Areas of Greatest Need:

Response:
The State of California is second only to Florida in the number of foreclosed homes from January 2007 to June 2008, as determined by the U.S. Department of Housing and Urban Development (HUD).

Under the Housing and Economic Recovery Act of 2008 (HERA) - Neighborhood Stabilization Program (NSP), the City of San Jose (the "City") is one of 47 jurisdictions statewide receiving a direct NSP allocation from HUD. The allocation to the City totals $5,628,283.

The City is the largest jurisdiction within the County of Santa Clara (the "County"), with a population of nearly 1 million people and covering over 178.2 square miles of incorporated area. San Jose's high-cost area, has experienced a serious increase in the number of foreclosures resulting from an increase in unemployment and the variety of sub-prime loan programs offered to households that were unable to maintain the increasing mortgage payments.

Based on HUD analysis (http://www.huduser.org/publications), during the period of January 2007 to June 2008, 6,259 multi- and single-family housing units were foreclosed upon in the City of San Jose.

San Jose went from a ranking of 43rd in the top 100 metropolitan areas for foreclosures in the third quarter of 2007 to a ranking of 21st in the third quarter of 2008, with a 98% increase in foreclosures.

To respond to the continuing increase in defaults, the City has been working with local lenders and nonprofit agencies to develop a strategy that will assist in the prevention of foreclosures. The two most recent quarters in 2008 show a 25 percent regional decline in defaults, but this is believed to be attributable to the newly passed State law requiring lenders to contact delinquent homeowners 30 days prior to filing a default notice. This law delays, but does not eliminate, the underlying issue, and unless immediate foreclosure prevention assistance is provided to cure the default, many of these homes are still subject to foreclosure.

Under NSP guidelines, HUD requires applicants to identify areas of greatest need (defined by: 1) the greatest percentage of home foreclosures, 2) have the highest percentage of sub-prime loans, and 3) the highest probability of facing a significant rise in foreclosures. Additionally, the City will consider other need categories in conjunction with HUD's priorities. The City will add to these criteria those locations that fall within the Strong Neighborhood Initiative (SNI) Areas. The City created the SNI program to provide a mechanism for residents of blighted neighborhoods to communicate with the City and other resources, in order to plan, prioritize, and secure funding for needed improvements. The focus of resources on the SNI areas increases the positive impact of the limited resources available.

The City has analyzed and mapped data from several sources, including HUD, RealtyTrac, ForeclosureRadar, U.S. Census, the San Jose Mayor's Gang Prevention Task Force, Code Enforcement, and Santa Clara County Association of REALTORS.

The result of this analysis was the identification of four primary zip codes that meet all of the following criteria:
- Majority of households have incomes that meet the NSP definition of 120% AMI or below
- Have the city's highest incidence and percentage of:...
o foreclosed units
  o high-cost or sub-prime loans
  o recorded Notice of Defaults

- Are within an SNI area or other heavily impacted area with a high risk factor

The City proposes to target the four zip codes that meet the criteria identified above and that have ranked between 7 and 10 (10 being the highest risk area) on HUD's Foreclosure and Abandonment Risk Scores, and that fall within an SNI area. Of the 559 census tracts scored in the City, 63 or 11% have a ranking of 7 or higher and fall within the four zip codes listed below. (Details of foreclosed properties are shown in Exhibit A)

HIGHEST RANKED ZIP CODES
Risk Factors of 7-10
Zip Code
% of Foreclosures[1]
Sub-Prime Mortgages[2]
Foreclosure/Abandonment

[3] HUD User Data for NSP by census tract, aggregated for each zip code

Distribution and Use of Funds:

Provide a narrative describing how the distribution and uses of the grantee's NSP funds will meet the requirements of Section 2301(c)(2) of HERA that funds be distributed to the areas of greatest need, including those with the greatest percentage of home foreclosures, with the highest percentage of homes financed by a subprime mortgage related loan, and identified by the grantee as likely to face a significant rise in the rate of home foreclosures. Note: The grantee's narrative must address these three stipulated need categories in the NSP statute, but the grantee may also consider other need categories.

Response:
Distribution:

NSP funds will be used for the acquisition and rehabilitation or redevelopment of foreclosed upon properties in the identified target areas of greatest need, specifically within the zip codes identified in Table 2. Although $5.6 million is a large sum, despite the falling cost of housing, property values in San Jose remain among the highest in the nation. Whenever possible, the City of San Jose will leverage other resources to increase the number of housing units assisted with NSP funds.

As required by HUD, clearly defined target areas will be established to ensure that the areas of greatest need are assisted for the maximum positive impact, utilizing existing programs that operate efficiently and effectively, such as the Strong Neighborhood Initiative efforts and the CDBG neighborhood improvement projects. The City will also seek additional NSP funding from the State to address the foreclosure needs of the City of San Jose.

Within the identified areas of greatest need, NSP funds will be used to acquire and rehabilitate foreclosed upon properties to be occupied by owner and renter households having income of less than 120% AMI, with at least 25% of the funds set aside to assist households having incomes at or below 50% AMI. The table below shows the budget breakdown.

NSP Budget
Minimum 25% VLI Set-Aside
$1,407,070
Direct Program Costs
$3,799,002
Administration
$422,211
Total Costs
$5,628,283

Use:

Based on research and information on the foreclosure market in San Jose and the parameters of the NSP funds, the City of San Jose has developed two programs to best utilize this funding source.

