revocable Trust Trustee(s) are holding full title to the Property as trustee(s).

Initials: 

The Revocable Trust Trustee(s) warrants to Lender that (i) the Revocable Trust is validly created under the laws of the state of **CALIFORNIA**; (ii) the trust instrument creating the Revocable Trust is in full force and effect and there are no amendments or other modifications to the trust instrument affecting the revocability of the Revocable Trust; (iii) the Property is located in the State of **CALIFORNIA**; (iv) the Revocable Trust Trustee(s) have full power and authority as trustee(s) under the trust instrument creating the Revocable Trust and under applicable law to execute the Security Instrument, including this Rider; (v) the Revocable Trust Trustee(s) have executed the Security Instrument, including this Rider, on behalf of the Revocable Trust; (vi) the Revocable Trust Settlor(s) have executed the Security Instrument, including this Rider, acknowledging all of the terms and conditions contained therein and agreeing to be bound thereby; (vii) only the Revocable Trust Settlor(s) and the Revocable Trust Trustee(s) may hold any power of direction over the Revocable Trust; (viii) only the Revocable Trust Settlor(s) hold the power to direct the Trustee(s) in the management of the Property; (ix) only the Revocable Trust Settlor(s) hold the power of revocation over the Revocable Trust; and (x) the Revocable Trust Trustee(s) have not been notified of the existence or assertion of any lien, encumbrance or claim against any beneficial interest in, or transfer of all or any portion of any beneficial interest in or powers of direction over the Revocable Trust Trustee(s) or Revocable Trust, as the case may be, or power of revocation over the Revocable Trust.

2. NOTICE OF CHANGES TO REVOCABLE TRUST AND TRANSFER OF POWERS OVER REVOCABLE TRUST TRUSTEE(S) OR REVOCABLE TRUST OR BOTH; NOTICE OF CHANGE OF REVOCABLE TRUST TRUSTEE(S); NOTICE OF CHANGE OF OCCUPANCY OF THE PROPERTY; NOTICE OF TRANSFER OF BENEFICIAL INTEREST IN REVOCABLE TRUST.

The Revocable Trust Trustee(s) shall provide timely notice to Lender promptly upon Notice or knowledge of any revocation or termination of the Revocable Trust, or of any change in the holders of the powers of direction over the Revocable Trust Trustee(s) or the Revocable Trust, as the case may be, or of any change in the holders of the power of revocation over the Revocable Trust, or both, or of any change in the occupancy of the Property, or of any sale, transfer, assignment or other disposition (whether by operation of law or otherwise) of any beneficial interest in the Revocable Trust.

B. ADDITIONAL BORROWER(S).

The term "Borrower" when used in the Security Instrument shall refer to the Revocable Trust, the Revocable Trust Trustee(s) and the Revocable Trust Settlor(s), jointly and severally. Each party signing this Rider below (whether by accepting and agreeing to the terms and covenants contained herein or by acknowledging all of the terms and covenants contained herein and agreeing to be bound thereby, or both) covenants and agrees that, whether or not such party is named as "Borrower" on the first page of the Security Instrument, each covenant and agreement and undertaking of "Borrower" and shall be enforceable by Lender as if such party were named as "Borrower" in the Security Instrument.

Initials:

C. TRANSFER OF THE PROPERTY OR A BENEFICIAL INTEREST IN THE REVOCABLE TRUST.

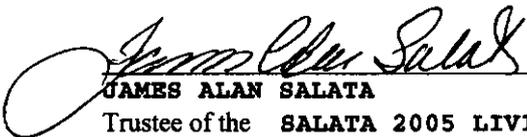

Uniform Covenant 18 of the Security Instrument is amended to read as follows:

Transfer of the Property or a Beneficial Interest in Revocable Trust.

If, without Lender's prior written consent, (i) all or any part of the Property or an interest in the Property is sold or transferred or (ii) there is a sale, transfer, assignment, or other disposition of any beneficial interest in the Revocable Trust, Lender may, at its option, require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give the Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

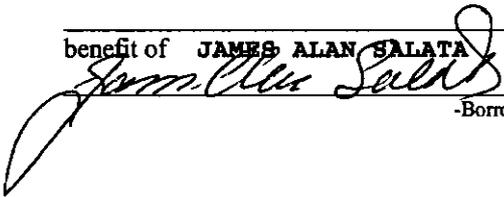

BY SIGNING BELOW, the Revocable Trust Trustee(s) accepts and agrees to the terms and covenants contained in this Inter Vivos Revocable Trust Rider.

PROPOSED ADJUSTMENT

Between parcels A & B as designated on attached map entitled, "Lot Line Adjustment San José, California," dated July 28, 1994 described in the attached legal description shown on the attached exhibit(s).

ENVIRONMENTAL STATUS

Exempt

OWNER

Mak-Mor, A Limited Partnership

ADDRESS

PO Box 2305, Los Gatos, CA 95031

FINDINGS

1. The Lot Line Adjustment requested is between two or more adjacent parcels. The taken from one of the parcels is being added to the adjacent parcel. This Adjustment not create a greater number of parcels than originally existed.
2. The environmental impacts of the project will not have an unacceptable negative on adjacent property or properties in that:
 - a. Under the provisions of Section 15305 of the State Guidelines for Implementation of the California Environmental Quality Act (CEQA), this project is exempt from the environmental review requirements of Title 21 of the San José Municipal Code implementing the California Environmental Quality Act of 1970, as amended because the project will not have a significant adverse effect on the environment.

Any change of the Assessor's Parcel Number must be approved by the Office of the City Assessor.

Based on the above-stated findings and subject to the condition(s) set forth below, the Director of Planning approves, pursuant to Section 19.08.440A7 of the San José Municipal Code and Section 66412(d) of the Subdivision Map Act, said Lot Line Adjustment.

six-month period this Lot Line Adjustment has not been recorded. In the event of a change of ownership, the applicant shall provide evidence to the satisfaction of the Director of Planning that a disclosure of this Lot Line Adjustment has been provided to all new owners prior to recordation of said Lot Line Adjustment.

APPROVED and issued this 1st day of September

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 04/05/2017 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

<i>LORENTZ BARREL & DRU</i>	<i>1515 S 10TH ST</i>	<i>ESE 1/2 - 1 (0.797 mi.)</i>	<i>0</i>	<i>9</i>

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 02/07/2017 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 6 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 01/30/2017 has revealed that there are 7 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

CA LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA LUST list, as provided by EDR, has revealed that there are 46 CA LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 2 CA UST sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

SAN JOSE GAS WORKS	E. SAN FERNANDO AND	NNW 1/2 - 1 (0.597 mi.)	AA125	287

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk

EXECUTIVE SUMMARY

Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 22 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 7 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Summary Details:

Conditions at proposal October 15, 1984): Lorent Barrel Drum Co. recycles drums at a plant in San Jose, Santa Clara County, California. The 5-acre site is surrounded by residential, industrial, and business areas. On-site monitoring wells are contaminated with trichloroethane, trichloroethylene, 1,1-dichloroethylene, and tetrachloroethylene, according to analyses conducted by a consultant to Lorent. Contamination is believed to have resulted from overflowing sumps and spills. About 250,000 people obtain drinking water from wells within 3 miles of the site. Lorent is working with the California Regional Water Quality Control Board (CRWQCB) to determine the extent of ground water contamination. The board issued a Cleanup and Abatement Order to the company in August 1983. The plant received Interim Status under Subtitle C of the Resource Conservation and Recovery Act (RCRA) when the company filed Part A of a permit application. On March 25, 1981, EPA removed the facility as a treatment, storage, or disposal facility because it was not engaged in hazardous waste activities. This is one of 19 sites in the South Bay Area of San Francisco. Facilities at these sites have used a variety of toxic chemicals, primarily chlorinated organic solvents, which contaminate a common ground water basin. Although these sites are listed separately, EPA intends to apply an area-wide approach to the problem as well as take specific action as necessary. Status February 1986): In March 1985, EPA and the California Department of Health Services (CDHS) discovered over 300 drums containing phenols, methylene chloride, and PCBs stored on the Lorent property. In response to action by the Santa Clara District Attorney, the company removed the drums. CRWQCB is overseeing the Lorent investigation to determine the extent of ground water contamination. CDHS will oversee the investigation of soil contamination. On February 7, 1986, the Santa Clara County District Attorney filed a complaint against the company for violation of State hazardous waste

