

Memorandum

TO: HONORABLE MAYOR
AND CITY COUNCIL

FROM: Matt Loesch

SUBJECT: 2024-2025 Annual
Development In-Lieu Fee
Report

DATE: November 24, 2025

Approved

Date:

12/3/25

COUNCIL DISTRICT: Citywide

RECOMMENDATION

Adopt a resolution:

- (a) Accepting the Fiscal Year 2024-2025 Annual and Five-Year Development In-Lieu Fee Report prepared in accordance with the Mitigation Fee Act (California Government Code Section 66000 et seq.) on the status of the in-lieu fees collected by the City of San José from developers in lieu of construction of public improvements; and
- (b) Making certain findings as required by California Government Code Section 66001(d)(1).

SUMMARY AND OUTCOME

Provide an annual and five-year report for fiscal year (FY) 2024-2025 that summarizes the in-lieu fee program activity, and the allocation of unused funds as required by state law. Accepting the report allows the City of San José (City) to plan and allocate funds for further public improvements.

BACKGROUND

The Mitigation Fee Act (California Government Code Section 66000 et seq.) requires public agencies to account for and make findings regarding fees collected by an agency as a condition of development approval. The law also requires that the agency annually review and make available to the public, a report accounting for the development fees held by the agency.

The purpose of the report is to provide an annual and five-year summary of the in-lieu fees that the Department of Public Works collects and manages in connection with the City's approval of private development. Other in-lieu fee programs, such as the Parks Impact Fee and Traffic Impact Fee, are reported annually by the Department of Parks, Recreation, and Neighborhood Services and the Department of Transportation via separate reports to the City Council. Additionally, this report does not include information on any taxes that the City collected in connection with development approvals.

There are several fees that the City requires as a condition of development approval in lieu of requiring the construction of certain improvements that are subject to this annual reporting requirement. In-lieu fees are collected for the following improvement programs:

Utility Undergrounding Fee Program – This program accumulates fees from private development projects and undergrounds overhead utility facilities throughout San José. Rather than requiring developers to underground on a project-by-project basis, in-lieu fees are pooled into established districts from the contributions of several developments and then used to construct the undergrounding improvements in a broader, specified area. This approach results in the more efficient use of engineering staff, construction crews, and utility company resources while lowering unit costs for design and construction.

In 1989, the City established Section 15.26, Utility Undergrounding Fees, of the San José Municipal Code which requires that developers pay a fee, per foot of frontage, in lieu of performing the overhead-to-underground conversions along the street frontage where their development is occurring. This fee represents the developer's fair-share, i.e., half of the costs of the future undergrounding work. Only those projects that develop adjacent to designated streets as defined in the San José Municipal Code are subject to the fee.

In June 2009, City Council approved an ordinance amending the San José Municipal Code Section 15.26 to allow for: 1) annual automatic adjustment of the utility undergrounding fee based on the Engineering News-Record Construction Cost Index, or its equivalent, effective on January 31 of every year; and 2) reimbursement to developers for the completion of underground utility projects by the developers. Based on this process, the Utility Undergrounding Fee was adjusted in January 2025. Because the Engineering News-Records Construction Cost Index City 2024 percent change was -0.7%, the 2025 utility undergrounding fee was adjusted from \$627 to \$622 per linear foot frontage.¹

¹ See December 16, 2024, memorandum Annual Automatic In-Lieu Fee Adjustment at: <https://www.sanjoseca.gov/home/showpublisheddocument/116863/638700295301330000>

In-lieu fees are programmed to be expended in these areas as required by the Mitigation Fee Act, as shown in Attachment A - FY 2024-2025 Rule 20B (In-Lieu Fee) Undergrounding Master Plan. As these fees are committed to projects in the approved Undergrounding Master Plan, they are considered non-refundable. This program is reported annually via this Annual Development In-Lieu Report as well as through a separate Undergrounding Master Five-Year Plan as part of its annual review of the Rule 20A and Rule 20B (In-Lieu Fee) Underground Utility Program's Workplan and Masterplan.² The Rule 20A and Rule 20B (In-Lieu Fee) Underground Utility Program, Rule 20B (In-Lieu Fee) Undergrounding Master Plan will be added to the agenda for City Council in summer 2026.

Landscaped Median Islands – If construction of landscaped median island is not feasible due to lack of full funding, right-of-way, or regional continuity, developers may choose to pay an in-lieu fee for the future construction of a landscaped median island in the street abutting their property. This fee is paid in lieu of the developer constructing the median island as conditioned as part of the entitlements.

Traffic Signals – If construction or modification of the traffic signal is not feasible, due to lack of full funding, right-of-way, or regional continuity, developers may choose to pay an in-lieu fee for the future construction or modification of a traffic signal at an intersection that is impacted by their development. This fee is paid in lieu of the developer constructing the traffic signal improvements as conditioned as part of the entitlements.

Street Improvements – Developers may be required to pay an in-lieu fee for the future construction of street improvements that are area-wide traffic calming improvements, that cannot be physically constructed at the time of the development, and/or completion of an area-wide traffic calming study. If, at the time of project approval, specific traffic calming improvements in the area are not identified, the developer pays this fee in lieu of constructing the traffic calming improvements themselves.