Program #1: Rental Housing Development

A key strategy to maximize neighborhood impact and the number of affordable housing units assisted will be the purchase of multi-family rental properties in highly impacted neighborhoods. As an example, one SFI neighborhood in a highly-impacted zip code has a large number of four-plexes, many of which are already foreclosed upon or in the foreclosure process. At the height of the market, these four-plexes were selling for over $300,000, but the current market value is approximately $400,000. The City's goal will be to acquire two or more contiguous properties and rehabilitate the four-plexes, or demolish and rebuild higher density family rental housing. In the latter case, the City would seek planned development zoning to increase residential density from the current 12-25 units per acre.

In both rehabilitation and new construction, energy saving green technology will be incorporated whenever practicable.

This program would result in the creation of rental housing affordable to Very Low-Income households. After acquiring the properties, the City would publish a Request for Proposals and select nonprofit affordable housing developers to carry out the construction of the new rental housing projects. The City would carry a second mortgage to supplement the loans secured by the developer from other government sources or from private lenders. Affordability restrictions would be applied to the land in accordance with HOME standards.

Single-family homes, acquired and rehabilitated in the process described in Program #2 below, may also be sold to nonprofit organizations that operate the residences in shared rental housing arrangements to low- and very-low income individuals, including special needs populations such as seniors.

City Capacity:

The City of San Jose is a recognized leader in the creation of affordable housing, with a record of creating over 17,000 units of affordable housing since the creation of the City's Housing Department in 1988. The Housing Department has a strong professional staff experienced in partnering with nonprofit and for-profit developers in the development of new affordable housing and rehabilitation of existing housing stock. The expertise of the City's Project Development Program staff includes underwriting, urban planning and project management.

The City also has extensive experience in asset management, with a professional staff that monitors loan compliance and payment requirements. The staff monitors a portfolio with a current face value of nearly $600 million, comprised of 170 major multi-family development projects, 415 homeowner rehabilitation loans, and 861 homebuyer loans. The professional staff in the City's Asset Management program have experience in private and public sector loan underwriting and servicing, with some multi-family projects with loans of nearly $20 million, inspection and property management.

Program #2: Homebuyer Acquisition/Rehabilitation Program &dash

The City's other program for NSP funds will be to assist lower-, moderate-, and middle-income (LMMH) households or eligible nonprofits providing services to low-, moderate, and middle-income clients (LMMC), to acquire single-family homes. Because the NSP required 15% discount over current market price may be difficult for individual homebuyers to negotiate with lenders, the City will seek to
purchase a portfolio of foreclosed homes from one or more lenders, using the incentive of relieving the bank(s) of a number of properties in one transaction to negotiate the required 15% discount.

After acquiring the properties, the City will rehabilitate the homes to mitigate any damage due to deferred maintenance or vandalism. As with Program #1, energy saving green technology will be incorporated whenever practicable. The homes will then be sold to income-qualified households at or below the City&rsquo;s cost of acquisition and rehabilitation.

The City will carry a second mortgage of up to 20% of the purchase price of the home, with affordability restrictions as described in section C (2) of this application. The second mortgages will bear no interest and repayment will be deferred until sale, title transfer, or expiration of note and affordability term as a balloon payment. Loans for acquisition, rehabilitation and or construction would be carried by the City, in second position to primary funding obtained by the developer.

City Capacity:

The City&rsquo;s Homebuyer Program was established over ten years ago and has staff with underwriting, inspection, and management experience who provide the capacity to operate the NSP program. The City&rsquo;s current Homebuyer Program is funded through federal (HOME), and California (California and Redevelopment) programs, and staff has extensive experience in ensuring compliance with all applicable rules and regulations for each funding source, even in the frequent circumstance of multi-layered loans from multiple sources.

The City&rsquo;s Housing Rehabilitation Program has a staff of 17 professionals with considerable experience in providing loans and grants to low-income households for needed repairs. Inspection and underwriting staff have extensive experience and in-depth familiarity with the neighborhood and population most at risk. Housing Rehabilitation Program operates primarily under the CDBG guidelines, as well as State (CalHome) and Redevelopment rules and regulations, and like the Homebuyer staff, has experience with ensuring compliance with regulations for all funding sources.

As described in Program #1 above, the City has professional Asset Management staff with the capacity to monitor loans for compliance with all requirements and affordability restrictions.

In order to expedite the process of acquiring, repairing, and reselling properties, the City is also exploring the possibility of entering into an agreement with one of its nonprofit housing partners that can act as the City&rsquo;s agent in acquiring, maintaining, and/or reselling the properties at a negotiated fee structure. This use of an intermediary is expected to help streamline and expedite the acquisition and resale process.

Administration:

In addition to the staffing expertise described above, the City&rsquo;s Housing Department also administers grant programs with annual budgets exceeding $15 million, including CDBG, HOPE, ESG and other local funds. The manager of the City&rsquo;s CDBG program will be assigned as manager of the NSP program, and other experienced grant administrators will form the NSP administration team for the City.

To the extent possible, the City’s goal will be to keep administrative costs below the 10% NSP administrative cap in order to maximize program funds.

Definitions and Descriptions:

(1) Definition of &ldquo;blighted structure&rdquo; in context of local law.

Response:

a) NSP: A structure is blighted when it exhibits objectively determinable signs of deterioration sufficient to constitute threat to human health, safety, and public welfare.

b) City of San Jose: The City operates under California Community Redevelopment Law (CRL) Sections 33030 and 33031 to define blight. A structure is blighted when it is unsafe or unhealthy for persons to live or work. This includes serious building code violations, dilapidation and deterioration, defective design or physical construction, faulty or inadequate utilities, or similar factors that cause these conditions.[1]

(2) Definition of &ldquo;affordable rents&rdquo;

Note: Grantees may use the definition they have adopted for their CDBG program but should review their existing definition to ensure compliance with NSP program &ndash; specific requirements such as continued affordability.