laws. The facility has been shut down until procedures for compliance are developed. Status June 24, 1988): EPA is proposing to place this previously proposed RCRA site on the final NPL. The company is classified as a non-filer. Hence, it satisfies a component of EPA's NPL/RCRA policy. In July 1987, the owner of the Lorent site was ordered to shut it down permanently, sentenced to 2 years in jail, and fined 2.04 million. Recent sampling by CDHS consultants has shown extensive contamination in soil and ground water, both on- and off-site. In addition to the chlorinated organics identified earlier, pesticides, metals, and PCBs are present. On December 1, 1987, EPA took over as lead agency for a remedial investigation/feasibility study (RI/FS) at the site. In February 1988, CDHS completed an expedited response action consisting of excavating soil with high concentrations of PCBs. In March 1988, EPA and CDHS completed removal of 1,000 drums of hazardous materials. All materials were transported to regulated disposal facilities. The site was then graded and the surface sealed to control drainage. In May 1988, EPA completed an engineering evaluation cost analysis for systems to pump and treat shallow contaminated ground water. Status October 4, 1989): EPA has placed this site on the NPL. EPA completed the RI/FS. Following a period of public comment, a Record of Decision was signed in September 1988 finalizing the remedy as treatment of ground water with an on-site ultraviolet light oxidation system. EPA is currently designing an off-site extraction system and an on-site treatment facility. EPA is also investigating the extent of the contamination in soils and on structures and expects to complete an RI/FS for the overall site in early 1990.

 Site Description: Between 1954 and 1968, the warehouse to the west of the processing facility was reportedly destroyed by fire and other structures were added or modified. The 1971 aerial photograph indicates that the northwest portion of the LB&D property (part of the RFI property) was fenced from the remainder of the LB&D property. This property was used as a junkyard. The 1976 aerial photograph of the current RFI property shows that the area was filled with automobiles (presumably junked), while in a 1980 aerial photo, the majority of the automobiles were gone. The 1982 aerial photograph shows the main RFI facility constructed. The basic structures on the LB&D property remained largely unchanged after 1968. From the photo, it appears that roadway improvements and sidewalk additions on both East Alma Avenue and South Tenth Street, which occurred in the late 1970s or early 1980s, may have covered over portions of land impacted by the LB&D facility operations. There are four predominantly granular water-bearing or potentially water-bearing subsurface zones below the LB&D site. These zones have been designated with respect to increasing depth below ground surface (bgs) as Zone A, Zone B, Zone C, and Zone D. The contaminated shallow groundwater currently located in Zone B comprises OU-2. If contaminated groundwater from Zone B also comes to exist in Zone A (e.g., a rise in the water table or resaturation), Zone A groundwater would be addressed under OU-2. The deep aquifer (Zones C and D) and potential conduits between the shallow and deeper aquifers comprise the groundwater portion of OU-1. Unsaturated portions of Zone A lying above the contaminated groundwater in Zone B contain low levels of VOCs. VOC-contaminated soil gas and soil in Zone A are considered part of OU-1. The LB&D site is located in the southeastern corner of the San Jose subarea as defined by the California Department of Water Resources. This subarea is one of the most important natural sources of groundwater in the south San Francisco Bay area (South Bay). The deep aquifer (250 to 400 feet bgs) is a major source of potable groundwater, from which it is estimated that Santa Clara Valley extracts 107,000 acre-feet per year. Three public water supply well fields (owned by SJWC), located at the 12th Street, Cottage Grove, and Needles Stations, are within 1 mile of the LB&D site. An SJSU well is located at the Spartan Stadium. Groundwater in the area is used for drinking and irrigation. The nearby water wells all draw water from screened intervals located at depths greater than 150 feet bgs. The principal groundwater extraction wells for drinking water purposes are located in the Zone D aquifer and are operated by the SJWC. The SJSU Spartan Stadium well is used for both potable and irrigation purposes. The Kelley Park well provides water for the fish pond and is not used as a potable water supply. There are no extraction wells located in the Zone B aquifer other than those used for treatment of the contaminated groundwater. Coyote Creek is located less than 0.5 miles northeast of the LB&D property. Historically, the primary uses of water from this creek have been agricultural and to some extent recreational. Its current principal value is the contribution to the ecology of the South Bay. No other surface waters are located within 2 miles of the LB&D site. Approximately 2.75 acres of the LB&D property have been paved with a tar and gravel mixture (chipped seal) to cover an area once used for drum

LORENTZ BARREL & DRUM CO. (Continued)

1000208886

storage. The paved area overlies soils which are discolored and potentially contaminated. A small portion of this 2.75 acres is covered by an asphaltic-concrete cover installed by LB&D. The other 2.5 acres of the LB&D property are unpaved but are covered by five buildings which housed the drum reconditioning facilities, several sumps, an open storage bin located adjacent to the processing facility, various piles of wood, rusted metal debris, numerous empty drums and numerous nonhazardous drums. All of these structures and materials, with the exception of an intact warehouse and drums of ash, are scheduled to be removed in 1993 and 1994 by a group of potentially responsible parties (PRPs) under an Administrative Order on Consent (AOC) as more fully described below. Some of the facility structures, numerous barrels and limited amounts of soil were removed from the LB&D site during 1987 emergency response actions conducted by the California Department of Health Services' (DHS's) toxic substances control division, (now known as DTSC, a part of Cal-EPA). The RFI property includes both the RFI and PSS parcels. The RFI parcel is completely covered by a concrete slab, and the PSS parcel is entirely covered by asphalt. The Lorentz family started recycling drums at the former LB&D facility in 1947. During the early years, portions of the original LB&D property (10.5 acres) were also rented or leased to other companies. Several facilities were in operation on the LB&D property around 1954, including an auto wrecker, a junkyard, a roofing company, a construction company, and sandblasting services. Drums for recycling were received from both private and public sources throughout California and Nevada. Private sources included over 2000 different companies and individuals, representing chemical, food, health care, electronics, paint, ink, and paper industries. Public sources included military bases, research laboratories, and county agencies. Many drums arrived at the LB&D facility containing residual aqueous wastes, organic solvents, acids, oxidizers, and oils. The LB&D facility operations consisted in part of emptying all residues, cleaning, resealing, repainting, and reselling the drums. Residues were removed from the drums by various methods, including caustic and acid washes, incineration, blasting with steel shot, and steam cleaning. Drums were then resurfaced, resealed, and repainted using various substances, including phenolic epoxy resins and rust inhibitors.

From the 1950s until some time between 1976 and 1978, a drainage ditch from the processing facility was utilized to drain wastes. The drainage ditch discharged to a large sump (approximately 30 by 80 feet) located in the northern corner of the LB&D property bounded by the corner of East Alma Avenue and South 10th Street. Aerial photographs of the LB&D site from that time period reveal the presence of liquids in the sump, drainage ditch, and various ponded areas. The sump discharged to the storm drain system. Between 1968 and 1971, the discharge was diverted to the sanitary sewer. Previous investigations have indicated that discharge to the sanitary sewer ceased in 1983 or 1984. After 1984, liquid wastes were reportedly reduced in volume by evaporation, drummed, and disposed as hazardous waste along with incinerator ash, residual liquids, and sludge. Surface runoff was reportedly collected and recycled in the hot caustic wash cycle of the drum recycling process. As a result of the LB&D facility operations, a large variety of chemical residues from drums delivered to the LB&D site, as well as chemicals used by the LB&D facility in its drum reconditioning processes, have contaminated soil, structures, and shallow groundwater at and beneath the LB&D site. Contaminated groundwater has also migrated about 2,000 feet north of the LB&D property. The LB&D facility ceased operations in 1987. In late 1987 and early 1988, DTSC and the U.S. Environmental Protection Agency (EPA) conducted emergency response actions at the LB&D site that included removal of 3,000 cubic yards of highly contaminated soils at the former main sump area and over 2 6,000 drums, some of which contained residues. At the conclusion of the removal action, the majority of the LB&D property was paved over. In 1992,

