Subject: Phase I Environmental Site Assessment
5601-5667 Silver Creek Valley Road
San Jose, California 95138
Partner Project No. 11-84351.2

Partner Engineering and Science, Inc. (Partner) is pleased to provide the results of the Phase I
Environmental Site Assessment (Phase I ESA) report of the abovementioned address (the
“subject property”). This assessment was performed in general conformance with the scope and
limitations as detailed in the ASTM Practice E1527-05 Standard Practice for Environmental Site
Assessments: Phase I Environmental Site Assessment Process.

This assessment included a site reconnaissance as well as research and interviews with
representatives of the public, property ownership, site manager, and regulatory agencies. An
assessment was made, conclusions stated, and recommendations outlined.

We appreciate the opportunity to provide environmental services to Woodman of the World Life
Insurance Society and/or Omaha Woodmen Life Insurance Society. If you have any questions
concerning this report, or if we can assist you in any other matter, please contact me at (214)
666-6800 or summer@partneresi.com.

Sincerely,

Summer D. Gell
Principal
EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in general accordance with the scope of work and limitations of ASTM Standard Practice E1527-05, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by Woodman of the World Life Insurance Society and/or Omaha Woodmen Life Insurance Society for the property located at 5601-5667 Silver Creek Valley Road in the City of San Jose, Santa Clara County, California (the “subject property”). The Phase I Environmental Site Assessment is designed to provide Woodman of the World Life Insurance Society and/or Omaha Woodmen Life Insurance Society with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

Property Description

The subject property is located on the southwestern side of Silver Creek Valley Road at Beaumont Canyon Drive within a mixed commercial and residential area of San Jose, California. Please refer to the table below for further description of the subject property:

<table>
<thead>
<tr>
<th>Address:</th>
<th>5601-5667 Silver Creek Valley Road</th>

</table>
The subject property is currently occupied by multiple shopping center tenants for commercial use. Onsite operations consist of typical grocery store (currently under construction), restaurant, drop-off dry cleaner, office, dental office, retail, beauty salon, and veterinary clinic activities. In addition to the current structures, the subject property is also improved with asphalt-paved parking areas and associated landscaping.

According to available historical sources, the subject property was formerly undeveloped as early as 1939. In 1982, a small structure, possibly a ranch house, appeared onsite. The building was removed by 1998. The subject property was developed with the current three-building shopping center from 1999 to 2000.

The immediately surrounding properties consist of residences and Beaumont Canyon Drive beyond Silver Creek Valley Road to the northeast; Silver Creek and vacant land to the southwest beyond which are residences; and residences to the northwest.

According to local groundwater studies and topographic interpretation, the depth and direction of groundwater in the vicinity of the subject property is inferred to be present at approximately 17 to 50 feet below ground surface (bgs) and flow toward the southwest.

**Findings**

A recognized environmental condition (REC) refers to the presence or likely presence of any hazardous substance or petroleum product on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property. The term REC includes hazardous substances and petroleum products even under conditions that might be in compliance with laws. The term is not intended to include "de minimis" conditions that do not present a threat to human health and/or the environment and that would not be subject to an enforcement action if brought to the attention of appropriate governmental agencies. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A historical recognized environmental condition (HREC) refers to an environmental condition which would have been considered a REC in the past, but which is no longer considered a REC based on subsequent assessment or regulatory closure. The following was identified during the course of this assessment:
Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An *environmental issue* refers to environmental concerns identified by Partner, which do not qualify as RECs; however, require discussion. The following was identified during the course of this assessment:

- Partner did not identify any environmental issues during the course of this assessment.

**Conclusions, Opinions and Recommendations**

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-05 of 5601-5667 Silver Creek Valley Road in the City of San Jose, Santa Clara County, California (the “subject property”). Any exceptions to or deletions from this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions or environmental issues in connection with the subject property. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in general conformance with the scope and limitations of ASTM Standard Practice E1527-05 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at 5601-5667 Silver Creek Valley Road in the City of San Jose, Santa Clara County, California (the “subject property”). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E-1527-05) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property’s overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the User to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the “landowner liability protections,” or “LLPs”). ASTM Standard E-1527-05 constitutes “all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice” as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in general accordance with the requirements of ASTM Standard E 1527-05. This assessment included: 1) a property and adjacent site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor.
If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

Woodman of the World Life Insurance Society and/or Omaha Woodmen Life Insurance Society engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Woodman of the World Life Insurance Society and/or Omaha Woodmen Life Insurance Society. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action.
against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys’ fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

1.5 Limiting Conditions

The findings and conclusions contain all of the limitations inherent in these methodologies that are referred to in ASTM E1527-05.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.

- Partner inspected approximately 29% of all interior units (Canyon Creek Pet Hospital (5617), Canyon Creek Cleaners (5631), Shelter Creek Orthodontics (5645, Ste 201), a vacant office (5645, Ste 208), and New Leaf Community Market (5667)) and all common areas. Based on the size and nature of use of the uninspected units (restaurant, office, retail, and beauty salon), this limited method of inspection is not expected to alter the overall findings of this assessment.
2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property is located on the southwestern side of Silver Creek Valley Road at Beaumont Canyon Drive within a mixed commercial and residential area of San Jose, California. Please refer to the table below for further description of the subject property:

| Address: | 5601-5667 Silver Creek Valley Road |
| Assessor’s Parcel Number (APN): | 679-29-006 and -007 |
| Nature of Use: | Commercial |
| Number of Buildings: | Three: Building 1 (5667), Building 2 (5623-5665), Building 3 (5601-5617): |
| Number of Floors: | One with Mezzanine (Building 1)/Two (Building 2)/One (Building 3) |
| Type of Construction: | Wood-Frame on Concrete Slab |
| Building Square Footage (SF): | Building 1: 29,335 SF |
| | Building 2: 21,347 SF |
| | Building 3: 12,380 SF |
| Land Acreage (Ac): | 8.35 Ac |
| Date of Construction: | 2000 |
| Current Tenants: | Building 1 (5667): New Leaf Community Market |
| | Building 2 (5623-5665): Megabyte Pizza (5623), Canyon Creek Cleaners (5631), Mexico Lindo (5635), Edelweiss Music Studio (5645, Ste 200), Silver Creek Orthodontics (5645, Ste 201), Vacant (5645, Ste 208), Shelter Bay Retail Group (3645, Ste 216), 5645, Ste 220), Starbucks Coffee (5651), Postal Annex (5655), Silver Creek Hair & Nails (5659), and Ginga Sushi (5665) |
| | Building 3 (5601-5619): Comerica (5601), Intero Real Estate Services (5609-5613), Canyon Creek Pet Hospital (5617), Silver Creek Academy (5619) |

The subject property is currently occupied by multiple shopping center tenants for commercial use. Onsite operations consist of typical grocery store (currently under construction), restaurant, drop-off dry cleaner, office, dental office, retail, beauty salon, and veterinary clinic activities. In addition to the current structures, the subject property is also improved with asphalt-paved parking areas and associated landscaping.
According to the Santa Clara County Assessor, the subject property is currently vested in Canyon Creek Plaza.

Please refer to Figure 1: Site Location Map, Figure 2: Topographic Map, Figure 3: Site Plan, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property is currently occupied by multiple shopping center tenants for commercial use. Onsite operations consist of typical grocery store (currently under construction), restaurant, drop-off dry cleaner, office, dental office, retail, beauty salon, and veterinary clinic activities.

The subject property is designated for commercial development by the City of San Jose is considered a legal use in its current configuration.

The subject property was identified in the ERNS, CHMIRS, and San Jose Hazardous materials databases in the regulatory database report of Section 4.2.

2.3 Current Use of Adjoining Properties

The subject property is located within a mixed commercial and residential area of San Jose, California. During the vicinity reconnaissance, Partner observed the following land use on properties in the immediate vicinity of the subject property:

<table>
<thead>
<tr>
<th>Immediately surrounding properties</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Northeast:</strong> Residences and Beaumont Canyon Drive beyond Silver Creek Valley Road</td>
</tr>
<tr>
<td><strong>Southwest:</strong> Silver Creek and Vacant Land beyond which are Residences</td>
</tr>
<tr>
<td><strong>Northwest:</strong> Residences</td>
</tr>
<tr>
<td><strong>Southeast:</strong> Silver Creek Valley Road beyond which is vacant land</td>
</tr>
</tbody>
</table>

No adjacent properties were identified in the regulatory database report of Section 4.2.

2.4 Physical Setting Sources

2.4.1 Topography

The United States Geological Survey (USGS), *San Jose East, California* Quadrangle 7.5-minute series topographic map (1978, revised 1980) was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 346 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is sloping moderately toward the west-southwest. The subject property is depicted as undeveloped.

Please refer to Figure 2: Topographic Map.
2.4.2 Hydrology

According to topographic map interpretation, the direction of groundwater in the vicinity of the subject property is inferred to flow toward the west-southwest. The nearest surface water in the vicinity of the subject property is the Silver Creek located approximately 50 feet to the southwest of the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the San Jose Municipal Water System serves the subject property vicinity, which is designated as the Evergreen Service Area. Water for the subject property and surrounding area is imported water purchased from the Santa Clara Valley Water District, (SCVWD). SCVWD surface water is mainly imported from the South Bay Aqueduct, lake Del Valle, and San Luis Reservoir, which all draw water from the Sacramento-San Joaquin Delta watershed. SCVWD local surface water sources include Anderson and Calero reservoirs. Water from imported and local sources is pumped to and treated at the Santa Teresa Water Treatment Plant in San José.

According to local groundwater studies, the depth of groundwater in the vicinity of the subject property is inferred to be present at approximately 17 to 50 feet below ground surface (bgs).

2.4.3 Geology/Soils

The subject property is situated within the Coast Range physiographic province of the State of California. The Coast Ranges, extend approximately 600 miles from the Oregon Border to the Santa Ynez River near Santa Barbara, are characterized by elongated ranges and narrow valleys that are approximately parallel to the coast. Structural features, including faults and synclinal folds, largely control topography in the province and reflect both previous and existing regional tectonic regimes.

Based on information obtained from the USDA Natural Resources Conservation Service Web Soil Survey online database, the northwestern portion of the subject property is mapped as Montara-Santerhill complex slopes 9 to 15 percent; the southwestern portion of the subject property is mapped as Urbanland Flaskan complex, slopes 2 to 9 percent; and the southeastern portion of the subject property is mapped as Urbanland-Santerhill-Montara complex, 9 to 15 percent.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 06085C0267H, dated May 18, 2009, the subject property appears to be located in Zone X, an area located outside of the 100-year and 500-year flood plains.
3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

**Historical Use Information**

<table>
<thead>
<tr>
<th>Period/Date</th>
<th>Source</th>
<th>Description/Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>1939-1974</td>
<td>Aerial Photographs, Building Records, City Directories, Topographic Maps, Interviews, Previous Report</td>
<td>Undeveloped</td>
</tr>
<tr>
<td>1982</td>
<td>Aerial Photograph</td>
<td>Residential/Agricultural</td>
</tr>
<tr>
<td>1999-Present</td>
<td>Aerial Photographs, City Directories, Building Records, Interviews, Onsite Observations</td>
<td>Commercial</td>
</tr>
</tbody>
</table>

According to available historical sources, the subject property was formerly undeveloped as early as 1939. In 1982, a small structure, possibly a ranch house, appeared onsite. The building was removed by 1998. The subject property was developed with the current three-building shopping center from 1999 to 2000. No potential environmental concerns were identified in association with the current or historic use of the subject property.

3.1 Aerial Photograph Review

On January 4, 2012, Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Data Resources, Inc. (EDR) and Google Earth. The aerial photographs were reviewed for indications of previous uses, as discussed below:

**Date:** 1939, 1948  
**Scale:** 1”= 555’, 655’

The subject property appears to be undeveloped.

The adjacent properties appear to be undeveloped, with the exception of Silver Creek Valley Road to the northeast. A tributary is depicted along the eastern boundary of the property.

**Date:** 1956  
**Scale:** 1”= 555’

No significant changes appear at the subject property.

The adjacent property to the northwest appears to be mowed and/or developed for agricultural use. No other significant changes appeared at the adjacent properties.

**Date:** 1965, 1975  
**Scale:** 1”= 333’, 555’

No significant changes appear at the subject property.

The adjacent property to the northwest appears to be developed with two buildings (likely ranch houses). No other significant changes appeared at the adjacent properties.

**Date:** 1982  
**Scale:** 1”= 690’

A small structure, possibly a ranch house, appears at the center of the subject property.

No significant changes appear at the adjacent properties.
The former structure is no longer visible on the subject property and the subject property appears to have been graded for development.