Response:

NSP funds requires that all households assisted with NSP funds have income at or below 120% AMI. A minimum of 25% of NSP funds are required to be used to assist households having income at or below 50% AMI

$101,300
$113,500
$126,600
$136,700
$146,900

For the purpose of the City of San Jose’s NSP program, the term &ldquo;affordable rent&rdquo; shall be based on CDBG generally accepted affordability standards, which require that households pay no more than 30 percent of their monthly household income, based on family size, for rent (less utilities), as defined by HOME in 24CFR §92.25.

The City anticipates that most rental housing units purchased with NSP funds will be reserved for occupancy by households earning less than or equal to 50% AMI. Rents will be established based upon the number of bedrooms in the unit and a corresponding household size. The following table shows the income and affordable rent rates for households of up to 5 persons.

(3) Describe how the grantee will ensure continued affordability for NSP assisted housing.

Response:

Rental Properties: The City will meet or exceed federal HOME affordability periods, i.e., a minimum of 15 years for rehabilitation projects and a minimum of 20 years for new construction projects. To ensure continued affordability, owners of NSP rental properties will be required to enter into an Affordability Restriction that runs with the land for the duration of the affordability period that restricts the rent and income level of tenants that reside in the property. The City&rsquo;s Asset Management team will monitor each property to ensure compliance with all applicable restrictions and requirements.

Homeownership Properties: The City will require a minimum affordability period consistent with HOME requirements of 15 years for NSP properties sold to income-eligible homebuyers as their primary residence.

(4) Describe housing rehabilitation standards that will apply to NSP assisted activities.

Response:

The City will apply its health and safety rehabilitation standards to NSP-assisted residential properties. Each property will be inspected for health and safety deficiencies to determine level of rehabilitation required. Funding will be provided to eliminate health and safety hazards, including lead-based paint remediation, code deficiencies in roofing, electrical, plumbing and structural systems, remediate lead-based paint,
repair damaged interiors due to vandalism, and provide exterior improvements if needed to support the neighborhood stabilization and revitalization efforts. Additionally, illegal structures will be removed and homes will be brought to original conditions. Garages illegally converted to other uses will be converted back to their original purposes.

**Low Income Targeting:**

Identify the estimated amount of funds appropriated or otherwise made available under the NSP to be used to purchase and redevelop abandoned or foreclosed upon homes or residential properties for housing individuals or families whose incomes do not exceed 50 percent of area median income.

Response:

A minimum of $1,407,070 will be set aside for the purchase and redevelopment of abandoned or foreclosed upon homes or residential properties for housing individuals or families whose incomes do not exceed 50 percent of area median income. These funds will be used in areas of greatest need for the purchase and rehabilitation or redevelopment of foreclosed upon single family and multifamily rental properties. To the extent possible, the City will leverage other funding sources such as tax credits and other resources available.

As stated above in Section B, the City will explore entering into an agreement with one of its nonprofit housing partners to act as the City’s agent in the acquisition, maintenance and/or reselling of the acquired properties. It is expected that this intermediary will assist in the streamlining and expediting the acquisition and resale process.

**Acquisition and Relocation:**

Indicate whether grantee intends to demolish or convert any low- and moderate-income dwelling units (i.e., ≤ 80% of area median income).

If so, include:

- The number of low- and moderate-income dwelling units ≤ 80% of area median income reasonably expected to be demolished or converted as a direct result of NSP-assisted activities.
- The number of NSP affordable housing units made available to low-, moderate-, and middle-income households ≤ 120% of area median income reasonably expected to be produced by activity and income level as provided for in DRGR, by each NSP activity providing such housing (including a proposed time schedule for commencement and completion).
- The number of dwelling units reasonably expected to be made available for households whose income does not exceed 50 percent of area median income.

Response:

<table>
<thead>
<tr>
<th>Property Type</th>
<th># Units Made Available</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demolish</td>
<td></td>
</tr>
<tr>
<td>Units</td>
<td></td>
</tr>
</tbody>
</table>

- LM Units (<80%):
  - Multi-Family: 8-12
- LMMH Units (<120%):
  - Single-Family: 20-40
- VLI Units (<50%):
  - Multi-Family: 12-25

The City’s key strategy will be to purchase properties in highly-impacted areas, especially four-plex properties. Based on the condition of the properties, the City may either rehabilitate for re-occupancy or demolish and rebuild. If the residential property is considered for demolition, all of the relocation requirements of the URA and 194(b) (whichever is applicable) will be followed. If temporary or permanent relocation is necessary, NSP funds will be used as necessary. The City will commission a Relocation Consultant to assist in the development
of a relocation plan.

Public Comment:

Provide a summary of public comments received to the proposed NSP Substantial Amendment.