1000208886

pursuant to a Consent Decree (CD) with EPA, a group of eleven PRPs, known as the Lorentz Shallow Groundwater Task Force (LSGTF), completed construction of and began operating a shallow groundwater extraction and treatment system. This system addresses the VOC contamination of groundwater beneath the LB&D site, as well as the plume that extends approximately 2,000 feet north from the former main sump. Recently, a separate group of seven PRP companies, known as the Structures Removal Group, has begun a removal of buildings, sumps, drums, and miscellaneous debris pursuant to an AOC with EPA. They are expected to complete the removal in 1994. Since 1981, there have been several environmental sampling studies at the LB&D site aimed at investigating the nature and extent of contamination. Over a period of 6 years DTSC and LB&D have collected soil and groundwater samples from on-site and off-site monitoring wells. Numerous metals, organics, and PCBs were found above Total Threshold Limit Concentrations (TTLC). In 1988, EPA began field activities for the Remedial Investigation (RI). The RI included sampling and analysis of surface and subsurface soil, facility structures, groundwater, sediments, and surface water; a geophysical survey; topographic surveying and mapping; pump tests; borehole geophysics; geotechnical sampling; air sampling; and biota sampling. Additionally, a limited well survey was performed, and potential conduits were investigated. Beginning in 1991, EPA commenced field activities for six RI addenda. For RI Addendum No. 1, EPA installed eight Zone B, one Zone C, and one Zone D monitoring wells to better define the groundwater contaminant plume boundaries and to provide deep aquifer monitoring. RI Addendum No. 2 included sampling of 30 soil borings on the RFI property to assess the impact of the LB&D operations on the RFI property. RI Addendum No. 3 updated the Baseline Health Risk Assessment (BHRA) contained in the RI by evaluating soil risks under a residential use scenario. It also modeled and evaluated potential risk from the vapor-phase migration of groundwater contaminants up to the surface and into confined spaces of buildings located above the plume. In RI Addendum No. 4, EPA assessed the location and status of potential conduits and whether additional conduits existed along the leading edge of the plume. In RI Addendum No. 5, EPA investigated the stockpiled soil excavated from the treatment facility foundation to assess the soil contamination present. The sampling results of the stockpiled soil were compared with previous investigation results to evaluate heterogeneity of LB&D soil. For RI Addendum No. 6, EPA installed one Zone C monitoring well to serve as a warning well for the SJSU Spartan Stadium well and to better define the characteristics of the Zone C aquifer immediately downgradient from the original source area. In addition, various sampling and analysis activities have been performed by the Structures Removal Group as part of the removal of structures, debris, equipment, and drums. Specific sampling activities have been performed on drum contents, sump liquids, and building materials. Since 1968, federal, state, and local authorities have taken many regulatory and enforcement actions at the LB&D site. In summary, the major enforcement actions have included: -1968: City of San Jose industrial waste inspector ordered Lorentz to switch sump discharge from Coyote Creek storm drain to the sanitary sewer. -1980: California Occupational Safety and Health Administration (Cal-OSHA) informed DHS of potential problems with hazardous materials at the Lorentz facility. LB&D site is entered into EPA's CERCLIS database. -1982: DTSC inspected the facility and issued a Notice of Violation to Lorentz for soil and groundwater contamination. -1983: The Regional Water Quality Control Board (RWQCB) began investigating potential threats to the groundwater from sumps and other LB&D facility activities and issued Clean Up & Abatement Order No. 83-007. U.S. Dept. of Fish & Game cited Lorentz for violations involving heavy metals and petroleum products in surface runoff leaving the LB&D facility and entering the storm drain to Coyote Creek. -1984: San Jose/Santa Clara Water Pollution Control District cited Lorentz for violations and issued a cease and desist

1000208886

order for discharge into sanitary sewer. EPA completed a Preliminary Assessment and Site Investigation and proposed the LB&D site for the National Priorities List (NPL). -1985: DTSC cited LB&D with 14 violations of the California Administrative Code and Federal Regulations concerning the handling and storage of hazardous wastes. The Santa Clara County District Attorney obtained a Temporary Restraining Order to close down operations at LB&D. Operations resumed after 3 months. -1986: The Santa Clara County District Attorney filed a criminal complaint against LB&D and Ernest Lorentz which alleged the defendants had committed one felony and 13 misdemeanor violations of the California Hazardous Waste Control Act. The RWQCB issued Corrective Action Order #86-001 requiring LB&D to determine the lateral off-site extent of groundwater pollution. -1987: The LB&D facility ceased operation. EPA assumed the lead agency responsibility for the LB&D site remediation. -1988: EPA and DTSC completed removal of 3,000 cubic yards of highly contaminated soils and over 26,000 drums. EPA paved most of the LB&D property. -1988: EPA issued the OU-2 ROD for expedited cleanup of the shallow groundwater. -1989: EPA sent Special Notice to 43 PRPs to start negotiations on the OU-2 ROD. The LB&D site went from proposed to final on the NPL. -1990: EPA and 11 PRPs (the LSGTF) signed a CD requiring the PRPs to design, construct, and operate a shallow groundwater extraction and treatment system as specified in the OU-2 ROD. -1992: EPA and a group of 7 different PRPs (the Structures Removal Group) signed an AOC that requires the PRPs to remove from the LB&D property and dispose of the remaining barrels, asbestos, site debris, structures (except the concrete pads and the warehouse), and sumps. -1993: EPA proposed a final remedy addressing all remaining contamination at the LB&D site. The main objective of the response action selected as the final remedy for the LB&D site is to protect human health and the environment from all remaining releases or threats of releases of hazardous substances that have not already been addressed by previous or current cleanup actions at the LB&D site. The materials of concern include groundwater in deeper aquifers, vadose zone soil gas near residences situated above the shallow groundwater contaminant plume, vertical and horizontal conduits (e.g., old agricultural wells and sewer lines), structures and debris (e.g., septic tank), residues (e.g., LB&D incinerator ash), soil contaminated with health-risk based COCs, and, the only principal threat remaining unaddressed at the LB&D site, soil contaminated with VOCs that threaten groundwater. A ROD addressing OU-1 of the Lorentz Barrel and Drum site was completed in August, 1993. The Lorentz Barrel and Drum (LB&D) site is located in Santa Clara County, about 13 miles southeast of the southern tip of San Francisco Bay. The LB&D site is defined as all land previously used for LB&D facility operations and all areas where contamination from the LB&D facility operations has come to reside. The LB&D site includes a contaminated shallow groundwater plume area and properties containing contaminated soil, structures, debris, and residues. The original LB&D property consisted of 10.5 acres located at the southern corner of South Tenth Street and East Alma Avenue in the City of San Jose. A 3.78-acre portion of the original property was never significantly involved in the LB&D drum recycling operations and was transferred shortly after the LB&D operations began. This portion includes the 3.39-acre Norton/Phelps property and a 0.39-acre Western Pacific Railroad easement. This portion is located at the southeastern end of the original LB&D property and is not considered part of the LB&D site. The remaining 6.72-acre portion of the original 10.5-acre LB&D property that is contaminated from operations of the former LB&D facility is part of the LB&D site. This portion includes the LB&D property, defined as the 5.25-acre, L-shaped parcel that contained the LB&D facility operations in 1987. The former LB&D facility included all the buildings, equipment, and land that LB&D used in operating the drum recycling business from 1947 onward. Before 1981, facility operations also occurred on neighboring property, currently owned by Recycled

LORENTZ BARREL & DRUM CO. (Continued)