No significant changes appear at the adjacent property to the northwest. Residences and Beaumont Canyon Drive appear to have been constructed to the northeast. Residences appear developed beyond Silver Creek and vacant land to the southwest.

The subject property appears to be developed with the current three shopping center buildings.

No significant changes appear at the adjacent properties.

Copies of select aerial photographs are included in Appendix B of this report.

### 3.2 Sanborn Fire Insurance Maps

Sanborn maps were originally created in the late 1800s and early 1900s for assessing fire insurance liability in urbanized areas of the United States. These maps include detailed town and building information.

Partner reviewed Sanborn Fire insurance maps obtained from EDR’s collection on December 29, 2011. Sanborn map coverage was not available for the subject property. A copy of the no coverage letter is included in Appendix B of this report.

### 3.3 City Directories

City directories have been produced for most urban and some rural areas since the late 1800s. The directories are generally not comprehensive and may contain gaps in time periods.

Partner reviewed historical city directories obtained from Cupertino Public Library on January 5, 2012 for past names and businesses that were listed for the subject property and adjacent properties. The findings are presented in the following table:

**City Directory Search for 5601-5667 Silver Creek Valley Road (Subject Property)**

<table>
<thead>
<tr>
<th>Year(s)</th>
<th>Occupant Listed</th>
</tr>
</thead>
<tbody>
<tr>
<td>2000</td>
<td>5601 Silver Creek Valley Road - Canyon Creek Plaza</td>
</tr>
<tr>
<td>2005</td>
<td>5601 Silver Creek Valley Road - Blockbuster Video</td>
</tr>
<tr>
<td></td>
<td>5609 Silver Creek Valley Road - Windemere Silicon Valley Property</td>
</tr>
<tr>
<td></td>
<td>5617 Silver Creek Valley Road - Old Republic Title Company</td>

<tr>
<td></td>
<td>5623 Silver Creek Valley Road - Megabyte Pizza Company</td>
</tr>
<tr>
<td></td>
<td>5627 Silver Creek Valley Road - Monique’s Draperies</td>
</tr>
</tbody>
</table>
According to the city directory review, the subject property has been occupied by numerous commercial tenants since 2000 including Canyon Creek Cleaners (2005-2010). Canyon Creek Cleaners is a drop-off dry cleaning facility only (as observed during the site visit and as indicated by Mr. Ed Albelite, representative of the owner of the subject property. Based on the lack of hazardous materials used onsite as part of the dry cleaning facility, this tenant is not anticipated to represent a significant environmental concern. No other environmentally sensitive listings were identified at the subject property.

City Directory Search for Adjacent Properties

<table>
<thead>
<tr>
<th>Year(s)</th>
<th>Occupant Listed</th>
</tr>
</thead>
<tbody>
<tr>
<td>2000, 2005, 2010</td>

</tbody>
</table>

Based on the city directory review, no environmentally sensitive listings were identified for the adjoining property addresses.
3.4 Historical Topographic Maps

Partner reviewed a historical topographic map obtained from USGS’s collection on January 5, 2012. A topographic map was available and reviewed for the year 1978 (revised 1980), as discussed below:

**Date:** 1978 (revised 1980)

The subject property is depicted as undeveloped.

The adjacent properties are also depicted as undeveloped with the exception of Silver Creek Road to the northeast, and a water tank to the northwest.

A copy of reviewed topographic map is included as Figure 2 of this report.

Copies of reviewed topographic maps are included in Appendix B of this report.
4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

Partner contacted local agencies, such as environmental health departments, fire departments and building departments in order to determine any current and/or historic hazardous materials usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-05, AULs are the legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil or groundwater on the property.

4.1.1 Health Department

Partner requested records from the Santa Clara County Environmental Health, County Hazardous Materials Compliance Division (SCCEH-CHMCD) on December 20, 2011 for the subject property. These records may contain evidence indicating current and/or historical hazardous materials usage, storage or releases, as well as the presence of USTs.

No records regarding hazardous materials use or the presence of AULs on the subject property were on file with the SCCEH-CHMCD.

4.1.2 Fire Department

Partner requested records from the San Jose Fire Department (SJFD) on December 20, 2011 for the subject property. These records may contain evidence indicating current and/or historical hazardous materials usage, storage or releases, as well as the presence of USTs.

According to records reviewed, the subject property was developed with the current shopping center in 1999 and 2000. In 1999 and 2000, compressed gases were noted to be stored at Consentino’s Market. No other issues of environmental concern were noted in the fire department records.

4.1.3 Air Quality Management District

Partner requested information from the Bay Area Air Quality Management District (BAAQMD) on December 20, 2011 for information regarding any Permits to Operate (PTO), Notices of
Violation (NOV), or Notices to Comply (NTC) records for the subject property related to air emission equipment, which may include dry cleaning machines and USTs.

No PTOs, NOVs, NTCs or the presence of AULs were on file for the subject property with the BAAQMD.

4.1.4 Regional Water Quality Control Board

Partner researched the Regional Water Quality Control Board (RWQCB) online database (GeoTracker) on December 20, 2011 for information regarding any releases to the subsurface which may have impacted or threatened a body of water.

No records regarding a release or the presence of AULs on the subject property were on file with the RWQCB.

4.1.5 Department of Toxic Substances Control

Partner researched the Department of Toxic Substances Control (DTSC) online databases (Envirostor and HWTS) on December 20, 2011 for the subject property. These records may contain evidence indicating current and/or historical hazardous materials usage, storage or releases.

No records regarding a release or the presence of AULs on the subject property were on file with the DTSC.

4.1.6 Building Department

Partner reviewed the San Jose Building Department (SJBD) records on January 5, 2012 for information regarding historical tenants and property use of the subject property. The following table contains a listing of permits reviewed:

**Building Records Reviewed for 5601-5667 Silver Creek Valley Road (Subject Property)**

According to records reviewed, the subject property was developed with the current structures in 1999. Tenant improvements began shortly after construction was completed. In 2000, a permit was issued for a drop-off dry cleaning facility. No on-site cleaning was to be conducted onsite. Based on the lack of hazardous materials used onsite as part of the dry cleaning facility, this tenant is not anticipated to represent a significant environmental concern. No other environmentally sensitive issues were identified at the subject property.

### 4.1.7 Planning Department

Partner reviewed the records at the San Jose Planning Department (SJPD) on January 5, 2011 for information on the subject property in order to identify AULs associated with the subject property.

According to records reviewed, the subject property is zoned APD for planned development by the City of San Jose and is considered a legal use in its current configuration.

### 4.1.8 Oil & Gas Exploration

The California Division of Oil, Gas and Geothermal Resources (DOGGR) maps contain information regarding oil and gas development. According to DOGGR, no oil or gas wells are located on or adjacent to the subject property.

### 4.2 Mapped Database Records Search

Information from standard federal, state, county, and city environmental record sources was provided by Environmental Data Resources, Inc. (EDR). Data from governmental agency lists are updated and integrated into one database, which is updated as these data are released. The information contained in this report was compiled from publicly available sources and the
locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet. Please refer to the radius map for a complete listing (Appendix C).

The subject property was identified in the ERNS, CHMIRS, and San Jose Hazardous materials databases in the regulatory database report.

- The subject property at 5601 Silver Creek Valley Road is listed in the ERNS database for an equipment failure which occurred on October 11, 2010. This site is also referred to under a CHMIRS listing for the same release which occurred in October 2010. The equipment failure resulted inapproximately 20 gallons of non-polychlorinated biphenyl (PCB) mineral oil discharged from an underground enclosure switch. The responsible party was identified as Pacific Gas & Electric (PG&E), who would pump the oil and water out of the vault. Based on the relatively small quantity and the non-hazardous nature of the material released, and the corrective action, this listing is not expected to represent a recognized environmental condition to the subject property.

- The subject property at 5667 Silver Creek Valley Road is listed as a CHMIRS site for approximately 100 gallons of milk that was spilled from a delivery truck which entered the storm drain in April 2008. San Jose Fire Hazmat and Santa Clara County Health Department are listed as the regulatory agencies. Based the non-hazardous nature of the material released, this listing is not anticipated to represent a recognized environmental condition to the subject property.

- Nextel CA 0819 and Sprint SF73XC808, were listed in the San Jose hazardous materials database. Presumably these listings are for the cell phone sites that are located on the subject property. According to Mr. Abelite, the cell phone equipment is not associated with diesel-powered generators. Each of cell phone sites are equipped with back-up batteries. Based on the absence of significant quantities of hazardous materials associated with the cell phone sites, these listing are not anticipated to represent a recognized environmental condition to the subject property.

The adjacent properties were not identified in the regulatory database report.

**Federal NPL**

The National Priorities List (NPL) is the Environmental Protection Agency (EPA) database of uncontrolled or abandoned hazardous waste sites identified for priority remedial actions under the Superfund Program.

No NPL sites are located within 1-mile of the subject property.
Federal CERCLIS List

The Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) list is a compilation of sites that the EPA has investigated or is currently investigating for a release or threatened release of hazardous substances.

No CERCLIS sites are listed within ½-mile of the subject property.

Federal CERCLIS-NFRAP Sites List

The CERCLIS No Further Remedial Action Planned (NFRAP) List is a compilation of sites that the EPA has investigated, and has determined that the facility does not pose a threat to human health or the environment, under the CERCLA framework.

No CERCLIS-NFRAP sites are listed within ½-mile of the subject property.

Federal RCRA Generator List

The EPA Resource Conservation and Recovery Act (RCRA) Program RCRA program identifies and tracks hazardous waste from the point of generation to the point of disposal. The RCRA Generators database is a compilation by the EPA of reporting facilities that generate hazardous waste.

No RCRA Generator facilities are listed within ¼-mile of the subject property.

Federal RCRA CORRACTS Facilities List

The RCRA CORRACTS database is the EPA’s list of TSD facilities subject to corrective action under RCRA.

No RCRA CORRACTS facilities are listed within 1-mile of the subject property.

Federal Resource Conservation and Recovery Act (RCRA) TSD Facilities List

The RCRA Treatment, Storage and Disposal (TSD) database is a compilation by the EPA of reporting facilities that treat, store or dispose of hazardous waste.

No RCRA TSD sites are listed within ½-mile of the subject property.

Federal Institutional Controls/Engineering Controls (IC/EC)

The Federal IC/EC database is designed to assist the EPA in collecting, tracking, and updating information, as well as reporting on the major activities and accomplishments of the various Brownfield grant programs. The IC/EC sites are superfund sites that have either engineering or an institutional control in place. The data includes the control and the media contaminated.

No Federal IC/EC sites were found within ½-mile of the subject property.
Federal Emergency Notification System (ERNS)

The Emergency Response Notification System (ERNS) is a national database used to collect information or reported release of oil or hazardous substances.

One ERNS site is listed on or adjacent to the subject property. This site was previously discussed above.

State/Tribal Sites (RESPONSE)

The California DTSC maintains a State Priority List (RESPONSE) of sites considered to be actually or potentially contaminated.

No RESPONSE sites are listed within 1-mile of the subject property.

State/Tribal Equivalent CERCLIS (ENVIROSTOR) Sites

The California DTSC compiles a list of state hazardous waste sites equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list.

No ENVIROSTOR sites are reported within 1-mile of the subject property.

Solid Waste/Landfill Facilities (SWLF)

A database of SWLF is prepared by the California Integrated Waste Management Board (CIWMB).

No SWLF facilities are listed within ½-mile of the subject property.

State Leaking Underground Storage Tank List (LUST)

The California Water Resources Control Board (WRCB) compiles lists of all leaks of hazardous substances from underground storage tanks.

No LUST sites are listed within ½-mile of the subject property.

State Underground Storage Tank/Aboveground Storage Tank List (UST/AST)

The California RWQCB compiles a list of UST and AST locations.

No registered UST/AST facilities are listed within ¼-mile of the subject property.

State/Tribal VCP Sites

The California DTSC compiles a list of Voluntary Cleanup Program (VCP) sites.

No State/Tribal VCP sites were found within ½-mile of the subject property.
US Brownfield Sites

The EPA Brownfield database was reviewed to identify facilities that qualify for federal remediation funding under the Small Business Liability Relief and Brownfield Revitalization Act (the “Brownfield” amendment to CERCLA).

No US Brownfield sites were noted within ½-mile of the subject property.

State Spills, Leaks, Investigations, and Cleanup (SLIC) Sites

The California RWQCB maintains reports of sites that have records of spills, leaks, investigations and cleanups.

No SLIC sites are listed within ½-mile of the subject property.

CHMIRS

The California Hazardous Materials Incident Report System (CHMIRS) database contains information on reported hazardous material incidents (accidental releases or spills).

The subject property was listed in the CHMIRS database, as previously discussed.