1. General public inquiries were made beginning October 31st, via phone calls or email. The public notice announcing availability of the City's proposal and public hearings was posted on the City's website November 3, 2008, and invited comments on the proposed substantial amendment. The notice was posted in three languages: English, Spanish and Vietnamese and was published through general distribution media, including Spanish and Vietnamese publications, direct mail and email to over 400 residents and organizations.
   a) Stacey Murphy (email: Hombasacec.org): 10-31-08 Ms. Murphy inquired as to if the City was going for their share of the NSP funds. We and Mr. Thomas mentioned that we plans to serve with the NSF money in terms of income level and AMI.
   b) Staff shared plans and directed her to the website posting for more details.
   c) Kent Hamilton (phone call): 11-6-08 Ms. Hamilton identified herself as an individual involved in the community. Ms. Hamilton supports the acquisition and rehabilitation or redevelopment of 4-plex properties in an area that would support a higher density project. Proposed &ldquo;zoning&rdquo; with a higher density on a smaller footprint project, especially in a neighborhood that is deficient in amenities such as parks. Proposes leveraging redevelopment funds in heavy impacted areas and areas deficient in infrastructure, including park development.
   d) Marshall Shapiro (email personal): 11-18-08 Mr. Shapiro writes &ldquo;Re: Housing and Economic Recovery Act of 2008 San Jose should send a strong message to California and the rest of the country. The City of San Jose should send the funds back and say &rdquo;no thanks&rdquo;. These funds are a typical federal hand-out and we need to begin to reverse this trend of federal hand-outs now&rdquo;.

2. Housing and Community Development Advisory Commission meeting held November 13, 2008. This meeting was the first public hearing held on the substantial amendment to the 2008-09 Consolidated Plan - Annual Action Plan. At the meeting, commissioners commented on the proposed substantial amendment and proposed activities, including the following comments:
   a) Commissioner Bock recommended that the City should work with Senior Housing Solutions, a nonprofit organization that purchases and rehabilitates homes and then rents these houses to independent living seniors in a shared housing arrangement. Jacky Morales-Farrand, Assistant Director of Housing, commented that staff would add language to their proposal about seeking opportunities to work with nonprofit housing developers to convert single family homes to rental properties.
   b) Commissioner Norimoto made a recommendation for the City to accept the Housing and Economic Recovery Act funds, with an added consideration that funds be used for difficult to address situations such as ELI and VLI housing used by the housing developers. Commissioner Contreras seconded the motion.
   c) Commissioner Bock asked if the Commission would accept a friendly amendment to recommendation for the deed restriction to be as long as possible. The friendly amendment was accepted by Commissioner Norimoto.
   d) Recommended substantial amendment to the 2008-09 Action Plan as amended, to City Council for approval.

General public comments:
   a) Diana Castilo: Ms. Castilo identified herself as a representative of the Fair Housing Law Project. Ms. Castilo commented that the organization supports staff's recommendation. They also support staff's efforts to apply for more funding, with the hopes that some of this money can be applied towards ELI households and to people whose credit has been damaged by predatory lenders. She also recommended that any unused administrative funds be transferred to another neighborhood stabilization program.
   b) Beverly Jackson: Ms. Jackson identified herself as a representative of Rebuilding Together and commented that they support staff's recommendation to use this money to help stabilize neighborhoods.

1. San Jose City Council Meeting held November 4, 2008. This meeting was the last public hearing held on the proposed substantial amendment to the 2008-09 Consolidated Plan - Annual Action Plan. On November 4, 2008, the City of San Jose posted a copy of the proposed substantial amendment and invited comments to the amendment on its official website. The City received no comments on the proposed substantial amendment and it was unanimously approved by the City Council on November 18, 2008.

Overall Progress Narrative:

The City continues to monitor and manage the two fourplex properties leased to the non-profits service provider Downtown Streets (DTS). All eight units are now fully occupied by formerly homeless individuals. DTS continues to provide property management in conjunction with the lease agreement. Additionally, DTS is active in the Roundtable community providing services and leadership. The current lease agreement between the City and DTS runs through June 2014.

During this reporting period the City leveraged the balance of NSP1 program income toward the rehabilitation of three NSP2 properties. The three properties are targeted for completion in the next reporting period. Once the three properties are sold, the City will initiate closeout of the NSP1 grant.

Activity Description:

The City’s Rental Housing Development program will be to purchase and rehabilitate or redevelop multi-family affordable rental housing properties located in highly impacted areas. By acquiring and combining contiguous properties, the City will pursue construction of higher-density rental housing, thereby increasing the number of rental housing units available to low- and very-low income households. The City has already identified an unusually large number of four-plexes in highly impacted neighborhoods that are in the foreclosure process which has led to displacement of primarily low-income families. These properties will be made available for redevelopment by nonprofit housing developers through a competitive bid process. Qualified bidders will be required to demonstrate capacity and experience to develop and maintain the properties as affordable rental housing.

Additionally, the City will seek opportunities to work with nonprofit housing developers, such as Senior Housing Solutions, to convert single family homes to shared housing rental properties. These rental properties will be for the benefit of very-low income tenants at or below 50% AMI. The City will require a minimum affordability period consistent with HOME requirements. To ensure continued affordability, owners of NSP rental properties will be required to enter into an Affordability Restriction agreement that runs with the land for the duration of the affordability period that restricts the rent and income level of tenants that reside in the property. Affordable rents will be established in accordance with the NSP requirements and the definition of "affordable rents" contained in the Definitions and Descriptions section of the plan.

Properties acquired will be purchased at the NSP required discount of 1% below current market appraisal. The appraisal will be current, within 60-days of the offer. In accordance with NSP requirement to spend at least 25% of funds to assist households earning less than 50% AMI, the majority of rental housing units will be affordable to households at or below that income level.

