RECOMMENDATION

That the following recommendation be enacted.

Proposal

Program/Project Title: Mother's Room Within City Hall

Amount of City Funding Required: \$200,000.00

This change is:

One-time Ongoing

Cost Estimate Number (if applicable): CE-FY22-23:061

Proposal Description, including the reason for the need and anticipated outcomes (Please describe how the proposal will affect services for San José residents, community groups, businesses, etc.):

Funds will be used to create a Mother's Room within City Hall so that mothers can have a private space for lactation purposes. A private space that is separate from the restrooms would provide a safe, clean and comfortable space for mothers to use upon returning to work. Generally, a lactation room should include a refrigerator, a sink to allow for cleaning of supplies, table, and comfortable chair. The ability to pump throughout the day allows mothers to keep up their milk supply and enables them to save and take home the nutrient-rich milk they have pumped for their young children.