Tribal Records

The EPA maintains a database of Indian administered lands of the United States that total 640 acres or more.

No Tribal sites were found within 1-mile of the subject property.

SAN JOSE HAZARDOUS MATERIALS

San Jose maintains a list of facilities that store hazardous materials onsite.

The subject property was listed in the San Jose hazardous materials database, as previously discussed.

HAZNET Sites

The California DTSC maintains a Manifest database which lists and tracks hazardous waste from the generator through transporters to a TSD facility.

No HAZNET sites are listed on or adjacent to the subject property.
**EDR Manufactured Gas Plant**

EDR maintains a list of manufactured gas plants.

No EDR manufactured gas plants are listed on or adjacent to the subject property.

**EDR Historical Auto Station**

EDR maintains a list of historical auto stations.

No EDR historical auto stations are listed on or adjacent to the subject property.

**EDR Historical Cleaners**

EDR maintains a list of registered dry cleaning facilities.

No EDR Historical Cleaners are listed on or adjacent to the subject property.
5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the Brownfields Amendments), the User must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that all appropriate inquiry is not complete. The user is asked to provide information or knowledge of the following:

- Environmental cleanup liens that are filed or recorded against the site.
- Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry.
- Specialized knowledge or experience of the person seeking to qualify for the LLPs.
- Relationship of the purchase price to the fair market value of the property if it were not contaminated.
- Commonly known or reasonably ascertainable information about the property.
- The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation.
- The reason for preparation of this Phase I ESA.

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM E 1527-05, Partner requested the following site information from Woodman of the World Life Insurance Society and/or Omaha Woodmen Life Insurance Society (User of this report).

5.1 Interviews

5.1.1 Interview with Owner

Mr. Ed Abelite, subject property owner, was not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

According to Mr. Abelite, the subject property was constructed in 1999 an 2000 as part of a larger master planned community. Prior to 1999, the subject property and surrounding properties were undeveloped land.

5.1.2 Interview with Report User

Please refer to Section 5.2 below for information requested from the Report User.

5.1.3 Interview with Key Site Manager

Mr. Abelite is also the key site manager

5.1.4 Interviews with Past Owners, Operators and Occupants

Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap.

5.1.5 Interview with Others

As the subject property is not an abandoned property as defined in ASTM 1527-05, interview with others were not performed.

5.2 User Provided Information

5.2.1 Title Records

Partner was not provided with title records for review as part of this assessment.
5.2.2  **Environmental Liens or Activity and Use Limitation**

Partner requested information from the User regarding knowledge of environmental liens and activity and use limitations (AULs) for the subject property.

No environmental lien or activity and use limitation information was provided by the User at the time of the assessment.

5.2.3  **Specialized Knowledge**

Partner inquired with the User regarding any specialized knowledge of environmental conditions associated with the subject property. No specialized knowledge was provided by the User at the time of the assessment.

5.2.4  **Commonly Known or Reasonably Ascertainable Information**

Partner inquired with the User regarding any commonly known or reasonably ascertainable information within the local community about the subject property that is material to recognized environmental conditions in connection with the subject property. Commonly known or reasonably ascertainable information associated with the subject property was not provided by the User at the time of the assessment.

5.2.5  **Valuation Reduction for Environmental Issues**

Partner inquired with the User regarding any knowledge of reductions in property value due to environmental issues. Knowledge of valuation reductions associated with the subject property was not provided by the User at the time of the assessment.

5.2.6  **Previous Reports and Other Provided Documentation**

The following information was provided to Partner for review during the course of this assessment:

*Phase I Environmental Site Assessment, Hygienetics Environmental Services, Inc. (November 22, 2000)*

Hygienetics Environmental Services, Inc. (Hygienetics) prepared this report on behalf of GE Capital Real Estate. According to the report, the subject property was developed with the current three-building shopping center in 1999. Hygienetics reviewed a 1998 Phase I Environmental Assessment that was completed prior to the development of the subject property. No environmental issues were identified in this 1998 Phase I. During Hygienetics’s assessment, the onsite tenants included retail, a drop-off only dry cleaner, a grocery store, and offices. No onsite dry cleaning operations were observed at Canyon Creek Cleaners and Hamada Family Dentistry reportedly used digital photography and no x-ray equipment. Hygienetics identified no RECs and recommended no further investigation.
6.0 SITE RECONNAISSANCE

The subject property was inspected by Ms. Sau San of Partner on January 11, 2012. The weather at the time of the site visit was sunny and clear. The Property Manager was identified as Mr. Ed Abelite. Mr. Abelite accompanied Partner during field reconnaissance activities and provided information pertaining to the current operations and maintenance of the subject property.

Partner inspected approximately 29% of all interior units (Canyon Creek Pet Hospital (5617), Canyon Creek Cleaners (5631), Shelter Creek Orthodontics (5645, Ste 201), a vacant office (5645, Ste 208), and New Leaf Community Market (5667)) and all common areas. Based on the size and nature of use of the uninspected units (restaurant, office, retail, and beauty salon), this limited method of inspection is not expected to alter the overall findings of this assessment.

The subject property is currently occupied by multiple shopping center tenants for commercial use. Onsite operations consist of typical grocery store (currently under construction), restaurant, drop-off dry cleaner, office, dental office, retail, beauty salon, and veterinary clinic activities. No potential environmental concerns were identified during the onsite reconnaissance. Non-ASTM issues are discussed in Section 6.3.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in commercial dumpsters and a grease dumpster located at the subject property. Independent solid waste disposal contractors remove solid waste from the subject property.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges on the subject property are directed into the municipal sanitary sewer system. The City of San Jose services the subject property vicinity. A kitchen grease interceptor is located to the east of Building 2. The interceptor was installed in 2000. A contractor collects the residual grease on a periodic basis, and the clarified water is discharge to the sanitary sewer system. Based on the non-hazardous nature of material entering the grease trap, it is not expected to represent a significant environmental concern. No septic systems are located on the subject property.

6.1.3 Surface Water Drainage

Storm water is removed from the subject property primarily by sheet flow action across the paved surfaces towards storm water drains located throughout the subject property and in the public right of way. The subject property is connected to a municipal owned and maintained sewer system.
The subject property does not appear to be a designated wetland area, based on information obtained from the United States Department of Agriculture; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Heating and cooling systems as well as domestic hot water equipment are fueled by electricity and natural gas provided by Pacific Gas & Electric (PG&E).

6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater generated at the subject property is disposed by means of the sanitary sewer system. No industrial process is currently performed at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 Additional Site Observations

The onsite veterinary hospital utilizes digital imaging for x-rays. No x-ray developer or fixer chemicals are utilized onsite.

In addition, sharps and deceased animals appear to be properly treated as bio hazardous waste. All medical waste (biohazardous, infectious and sharps) were observed properly stored in designated plastic containers, bags, and trash canisters. The medical waste is routinely picked up by Converge, Inc. Based on the nature of these materials and the small quantity involved, these materials are not expected to represent a significant environmental concern.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Materials and Petroleum Products Used or Stored at the Site

With the exception of janitorial products, no reportable quantities of hazardous materials or petroleum products were observed on the subject property.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.
6.2.3 Evidence of Releases

No spills, stains or other indications that a surficial release has occurred at the subject property were observed.

6.2.4 Polychlorinated Biphenyls (PCBs)

Older transformers and other electrical equipment could contain polychlorinated biphenyls (PCBs) at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after January 1, 1977.

The on-site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. Four pad-mounted transformers were observed on the subject property. The transformers are not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

The subject property building is equipped with two hydraulic elevators, at the southern portion of Building 1 and another at the center of Building 2. The hydraulic fluid contained within elevator systems can potentially contain toxic polychlorinated biphenyls (PCBs). Based on the age of the building (post-1978), it is unlikely that the hydraulic fluid within the equipment contains PCBs. The equipment for the elevator is located behind the elevators in Building 1 and Building 2. No evidence of stains or leaks was observed at the base of the equipment during the site inspection. Based on the good condition and regular maintenance of the elevator equipment, the elevator is not expected to represent a significant environmental concern.

One hydraulic garbage compactor is located south of Building 1. Based on the age of the shopping center, the garbage compactor was installed sometime after 2000. Only minor staining was observed at the base of the garbage compactor. Based on the age of the compactor and the lack of any significant staining, the compactor is not anticipated to represent a significant environmental concern.

One cardboard baler is located at the southwestern corner of Building 1. Based on the age of the shopping center, the baler was installed sometime after 2000. No obvious evidence of stains or spills was observed at the base of the baler. Based on the age of the baler and the lack of any significant staining, the compactor is not anticipated to represent a significant environmental concern.

Additionally, no other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during Partner’s reconnaissance.
6.2.5 **Strong, Pungent or Noxious Odors**

No strong, pungent or noxious odors were evident during the site reconnaissance.

6.2.6 **Pools of Liquid**

No pools of liquid were observed on the subject property.

6.2.7 **Drains, Sumps and Clarifiers**

The subject property is equipped with a kitchen grease interceptor located to the east of Building 2. The interceptor was installed in 2000. A contractor collects the residual grease on a periodic basis, and the clarified water is discharged to the sanitary sewer system. Based on the non-hazardous nature of material entering the grease trap, it is not expected to represent a significant environmental concern. No septic systems are located on the subject property.

No other drains, sumps or clarifiers, other than those associated with storm water removal, were observed on the subject property.

6.2.8 **Pits, Ponds and Lagoons**

No pits, ponds or lagoons were observed on the subject property.

6.2.9 **Stressed Vegetation**

No stressed vegetation was observed on the subject property.

6.2.10 **Additional Potential Environmental Hazards**

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 **Non-ASTM Services**

6.3.1 **Asbestos-Containing Materials (ACMs)**

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. Asbestos is commonly used as an acoustic insulator, thermal insulation, fireproofing, and in other building materials. Exposure to airborne friable asbestos may result in a potential health risk because persons breathing the air may breathe in asbestos fibers. Continued exposure can increase the amount of fibers that remain in the lung. Fibers embedded in lung tissue over time may cause serious lung diseases including: asbestosis, lung cancer, or mesothelioma.

The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this
regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building constructed prior to 1980 and have not been appropriately tested are “presumed asbestos-containing material” (PACM).

The subject property buildings were constructed in 1999 and 2000. As such, it is unlikely asbestos containing materials were used in the construction of the subject buildings. Furthermore, at the time of Partner’s site reconnaissance, no damaged materials were noted.

6.3.2 Lead-Based Paint (LBP)

The subject property buildings were constructed in 1999 and 2000. As such, it is unlikely lead-based paint was used in the construction of the subject buildings. Furthermore, at the time of Partner’s site reconnaissance, no damaged or peeling paint was noted.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones; Zone 1 being those areas with the average predicted indoor radon concentration in residential dwellings exceeding the US EPA Action Limit of 4.0 picoCuries per Liter (pCi/L). It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not conducted as part of this assessment. Review of the US EPA Map of Radon Zones places the subject property in Zone 2, where average predicted radon levels are between 2.0 and 4.0 pCi/L. Based upon the radon zone classification, radon is not considered to be a significant environmental concern.

6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the San Jose Municipal Water System serves the subject property vicinity, which is designated as the Evergreen Service Area. Water for the subject property and surrounding area is imported water purchased from the Santa Clara Valley Water District, (SCVWD). SCVWD surface water is mainly imported from the South Bay Aqueduct, lake Del Valle, and San Luis Reservoir, which all draw water from the Sacramento-San Joaquin Delta watershed. SCVWD local surface water sources include Anderson and Calero reservoirs. Water from imported and local sources is pumped to and treated at the Santa Teresa Water Treatment Plant in San José. According to the City of San Jose and the 2010 Annual Water Quality Report, water supplied to the subject property is in compliance with all State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.
6.3.5 Mold

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g., in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding). Mold growths often appear as discoloration, staining, or fuzzy growth on building materials or furnishings and are varied colors of white, gray, brown, black, yellow, and green. In large quantities, molds can cause allergic symptoms when inhaled or through the toxins the molds emit.

Partner observed accessible, interior areas for the subject property buildings for significant evidence of mold growth; however, this ESA should not be used as a mold survey or inspection. Additionally, this inspection was not designed to assess all areas of potential mold growth that may be affected by mold growth on the subject property. Rather, it is intended to give the client an indication as to whether or not conspicuous (based on observed areas) mold growth is present at the subject property. This evaluation did not include a review of pipe chases, mechanical systems, or areas behind enclosed walls and ceilings.

No obvious indications of water damage or mold growth were observed during Partner’s visual inspection.

