

Proposed Resolution

The Climate Advisory Commission (CAC) shall establish an ad hoc committee to work collaboratively with City staff to review the financial position of San José Clean Energy (SJCE) and its proposed approaches to 2026 setting rates and bill credits.

The ad hoc committee shall present its findings and recommendations for discussion at the CAC's November 7 meeting.

The November CAC discussions are intended to inform SJCE staff in preparing a final 2026 rate proposal for consideration by the City Council at its December 9 meeting.
