Every two years in January, communities across the country conduct comprehensive counts of their homeless populations to gain a better understanding of the individuals who are currently experiencing homelessness and to apply for federal funding for homeless programs.

The 2015 Santa Clara County Point-in-Time Count was a community-wide effort conducted on January 27 and 28, 2015. In the weeks following the street count, a survey was administered to 952 unsheltered and sheltered homeless individuals, in order to profile their experiences and characteristics.

An adult with a disabling condition or a family with at least one adult member with a disabling condition who:

» Has been continuously homeless for 1 year or more and/or;

» Has experienced 4 or more episodes of homelessness within the past 3 years.

Veterans are persons who have served on active duty in the Armed Forces of the United States. This does not include inactive military reserves or the National Guard unless the person was called up to active duty.

A household with at least one adult member (persons 18 or older) and at least one child member (persons under 18).

“Unaccompanied Children” are children under the age of 18 who are homeless and living independent of a parent or legal guardian.

Homeless youth are defined as individuals between the ages of 18 and 24 years old.

A youth who identifies as the parent or legal guardian of one or more children who are present with or sleeping in the same place as that youth parent, where there is no person over age 24 in the household.

SUMMARY

These data provide a snapshot of those experiencing homelessness in Santa Clara County on January 27 and 28, 2015. It provides a basic estimation of the number and characteristics of those experiencing homelessness on any given night in order to inform future service planning and provisioning efforts.