6.4 Adjacent Property Reconnaissance

The adjacent property reconnaissance consisted of observing the adjacent properties from the subject property premises. No items of environmental concern were identified on the adjacent properties during the site inspection, including hazardous materials, petroleum products, ASTs, USTs, evidence of releases, PCBs, strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.
7.0 FINDINGS AND CONCLUSIONS

Findings

A recognized environmental condition (REC) refers to the presence or likely presence of any hazardous substance or petroleum product on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property. The term REC includes hazardous substances and petroleum products even under conditions that might be in compliance with laws. The term is not intended to include "de minimis" conditions that do not present a threat to human health and/or the environment and that would not be subject to an enforcement action if brought to the attention of appropriate governmental agencies. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A historical recognized environmental condition (HREC) refers to an environmental condition which would have been considered a REC in the past, but which is no longer considered a REC based on subsequent assessment or regulatory closure. The following was identified during the course of this assessment:

- Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An environmental issue refers to environmental concerns identified by Partner, which do not qualify as RECs; however, require discussion. The following was identified during the course of this assessment:

- Partner did not identify any environmental issues during the course of this assessment.

Conclusions, Opinions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-05 of 5601-5667 Silver Creek Valley Road in the City of San Jose, Santa Clara County, California (the “subject property”). Any exceptions to or deletions from this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions or environmental issues in connection with the subject property. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.
8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 5601-5667 Silver Creek Valley Road in the City of San Jose, Santa Clara County, California in general conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, the undersigned meet the definition of an Environmental Professional as defined in §312.10 of 40 CFR 312 and have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases. The report is divided into three sections:

Section : facility Summary ................................................................. Page

Summary of facility filings including a review of the following areas: waste management, waste disposal, multi-media issues, and Superfund liability.

Section : facility Detail Reports ......................................................... Page

All available detailed information from databases where sites are identified.

Section : Databases and update Information ...................................... Page

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.

In response to the above referenced application for a policy of title insurance, OLD REPUBLIC TITLE COMPANY hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said Policy or Policies are set forth in Exhibit A attached. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the Homeowner's Policy of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the Policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of October 5, 2011, at 7:30 AM

OLD REPUBLIC TITLE COMPANY
For Exceptions Shown or Referred to, See Attached

Page 1 of 16 Pages
The form of policy of title insurance contemplated by this report is:

ALTA Loan Policy - 2006. A specific request should be made if another form or additional coverage is desired.

The estate or interest in the land hereinafter described or referred or covered by this Report is:

Fee as to Parcel(s) A and C and an Easement as to Parcel(s) B and D

Title to said estate or interest at the date hereof is vested in:

Canyon Creek Plaza, a California limited partnership

The land referred to in this Report is situated in the County of Santa Clara, City of San Jose, State of California, and is described as follows:

Parcel A:

   1st Installment : $37,302.83 NOT Marked Paid
   2nd Installment : $37,302.83 NOT Marked Paid
   Land Value : $812,357.00
   Imp. Value : $2,582,257.00

   Affects Parcel A

2. Assessment No. 24R for Assessment in the original amount of $23,115.44 payable with the real property taxes beginning with the fiscal year 2011 - 2012.

3. Any special tax which is now a lien and that may be levied within the Maint Dist #15, a notice(s) for which having been recorded.

   NOTE: Among other things, there are provisions in said Notice for a special tax to be levied annually, the amounts of which are to be added to and collected with the property taxes.

   NOTE: The current annual amount levied against this land is $3,763.78.
4. Taxes and assessments, general and special, for the fiscal year 2011 - 2012, as follows:

Assessor's Parcel No : 679-29-007  
Code No. : 17-028  
1st Installment : $89,255.56 NOT Marked Paid  
2nd Installment : $89,255.56 NOT Marked Paid  
Land Value : $900,776.00  
Imp. Value : $9,773,231.00  

Affects Parcel C

5. Assessment No. 24R for Assessment in the original amount of $25,676.00 payable with the real property taxes beginning with the fiscal year 2011 - 2012.

6. Any special tax which is now a lien and that may be levied within the Maint Dist #15, a notice(s) for which having been recorded.

NOTE: Among other things, there are provisions in said Notice for a special tax to be levied annually, the amounts of which are to be added to and collected with the property taxes.

NOTE: The current annual amount levied against this land is $4,173.52.

7. The lien of supplemental taxes, if any, assessed pursuant to the provisions of Section 75, et seq., of the Revenue and Taxation Code of the State of California.

8. Any easement for water course over that portion of said land lying within the banks of Silver Creek and any changes in the boundary lines of said land that have occurred or may hereafter occur from natural causes.

9. Terms and provisions as contained in an instrument,

Entitled : Agreement By Owner or his Successors in Interest to Construct and Maintain Land Development Improvements for Fire Protection  
Executed By : County of Santa Clara and John Bettencourt, et al  
Recorded : November 2, 1979 in Book E914 of Official Records, Page 95 under Recorder's Serial Number 6549212
10. Conditions contained and/or referred to in an instrument

Entitled : Notice of Granting of a Planned Development Permit
By : City of San Jose

Which, among other things, provides

Amendment of Notice of Granting of a Planned Development Permit,
Recorded : August 10, 1998, under Recorder's Series No. 14327471, Official Records

11. An Agreement, affecting said land, for the purposes state herein and subject to the terms covenants, conditions, restrictions and easements, if any, contained therein

For : Silver Creek Valley Country Club Project
Dated : April 13, 1990
Executed by : The City of San Jose and Shea Homes Limited Partnership

12. An easement affecting that portion of said land and for the purposes stated herein and incidental purposes as provided in the following instrument:

Granted to : City of San Jose, a municipal corporation
For : Sanitary sewer
Affects : Northwesterly portion as disclosed in said document and as shown on the filed Map under Recorder's Serial Number 10856815
13. An easement affecting that portion of said land and for the purposes stated herein and incidental purposes as shown on the map filed on January 30th, 1997 in Book 685 of Maps, at Pages 38-44

For : Public Service
Affects : Portion of premises

14. An easement affecting that portion of said land and for the purposes stated herein and incidental purposes as shown on the map filed on January 30th, 1997 in Book 685 of Maps, at Page 38-44.

For : Scismic Setback
Affects : Portion of premises

15. Conditions contained and/or referred to in an instrument

Entitled : Notice of Granting of a Planned Development Permit
By : City of San Jose
Recorded : January 16th, 1998 in Official Records under Recorder's Serial Number 14013697

16. Conditions contained and/or referred to in an instrument

Entitled : Notice of Granting of a Planned Development Permit Amendment
By : City of San Jose
Recorded : January 16th, 1998 in Official Records under Recorder's Serial Number 14013702

17. Conditions contained and/or referred to in an instrument

Entitled : Notice of Granting of a Planned Development Permit Amendment
By : City of San Jose
Recorded : January 16th, 1998 in Official Records under Recorder's Serial Number 14460560
18. Covenants, Conditions and Restrictions which do not contain express provisions for forfeiture or reversion of title in the event of violation, but omitting any covenants or restrictions if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Title 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons, as provided in an instrument

Recorded: December 10th, 1998 in Official Records under Recorder's Serial Number 14543230

Said Covenants, Conditions and Restrictions provide that a violation thereof shall not defeat or render invalid the lien of any Mortgage or Deed of Trust made in good faith and for value.

NOTE: "If this document contains any restriction based on race, color, religion, sex, sexual orientation, familial status, marital status, disability, national origin, source of income as defined in subdivision (p) of section 12955, or ancestry, that restriction violates state and federal fair housing laws and is void, and may be removed pursuant to Section 12956.2 of the Government Code. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status."

19. Deed of Trust to secure the performance of an obligation and any other terms,

Twenty Second Century Development, Inc.

All the general partners should sign on behalf of said partnership, or at least authorize or ratify in writing anything executed by less than all general partners.

------------------------ Informational Notes ------------------------

A. The applicable rate(s) for the policy(s) being offered by this report or commitment appears to be section(s) 2.2.

B. The above numbered report (including any supplements or amendments thereto) is hereby modified and/or supplemented to reflect the following additional items relating to the issuance of an American Land Title Association loan form policy:

NONE

NOTE: Our investigation has been completed and there is located on said land a commercial building known as 5601 - 5667 Silver Creek Valley Road, San Jose, CA 95138.

The ALTA loan policy, when issued, will contain the CLTA 100 Endorsement and 116 series Endorsement.

Unless shown elsewhere in the body of this report, there appear of record no transfers or agreements to transfer the land described herein within the last three years prior to the date hereof, except as follows:

NONE
C. NOTE: The last recorded transfer or agreement to transfer the land described herein is as follows:

Instrument Entitled : Grant Deed
By/From : Shea Homes Limited Partnership, a California limited partnership
To : Canyon Creek Plaza, a California limited partnership
Dated : November 30, 1998
Recorded : December 10, 1998 in Official Records under Recorder's Serial Number 14543231

If you anticipate having funds wired to Old Republic Title Company, our wiring information is as follows: Comerica Bank, 275 Battery Street, San Francisco CA 94111, credit to the account of: Old Republic Title Company Account Number 1892529965, ABA Number 121137522.

When instructing the financial institution to wire funds, it is very important that you reference Old Republic Title’s Escrow Number 0616007843.

Note: Automated Clearing House (ACH) transfers are not accepted in lieu of wired funds, except when received from a governmental agency.

Funds deposited directly into an account of Old Republic Title Company at a Comerica Bank branch are subject to verification and may cause a delay in closing.

Should you have any questions in this regard, please contact your Escrow or Title Officer immediately.
The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.

5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.

6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

**EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART 1, SECTION ONE**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys’ fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.
Old Republic Title Company

Privacy Policy Notice

PURPOSE OF THIS NOTICE

Title V of the Gramm-Leach-Bliley Act (GLBA) generally prohibits any financial institution, directly or through its affiliates, from sharing nonpublic personal information about you with a nonaffiliated third party unless the institution provides you with a notice of its privacy policies and practices, such as the type of information that it collects about you and the categories of persons or entities to whom it may be disclosed. In compliance with the GLBA, we are providing you with this document, which notifies you of the privacy policies and practices of Old Republic Title Company.

We may collect nonpublic personal information about you from the following sources:

- Information we receive from you such as on applications or other forms.
- Information about your transactions we secure from our files, or from [our affiliates or] others.
- Information we receive from a consumer reporting agency.
- Information that we receive from others involved in your transaction, such as the real estate agent or lender.

Unless it is specifically stated otherwise in an amended Privacy Policy Notice, no additional nonpublic personal information will be collected about you.

We may disclose any of the above information that we collect about our customers or former customers to our affiliates or to nonaffiliated third parties as permitted by law.

We also may disclose this information about our customers or former customers to the following types of nonaffiliated companies that perform marketing services on our behalf or with whom we have joint marketing agreements:

- Financial service providers such as companies engaged in banking, consumer finance, securities and insurance.
- Non-financial companies such as envelope stuffers and other fulfillment service providers.

WE DO NOT DISCLOSE ANY NONPUBLIC PERSONAL INFORMATION ABOUT YOU WITH ANYONE FOR ANY PURPOSE THAT IS NOT SPECIFICALLY PERMITTED BY LAW.

We restrict access to nonpublic personal information about you to those employees who need to know that information in order to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

ORT 287-C 5/07/01
Disclosure to Consumer of Available Discounts

Section 2355.3 in Title 10 of the California Code of Regulation necessitates that Old Republic Title Company provide a disclosure of each discount available under the rates that it, or its underwriter Old Republic National Title Insurance Company, have filed with the California Department of Insurance that are applicable to transactions involving property improved with a one to four family residential dwelling.

You may be entitled to a discount under Old Republic Title Company’s escrow charges if you are an employee or retired employee of Old Republic Title Company including its subsidiary or affiliated companies or you are a member in the California Public Employees Retirement System “CalPERS” or the California State Teachers Retirement System “CalSTRS” and you are selling or purchasing your principal residence.

If you are an employee or retired employee of Old Republic National Title Insurance Company, or its subsidiary or affiliated companies, you may be entitled to a discounted title policy premium.

Please ask your escrow or title officer for the terms and conditions that apply to these discounts.

A complete copy of the Schedule of Escrow Fees and Service Fees for Old Republic Title Company and the Schedule of Fees and Charges for Old Republic National Title Insurance Company are available for your inspection at any Old Republic Title Company office.