1000208886

Fibers, Inc. (RFI), that once was part of the original 10.5-acre LB&D property. The 1.47-acre RFI property includes the 1.32-acre RFI parcel (388 East Alma Avenue) that is occupied by the RFI paper recycling business operations (formerly known as Arata Western) and the 0.15-acre Pacific Sandblast Services (PSS) parcel (400 East Alma Avenue) that is occupied by the PSS business operations. PSS once leased its parcel from LB&D and now leases its parcel from RFI. In addition to the former LB&D facility property, the LB&D site also includes a limited amount of adjacent City of San Jose property. The adjacent city sidewalk area is defined as soil belonging to the City of San Jose located between the LB&D property fence lines parallel to East Alma Avenue and to South Tenth Street and their respective street pavements. While the former LB&D facility operation did not officially involve the adjacent city sidewalk area, it is likely that contaminated runoff from the LB&D property contaminated soil beneath the sidewalks. Finally, the area above the shallow groundwater plume is also part of the LB&D site, although there is no known surface or shallow soil contamination in this area, except for those portions of the plume that lie under LB&D, RFI, and adjacent city sidewalk area properties. The LB&D and RFI property, and the surrounding area to the south and west are zoned for commercial/industrial use per the City of San Jose Planning Department. The predominant zoning within a 1-mile radius of the LB&D property is commercial/industrial. The residential and recreational district to the north and east of the LB&D property includes Spartan Stadium (San Jose State University [SJSU] football stadium), San Jose Municipal Stadium (City of San Jose), and SJSU recreation fields. The City of San Jose intends to maintain and further develop the recreational uses of land to the north and east of the LB&D site. The closest residence to the LB&D property is the SJSU student housing on South Tenth Street, located approximately 700 feet north. Single family residential houses are located 1,100 feet north of the LB&D property. Less than 3,000 people are estimated to live within a 1-mile radius of the LB&D property. Currently, the groundwater is being extracted from a series of extraction wells located both on and off the Site. The extracted groundwater is pumped to an on-Site treatment facility. At the treatment facility the contaminated groundwater is first treated in an ultra violet/oxidation unit ("UV/Ox"). The UV/Ox unit subjects the groundwater to ultra violet light and oxidizing chemicals (ozone) which converts volatile organic compounds ("VOCs") in the contaminated groundwater into less toxic compounds. However, due to a lack of efficiency of the UV/Ox system in destroying several of the organic contaminants, the contaminated groundwater is then filtered through a series of granular activated carbon ("GAC") filters, and treated to levels below allowable discharge limits. The treated groundwater is then discharged to a local storm sewer. Concentrations of organic contaminants at the Site have generally decreased since commencement of the groundwater treatment system in 1992. Based on the reductions in the concentrations of organic contaminants in the groundwater being extracted at the Site, and the inefficiency of the UV/Ox unit in its ability to reduce these organic contaminants to the discharge limits, the potentially responsible parties ("PRPs") implementing the groundwater remediation program have requested that EPA approve a change to the current treatment system involving the removal of the UV/Ox treatment unit from the approved treatment program. The revised treatment system would consist of subjecting the contaminated groundwater to the GAC filters, exclusively. From 1947 to 1987, an operation existed at the Site wherein drums would be received onsite and rinsed and/or reconditioned. The drums often contained substances such as organic solvents, pesticides, acids, bases, oxidizers, and oils. Many of the substances were discharged to a drainage ditch and on-site sumps, eventually making their way to a nearby creek. Site investigations indicated that on-site operations resulted in organic and inorganic contamination of the local shallow groundwater. These contaminants

MAP FINDINGS

LORENTZ BARREL & DRUM CO. (Continued)

1000208886

included trichloroethene (TCE), trichloroethane (TCA), tetrachloroethene (PCE), dichloroethene (DCE), dichloroethane (DCA), vinyl chloride, and others. In September 1988, the OU-2 Record of Decision (ROD) was signed by EPA. Subsequently, in 1990, a group of PRPs for the Site agreed to implement the remedy selected in the OU-2 ROD. This agreement was memorialized in a Partial Consent Decree between the United States and the PRPs. The Partial Consent Decree was approved by the Northern District of California on July 6, 1990 (Civil No. C 90 0488 EFL). This ESD addresses differences to the remedy selected under the OU-2 ROD. The OU-2 ROD addressed an Expedited Response Action (ERA)/Operable Unit for treatment of the contaminated shallow groundwater. The remedy selected in the OU-2 ROD addressed the principal near-term threats to groundwater in the Site vicinity. The threat of contamination of the deep drinking water aquifer and nearby surface water bodies was addressed by extracting the contaminated shallow groundwater and treating it to action levels prescribed by the Applicable or Relevant and Appropriate Requirements (ARARs). The major components of the shallow groundwater remedy chosen in the OU-2 ROD included: -construction and operation of a groundwater extraction system to intercept several shallow groundwater plumes; -construction and operation of a groundwater treatment system; and -disposal of treated groundwater to the storm sewer, which flows to Coyote Creek. The selected groundwater treatment system included a commercially available packaged ultra violet light/ozone system to destroy VOCs. If necessary, an ion exchange column would be added to remove nickel. Treatability studies of the UV/Ox unit conducted at the Site in August 1988 determined that a GAC polishing unit was not necessary in order to meet the cleanup standards. However, startup operations of the UV/Ox unit following signing of the OU-2 ROD in September of 1988 indicated that the GAC polishing process was needed in order to meet the cleanup standards, and became part of the groundwater treatment system. The ion exchange column was found not to be necessary. An Explanation of Significant Differences for Operable Unit 02 of the Lorentz Barrel & Drum Company Site was completed in April 1998.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision w/ESD
Completed Date: 05/21/1998
Comments: US-EPA approved an ESD for soil remediation.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Action Completion Report
Completed Date: 09/28/1998
Comments: Preliminary close-out report finalized. Report documents completion of construction activities for OU1 and OU2. Remaining response consists of operation and maintenance of groundwater treatment system, soil vapor extraction system, and cap.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: Cap design completed. Design calls for 229,000 square feet of 3" asphalt concrete pavement with 6" layer of aggregate base.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: Remedial design report approved. Report outlines plans for design, installation, and O&M of SVE system and asphalt cap.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 09/30/1994
Comments: EPA completed 3 separate removal actions: (1) Removal of 5 buildings and the process equipment and scrap within including 17 sumps, 7 tanks and several debris stockpiled. At the end of this RA, 1033 tons of industrial wastes, 15 tons of liquid hazardous was and 73 tons of solid hazardous waste was shipped off-site for disposal. (2) Removal of 1200 drums, 150 drums containing solvents, 350 drums containing debris, and 23 drums containing ash and liquids. Removal of tanks, vats, sumps, and process equipment. Removal of 1.18 tons of asbestos containing building materials. (3) Paving of previously and newly exposed surface soil resulting from the above removal actions. Paving used a chip seal material. Approximately 4-1/4 acres were sealed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation / Feasibility Study
Completed Date: 04/22/1993
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 03/30/1992
Comments: Shallow groundwater treatment system completed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 06/28/1991
Comments: Remedial design for groundwater completed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Record of Decision
Completed Date: 09/30/1988
Comments: EPA issued a ROD for the shallow groundwater operable unit. The remedy includes extraction/treatment of shallow groundwater and discharge of treated water to the storm sewer.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Workplan
Completed Date: 08/30/1988
Comments: Completed EE/CA for shallow groundwater expedited response action. Groundwater pump-and-treat system was determined to be an effective method for remediating the shallow groundwater.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Completion Report
Completed Date: 03/30/1988
Comments: Implemented an Expedited Response Action (ERA). The ERA consisted of the following activities: drum inventory; construction of decontamination facilities; removal of polychlorinated biphenyl (PCB) contaminated pits, which were later backfilled with clean soil and capped; removal, recycling, or treatment of thousands of gallons of processed plant liquids; removal of 15 tons of contaminated scrap; and design of a surface water control plan, which was submitted to EPA for implementation. EPA installed a chip seal over approximately two thirds of the five-acre site. Demobilization occurred at the end of March 1988. A total of 21,286 drums, 1,330 tons of scrap metal, and 2,982 cubic yards of contaminated soil were removed from the site.
Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Design/Implementation Workplan
Completed Date: 05/15/1998
Comments: SVE system design completed. Design includes submersible pumps, equalization tank, air-water separator, centrifugal transfer pump, positive displacement blower, air-to-air heat exchanger, liquid phase GAC, and vapor phase GAC.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 07/27/1990
Comments: Remedial Investigation Report approved. Nature and extent of contamination in surface soils, subsurface soils, groundwater, surface water, air, and structures evaluated. Fate and transport of PCBs, pesticides, VOCs, base/neutral and acid extractable compounds, metals, and dioxins/furans discussed. Current and future exposure pathways included in baseline risk assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 02/01/1987
Comments: Preliminary Site Assessment completed. Report summarizes site characteristics, site history, known soil and groundwater conditions, hydrogeology, surface hydrology, and risks to nearby receptors.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Remedial Investigation Report
Completed Date: 06/19/1992
Comments: Six addenda to the Remedial Investigation include: report of monitoring well installations in Zone B, C, and D aquifers; results of shallow soil investigation on Recycled Fibers, Inc. property; update to the risk assessment for soils; results of the investigation of four conduits near the leading edge of the plume; results of soil sampling; results of installation and sampling of a monitoring well in the Zone C aquifer.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Plan Amendment
Completed Date: 08/01/2006
Comments: Soil investigation concluded that pesticides, PCE, TCE, and metals

including arsenic were present in soil, however, all contaminants were present at concentrations below human health screening levels (or established background). The proposed design for the repairs includes removal of 1,424 square feet of concrete and asphalt, replacement of the cap in these areas with slab and AC over 12" of aggregate, and sealing of 4,000 linear feet of less severe cracks with joint sealant.