Total Budget: Minimum of $3 million for direct program cost, including the 25% or $1,407,070 set aside for households with incomes less than 50% AMI.
Performance Measures (e.g., units of housing to be acquired, rehabilitated, or demolished for the income levels of households that are 50 percent of area median income and below, 51-80 percent, and 81-120 percent):

Location Description:
Areas of greatest need which fall in the Strong Neighborhood Initiative areas primarily in East, Central and parts of South San Jose, including zipcodes 95111, 95116, 95122 and 95127. These areas ranked between 7 and 10 on HUD's Foreclosures and Abandonment Risk Scores.
This property is located at 127 Roundtable, located in the 95111 zipcode.

Activity Progress Narrative:
The City of San Jose's current midway through the second year of a two year lease agreement with the non-profit service provider Downtown Streets. Downtown Streets is a Non-profit organization that provides formerly homeless individuals with job training, employment, and housing opportunities.
The lease with Downtown Streets runs through June 2014 at which point the City will evaluate resale options. All eight units are now fully occupied. In accordance with the lease agreement, Downtown Streets houses an onsite property manager who is responsible for general maintenance and day-to-day management of both 127 and 110 Roundtable Drive.
As a predominantly low-income, multifamily neighborhood, the Roundtable Drive community is not immune to the citywide effects of increased gang activity and petty crime. As a social services organization and a member of the Roundtable Drive neighborhood, Downtown Streets also provides leadership within the community. Their contributions in the Roundtable Stakeholders collaborative, tasked with evaluating and implementing efforts to drive positive change in that neighborhood, have been vital. All made possible through the NSP efforts.
The 127 Property continues to be fully occupied.

Activity Description:

Acquisition and rehabilitation of a 4-plex located in south San Jose.
The City’s Rental Housing Development program will be to purchase and rehabilitate or redevelop multi-family affordable rental housing properties located in highly impacted areas. By acquiring and combining contiguous properties, the City will pursue construction of higher-density rental housing, thereby increasing the number of rental housing units affordable to low- and very-low income households. The City has already identified an unusually large number of four-pales in highly impacted neighborhoods that are in the foreclosure process which has led to displacement of primarily low-income families. These properties will be made available for redevelopment by nonprofit housing developers through a competitive bid process. Qualified bidders will be required to demonstrate capacity and experience to develop and maintain the properties as affordable rental housing.

Additionally, the City will seek opportunities to work with nonprofit housing developers, such as Senior Housing Solutions, to convert single family homes to shared housing rental properties. These rental properties will be for the benefit of very-low income tenants at or below 50% AMI. The City will require a minimum affordability period consistent with HOME requirements. To ensure continued affordability, owners of NSP rental properties will be required to enter into an Affordability Restriction agreement that runs with the land for the duration of the affordability period that restricts the rent and income level of tenants that reside in the property. Affordable rents will be established in accordance with the NSP requirements and the definition of &quot;affordable rents&quot; contained in the Definitions and Descriptions section of the plan.

Properties acquired will be purchased at the NSP required discount of 1% below current market appraisal. The appraisal will be current, within 60-days of the offer. In accordance with NSP requirement to spend at least 25% of funds to assist households earning less than 50% AMI, the majority of rental housing units will be affordable to households at or below that income level.

Total Budget: Minimum of $3 million for direct program cost, including the 25% or $1,407,070 set aside for households with incomes less than 50% AMI.

[1] Based on acquisition and rehab only of 4 properties of 4 units each (four-plex).
[2] Based on acquisition, demolition, re-zoning and redevelopment of 4 contiguous 4-plex properties.

Location Description:
This property is located at 110 Roundtable Dr. is within the eligible zipcode 95111.

Activity Progress Narrative:
During this reporting period the four-plex building located at 110 Roundtable Drive continued to be 100% occupied. The Non-Profit Downtown Streets (See Above) continues to manage both the 110 and the 127 Roundtable buildings on behalf of the City. The lease agreement between the City and Downtown Streets end in June of 2014.

$0.00 $2,921,429.80
$0.00 $1,600,000.00

Activity Description:
The City’s Homebuyer Acquisition/Rehabilitation program for NSP funds will be to assist lower-, moderate-, and middle-income (LMMH) households or eligible nonprofit organizations providing services to low-, moderate, and middle-income clients (LMMC), to acquire single-family homes. In this program, the City will acquire single-family homes in foreclosure, rehabilitate them to mitigate any damage due to deferred maintenance or vandalism, and sell them at or below the cost to acquire and rehabilitate, to income-qualified households.

It may be difficult to negotiate the required 1% discount below the current appraised market value, as banks have already sustained significant losses through the foreclosure process and are unlikely to agree to further discounts on individual purchases. Therefore, the City will seek to purchase a portfolio of foreclosed homes from one or more lenders, using the incentive of relieving the bank(s) of a number of properties in one transaction to negotiate the required discount.

Under the City’s existing Homebuyer Program, it currently maintains adequate program infrastructure and staff capacity to operate this program. It is envisioned that City staff will complete the acquisition process, once acquired, the properties will be rehabilitated by contractors selected through a competitive RFO/RFP process. Rehabilitation will include repairs as identified in the description of rehabilitation standards that will apply to NSP assisted activities. The City will explore the option of working with one of its nonprofit housing partners to facilitate the acquisition, rehabilitation and/or resale transactions, as is most cost-efficient. The Homebuyer Acquisition/Rehabilitation Program will operate under the CDBG housing rehabilitation and HOME guidelines, as amended by NSP to include households with incomes less than 120%.

Resale to income-eligible homebuyers will be at or below the aggregated costs to purchase, maintain, and rehabilitate the properties and other delivery costs as allowed by NSP.