Subject Property

Canyon Creek Plaza Shopping Center, an attractive and well maintained, high profile Mediterranean architectural motif, three building 58,215 rentable square foot grocery anchored neighborhood shopping center completed in 2000. The center will be anchored by a 25,000 square foot natural foods grocery store called New Leaf Community Markets which is scheduled to open on January 15, 2012. The center also includes two multi-tenant retail buildings one of which features an elevator served, functionally designed 5,938 rentable square foot second floor space housing dental/office tenants. The functionally designed 8.4 acre center features extensive and attractive site landscaping, outdoor dining/seating areas and ample parking provided by 321 parking stalls (5.51/1,000 s.f.). The subject center’s large site and ample parking ratio allows for future building expansion with the owner/developer currently in discussions with a Shell service station/car wash operator which would add substantial income and value to the center at a later date. The 100% leased retail portion of the center is home to a number of national and regional name tenants including Starbucks Coffee, Postal Annex and Comerica Bank as well as Cellular One/AT&T, T-Mobile USA and Sprint/Nextel who all operate on-site cellular antennas. As part of the New Leaf Community Markets planned store opening, approximately $110,000 will be spent on capital improvements including a slurry seal and restriping of the entire parking lot, installation of Russet stone veneer wainscoting around each of the buildings and repainting of all three buildings with a new color scheme. In addition, the subject Center’s Owners plan to spend an additional $125,000 on what they term “activation upgrades”, upgrades intended to enhance the human, community feel of the center including enhanced night lighting, outdoor furniture, landscape upgrades, new railings, new color schemes, etc.. To this end, the owners have met with a San Francisco based Landscape/Environmental Design firm as the first step towards enhancing the high energy level at the center and reinforcing the plaza’s vitality within the Silver Creek community.

Neighborhood

5601-5667 Silver Creek Valley Road, San Jose, Santa Clara County, California 95138. The development is located in the southern portion of San Jose, California within the upscale Silver Creek community, an approximate 6.1 square mile community regarded as one of the most affluent communities in the San Francisco Bay Area featuring country clubs, new upscale housing developments and strong demographics. The location also lies within San Jose’s Silver Creek Evergreen Area, an area of San Jose which up until a few years ago represented the fastest growing region in the San Francisco Bay Area. The Evergreen Area accounted for one-half of all of the residential building permits issued by the City of San Jose and was the site of 14,000+ new homes. The subject property is situated just south of Yerba Buena Road along Silver Creek Valley Road, a busy four-lane arterial which carries considerable traffic and affords the subject excellent exposure and convenient access. The subject benefits by being the only grocery anchored shopping center in the area with the only direct local competition coming from a CVS anchored center located within the adjacent Evergreen area. The subject benefits from a geographically captive, upper income and very educated demographic audience of community residents with an overall trade area population estimated at approximately 54,000.
Area & Market

Area Description & Points of Interest

Areas Square Feet
Building One (New Leaf Community Markets) 25,000
Building Two (Multi-tenant, 5,938 s.f. on 2nd floor) 19,664
Building Three (Multi-tenant) 13,551
Total Rentable Area of Subject Improvements 58,215
Other: Mezzanine space within New Leaf Grocery Store 4,335
Gross Building Area 62,550

Leasing

The subject property is 94.8% leased to eleven retail tenants, three second floor dental/office tenants, three national cellular phone antenna provider tenants and anchor grocer New Leaf with 100% of the ground floor retail space leased. Anchor grocer tenant New Leaf Community Markets has executed a fifteen year lease which includes three, five year lease renewal options, with a lease commencement date of December 9, 2011 and a target opening date of January 15, 2012. Per the lease agreement, the Borrower is to contribute up to $900,000 in match funding for tenant improvements in the new store. New Leaf Community Markets traces its roots back to 1985, operates seven stores (including the upcoming subject opening) with five stores in Santa Cruz and one store in Half Moon Bay, California. New Leaf’s mission is to nourish and sustain the community as reflected in the 10% to 20% of after tax company profits given annually to support local non-profits working to improve the quality of life. New Leaf is committed to offering customers choices that have the most beneficial impact on their health and the health of the environment. Upon its opening in January 2012, the subject New Leaf store will represent the only natural food grocer in the subject trade area. The company is excited about its upcoming store opening as it views the local community/demographic as very well educated with a diversified ethnic mix, traits which cater well to the grocer’s products and services. To date, New Leaf has had a number of community events to promote the upcoming opening as their goal is to become part of the fabric of the Silver Creek community.

Subject: File Review Request- Canyon Creek Plaza

Hi Somira,

I am conducting an environmental site assessment on the following property:

- 5601-5667 Silver Creek Valley Road, San Jose

As part of the investigation, I would like to review any and all records you have for the above-referenced property pertaining to the following:

- Current or historical use of hazardous materials and/or hazardous waste  
- Current or historical underground/aboveground storage tanks  
- Current or historical clarifiers  
- Violations or Notices to Comply

Please contact me via phone (415-373-6317) or via email (ssan@PARTNEResi.com) to schedule an appointment. Thank you for your help!

OWNER-BUILDER DECLARATION
Section 7031.5: I hereby affirm under penalty of perjury that I am exempt from the Contractors License Laws for the following reason (Sec. 7031.5). Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the forms for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars ($500).

Section 7044: I, as owner of the property, or my employees with wages as their sole compensation, will do this work, and the structure is not intended or offered for sale (Sec. 7044). Business and Professions Code: The Contractors License Law does not apply to any owner of property who builds or improves the same, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that harm did not build or improve for the purpose of sale.

Section 7044: I, as owner of the property, am exclusively contracting with licensed contractors to construct this project (Sec. 7044). Business and Professions Code: The Contractors License Law does not apply to any owner of property who builds or improves the same, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

WORKER'S COMPENSATION DECLARATION
I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a Certificate of Consent to self-insure for Worker's Compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain Worker's Compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My Worker's Compensation insurance carrier and policy number are:

Carrier: Liberty Mutual Co Policy No: WC216105000-46

(THE SECTION ABOVE MUST BE COMPLETED IF THE PERMIT IS FOR ONE HUNDRED DOLLARS ($100) OR LESS)

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California, and that if I should become subject to the Worker's Compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date: ______________________ Applicant: ______________________

NOTE: WARNING: FAILURE TO SECURE WORKER'S COMPENSATION COVERAGE IS UNLAWFUL. YOU MAY BE SUBJECT TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS ($100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

CONSTRUCTION LENDING AGENCY:
I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3037, Civil Code).

Lender's Name: ______________________

Lender's Address: ______________________

CERTIFICATION
I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction and hereby authorize representatives of this city to enter upon the above mentioned property for inspection purposes.

CASHIER
THE FOLLOWING FORM IS MANDATED BY SECTION 19831
OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA

ATTENTION PROPERTY OWNER OF: 5631 Silver Valley Rd
(Property Address)

An “owner-builder” building permit has been applied for in your name and bearing your
signature.

Please complete and return this information at your earliest opportunity to avoid unnecessary
delay in processing and issuing your building permit. No building permit will be issued until this
verification is received.

1. I personally plan to provide the major labor and materials for construction of the
   proposed property improvement [yes ☑️ no ( )].

2. I [have ☑️ have not ( )] signed an application for a building permit for the proposed
   work.

3. I have contracted with the following person (firm) to provide the proposed construction:
   Name: ____________________________
   Address: ____________________________
   Phone: ____________________________ Contractor’s License No.: ____________________________

4. I plan to provide portions of the work, but I have hired the following person to
   coordinate, supervise, and provide the major work.
   Name: ____________________________
   Address: ____________________________
   Phone: ____________________________ Contractor’s License No: ____________________________

5. I will provide some of the work, but I have contracted (hired) the following persons to
   provide the work indicated:

**CANYON CREEK PLAZA**

**Tenant Lease Abstract**

**Month**

**Lease**

1. **Edelweiss Music Studio**
   - **Monthly Rental**: $2,500.00
   - **Usable S.F.**: 1,08
   - **Rentable S.F.**: 1,21
   - **Lease Commence**: 30/31/2010
   - **Lease Terminate**: 4/30/2012
   - **Option**: None
   - **Percent**: 1/18 mo.
   - **Increase Date**: 180 days notice
   - **Security Deposit**: None
   - **Misc.**: 18 mo. Gross Lease. Tenant does not pay any NNN expenses.

2. **Creme Dental Corporation**
   - **Monthly Rental**: $2,481.85
   - **Usable S.F.**: 1,03
   - **Rentable S.F.**: 1,135
   - **Lease Commence**: 3/4/2012
   - **Lease Terminate**: 3/3/2022
   - **Option**: None
   - **Percent**: 25-yr
   - **Increase Date**: None
   - **Security Deposit**: None

3. **Shelter Bay Retail Group**
   - **Monthly Rental**: $1,470.00
   - **Usable S.F.**: 840
   - **Rentable S.F.**: 941
   - **Lease Commence**: 1/3/2012
   - **Lease Terminate**: 12/31/2014
   - **Option**: 60 day kick out clause
   - **Percent**: None
   - **Increase Date**: None
   - **Security Deposit**: None

4. **Intero Real Estate**
   - **Monthly Rental**: $12,544.20
   - **Usable S.F.**: 5,454
   - **Rentable S.F.**: 5,044
   - **Lease Commence**: 1/3/2010
   - **Lease Terminate**: 12/31/2016
   - **Option**: Opt at FMV but not to exceed $2.67. 3% increases thereafter.
   - **Percent**: N/A
   - **Increase Date**: N/A
   - **Security Deposit**: N/A

5. **Vet Clinic**
   - **Monthly Rental**: $4,527.68
   - **Usable S.F.**: 2,344
   - **Rentable S.F.**: 2,344
   - **Lease Commence**: 9/4/2010
   - **Lease Terminate**: 9/30/2013
   - **Option**: 24 year
   - **Percent**: 180 days notice

</tr>
</tbody>
</table>

1. **Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25)**

   Are you aware of any environmental cleanup liens against the Subject Property that are filed or recorded under federal, tribal, state or local law?

   - [ ] YES   - [x] NO

2. **Activity and land use limitations that are in place on the site or that have been filed or records in a registry (40 CFR 312.26)**

   Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the Subject Property and/or have been filed or recorded in a registry under federal, tribal, state or local law?

   - [x] YES   - [ ] NO

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)**

   As the User of this report, do you have any specialized knowledge or experience related to the Subject Property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the Subject Property or adjoining property?

   - [x] YES   - [ ] NO

4. **Relationship of the purchase price to the fair market value of the Subject Property if it were not contaminated (40 CFR 312.29)**

   Does the purchase price being paid for the Subject Property reasonably reflect the fair market value of the Subject Property? If so, why?

   - [x] YES   - [ ] NO

Refinance only. No special price adjustments required.

Phase I ESA Questionnaire
Page 1 of 3
5. Commonly known or reasonably ascertainable information about the Subject Property (40 CFR 312.30)
Are you aware of commonly known or reasonably ascertainable information about the Subject Property that would help the environmental professional to identify conditions indicative of release or threatened release?

☐ YES ☐ NO

a. Do you know the past uses of the Subject Property?

☐ YES ☐ NO

b. Do you know of specific chemicals that are present or once were present at the Subject Property?

☐ YES ☐ NO

c. Are you aware of any spills or other chemical releases that have taken place at the Subject Property?

☐ YES ☐ NO

d. Do you have any prior knowledge that the Subject Property was developed as a gas station, dry cleaner, manufacturing/industrial facility in the past?

☐ YES ☐ NO

e. Are you aware of historical use of hazardous materials or petroleum products used or present on the Subject Property?

☐ YES ☐ NO

f. Do you know if the property is currently or was formerly equipped with underground storage tanks (USTs) or septic tanks?

☐ YES ☐ NO

g. Do you know of any past, threatened or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the Subject Property by any owner or occupant of the Subject Property?

☐ YES ☐ NO
6. The degree of obviousness of the presence or likely presence of contamination at the Subject Property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)
   As the User of this report, are there any obvious indicators that point to the presence or likely presence of contamination at the Subject Property based on your knowledge and experience related to the Subject Property?
   ☐ YES   ☐ NO

CERTIFICATION OF RESULTS

This assessment was conducted on behalf of and for the exclusive use of GE Capital Real Estate (GECC), and all its successors and assigns, solely for use in an environmental evaluation of the Site. This report is for the exclusive use of GECC, its affiliates, designates and assignees, rating agencies, prospective bond holders and bond holders, and no other party shall have any right to rely on any service provided by Hygienetics Environmental Services, Inc. without prior written consent.

This report is respectfully submitted this 22nd day of November 2000.

GBCC National Account Director
INTRODUCTION

Hygienetics Environmental Services, Inc. (Hygienetics) has performed a Phase I Environmental Site Assessment (ESA) for the Canyon Creek Plaza located at 5601-5667 Silver Creek Valley Road in San Jose, California. This ESA was performed on behalf of GE Capital Real Estate (GECC) as the potential lender on this property. The work was performed in accordance with the scope and limitations of GECC-CREPS’ April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments and Hygienetics’ proposal number SF00-235, dated November 2, 2000.