Completed Area Name: Shallow Groundwater
Completed Sub Area Name: Not reported
Completed Document Type: Long Term Monitoring Report
Completed Date: 12/27/2007
Comments: 2007 GW monitoring report reviewed by DTSC and found to be adequate.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 09/21/2010
Comments: DTSC reviewed the 5-year report and did not have any comments and concurs with the USEPA recommendations in the report and the finding that the selected remedy continues to be protective in the short-term.
Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Long Term Monitoring Report
Completed Date: 07/30/2010
Comments: DTSC have reviewed the shallow groundwater treatment monitoring report and has no comments. This is a USEPA and WaterBoard lead site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Feasibility Study Workplan
Completed Date: 12/19/2011
Comments: The USEPA has approved the feasibility study workplan for Lorentz Barrel and Drum. The draft Sampling and Analysis Plan and the draft Quality Assurance Project Plan is due January 4th, 2012.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Long Term Monitoring Report
Completed Date: 12/20/2011
Comments: Lorentz Barrel and Drum submitted the 2011 Annual Groundwater Monitoring Report No. 43.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Long Term Monitoring Report
Completed Date: 01/31/2012
Comments: Groundwater treatment report for September 2011 - December 2011.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Long Term Monitoring Report
Completed Date: 12/16/2011
Comments: Annual groundwater monitoring report from December 1, 2010 through November 30, 2011.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 5 Year Review Reports
Completed Date: 09/01/2015
Comments: The Fourth Five-Year Review Report identified as a remedy performance issue that the migration of 1,4-dioxane may not be controlled and there is continued diffusion of contamination from the A/B aquitard to Zone A soil vapor and Zone B groundwater. The remedies for OU-1 and OU-2 were determined to be protective of human health and the environment; however, in order for the remedies to be protective in the long-term, the Focused Feasibility Study needs to be completed in order to evaluate the current remedies for both OU-1 and OU-2 and make recommendations to modify the existing remedies or select new remedies for both OUs. .

Completed Area Name: 10th Street Land Management property
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 03/06/2002
Comments: Deed restriction recorded for property owned by 10th Street Land Management. Residences, hospitals, day care facilities, food cultivation, and groundwater extraction are prohibited at the site. Interference with site cap and remediation system are also prohibited. Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 10/07/1992
Comments: Seven respondents signed agreement to conduct a limited removal action at the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 09/30/1989
Comments: EPA issued a Consent Decree with 11 PRPs to implement the groundwater remediation recommended by the ROD. In May 1989, EPA conducted an investigation, identifying approximately 200 companies who had delivered drums and barrels to the former drum recycling facility.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Unilateral Order (I/SE, RAO, CAO, EPA AO)
Completed Date: 06/30/1987
Comments: Determined noncompliance with the RAO issued in February 1987.

Comments: Consent Order signed. The Newark Group agreed to pay response costs incurred by DTSC and to abide by the terms of the site deed restriction.

Completed Area Name: Newark Group property
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction - Site Inspection/Visit
Completed Date: 11/16/2006
Comments: Site inspection found compliance with land use covenant on Newark Group property.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Order
Completed Date: 01/27/2004
Comments: Consent decree signed to recover DTSC response costs from the primary large quantity generators.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 05/23/1995
Comments: Administrative order on consent signed for de minimis settlement. The settlement pertains to 89 parties, each contributing less than 1% of the drums recycled at the facility.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 09/23/1996
Comments: Administrative consent order signed for the 2nd round of cost recovery de minimus settlement. Settling parties contributed less than 1% of total drums recycled at the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Consent Decree
Completed Date: 09/16/1997
Comments: Administrative consent order signed for the 3rd round of the cost recovery de minimus settlement. Settling parties contributed less than 1% of total drums recycled at the site.

Completed Area Name: 10th Street Land Management property
Completed Sub Area Name: Not reported
Completed Document Type: Consent Order
Completed Date: 01/23/2002
Comments: DTSC signed Prospective Purchaser Agreement with 10th Street Land Management. Property will be used as a long-term storage yard for commercial and construction vehicles. Settling respondent to maintain site cap and enter into a land use covenant.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Unilateral Order (I/SE, RAO, CAO, EPA AO)
Completed Date: 02/23/1987
Comments: DTSC issued RAO for soil and groundwater contamination resulting from drum reconditioning business.

EPA Region: 09
Land type: Facility is not located on Indian land. Additional information is not known.
Classification: Non-Generator
Description: Handler: Non-Generators do not presently generate hazardous waste

Owner/Operator Summary:

Owner/operator name: LORENTZ ERNEST
Owner/operator address: NOT REQUIRED
NOT REQUIRED, ME 99999
Owner/operator country: Not reported
Owner/operator telephone: (415) 555-1212
Legal status: Private
Owner/Operator Type: Owner
Owner/Op start date: Not reported
Owner/Op end date: Not reported

Legal status: Private
Owner/Operator Type: Operator
Owner/Op start date: Not reported
Owner/Op end date: Not reported

Handler Activities Summary:

U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Facility Has Received Notices of Violations:

Regulation violated: Not reported
Area of violation: Generators - General
Date violation determined: 03/01/1985
Date achieved compliance: 03/08/1988
Violation lead agency: State
Enforcement action: Not reported
Enforcement action date: Not reported

Environmental Interest/Information System
SUPERFUND NPL

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Region: STATE
Global Id: T0608501801
Latitude: 37.3273333333333
Longitude: -121.8837
Case Type: LUST Cleanup Site
Status: Open - Site Assessment
Status Date: 02/21/2011
Lead Agency: SANTA CLARA COUNTY LOP
Case Worker: GOR
Local Agency: SANTA CLARA COUNTY LOP
RB Case Number: 14-225
LOC Case Number: 07S1E17G02f
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: MTBE / TBA / Other Fuel Oxygenates, Gasoline
Site History: The first soil borings were drilled onsite in may 1993. 5 soil borings (B1 through B5) were drilled near the former dispenser islands, gasoline USTs and the "unknown featur" at the reas of the building. Petroleum hydrocarbons were detected in both soil and groundwter samples from the soil borings. In August 1994, 7 additional soil borings (SB1 through SB7) were advanced onsite. 4 were completed as groundwater monitoring wells (MW1 through MW4). TPHg was reported in groundwater from well MW1 at 50,000 ppb. In July 1999, 9 geoprobe borings (GP1 through GP9) were advanced for the collection of soil and groundwater samples. In December 2000, 4 wells (MW5 through MW8) were installed on and offsite. In October 2004, a two-phase extraction system (TPET) was installed at the site. In the fourth quarter 2008, the TPET system was replaced with a new dual-phase extraction and treatment (DPET) system. Remediation and monitoring are ongoing.

 Secondary Waste: Not reported
 Secondary Waste Type: Not reported
 Design Flow: 0
 Baseline Flow: 0
 Reclamation: No reclamation requirements associated with this facility.
 POTW: The facility is not a POTW.
 Treat To Water: Moderate Threat to Water Quality. A violation could have a major adverse impact on receiving biota, can cause aesthetic impairment to a significant human population, or render unusable a potential domestic or municipal water supply. Aesthetic impairment would include nuisance from a waste treatment facility.
 Complexity: Category B - Any facility having a physical, chemical, or biological waste treatment system (except for septic systems with subsurface disposal), or any Class II or III disposal site, or facilities without treatment systems that are complex, such as marinas with petroleum products, solid wastes, and sewage pump out facilities.