Storm Collection System – Developers may choose to pay an in-lieu fee for future construction of improvements to resolve an area-wide storm drainage problem. This fee is collected in lieu of requiring the developer to construct all or a major portion of the flood control improvements. Storm collection system improvements are often very costly and can provide a benefit to many properties in addition to the developer's project. Benefiting developers' contributions are accumulated until a time that the improvements can be constructed.

² See May 19, 2025 memorandum Rule 20A and Rule 20B (In-Lieu Fee) Underground Utility Program at: <https://sanjose.legistar.com/View.ashx?M=F&ID=14255201&GUID=8D6077DB-F2D2-4261-84C2-132C92887ACF>

ANALYSIS

The following information is included in Attachment A (FY 2024-2025 Rule 20B (In-Lieu Fee) Undergrounding Master Plan) and Attachment B - Department of Public Works In-Lieu Fees Collected by Program to Date:

- The type of fee;
- The amount of the fee;
- The beginning and ending account balance;
- The overall interest earned by the program;
- An identification of each public improvement for which fees were expended and the amount of the expenditures related to each improvement (including the total percentage of the cost of the public improvement that was funded with in-lieu fees);
- An identification of an approximate date by which the construction of the public improvements will commence for those improvements where sufficient funds have been collected to complete financing of the improvement;
- A description of each interfund transfer or loan, if any, including the public improvement on which the transferred or loaned fees will be expended and the date upon which any loan will be repaid with the amount of interest on the loan; and
- The amount of any refunds made pursuant to California Government Code Section 66001(e) and any allocations made pursuant to California Government Code Section 66001(f).

Pursuant to California Government Code Section 66001(d), the local agency also must:

- Make certain findings with regard to unfinished improvements for which fees were collected at least five fiscal years ago;
- Identify the purpose for which the fee was expended and demonstrate a reasonable relationship between the amount of the fee and the purpose for which it was charged; and
- Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements and designate the approximate dates on which this funding is expected to be deposited into the account.

Attachments A and B document the information required for the findings described above.

If these findings are not made, the Department of Public Works must refund the monies to the current owners of record or owners of the lot or lots of the development project on a prorated basis. Fees are also to be refunded if the agency fails to identify, within 180 days of the determination that sufficient funds have been collected, an approximate date by which the construction of the public improvements will begin. The agency may refund

the unexpended fee by direct payment, by providing a temporary suspension of fees, or by another reasonable means. Currently, no fees are scheduled for refund.

FY 2024-2025 Development In-Lieu Fund transactions include:

- Five Undergrounding payments, consisting of multiple frontages, totaling \$1,072,388;
- One Median Island In-Lieu deposit in the amount of \$15,000;
- Four Traffic Signal In-Lieu deposits in the amount of \$148,000;
- Eight Street Improvement In-Lieu deposits in the amount of \$488,900;
- No Storm Collection System In-Lieu deposits were received during FY 2024-2025;
- 13 In-lieu deposits in the amount of \$641,582 were transferred to City Capital Improvement Program funds; and
- One In-lieu deposit was reimbursed to developers during FY 2024-2025 for work on Stevens Creek Boulevard at Valley Fair.

The Department of Public Works is responsible for the administration of the In-Lieu Fee Program. Administration work includes meeting with development clients, calculating the fair share development contribution fees, fee billing and collection, monitoring and programming in-lieu fees for construction use, and preparing an annual report to City Council summarizing the status of the fund. The Department's administrative costs totaled \$352,557 to manage the program and \$128,000 was generated in revenue in FY 2024-2025 with the difference being subsidized by the General Fund.

EVALUATION AND FOLLOW-UP

This item is reported annually to the City Council. The next report (FY 2025-2026) will be presented to City Council by December 2026.

COORDINATION

This report has been coordinated with the City Attorney's Office, the City Manager's Budget Office, and the Planning, Building, and Code Enforcement Department.

Additionally, the Department of Public Works collaborates closely with the Department of Transportation to continually condition, program, reconcile, and transfer funds, as needed, and will update City Council as part of this annual reporting.

PUBLIC OUTREACH

This memorandum will be posted on the City's Council Agenda website for the December 16, 2025 City Council meeting. Additionally, the 2024-2025 Annual

HONORABLE MAYOR AND CITY COUNCIL

November 25, 2025

Subject: 2024-2025 Annual Development In-Lieu Fee Report

Page 6

Development In-Lieu Fee Report will be posted to the City's Department of Public Works' website before December 31, 2025.

COMMISSION RECOMMENDATION AND INPUT

No commission recommendation or input is associated with this action.

CEQA

Not a Project, File No. PP17-009, Staff Reports, Assessments, Annual Reports, and Informational Memos that involve no approvals of any City action.

PUBLIC SUBSIDY REPORTING

This item does not include a public subsidy as defined in section 53083 or 53083.1 of the California Government Code or the City's Open Government Resolution.