The purpose of the investigation was to determine the potential for “environmental contamination” (e.g., petroleum products and/or hazardous materials) to exist on the property, and the potential for such materials to migrate (or have migrated) onto the property from nearby activities or adjacent properties. The investigation included an inspection of the Site and the exterior of adjacent properties, interviews with Site staff and regulatory officials, and review of appropriate federal, state, and local historical and environmental records. This assessment revealed the following:

On-Site

This assessment has not revealed evidence of any recognized or potential environmental conditions in connection with the Site.

Off-Site

This assessment revealed no evidence of recognized environmental concerns in connection with the adjoining or neighboring properties.

Recommendations

No further environmental investigation of the Site is recommended at this time.
1.0 PROJECT SUMMARY

1.1 Purpose:

This report provides the results of a Phase I Environmental Site Assessment for Canyon Creek Plaza located at 5601-5667 Silver Creek Valley Road in San Jose, California, 95138 (refer to Figure 1).

The purpose of this assessment was to identify recognized environmental conditions ("environmental contamination") existing in connection with the above-referenced property, stemming from petroleum products (e.g., oils) and/or hazardous materials that are currently in use, in use in the past, or possibly may have existed off the Site and migrated onto the Site via a spill or other accident. Consideration was given to their possible previous or current generation, use, treatment, storage, or disposal on the Site. The terms "hazardous materials," "hazardous wastes," and "hazardous substances" are defined by the United States Environmental Protection Agency (EPA) Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) 42 USC Section 9602; the EPA Resource Conservation and Recovery Act (RCRA) 42 USC Section 9621, Subpart C; and State of California regulations.

1.2 Scope And Terms And Conditions:

Hygienetics was engaged by GE Capital Real Estate (GECC) on November 2, 2000, to perform a Phase I Environmental Site Assessment of the property described above. The assessment was conducted on behalf of GECC to fulfill the environmental due diligence requirement in connection with the lending transaction for the Site. The work was performed in accordance with the scope and limitations of GECC-CREFS' April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments and Hygienetics' proposal number SF00-235, dated November 2, 2000.

The GECC contact for this project was Ms. Tamika Miller of GECC's Dallas office, located at 16479 Dallas Parkway, Suite 500, Addison, Texas.

1.3 Limitations And Exceptions Of Assessment:

No limitations or exceptions to GECC-CREFS' April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments are noted. This report is subject to the limitations stated in Appendix A.
1.4 Information Sources And Methodology Used:

The investigation was based on information sources cited in Appendix B, which included federal, state and local regulatory agencies and Site contacts; observations of the Site and readily observable portions of adjacent properties from public right-of-ways; review of the electronic database search report prepared by Environmental FirstSearch (FirstSearch); and a review of available historical records and other relevant published material.

2.0 PROPERTY DESCRIPTION

2.1 Site Location And Legal Description:

Canyon Creek Plaza (Site) is located at 5601-5667 Silver Creek Valley Road in San Jose, California. It appears in the Santa Clara County Assessor’s Map Book 679, Page 29, Parcel 1 (Figure 4).

2.2 Site Vicinity Characteristics:

The Site is located in a residential area. Silver Creek Valley Road is to the north of the Site followed by a residential development, Bel Aire Luxury Estates. To the south is Silver Creek followed by single-family residences. To the east and west are single-family residences.

2.3 Description of Structures Roads And Other Improvements:

The subject property consists of one parcel of land encompassing approximately 8.35 acres. The Site is comprised of three (3) one- and two-story buildings constructed in 2000. At the time of the Site inspection, ten (10) tenant spaces were inspected, five (5) tenant spaces were leased and under construction and two (2) tenant spaces were vacant. The Site tenants included retail, a drop-off only dry cleaner, a grocery store, and offices.

Building 1 is 5667 Silver Creek Valley Road; Building 2 incorporates 5623-5665 Silver Creek Valley Road and Building 3 encompasses 5601-5617 Silver Creek Valley Road. The shopping center buildings include a supermarket, a first floor strip mall and a second story suite of office spaces. The Site contains approximately 56,714 square feet of net leasable space. The remainder of the Site consists of 319 paved parking spaces or is landscaped.
The Site buildings are of wood frame construction with stucco finish over slab-on-grade concrete foundations. Interior walls are constructed of gypsum wallboard (drywall) finished with paint. The floors are covered with carpeting, ceramic tiles, vinyl floor tiles or vinyl floor sheeting. Ceilings are painted drywall or suspended ceiling tiles. The flat roof is constructed of asphalt sheeting and tar. HVAC systems are roof-mounted. Photographs of the Site are included as Appendix C.

Pacific Gas and Electricity (PG&E) provides electricity and natural gas to the Site. The potable water supply and sewer service is provided by the City of San Jose. Municipal trash service is provided by Browning Ferris Industries (BFI). Universal Maintenance provides janitorial and parking lot maintenance services for the Site.

2.4 Physical Setting:

The Site is located on the U.S. Geological Survey (USGS) San Jose East Quadrangle 7.5 Minute Series Topographic Sheet at approximate longitude coordinates of 121° 46' 25" and latitude coordinates of 37° 17' 13" (Figure 3).

The nearest surface water body is Silver Creek, located approximately 200 feet to the southwest of the Site. According to the National Flood Insurance Program Map (FIRM) Community Panel Number 060349-0039-E dated August 17, 1998, the Site is within Zone D, an area of undetermined, but possible flood hazard. According to the U. S. Department of Interior April 1985 National Wetlands Inventory map of the San Jose East Quadrangle, the Site is not a designated wetland. Wetland areas are present along the Silver Creek and are designated as, PFOA, (Palustrine, forested, temporarily flooded).

The site lies within the Coast Ranges Geomorphic Province, which extends approximately 550 miles in a northwest to southeast direction along the coast of California. The Coast Ranges comprises a series of northwest to southeast trending ridges and narrow valleys, whose orientations are controlled by the fault dominated geologic structure of the region. The Site is within low hills that bound the eastern edge of the northwest to southeast trending Santa Clara Valley. The low hills, which are from 200 to 1,000 feet above mean sea level in the vicinity of the site, are part of the Diablo Range that bounds the eastern side of the San Francisco Bay basin. The property is at an approximate elevation of 400 feet above mean sea level and surface topography in the local area is irregular and slopes moderately to the southwest.

The geologic terrane in the south San Jose area consists of bedrock units of the Franciscan Assemblage and unconsolidated sediments of the Santa Clara
Formation and various alluvial deposits. The Franciscan Assemblage rocks are from Jurassic to Cretaceous in age and consist primarily of serpentinite, graywacke, and sandstone with minor claystone. These rocks are exposed at the ground surface to the south and west of the site. Underlying the site and immediate vicinity is the Pliocene-Pleistocene age Santa Clara Formation, which consists of poorly-sorted gravel, pebbly sandstone, siltstone, and clay. Other younger unconsolidated sediments include Pleistocene and Holocene age alluvial fan deposits and Holocene age stream channel deposits, which are exposed along the Silver and Thompson Creek channels and underlie the margins of the Santa Clara Valley. Alluvial fan deposits include gravelly and clayey sand and clayey gravel that grades upward to sandy or silty clay (see Helley and Wesling, 1990).

Several northwest to southeast trending faults have been delineated in the area of the site. The closest fault is the Silver Creek Fault, which follows Silver Creek approximately 1,000 feet southwest of the site. The trace of the Piercy Fault runs approximately 2 miles southwest of the site and traces of the Evergreen, Quimby, and Hayward Faults are between 1 and 2 miles northeast of the site (Helley and Wesling, 1990).

The site and vicinity are underlain by rocks classified by the Santa Clara Valley Water District (1989) as non water-bearing. Ground water in the rocks of the Franciscan Assemblage and unconsolidated sediments of the Santa Clara Formation is stored and transmitted primarily through fracture openings. Consequently, yields from water supply wells are generally low (see Santa Clara Valley Water District, 1989). Due to the geology in the Site vicinity, information on the depth to ground water in the vicinity is not available. Based on surface topography, the direction of groundwater flow at the site may be to the southwest toward Silver Creek. Although, the Silver Creek Fault, which follows Silver Creek, may direct ground-water flow to the northwest.

2.5 Current Uses Of The Site:

The Site is currently used as a retail and office facility. No manufacturing activities are performed on the Site. No current plant dry cleaning activities are performed at the Site. The current use of the Site does not represent an environmental concern.

As of the date of our Site reconnaissance, the current tenants at the Canyon Creek Plaza, their operations, and potential for environmental concern are summarized as follows:
<table>

</tbody>
</table>

Hamada Family Dentistry, located at 5645 Silver Creek Valley Road, Suite 220, uses only digital photography and utilizes no x-ray equipment or developers on site.

Canyon Creek Cleaners located at 5631 Silver Creek Valley Road operates as a drop-off only dry cleaning facility. No visible evidence of staining or discoloration was observed at the time of the Site inspection.
2.6 Current Uses Of Adjacent Properties:

The Site is located in a residential area. Silver Creek Valley Road is to the north of the Site followed by a residential development, Bel Aire Luxury Estates. To the south is Silver Creek followed by single-family residences. To the east and west are single-family residences.

3.0 HISTORICAL RECORDS REVIEW

Hygienetics conducted a historical record search for both the Site and neighboring properties. This included a review of aerial photographs on file at Pacific Aerial Surveys of Oakland, California, Sanborn Fire Insurance Maps on file at the University of California Berkeley Map Library, city directories, building permits on file at the City of San Jose Planning and Building Department, and maps on file at the Santa Clara County Assessor's Office. A copy of the assessor's map is provided as Figure 4.

3.1 Past Uses Of The Site:

Aerial photographs were reviewed for the following years: 1960, 1971, 1976, 1982, 1988, 1992 and 1998. Aerial photographs were reviewed at the offices of Pacific Aerial Surveys in Oakland, California.

1960 and 1971 Aerial Photographs: Show the Site and immediate vicinity as vacant, undeveloped land. Farm land and orchards appear prevalent in the surrounding area. Silver Creek Valley Road does not exist at this time.

1976, 1982 and 1988 Aerial Photographs: Show the Site partially developed with a rectangular barn structure with four small square sheds surrounding the barn. The immediate vicinity remains vacant and undeveloped.

1992 Aerial Photograph: Shows the Site with the same barn structure as appeared in 1988. The four sheds no longer appear at this time. Roll-off bins and automobiles appear parked on the south and west sides of the barn. The immediate surrounding area still appears undeveloped at this time. Silver Creek Valley Road has been constructed by this time.

1998 Aerial Photograph: Shows the Site under construction, no structures appear on the Site. Trucks appear to be grading the Site at this time. Residential development is visible to the north of the Site. Single-family residences appear to the south, east and west.
Sanborn Fire Insurance map coverage was not provided for the subject Site.

Available city directories did not list the Site addresses through 1999.

3.2 Past Uses Of Adjacent Properties:

Past use of adjacent properties is summarized in Section 3.1.

4.0 REGULATORY AGENCY RECORDS SEARCH

Hygienetics reviewed federal and state regulatory agency database information provided by Environmental FirstSearch (FirstSearch) concerning activities which may be of environmental concern in the general vicinity of the Site. The database search was conducted using publicly available regulatory records, as detailed in FirstSearch’s November 6, 2000 report. Please refer to Appendix D for a copy of the FirstSearch report with a listing of search parameters, database summary listing, site specific detail printouts and location maps. Regulatory listings are limited and include only those sites which are known to the regulatory agencies at the time of publication to be contaminated or are in the process of evaluation for potential contamination.

Please note that some facilities are listed with unknown addresses (not Geocoded) or other unknown data fields. Such occurrences are the result of limitations in the regulatory database itself, and are beyond our control.

4.1 Federal Environmental Record Sources:

United States Environmental Protection Agency (USEPA) National Priority List (NPL)

The Site does not appear on the NPL list. There are no facilities included on the NPL within a one-mile radius of the Site.

USEPA Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS)

The Site does not appear on the CERCLIS list. There are no facilities within a one-half mile radius of the Site listed on the CERCLIS list.
USEPA Resource Conservation and Recovery Information System (RCRIS)
Hazardous Waste Generators and Transporters

No current or previous Site tenants are listed as RCRA generators or transporters. There are no RCRA generator facilities listed within a one-quarter mile radius of the Site.

USEPA Resource Conservation and Recovery Act (RCRA), Treatment, Storage and/or Disposal Facility (TSD)

The Site does not appear on the RCRA TSD list. There are no listed RCRA TSD facilities within a one-half mile radius of the Site.

USEPA Resource Conservation and Recovery Act Corrective Actions List (CORRACTS)

The Site does not appear on the CORRACTS list. There are no CORRACTS facilities listed within a one-mile radius of the Site.