 Potential Media Affect: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
 Potential Contaminants of Concern: Benzene, Toluene, Xylene, Diesel, MTBE / TBA / Other Fuel Oxygenates, Gasoline

Site History:

The Site is located at the north corner of the South Fourth Street and East William Street intersection within the City of San Jose . A small convenience store occupies the north portion of the Site and a remediation treatment plant occupies the east portion of the Site. Total petroleum hydrocarbons as gasoline (TPHg) and diesel fuel (TPHd) were initially detected in soil and groundwater beneath the Site during investigation activities in 1989. Since 1989, corrective action work including soil and groundwater investigations and remediation work has been performed under the direction of the local oversight agency (currently Santa Clara County Department of Environmental Health) and the Site has been assigned Fuel Leak Case No. 14-049. Investigation and remediation work completed to date include drilling of more than 40 soil borings, installation of 24 groundwater monitoring/extraction wells, and construction and operation of a remediation system. Investigative results indicate that the fuel leak originating from the Site contained a mixture of fuel-related compounds, including TPHg and methyl tertiary butyl ether (MTBE). While this mixture of dissolved TPHg and MTBE has advected down-gradient to the north-northeast, a TPHg plume without MTBE has been detected up- and cross-gradient to the southeast and east. The up- and cross-gradient TPHg contamination was attributed to Fuel Leak Case No. 14-049 and the local oversight agency required several stages of investigation work to characterize its lateral extent. At least six borings and nested wells MW-7A and MW-7B were installed southeast and east of the Site in order to characterize up- and cross-gradient contamination, and groundwater extraction well EW-4 was installed in order to control further migration of these cross-gradient contaminants. Possible Up-Gradient Source of Petroleum Hydrocarbon Contamination In 2004, Allterra hypothesized that the up- and cross-gradient hydrocarbon contamination did not originate from the Site, but from an unidentified leaking UST located somewhere east to southeast of the Site. To evaluate the hypothesis, Allterra performed a historical survey of the area immediately southeast of the Site, as documented in Allterras March 31, 2005 Corrective Action Plan. A brief description of the rationale for this hypothesis is as follows: Up- and Cross-Gradient Groundwater Data: The fuel oxygenate

S104162848

MTBE is listed as a chemical of concern for Fuel Leak Case No. 14-049. As expected, MTBE has been detected in borings and wells down-gradient of the Site (north to northeast). However, while the TPHg-MTBE plume has migrated down-gradient, analytical data for up- and crossgradient samples indicate high levels of TPHg and non-detect levels of MTBE. A Gas Station Formerly Operated at 502 South Fourth Street: Interviews with residents in the surrounding neighborhood indicated that the apartment complex located at the east corner of the South Fourth Street and East William Street intersection (502 South Fourth Street) had been the former location of gasoline service station up until about 1960. The operation of a gas station at 502 South Fourth Street was verified after a review of (1) Polk Directories from 1940 and 1942 (Bob and Teds Station), (2) an 1954 aerial photograph, and (3) a 1950 Sanborn Map. Comparing the location of the former gas station at 502 South Fourth Street with the available groundwater data suggests that the TPHg contamination east and southeast of the Site originated from the former gas station. However, before proceeding with possible enforcement action, an additional stage of investigation was appropriate. Up-Gradient Source Investigation Activities The following is a discussion of investigation activities up-gradient of the Site, that included a series of five Geoprobe soil borings advanced through the sidewalk area along East William Street. The purpose of the investigation was to further characterize up- and cross-gradient hydrocarbon contamination that is suspected to be migrating from the former gas station located at 502 South Fourth Street. Rationale for Boring Locations Five Geoprobe borings, designated UB-1 through UB-5, were advanced through the sidewalk along the southeastern side of East William Street. The borings were aligned in a transect that began at the east corner of South Fourth and East William Streets and extended northeast toward South Fifth Street. Exact boring locations were determined in the field based on three considerations: 1) locations suspected to be directly down-gradient of the former gas station; 2) locations that would fill-in gaps in historical data; and 3) locations where drilling equipment was not constrained by physical barriers. An encroachment permit (Permit No. 3-16984) was obtained from the City of San Jose for installing borings in the public right-of-way. Soil and groundwater samples were submitted, under chain-of-custody protocol, for chemical analysis to McCampbell Analytical, Inc., of Pacheco, California, a state of California certified laboratory (ELAP #1644).

 Potential Media Affect: Other Groundwater (uses other than drinking water)
 Potential Contaminants of Concern: Gasoline
 Site History:

Actual:
104 ft.

Based on information provided in the May 15, 2009, Quarterly Report #45, 2nd Quarter 2009 Discharge of Treated Groundwater to Storm Drain prepared by Western Geo-Engineers for the groundwater extraction and treatment system at the site; groundwater extraction commenced at the site in 1991, approximately 4 million gallons of groundwater have been treated, and approximately 37 gallons of TPHg have been removed. However, the system was shut down on May 7, 2009, due to the relatively low petroleum hydrocarbon mass removal rate; deactivation of the system was approved by SCCDEH in an April 21, 2009 letter. Groundwater sampling procedures consist of initially measuring and documenting the water level in the well and checking the well for the presence of separate-phase hydrocarbon (SPH) using an oil/water interface probe or a clear Teflon bailer. If the well did not contain SPH, it was purged a minimum of three casing volumes or until dry. During purging, well stabilization parameters (temperature, pH, and

MAP FINDINGS

REGAL #423 (Continued)

S102429512

electrical conductivity) were monitored and recorded. After 80% recovery of the water level, groundwater samples were collected with a new disposable polyethylene bailer or pre-cleaned reusable Teflon bailer and placed into the appropriate EPA-approved containers. Reusable sampling equipment was cleaned with trisodium phosphate solution and clean water between uses. The samples were labeled, logged onto chain-of-custody documents, and transported on ice to the laboratory using appropriate chain-of-custody documentation. Groundwater samples were submitted to a California state-certified laboratory, and analyzed for TPHg, benzene, toluene, ethylbenzene, xylenes (collectively BTEX), methyl tertiary butyl ether, and tertiary butanol EPA Method 8260B. The results of the current monitoring event indicate that since shut down of the groundwater extraction and treatment system, dissolved concentrations of petroleum hydrocarbons, MtBE and TBA remain relatively stable and/or within historic ranges, except at wells MW07 and MW08. Continued evaluation of the concentrations will be conducted during ensuing monitoring events; the next event is scheduled for the second half of 2011.

WDS:

Facility ID: San Francisco Bay 438390002
Facility Type: Other - Does not fall into the category of Municipal/Domestic, Industrial, Agricultural or Solid Waste (Class I, II or III)
Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
NPDES Number: CAG912002 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board
Subregion: 2
Facility Telephone: 5306685300
Facility Contact: George Converse (Western Geo)
Agency Name: WICKLAND PROPERTIES
Agency Address: PO BOX 13648
Agency City,St,Zip: SACRAMENTO 95853
Agency Contact: Dan Hall
Agency Telephone: 9169782460
Agency Type: Private
SIC Code: 5541
SIC Code 2: Not reported
Primary Waste Type: Hazardous/Influent or Solid Wastes that contain toxic, corrosive, ignitable or reactive substances and must be managed according to applicable DOHS standards.
Primary Waste: CNWTRS
Waste Type2: Not reported
Waste2: Contaminated Ground Water
Primary Waste Type: Hazardous/Influent or Solid Wastes that contain toxic, corrosive, ignitable or reactive substances and must be managed according to applicable DOHS standards.
Secondary Waste: Not reported
Secondary Waste Type: Not reported
Design Flow: 0
Baseline Flow: 0
Reclamation: No reclamation requirements associated with this facility.
POTW: The facility is not a POTW.
Treat To Water: Moderate Threat to Water Quality. A violation could have a major adverse impact on receiving biota, can cause aesthetic impairment to a significant human population, or render unusable a potential domestic or municipal water supply. Aesthetic impairment would include nuisance from a waste treatment facility.
Complexity: Category B - Any facility having a physical, chemical, or biological waste treatment system (except for septic systems with subsurface disposal), or any Class II or III disposal site, or facilities without treatment systems that are complex, such as marinas with petroleum products, solid wastes, and sewage pump out facilities.

