

## North 1<sup>st</sup> Street Local Transit Village: Amenity Ranking

---

### Information:

#### 1. What are amenities?

Amenities are items that the community has prioritized as having great importance and wishes to see within their neighborhoods. It is a way for the City and your Council District representative to understand what is valued within this community. Establishing amenities will help the City pursue appropriate funding (whether it is through a grant or other means) to implement these amenities.

#### 2. What are potential amenities that you would like in your community?

Amenities can include the following:

- Plazas and open spaces
- Mom and pop commercial tenant spaces
- Public art
- Streetscape amenities (this can include, but are not limited to: enhanced sidewalks, landscaping, street furniture, etc.)

#### 3. How will these amenities be implemented?

Depending on the amenity, these are implemented by a developer as part of their project, or by the City as part of a grant project or other City effort.

#### 4. Who will build these amenities?

The amenities can be pursued if the City receives funding or if a property is proposed for redevelopment. Often times, these amenities could be included in a development proposal when a property is proposed for redevelopment.

### Instructions:

Please discuss what kind of amenities that are desired within this community. You may refer to the list of potential amenities in point #2 above.