USEPA Emergency Response Notification System (ERNS)

The Site does not appear on the ERNS list. There are no ERNS facilities listed within a one-eighth mile radius of the Site.

4.2 State Environmental Record Sources:

State of California Annual Work Plan (AWP/State-Equivalent NPL)

The Site does not appear on the AWP list. There are no AWP facilities listed within a one-mile radius of the Site.

California EPA CALSITE (State-equivalent CERCLIS)

The Site is not listed on the CALSITE list. There are no CALSITE facilities listed within a one-mile radius of the Site.

Permitted Underground Storage Tanks – State Water Quality Control Board (UST)

The Site is not on the UST list. There are no facilities listed with permitted underground storage tanks within a one-quarter mile radius of the Site.
Leaking Underground Storage Tanks (LUST) – State of California

The Site is not on the LUST list. There is one LUST facility within a one-half mile radius of the Site. Silver Creek High School at 3434 Silver Creek Road is located approximately 0.22 miles southeast and cross-gradient from the Site. The status of this LUST incident is listed as “Cased Closed”. Due to the distance, relative gradient and regulatory status, this LUST does not represent an environmental concern to the Site.

Solid Waste Information System (SWIS)

The Site is not listed on the SWIS list. There is no SWIS facilities listed within a one-half mile radius of the subject Site.

4.3 Municipal And Local Authorities:

City of San Jose Planning and Building Department File Review November 14, 2000

According to the City of San Jose Planning and Building Department, the Site is zoned C-7, Neighborhood Commercial. Approximately ten (10) Certificates of Occupancy for the Site were available for review at the City of San Jose Planning and Building Department. These Certificates of Occupancy were available for the individual tenant spaces and were dated from May 15, 2000 through the present. No environmental concerns were noted from the review conducted at the City of San Jose Planning and Building Department.

4.4 Additional Record Sources:

Since the Site is not on any of the environmental regulatory lists, no written Freedom of Information Act (FOIA) requests were submitted for the Site.

Hygienetics reviewed the Phase I Environmental Site Assessment Report for the Silver Creek Valley Road Property in San Jose, California prepared by Kleinfelder and dated August 18, 1998. The assessment was conducted prior to the construction of the current Site-buildings. According to this Phase I report, no significant environmental concerns were noted for the Site based on the site reconnaissance and historical and regulatory reviews.

Hygienetics reviewed the Property Condition Assessment and Americans with Disability Act Compliance Survey prepared by Aqua Terra Assessment Services Corporation and dated October 20, 2000. According to the report, the physical condition of the property was “good” and the quality of the building materials and
systems meet construction standards. The Site was also concluded to be within substantial compliance with the “Americans with Disabilities Act of 1990.”

Hygienetics reviewed the *Seismic Loss Assessment* prepared by Aqua Terra Assessment Services Corporation and dated October 24, 2000. According to the report, the Site has a low potential for ground failure due to liquefaction or landslides. The Site is within an earthquake fault zone that has been identified as recently active or potentially active seismic faults with a potential for surface rupture. The report further noted that the Site is depicted in the California Division of Mines and Geology “Probabilistic Seismic Hazard Map for California” as having a 60-70 percent probability for Peak Horizontal Ground Acceleration within 50 years. According to the Modified Mercalli Intensity Scale, the Site is classified as “IX” for a major earthquake on the closest fault zones. Based upon their research, Aqua Terra predicted the probable maximum loss for the current improvements from seismic activity is 14 percent for Buildings 2 and 3 and 19 percent for Building 1.

No environmental concerns were noted from the previous environmental reports review.

5.0 **ON-SITE ENVIRONMENTAL ASSESSMENT**

On November 14, 2000, Ms. Kris McCormick and Ms. Rebecca Walsh of Hygienetics performed a Site reconnaissance. The reconnaissance included observations of the shopping center common areas, the shopping center store units, selected office spaces, and the grounds with Mr. Ed Ableite, Canyon Creek Plaza General Partner. The reconnaissance also included observations of exterior portions of adjacent properties from public right of ways. The findings of the inspection are presented in the following sections.

5.1 **Underground/Aboveground Storage Tanks:**

According to the FirstSearch database, there are no underground storage tanks located on the Site. No obvious visual evidence (vent pipes, fill pipes, etc.) of underground storage tanks was observed. No records of USTs or ASTs were on file with the City of San Jose Fire Department.

5.2 **Lead-Based Paint:**

No documentation relative to lead-based paints was reviewed for this assessment. In accordance with GECC-CREFS’ April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments, whereas the on-Site buildings
were constructed in 2000, a lead-based paint inspection was not deemed necessary. Painted surfaces observed in areas accessed during this assessment were intact and in good condition. Based on the Site date of construction (2000) lead based paint is not likely to represent an environmental concern.

5.3 Asbestos:

No documentation relative to asbestos-containing materials (ACMs) was reviewed for this assessment. In accordance with GECC-CREFS’ April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments, whereas the on-Site buildings were constructed after 1980, an ACM inspection was not deemed necessary. Building materials in areas accessed were observed to be in good condition, no friable or damaged non-friable suspect materials were observed. Based on the Site date of construction (2000) ACM is not likely to represent an environmental concern.

5.4 Non-Asbestos Hazardous Materials:

Chemical storage at the Site consisted of various cleaning and maintenance supplies stored in their original manufacturer’s containers and small quantities of retail-packaged household cleaning products. Chemicals were stored in the maintenance storage areas and individual tenant spaces. No obvious evidence of chemical spills or leaks was observed during the Site reconnaissance.

At the time of the Site reconnaissance, the following chemicals were identified at the Site:

**Canyon Creek Cleaners Janitorial Storage**

- (1) 1-gallon plastic container of general purpose cleaner
- (1) 1-gallon plastic container of chlorine bleach
- (1) 1-gallon plastic container of glass cleaner

**Postal Annex Janitorial Storage**

- (3) 1-gallon plastic containers of floor stripper
- (1) 1-gallon metal container of latex paint
- (1) 1-quart plastic container of window cleaner
Starbucks Janitorial Storage

- (5) 1-gallon plastic containers of general purpose cleaner
- (5) 1-gallon plastic containers of disinfectant
- (3) 1-quart plastic containers of hand soap

No Material Safety Data Sheets were available for review. Based upon observations made during the Site reconnaissance, chemical use and storage practices at the Site do not represent an environmental concern to the Site if used in accordance with manufacturer’s instructions.

5.5 Solid (Non-Hazardous) Waste:

Solid waste streams generated on the Site typically consist of commercial-type solid waste (trash) generated by the on-Site tenants. BFI removes solid waste from the Site.

5.6 Hazardous Waste:

No hazardous waste generation or storage was noted during the Site reconnaissance.

5.7 PCB-Containing Equipment:

Three (3) pad-mounted transformers were identified at the Site. The transformers are owned and operated by Pacific Gas and Electric (PG&E). These transformers were not observed to be leaking at the time of the Site reconnaissance. Based on the Site construction date, the observation that the transformers were not leaking, and that PG&E accepts responsibility for releases, the pad-mounted transformers do not represent an environmental concern to the Site.

Fluorescent light fixtures were identified in the on-Site structures. The ballasts were inaccessible for inspection. Based on the date of Site construction (2000), it is not likely that the capacitors within the fluorescent lighting ballasts contain PCB’s, however Hygienetics recommends that ballasts be inspected for labeling indicating no PCBs are present during replacement. If this labeling does not exist, the ballasts should be disposed of in accordance with federal, state and local requirements.

One hydraulic elevator is located within Building 2 in order to access the second level offices. The elevator equipment was newly installed at the Site in 2000 by OTIS who also currently maintains the elevator. Based on the date of the elevator equipment installation, the potential for the presence of PCB-containing fluids is
considered unlikely. No other electric equipment was observed on-site. Based upon the Site construction date (2000) and observations made during the Site reconnaissance, the PCB content of electric equipment on-site is not considered likely to represent an environmental concern to the Site.

5.8 Water And Wastewater/Stormwater:

The potable water supply is supplied to the Site by the City of San Jose. Surface water from the Site is largely controlled by paved areas on and surrounding the subject Site. Surface water drains as sheet flow toward storm drains located throughout the Site. No evidence of staining or odors was noted. No water supply wells, dry wells, or monitoring wells are located on the Site.

5.9 Wetlands:

No wetlands exist on the Site. The nearest surface water body is Silver Creek, located approximately 200 feet to the southwest of the Site.

5.10 Radon:

The Site is located in Region 6 of the EPA/California Statewide Radon Survey. Region 6 is predicted to have an average indoor radon screening potential less than 5.5 picoCuries per liter. If accurate levels of radon in the on-site buildings need to be documented, Site specific testing would be required.

Based on the documented regional radon levels and the lack of below-grade areas, no sampling was conducted during this assessment and radon is not expected to pose an environmental concern at the Site.

5.11 Air Emissions:

The Site currently does not have nor require any air emission permits according to Bay Area Air Quality Management District.

5.12 Dry Cleaning Operations:

The current dry cleaning facility, Canyon Creek Cleaners, located at 5631 Silver Creek Valley Road is a pickup/drop off location only; no plant dry cleaning operations are currently performed on-site. No chlorinated solvents or wastes were observed in this location during the Site reconnaissance.
5.13 Site-Specific Environmental Issues:

Pursuant to the above-referenced scope of work for this project, Hygienetics evaluated the following additional scope items:

**Indoor Air Quality (IAQ):** At the time of the Site reconnaissance, no unusual odors were noted. The Site representative did not have any indoor air quality complaints on file for the subject Site.

**Medical (pathological/infectious) Waste:** No medical waste was reported or observed to be generated or stored on-Site during the Site reconnaissance.

**Chlorofluorocarbons (CFC) as Coolants:** The HVAC air conditioning units for the individual tenant spaces are serviced by an outside vendor on an as needed basis. No CFCs are stored on-Site; therefore, the presence of CFCs represents a minimal environmental concern.
6.0 REVIEW OF NEARBY/ADJACENT PROPERTIES

Based upon our observations of adjacent/nearby properties from public right-of-ways (refer to Section 2.6), review of historical aerial photographs of the Site vicinity (Section 3.0), and the regulatory database information provided by Environmental FirstSearch (Section 4.1), no adjacent/nearby properties are expected to represent a significant environmental concern to the Site.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Hygienetics has performed a Phase I Environmental Site Assessment for Canyon Creek Plaza located at 5601-5667 Silver Creek Valley Road in San Jose, California. The work was performed in accordance with the scope and limitations of GECC-CREFS’ April 1996 Scope of Work Guideline for Conducting Phase I Environmental Assessments, as further described by our proposal SF00-235 dated November 2, 2000.

7.1 Conclusions:

This assessment revealed no evidence of recognized environmental conditions in connection with the Site.

This assessment revealed no evidence of recognized environmental conditions in connection with the abutting or neighboring properties.

7.2 Recommendations:

No further environmental investigation of the Site is recommended at this time.
Explanation

Approximate direction of groundwater flow.

Contour interval 20 feet.
Scale 1:24,000

Source: USGS San Jose East Quadrangle, 7.5 Minute Series, 1981 (Photorevised 1980)
Appendix A

Limitations
Limitations

The findings set forth in the attached Site Assessment Report are strictly limited in time and scope to the date of the evaluation(s). The conclusions presented in the Report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed upon services or the time and budgeting restraints imposed by the client.

The purpose of this report was to assess the physical characteristics of the subject Site with respect to the presence in the environment of hazardous material or oil. No specific attempt was made to check on the compliance of present or past owners or operators or of the Site with Federal, state or local laws and regulations, environmental or otherwise.

Partial findings of this investigation are based on data provided by others. No warranty is expressed or implied with the usage of such data. Much of the information provided in this report is based upon personal, interviews and research of all available documents, records, and maps held by the appropriate government and private agencies. This is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollection of those persons contacted by Hygienetics.

Observations were made of the Site and of structures on the Site as indicated within the Report. Where access to portions of the Site or to structures on the Site was unavailable or limited, Hygienetics is unable to render an opinion as to the presence of hazardous material or oil, or to the presence of indirect evidence relating to hazardous material or oil, in that portion of the Site or structure. In addition, Hygienetics renders no opinion as to the presence of hazardous material or oil, where direct observation of the interior walls, floor, or ceiling of a structure on a Site was obstructed by objects or coverings on or over these surfaces.

The conclusions and recommendations contained in this report are based in part upon various types of chemical data and are contingent upon their validity. It should be noted that variations in the types and concentrations of contaminants and variations in their flow paths may occur due to seasonal water table fluctuations, past disposal practices, the passage of time, and other factors. Should additional data or variations of current data become available in the future, these data should be reviewed, and the conclusions and recommendations presented herein modified accordingly.