 LOC Case Number: 07S1E08P02f
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Potential Media Affect: Other Groundwater (uses other than drinking water)
 Potential Contaminants of Concern: Heating Oil / Fuel Oil
 Site History: Underground heating oil tank located within the basement of the building. In 1992, a water main/line ruptured near this building and flooded the basement. The flooding caused the product to come out of the tank. The tank was taken out of service and the tank was left in place. Subsurface investigation conducted in 2010 found soil and groundwater contamination. The UST will be properly closed in place.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Area Name: PROJECT WIDE
 Completed Sub Area Name: Not reported
 Completed Document Type: Site Screening
 Completed Date: 12/27/1991
 Comments: Completed Site Screening. In January 1989, additional sampling was conducted at the site. Soil boring results detected total oil and grease (TOG) and total petroleum hydrocarbons as diesel (TPHd) in excess of 1000 ppm. Lead was detected at 938 ppm. In May 1989, two groundwater monitoring wells (MW-1 and MW-2) were installed at the property. Lead was detected in groundwater at a concentration of 0.181 ppm. In May 1989, contaminated soil was removed from the previous sampled area. Final soil sample results indicated only one sample contained TOG at 780 ppm and lead at 191 ppm. The sample that contained the TOG and lead was collected beneath the foundation of

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/05/2017	Source: EPA
Date Data Arrived at EDR: 04/21/2017	Telephone: N/A
Date Made Active in Reports: 05/12/2017	Last EDR Contact: 06/09/2017
Number of Days to Update: 21	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 08/15/2011
Number of Days to Update: 56	Next Scheduled EDR Contact: 11/28/2011

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/05/2017	Source: EPA
Date Data Arrived at EDR: 04/21/2017	Telephone: N/A
Date Made Active in Reports: 05/12/2017	Last EDR Contact: 06/09/2017
Number of Days to Update: 21	Next Scheduled EDR Contact: 07/17/2017

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/05/2017	Telephone: 703-603-8704
Date Made Active in Reports: 04/07/2017	Last EDR Contact: 04/07/2017
Number of Days to Update: 92	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017	Source: EPA
Date Data Arrived at EDR: 04/19/2017	Telephone: 800-424-9346
Date Made Active in Reports: 05/05/2017	Last EDR Contact: 06/08/2017
Number of Days to Update: 16	Next Scheduled EDR Contact: 07/31/2017
	Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 02/07/2017	Source: EPA
Date Data Arrived at EDR: 04/19/2017	Telephone: 800-424-9346

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 05/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 05/02/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 04/10/2017

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 05/02/2017

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 02/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/28/2017	Telephone: 703-603-0695
Date Made Active in Reports: 06/09/2017	Last EDR Contact: 05/31/2017
Number of Days to Update: 101	Next Scheduled EDR Contact: 09/11/2017
	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 02/13/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/28/2017	Telephone: 703-603-0695

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board's review found that more than one-third of the region's active disposal pits are operating without permission.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

East Map:	5640414 SAN JOSE EAST, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

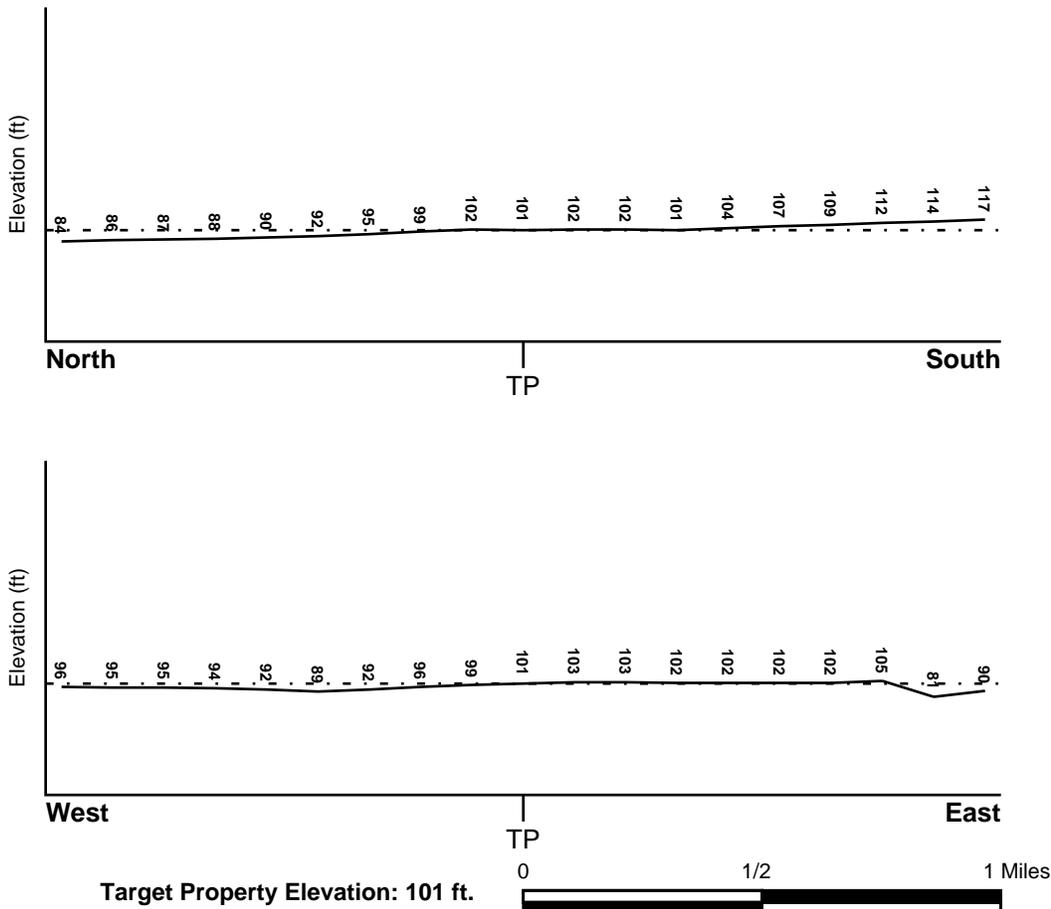

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06085C0234H	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>

06085C0242H	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
SAN JOSE WEST	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile WNW
Site Name:	River Park Development-Lincoln Props
Site EPA ID Number:	CAD981676430
Surficial Aquifer Flow Dir.:	SW. THIS FLOW APPLIES TO THE "A" AQUIFER.
Measured Depth to Water:	approximately 22 feet in the surficial "A" aquifer and approximately 95 feet in the underlying "B" aquifer.
Hydraulic Connection:	A silty clay layer separates the "A" and "B" aquifers.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Cenozoic
System: Quaternary
Series: Quaternary
Code: Q (*decoded above as Era, System & Series*)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: BOTELLA

Soil Surface Texture: clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: MODERATE

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	9 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.60 Min: 0.20	Max: 7.30 Min: 5.60
2	9 inches	41 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60
3	41 inches	76 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: No Other Soil Types

Surficial Soil Types: No Other Soil Types

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

CA WELLS 7698

Water System Information:

Prime Station Code:	07S/01E-22H07 M	User ID:	HEN
FRDS Number:	4310011110	County:	Santa Clara
District Number:	05	Station Type:	WELL/AMBNT/MUN/INTAKE/SUPPLY
Water Type:	Well/Groundwater	Well Status:	Active Untreated
Source Lat/Long:	371900.0 1215300.0	Precision:	1 Mile (One Minute)
Source Name:	TULLY WELL 04		
System Number:	4310011		
System Name:	San Jose Water Company		
Organization That Operates System:	1221 S. Bascom Avenue San Jose, CA 95128		
Pop Served:	944000	Connections:	206890
Area Served:	SAN JOSE VICINITY		
Sample Collected:	10-AUG-11	Findings:	16. MG/L
Chemical:	NITRATE (AS NO3)		