The financing mechanisms may include:
a) Zero percent (0%) soft-seconds for a maximum of 20% of the purchase price, with a 30-year term and a minimum 15-year affordability restriction.
b) If rehabilitation of the property is done after sale to a qualified homebuyer, the cost of rehabilitation will be carried as a
five-year forgivable loan. The rehabilitation loans will be forgiven at a value equivalent to 20% for each year the homeowner remains in the home.

c) Total Budget:

Although up to $3,799,002 may be used for this activity, it is possible that the majority of the City’s $5.6 million in NSP funding will be applied to the Rental Housing Development Program. With an estimated purchase price of $400,000 and rehabilitation costs of $70,000, for a total acquisition/rehabilitation costs of $470,000. The Program would offer second mortgages to homeowners to ensure that they are able to put at least 20% down, and require that they obtain a 30-year fixed rate mortgage for the remaining purchase price. The second mortgage provided by the City will be 30-year deferred with zero percent interest. If all eligible funds ($3,799,002) were expended for this program, it is estimated that a maximum of 40 households can be assisted. However, because actual property costs and rehabilitation requirements may vary significantly, and because the amount of the City’s allocation that may be spent in Program #1 is uncertain, only a broad estimate of units in this program is possible at this time.

Performance Measures (e.g. units of housing to be acquired, rehabilitated, or demolished for the income levels of households that are 50 percent of area median income and below, 51-80 percent, and 81-120 percent):

<td>14</td>
</tr>
</tbody>
</table>

**Location Description:**

Under NSP guidelines, HUD requires applicants to identify areas of greatest defined by: 1) the greatest percentage of home foreclosures, 2) have the highest percentage of sub-prime loans, and 3) likelihood of facing a significant rise in foreclosures. Additionally, the City will consider other need categories in conjunction with HUD’s priorities. The City will add to these criteria those locations that fall within the Strong Neighborhood Initiative (SNI) Areas. The City created the SNI program to provide a mechanism for residents of blighted neighborhoods to communicate with the City and other resources, in order to plan, prioritize, and secure funding for needed improvements. The focus of resources on the SNI areas increases the positive impact of the limited resources available.

The City has analyzed and mapped data from several sources, including HUD, RealtyTrac, ForeclosureRadar, U.S. Census, the San Jose Mayor’s Sang Prevention Task Force, Code Enforcement, and Santa Clara County Association of REALTORS.

The result of this analysis was the identification of four primary zip codes that meet all of the following criteria:
- Majority of households have incomes that meet the NSP definition of 120% AMI or below
- Have the city’s highest incidence and percentage of:
  - Foreclosed units
  - High-cost sub-prime loans
  - Recorded Notice of Defaults
- Are within an SNI area or other heavily impacted area with a high risk factor

The City proposes to target the four zip codes that meet the criteria identified above and that have ranked between 7 and 10 (10 being the highest risk areas) on HUD’s Foreclosure and Abandonment Risk Scores, and that fall within an SNI area.

Of the 559 census tracts scored in the City, 63 or 11% have a ranking of 7 or higher and fall within the four zip codes listed below.

- 95111 Pilot SNI project/Heavy Impact
- 95116 Mayfair
- 95122 East Valley/880, Kona, Santee
- 95125 East Valley VTSU

**Activity Progress Narrative:**

The City is no longer purchasing property under the NSP1 Grant.

Activity Description:
The City's Homebuyer Acquisition/Rehabilitation program for NSP funds will be to assist lower-, moderate-, and middle-income (LMMH) households or eligible nonprofit organizations providing services to low-, moderate, and middle-income clients (LMMC), to acquire single-family homes. In this program, the City will acquire single-family homes in foreclosure, rehabilitate them to mitigate any damage due to deferred maintenance or vandalism, and sell them at or below the cost to acquire and rehabilitate, to income-qualified households.

It may be difficult to negotiate the required 1% discount below the current appraised market value, as banks have already sustained significant losses through the foreclosure process and are unlikely to agree to further discounts on individual purchases. Therefore, the City will seek to purchase a portfolio of foreclosed homes from one or more lenders, using the incentive of relieving the bank(s) of a number of properties in one transaction to negotiate the required discount.

Under the City's existing Homebuyer Program, it currently maintains adequate program infrastructure and staff capacity to operate this program. It is envisioned that City staff will complete the acquisition process, once acquired, the properties will be rehabilitated by contractors selected through a competitive RFO/RFP process. Rehabilitation will include repairs as identified in the description of rehabilitation standards that will apply to NSP assisted activities. The City will explore the option of working with one of its nonprofit housing partners to facilitate the acquisition, rehabilitation and/or resale transactions, as is most cost-efficient. The Homebuyer Acquisition/Rehabilitation Program will operate under the CDBG housing rehabilitation and HOME guidelines, as amended by NSP to include households with income less than 120%.

Resale to income-eligible homebuyers will be at or below the aggregated costs to purchase, maintain, and rehabilitate the properties and other delivery costs as allowed by NSP.

