DEVELOPMENT PLAN REVIEWS
APPROXIMATE TIME FRAMES

Listed below are approximate time frames for specific project permit reviews. These estimates are provided to assist you in developing a realistic project schedule. All times provided are in working days (i.e., Monday through Friday, excluding City holidays and closures). All times assume that the first submittal is complete and meets the City’s minimum standards for plan/report review, and that subsequent submittal addresses all City plan/report review comments.
