

Agenda Item 5a: Standard Agency Resolution Approach

The following are recommended common components to agency resolutions in support of the Stevens Creek Boulevard Corridor Vision and Implementation Plan. The three recommended components are:

- Vision Statements
- Continuing Coordination
- Maintenance of a list of actions/projects to allow for coordination of funding, multijurisdictional coordination and support.

1. VISION STATEMENT

XXXXXX declares that it supports the Vision of the Stevens Creek Boulevard Corridor:

The Stevens Creek Boulevard Corridor transportation infrastructure changed little in the past 50 years while the area it serves grew into a worldwide hub of innovation. Therefore, we envision the transportation corridor our community deserves to support continued residential and commercial vibrancy: safe and enjoyable travel for people of every age, ability, and chosen mode.

Residents, businesses, and visitors would be served by:

A high-capacity transit system supported by station access enhancements to connect the Cities of Cupertino, Santa Clara, and San José from Diridon Station and Downtown San José to De Anza College within twenty minutes, with connection to Foothill Boulevard, for reliable travel to local and regional destinations. Station areas would be well-maintained and inviting community assets.

A stress-free and enjoyable walking and bicycling environment. High-quality pedestrian and bicycle infrastructure would be prioritized to connect neighborhoods to the corridor within a 20-minute walk of transit stops.

Safe and efficient vehicle travel would be accommodated for connections to neighborhoods, businesses, and expressways and freeways.

This Vision would be implemented by an open and inclusive process of continuous evaluation to promote equitable access and use.

2. CONTINUING COORDINATION

We will continue our cooperative relationship to implement the Corridor Vision through staff and elected official representation in the collaboration, information sharing, monitoring of implementation and pursuit of additional funding resources for multijurisdictional projects.

- . We will continue to provide staff representation for the staff-level Stevens Creek Boulevard Corridor Vision Working Group [for a period of...]
- . We will designate one elected official as a representative and one as an alternate to the Stevens Creek Boulevard Vision Steering Committee according to its bylaws as adopted November 03, 2023 [with meetings no more often than quarterly or less often than annually]

3. ACTION/PROJECT LIST

We will maintain a list of corridor actions and projects, supportive of the Corridor Vision, to be implemented and tracked through a shared list of Vision Implementation Projects [which may be substituted by the sponsoring agency for feasibility, scope, cost, or other unforeseen issues]

- . Since the Vision Study Implementation Plan is not funding resource constrained, this list could be altered to prioritize projects with identified funding sources.