The financing mechanisms may include:

a) Zero percent (0%) soft-sectors for a maximum of 20% of the purchase price, with a 30-year term and a minimum 15-year affordability restriction.

b) If rehabilitation of the property is done after sale to a qualified homebuyer, the cost of rehabilitation will be carried as a
five-year forgivable loan. The rehabilitation loans will be forgiven at a value equivalent to 20% for each year the homeowner remains in the home.

c) Total Budget:

Although up to $3,799,002 may be used for this activity, it is possible that the majority of the City’s $5.6 million in NSP funding will be applied to the Rental Housing Development Program. With an estimated purchase price of $400,000 and rehabilitation costs of $70,000, for a total acquisition/rehabilitation costs of $470,000. The Program would offer second mortgages to homebuyers to ensure they are able to put at least 20% down, and require that they obtain a 30-year fixed rate mortgage for the remaining purchase price. The second mortgage provided by the City will be 30-year deferred with zero percent interest. If all eligible funds ($3,799,002) were expended for this program, it is estimated that a maximum of 40 households can be assisted. However, because actual property costs and rehabilitation requirements may vary significantly, and because the amount of the City’s allocation that may be spent in Program #1 is uncertain, only a broad estimate of units in this program is possible at this time.

Performance Measures (e.g., units of housing to be acquired, rehabilitated, or demolished for the income levels of households that are 50 percent of area median income and below, 51-80 percent, and 81-120 percent):

Property
Type
Units Made Available
LMMH Units (<120% AMI)

14

Location Description:

Under NSP guidelines, HUD requires applicants to identify areas of greatest defined by: 1) the greatest percentage of home foreclosures, 2) have the highest percentage of sub-prime loans, and 3) likelihood of facing a significant rise in foreclosures. Additionally, the City will consider other need categories in conjunction with HUD’s priorities. The City will add to these criteria those locations that fall within the Strong Neighborhood Initiative (SNI) Areas. The City created the SNI program to provide a mechanism for residents of blighted neighborhoods to communicate with the City and other resources, in order to plan, prioritize, and secure funding for needed improvements. The focus of resources on the SNI areas increases the positive impact of the limited resources available.

The City has analyzed and mapped data from several sources, including HUD, ReallyTrac, ForeclosureRadar, U.S. Census, the San Jose Mayor’s Gang Prevention Task Force, Code Enforcement, and Santa Clara County Association of REALTORS.

The result of this analysis was the identification of four primary zip codes that meet all of the following criteria:
- Majority of households have incomes that meet the NSP definition of 120% AMI or below
- Have the city’s highest incidence and percentage of:
  - foreclosed units
  - sub-prime loans
- recorded Notice of Default
- Are within an SNI area or other heavily impacted area with a high risk factor

The City proposes to target the four zip codes that meet the criteria identified above and that have ranked between 7 and 10 (10 being the highest risk areas) on HUD’s Foreclosure and Abandonment Risk Scores, and that fall within an SNI area.

Of the 559 census tracts scored in the City, 63 or 11% have a ranking of 7 or higher and fall within the four zip codes listed below.
95111 Pilot SNI project/Heavy Impact
95118 Mayfair
95122 East Valley 880, Kona, Santee
95127 East Valley 880

Activity Progress Narrative:

During this reporting period the City of San Jose committed the balance of NSP1 program income toward the rehabilitation of three NSP2 properties. Leveraging funds will allow the City to utilize the balance of NSP1 funds as well as preserve the balance of NSP2 funds. These additional NSP2 funds will contribute toward the acquisition/rehab or development of a larger multi-unit project. It was originally anticipated that the three properties would be complete rehabilitation by the end of December 2013. Due to unforeseen delays the homes will be completed and sold in the upcoming quarter. One of the major delays was a result of a power surge from the utility line to the nearly completed home. The power surge resulted in damage to the main...
electrical panel, electric appliances and various lights and outlets. The utility provider has taken responsibility for the damage and is working with the Program Developer on the claim. While the claim is being settled, the Program Developer has replaced all damaged items.

Project Title: Homebuyer Acquisition/Rehabilitation Program

Projected End Date: 03/18/2013

Completed Activity Actual End Date:

Responsible Organization: City of San Jose, Housing Department

Activity Description:

Costs to re-sell single family residences acquired, rehabilitated and re-sold to income eligible buyers. The City's Homebuyer Acquisition/Rehabilitation program for NSP funds will be to assist lower-, moderate-, and middle-income (LMMH) households or eligible nonprofit organizations providing services to low-, moderate, and middle-income clients (LMMC), to acquire single-family homes. In this program, the City will acquire single-family homes in foreclosure, rehabilitate them to mitigate any damage due to deferred maintenance or vandalism, and sell them at or below the cost to acquire and rehabilitate, to income-qualified households.

It may be difficult to negotiate the required 1% discount below the current appraised market value, as banks have already sustained significant losses through the foreclosure process and are unlikely to agree to further discounts on individual purchases. Therefore, the City will seek to purchase a portfolio of foreclosed homes from one or more lenders, using the incentive of relieving the bank(s) of a number of properties in one transaction to negotiate the required discount.

Under the City's Homebuyer Program, it currently maintains adequate program infrastructure and staff capacity to operate this program. It is envisioned that City staff will complete the acquisition process, once acquired, the properties will be rehabilitated by contractors selected through a competitive RFP/RFP process. Rehabilitation will include repairs as identified in the description of rehabilitation standards that will apply to NSP assisted activities. The City will evaluate the option of working with one of its nonprofit housing partners to facilitate the acquisition, rehabilitation and/or resale transactions, as is most cost-efficient. The Homebuyer Acquisition/Rehabilitation Program will operate under the CDBG housing rehabilitation and HOME guidelines, as amended by NSP to include households with income less than 120%.

Resale to income-eligible homebuyers will be at or below the aggregated costs to purchase, maintain, and rehabilitate the properties and other delivery costs as allowed by NSP.