GEOCHECK® - PHYSICAL SETTING SOURCE MAP FINDINGS

Sample Collected:	22-AUG-12	Findings:	15. MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	06-DEC-12	Findings:	0.81 PCI/L
Chemical:	GROSS ALPHA COUNTING ERROR		
Sample Collected:	06-DEC-12	Findings:	1.4 PCI/L
Chemical:	GROSS ALPHA MDA95		
Sample Collected:	14-JAN-13	Findings:	3.2 UG/L
Chemical:	CHROMIUM, HEXAVALENT		
Sample Collected:	01-AUG-13	Findings:	0.56 UG/L
Chemical:	1,1,1-TRICHLOROETHANE		
Sample Collected:	01-AUG-13	Findings:	15. MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	10-DEC-13	Findings:	980. US
Chemical:	SPECIFIC CONDUCTANCE		
Sample Collected:	10-DEC-13	Findings:	7.25
Chemical:	PH, LABORATORY		
Sample Collected:	10-DEC-13	Findings:	370. MG/L
Chemical:	ALKALINITY (TOTAL) AS CaCO3		
Sample Collected:	10-DEC-13	Findings:	450. MG/L
Chemical:	BICARBONATE ALKALINITY		
Sample Collected:	10-DEC-13	Findings:	440. MG/L
Chemical:	HARDNESS (TOTAL) AS CaCO3		
Sample Collected:	10-DEC-13	Findings:	71. MG/L
Chemical:	CALCIUM		
Sample Collected:	10-DEC-13	Findings:	64. MG/L
Chemical:	MAGNESIUM		
Sample Collected:	10-DEC-13	Findings:	42. MG/L
Chemical:	SODIUM		
Sample Collected:	10-DEC-13	Findings:	1.4 MG/L
Chemical:	POTASSIUM		
Sample Collected:	10-DEC-13	Findings:	53. MG/L
Chemical:	CHLORIDE		
Sample Collected:	10-DEC-13	Findings:	77. MG/L
Chemical:	SULFATE		
Sample Collected:	10-DEC-13	Findings:	270. UG/L
Chemical:	BARIUM		
Sample Collected:	10-DEC-13	Findings:	590. MG/L
Chemical:	TOTAL DISSOLVED SOLIDS		
Sample Collected:	10-DEC-13	Findings:	- 7.e-002
Chemical:	LANGELIER INDEX AT SOURCE TEMP.		
Sample Collected:	10-DEC-13	Findings:	15. MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	10-DEC-13	Findings:	7000. UG/L
Chemical:	CARBON DIOXIDE		

GEOCHECK® - PHYSICAL SETTING SOURCE MAP FINDINGS

Sample Collected:	10-DEC-13	Findings:	12.07
Chemical:	AGGRSSIVE INDEX (CORROSIVITY)		
Sample Collected:	10-DEC-13	Findings:	3500. MG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	18-AUG-14	Findings:	13. MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	31-AUG-15	Findings:	13. MG/L
Chemical:	NITRATE (AS NO3)

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish & Game

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Langan Treadwell Rollo were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Search Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

APPENDIX H
RESUMES OF ENVIRONMENTAL PROFESSIONALS

Wendy Kwong

Staff Scientist
Environmental Engineering

4 years in the industry ~ 3 years with Langan

Ms. Kwong's experience includes projects involving groundwater monitoring, hazardous soil remediation, site mitigation, soil management, dust mitigation, and vapor mitigation systems throughout the San Francisco Bay Area. She has worked on various environmental projects, which require lengthy commitments. She has completed Phase I Environmental Assessments (ESAs) and Vapor Mitigation System projects, and has completed data analyses on projects related to indoor air, vapor gas sampling, soil sampling, groundwater sampling, and dust monitoring. She manages field investigations, including but not limited to, soil excavation oversight, soil sampling, groundwater sampling, vapor mitigation system installation, and dust monitoring. Wendy assists with proposals and cost estimates for waste characterization and field investigations.

Ms. Kwong is currently working on a variety of projects. She manages and analyzes large amounts of data for projects like Hunters Point Naval Shipyard and Golden State Warriors. She is working on Phase I ESAs, field investigations related to soil and vapor mitigation system installations.

Selected Projects

- Hunters Point Naval Shipyard, Feasibility Assessment for Various Parcels, San Francisco, CA
- Alameda Point Naval Base, Alameda, CA
- 801 Brannan, Dust Monitoring Plan and Vapor Mitigation System, San Francisco, CA
- 1 Henry Adams Street, Vapor Mitigation System, San Francisco, CA
- Transbay Block 8, Site Mitigation Plan, San Francisco, CA
- Block 40, Site Mitigation Plan and Vapor Mitigation System, San Francisco, CA
- Golden State Warriors, Dust Monitoring Plan, San Francisco, CA

Education

B.Sc., Environmental Systems,
concentration in Environmental
Chemistry
University of California, San Diego

Certifications

40-Hour Hazardous Waste Operations
and Emergency Response
(HAZWOPER)

Land Science Technologies Geo -
Seal Certified Inspector

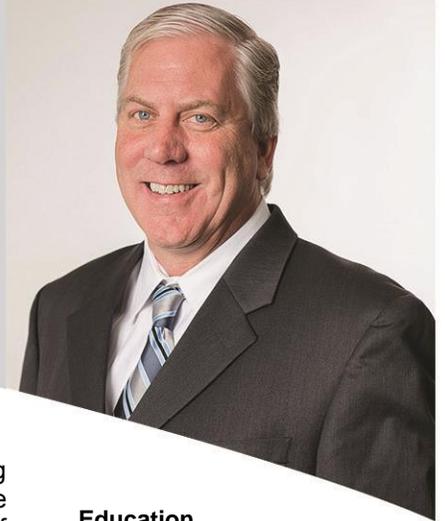

CETCO Certified Inspector

Software Training

Microsoft Office Suite
Bluebeam Revu

Peter Cusack

**Senior Associate/Vice President
Environmental Engineering**

28 years in the industry ~ 25 years with Langan

Mr. Cusack has 28 years of experience managing and implementing hazardous waste characterization and remediation projects. His experience includes pre-acquisition site assessments, site investigations, removal of underground storage tanks, Phase II investigations, soil and groundwater sampling and remediation, development of soil management plans, aquifer pumping tests, contractor oversight, and field inspection for numerous construction projects and preparation of site closure reports. His work is often done in coordination with our geotechnical practice. He has extensive experience in site investigations and regulatory agency interaction prior to and during new construction/development.

Selected Projects

- Environmental Site Assessments, Numerous Throughout the Bay Area
- Soil and Groundwater Site Investigations, Over 125 Throughout the Bay Area
- New Transbay Transit Center, San Francisco, CA
- Temporary Transbay Terminal, San Francisco, CA
- Portside North Residential High-Rise, San Francisco, CA
- International Hotel Site, San Francisco, CA
- University of San Francisco, Malloy Hall, San Francisco, CA
- UCSF Mission Bay Campus, Mission Bay, San Francisco, CA
- Genetics and Developmental Science Building, Building 19B, Mission Bay, San Francisco, CA
- Parking Garage, Building 21A, Mission Bay, San Francisco, CA
- Campus Community Center, Building 21B, Mission Bay, San Francisco, CA
- Parcel N4AP1, Mission Bay, San Francisco, CA
- Parcels N3AP2 & N3P2, Mission Bay, San Francisco, CA
- Buildings 10 and 10A, Mission Bay, San Francisco, CA
- 301 Mission Street, San Francisco, CA
- 535 Mission Street, San Francisco, CA
- 555 Mission Street, San Francisco, CA
- 300 Spear Street, San Francisco, CA
- 2175 Market Street, San Francisco, CA
- 2121 Third Street, San Francisco, CA
- 750 Second Street, San Francisco, CA
- 10th and Mission Street, San Francisco, CA
- 9th and Jessie Street, San Francisco, CA
- Vallejo Station Parking Garage, Vallejo, CA
- 5812 Hollis Street, Emeryville, CA
- City of San Pablo, San Pablo, CA
- 333 First Street, San Francisco, CA
- Hastings College of Law Property, San Francisco, CA
- 200 Brannan Street, San Francisco, CA
- Portside North Residential High-Rise, San Francisco, CA

Education

Bachelor of Technology, Civil
Rochester Institute of Technology

Engineering Technology
Rochester Institute of Technology