The financing mechanisms may include:

a) Zero percent (0%) soft-secdons for a maximum of 20% of the purchase price, with a 30-year term and a minimum 15-year affordability restriction.
b) If rehabilitation of the property is done after sale to a qualified homebuyer, the cost of rehabilitation will be carried as a five-year forgivable loan. The rehabilitation loans will be forgiven at a value equivalent to 20% for each year the homeowner remains in the home.

c) Total Budget:

Although up to $3,799,002 may be used for this activity, it is possible that the majority of the City’s $5.6 million in NSP funding will be applied to the Rental Housing Development Program. With an estimated purchase price of $400,000 and rehabilitation costs of $70,000, for a total acquisition/rehabilitation costs of $470,000. The Program would offer second mortgages to homebuyers to ensure that they are able to put at least 20% down, and require that they obtain a 30-year fixed rate mortgage for the remaining purchase price. The second mortgage provided by the City will be 30-year deferred with zero percent interest. If all eligible funds ($3,799,002) were expended for this program, it is estimated that a maximum of 40 households can be assisted. However, because actual property costs and rehabilitation requirements may vary significantly, and because the amount of the City’s allocation that may be spent in Program #1 is uncertain, only a broad estimate of units in this program is possible at this time.

Performance Measures (e.g., units of housing to be acquired, rehabilitated, or demolished for the income levels of households that are 50 percent of area median income and below, 51-80 percent, and 81-120 percent):

Property
Type
Units Made Available
LMMH Units (<120% AMI)
Single-Family
14

Location Description:

Disposition of single family residences purchased in targeted zip codes. See Activity 2a for list of projects.
Under NSP guidelines, HUD requires applicants to identify areas of greatest defined by: 1) the greatest percentage of home foreclosures, 2) have the highest percentage of sub-prime loans, and 3) likelihood of facing a significant rise in foreclosures. Additionally, the City will consider other need categories in conjunction with HUD’s priorities. The City will add to these criteria those locations that fall within the Strong Neighborhood Initiative (SNI) Areas. The City created the SNI program to provide a mechanism for residents of blighted neighborhoods to communicate with the City and other resources, in order to plan, prioritize, and secure funding for needed improvements. The focus of resources on the SNI areas increases the positive impact of the limited resources available.

The City has analyzed and mapped data from several sources, including HUD, RealtyTrac, ForeclosureRadar, U.S. Census, the San Jose Mayor’s Gang Prevention Task Force, Code Enforcement, and Santa Clara County Association of REALTORS.

The result of this analysis was the identification of four primary zip codes that meet all of the following criteria:
- Majority of households have incomes that meet the NSP definition of 120% AMI or below
- Have the city’s highest incidence and percentage of:
  o foreclosed units
  o high-cost or sub-prime loans
  o recorded Notice of Default
- Are within an SNI area or other heavily impacted area with a high risk factor

The City proposes to target the four zip codes that meet the criteria identified above and that have ranked between 7 and 10 (10 being the highest risk areas) on HUD’s Foreclosure and Abandonment Risk Scores, and that fall within an SNI area.

Of the 559 census tracts scored in the City, 63 or 11% have a ranking of 7 or higher and fall within the four zip codes listed below.
95111 Pilot SNI project//Heavy Impact
95110 Meyfair
95122 East Valley 680, Kone, Santee
95127 East Valley 680

Activity Progress Narrative:

During this reporting period the City of San Jose committed the balance of NSP1 program income toward the rehabilitation of three NSP2 properties. Leveraging funds will allow the City to utilize the balance of NSP1 funds as well as preserve the balance of NSP2 funds. These additional NSP2 funds will contribute toward the acquisition/rehab or development of a larger multi-unit project. It was originally anticipated that the three properties would be complete rehabilitation by the end of December
2013. Due to unforeseen delays, the homes will be completed and sold in the upcoming quarter. One of the major delays was a result of a power surge from the utility line to the nearly completed home. The power surge resulted in damage to the main electrical panel, electric appliances and various lights and outlets. The utility provider has taken responsibility for the damage and is working with the Program Developer on the claim. While the claim is being settled, the Program Developer has replaced all damaged items. It is anticipated that these properties will be sold by the end of June 2014.

Oct 1 thru Dec 31, 2013 To Date

Activity Description:

The City of San Jose will administer the program funds in accordance with NSP regulations.

NSP funds will be used for the acquisition and rehabilitation of foreclosed upon properties in the identified target areas of greatest need, specifically within the zip codes identified in Table 2. Although $5.6 million is a large sum, given the cost of housing and property rehabilitation in Santa Clara County, particularly in San Jose, the City will leverage other resources to increase the number of housing units assisted with NSP funds. Therefore, as required by HUD, clearly defined target areas will be established to ensure that the areas of greatest need are addressed for the maximum positive impact, with programs that operate efficiently and effectively, such as the Strong Neighborhood Initiative efforts and the CDBG neighborhood improvement projects. The City will also seek additional funding from the State to address the foreclosures needs of the City of San Jose. NSP funds will be focused on the areas that have ranked seven or above, where the majority of households have incomes that do not exceed the 120% AMI, and fall within an SNI area. The targeted area includes zip codes 95111, 95116, 95122 and 95127.

Within the identified areas of greatest need, NSP funds will be used to acquire and rehabilitate foreclosed upon properties to be occupied by owner and renter households having income of less than 120% AMI, with at least 25% of the funds set aside to assist households having incomes at or below 50% AMI. The table below shows the budget breakdown.

NSP Budget
Minimum 25% VLI Set-Aside $1,407,070
Direct Program Costs $3,799,902
Administration $422,211
Total Costs $5,628,283