The following were not investigated unless specifically noted otherwise: (1) presence of radioactive materials and biological hazards; (2) geotechnical factors (e.g., seismic activity, soil mechanics); (3) mine or sink hole subsidence, and; (4) potential for natural disasters (e.g., flood, hurricane, tornado).

## Notice of Disclaimer

Due to the limitations, constraints, inaccuracies and incompleteness of government information and computer mapping data currently available to TRACK Info Services, certain conventions have been utilized in preparing the locations of all federal, state and local agency sites residing in TRACK Info Services' databases. All EPA NPL and state landfill sites are depicted by a rectangle approximating their location and size. The boundaries of the rectangles represent the eastern and western most longitudes; the northern and southern most latitudes. As such, the mapped areas may exceed the actual areas and do not represent the actual boundaries of these properties. All other sites are depicted by a point representing their approximate address location and make no attempt to represent the actual areas of the associated property. Actual boundaries and locations of individual properties can be found in the files residing at the agency responsible for such information.

## Waiver of Liability

Although TRACK Info Services uses its best efforts to research the actual location of each site, TRACK Info Services does not and cannot warrant the accuracy of these sites with regard to exact location and size. All authorized users of TRACK Info Services' services proceeding are signifying an understanding of TRACK Info Services* searching and mapping conventions, and agree to waive any and all liability claims associated with search and map results showing incomplete and or inaccurate site locations.

Environmental FirstSearch
Federal Databases and Sources

1. NPL: National Priority List. The EPA's list of confirmed or proposed Superfund sites.
   
   Updated quarterly.

2. CERCLIS: Comprehensive Environmental Response Compensation and Liability Information System. The EPA's database of current and potential Superfund sites currently or previously under investigation.

   Updated quarterly.

3. RCRIS: Resource Conservation and Recovery Information System. The EPA's database of registered hazardous waste generators and treatment, storage and disposal facilities. Included are RAATS (RCRA Administrative Action Tracking System) and CMEL (Compliance Monitoring & Enforcement List).

   Updated quarterly.

   Updated quarterly.

5. NPDES: National Pollution Discharge Elimination System. The EPA's database of all permitted facilities receiving and discharging effluents to and from the environment.

   Updated semi-annually.

6. FINDS: The Facility Index System. The EPA's Index of identification numbers associated with a property or facility which the EPA has investigated or has been made aware of in conjunction with various regulatory programs. Each record indicates the EPA office that may have files on the site or facility.

   Updated quarterly.
CAL SITES (STATE SITES)
Source: The CAL EPA, Department of Toxic Substances Control (DTSC)
Phone: (916) 323-3400

The CAL EPA Department of Toxic Substances Control (DTSC) maintains a database of information on properties (or sites) in California where hazardous substances have been released, or where the potential for such release exists. For more information on individual sites call the number listed above.

CORTESE (STATE SITES)
Source: The CAL EPA, Department of Toxic Substances Control (DTSC)
Phone: (916) 445-6532

Pursuant to Government Code Section 65962.5, the Hazardous Waste and Substances Sites List has been compiled by Cal/EPA, Hazardous Materials Data Management Program. The CAL EPA Dept. of Toxic Substances Control compiles information from subsets of the following databases to make up the CORTESE list:

- The Dept. of Toxic Substances Control; contaminated or potentially contaminated hazardous waste sites listed in the CAL Sites database, formerly known as ASPIS are included (CAL SITES formerly known as ASPIS).
- The California State Water Resources Control Board; listing of Leaking Underground Storage Tanks are included (LTANK).
- The California Integrated Waste Management Board; Sanitary Landfills which have evidence of groundwater contamination or known migration of hazardous materials (formerly WB-LF, now AB 3750).

Track Info Services collects each of the above data sets individually and lists them separately in the following First Search categories in order to provide more current and comprehensive information: CAL SITES: SPL, LTANK: LUST, WB-LF: SWL.

SLIC NORTH BAY/SOUTH BAY (STATE SITES)
Source: The CAL EPA San Francisco Bay Regional Water Quality Control Board
Phone: (510) 622-2358

The CAL EPA San Francisco Bay Regional Water Quality Control Board maintains a report of sites in the north and south bay that have records of spills, leaks, and investigation cleanups. This was formerly referred to as the North Bay Toxics List and South Bay Site Management System. The two lists were combined with other information and now part of the North & South Bay SLIC Report.

SWIS SOLID WASTE INFORMATION SYSTEM (SWLF)
Source: The Integrated Waste Management Board
Phone: (916) 255-2331

The California Integrated Waste Management Board maintains a database on solid waste facilities, operations, and disposal sites throughout the state of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites. For more information on individual sites call the number listed above.

Note: This database has poor locational information regarding many sites listed; therefore, some sites may not be locatable or plottable in First Search reports.

WMUDS (SWLF)
Source: The State Water Resources Control Board
Phone: (916) 227-4365

Note: Note: This database has poor locational information regarding many sites listed; therefore, some sites may not be locatable or plottable in First Search reports.
The Waste Management Unit Database System (WMUDS) is maintained by the State Water Resources Control Board. It tracks management units for several regulatory programs related to waste management and its potential impact on groundwater. Two of these programs (SWAT & TPCA) are no longer on-going regulatory programs as described below. Chapter 15 (SC15) is still an on-going regulatory program and information is updated periodically. The WMUDS System contains information from the following agency databases: Facility, Waste Management Unit (WMU), Waste Discharger System (WDS), SWAT, Chapter 15, TPCA, RCRA, Inspections, Violations, and Enforcement’s.

**Notes Regarding SWAT Ranks 1-5**

In a 1993 Memorandum of Understanding, the State Water Resources Control Board agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board. The SWAT Program began in 1984. In 1984, legislature was passed requiring testing of water and air media at all solid waste disposal sites. The law required SWRCB to rank all solid waste disposal sites in groups of 150 each, according to the threat they may pose on water quality. The law required the operators of each of the 150 sites in a given rank to submit a water quality "solid waste assessment test" (SWAT) report. Rank groups 1-5 consisted of 750 sites of which 562 submitted a SWAT Report or exemption questionnaire (undetermined leak status). Sites in ranks 1 - 5 contain some detailed information, whereas, sites in ranks 6 and beyond generally do not, therefore the suggestion of the WRCB sites in ranks 1 - 5 were integrated with the First Search database. The SWAT Program ran from 1985 - 1995.

**Notes Regarding TPCA (Formerly referred to as Toxic Pits)**

From 1984 - 1991 the State Water Resources Control Board maintained a list of sites referred to as having Toxic Pits containing hazardous substances. Generally, these sites were factories and refineries.

**Notes Regarding SC 15 (Formerly referred to as Sub Chapter 15)**

Subchapter 15 now referred to as Chapter 15 is the current regulatory program enforced by the Water Resources Control Board regarding landfills, surface impoundment’s, and other sites. The WRCB maintains a database Chapter 15 to track these facilities. The Chapter 15 Program is part of the Core Regulatory Program for waste treatment, storage, or disposal sites. Statute specifically requires the State Water Resources Control Board to develop regulations to "ensure adequate protection of water quality and statewide uniformity in the siting, operation, and closure of waste discharge sites." These regulations are found in California Code of Regulations (CCR) Title 27 [solid waste, including mining waste] and CCR Title 23, Division 3, Chapter 15 [hazardous waste]. The regulations establish a classification system for waste and disposal sites and include requirements for siting, construction, operation, monitoring and cleanup, and closure. Program functions include issuance and amendment of waste discharge requirements, inspections to determine compliance, review of dischargers' self-monitoring reports, review of other technical reports, review of closure plans, and informal and formal enforcement actions. Statewide, the Program includes over 1100 waste treatment, storage, or disposal sites (landfills, surface impoundment’s, waste piles, and land treatment units).

**LUSTIS (LUST)**

Source: The State Water Resources Control Board
Phone: (916) 227-4416

The State Water Resources Control Board maintains a database of sites with confirmed or unconfirmed leaking underground storage tanks. Information for this database is collected from the state's regional boards quarterly and integrated with this database.

**AST Aboveground Storage Tank (UST)**

Source: The State Water Resources Control Board
Phone: (916) 227-4364

The Above Ground Petroleum Storage Act became State Law effective January 1, 1990. In general, the law requires owners or operators of AST's with petroleum
instances implement a groundwater monitoring program. This law does not apply to that portion of a tank facility associated with the production oil and regulated by the State Division of Oil and Gas of the Dept. of Conservation.

**SWEEPS / FIDS** State Registered Underground Storage Tanks (UST)

**Source:** The State Water Resources Control Board, &
CAL EPA Dept of Toxic Substances Control

**Phone:** (916) 227-4404

Until 1994 the State Water Resources Control Board maintained a database of registered underground storage tanks statewide referred to as the SWEEPS System. The SWEEPS UST information was integrated with the CAL EPA's Facility Index System database (FIDS) which is a master index of information from numerous California agency environmental databases. That was last updated in 1994. Track Info Services included the UST information from the FIDS database in its First Search reports for historical purposes to help its clients identify where tanks may possibly have existed. For more information on specific sites from individual paper files archived at the State Water Resources Control Board call the number listed above.

**Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. No warranty expressed or implied, is made whatsoever in connection with this Report. Environmental Data Resources, Inc. specifically disclaims the making of any such warranties, including without limitation, merchantability or fitness for a particular use or purpose. All risk is assumed by the user. In no event shall Environmental Data Resources, Inc. be liable to anyone, whether arising out of errors or omissions, negligence, accident or any other cause, for any loss of damage, including, without limitation, special, incidental, consequential, or exemplary damages. Any liability on the part of Environmental Data Resources, Inc. is strictly limited to a refund of the amount paid for this Report. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2011 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.
A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA’s Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

**TARGET PROPERTY INFORMATION**

**ADDRESS**

5601-5667 SILVER CREEK VALLEY ROAD  
SAN JOSE, CA 95138

**COORDINATES**

Latitude (North): 37.288800 - 37° 17’ 19.7”
Longitude (West): 121.781800 - 121° 46’ 54.5”
Universal Tranverse Mercator: Zone 10
UTM X (Meters): 607984.2
UTM Y (Meters): 4127402.2
Elevation: 325 ft. above sea level

</table>
To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**STANDARD ENVIRONMENTAL RECORDS**

**Federal NPL site list**

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

| Date of Government Version: 06/30/2011 | Source: EPA |
| Date Data Arrived at EDR: 07/12/2011 | Telephone: N/A |
| Date Made Active in Reports: 09/29/2011 | Last EDR Contact: 10/12/2011 |
| Number of Days to Update: 79 | Next Scheduled EDR Contact: 01/23/2012 |
| | Data Release Frequency: Quarterly |

**NPL Site Boundaries**

  Telephone 206-553-8665

**Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

| Date of Government Version: 06/30/2011 | Source: EPA |
| Date Data Arrived at EDR: 07/12/2011 | Telephone: N/A |
| Date Made Active in Reports: 09/29/2011 | Last EDR Contact: 10/12/2011 |
| Number of Days to Update: 79 | Next Scheduled EDR Contact: 01/23/2012 |
| | Data Release Frequency: Quarterly |

**NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 06/30/2011
Date Data Arrived at EDR: 07/12/2011
Date Made Active in Reports: 09/29/2011
Number of Days to Update: 79

Next Scheduled EDR Contact: 01/23/2012
Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/25/2011
Date Data Arrived at EDR: 03/01/2011
Date Made Active in Reports: 05/02/2011
Number of Days to Update: 62

Source: EPA
Telephone: 703-412-9810
Last EDR Contact: 11/29/2011
Next Scheduled EDR Contact: 03/12/2012
Data Release Frequency: Quarterly

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/10/2010
Date Data Arrived at EDR: 01/11/2011
Date Made Active in Reports: 02/16/2011
Number of Days to Update: 36

Source: Environmental Protection Agency
Telephone: 703-603-8704
Last EDR Contact: 10/14/2011
Next Scheduled EDR Contact: 01/23/2012
Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA’s knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 02/25/2011
Date Data Arrived at EDR: 03/01/2011
Date Made Active in Reports: 05/02/2011

Federal RCRA CORRACTS facilities list

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.
Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.
Federal institutional controls / engineering controls registries

US ENG CONTROLS: Engineering Controls Sites List
A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 03/16/2011
Date Data Arrived at EDR: 03/25/2011
Date Made Active in Reports: 06/14/2011
Number of Days to Update: 81
Source: Environmental Protection Agency
Telephone: 703-603-0695
Last EDR Contact: 12/09/2011
Next Scheduled EDR Contact: 03/26/2012
Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls
A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 03/16/2011
Date Data Arrived at EDR: 03/25/2011
Date Made Active in Reports: 06/14/2011
Number of Days to Update: 81
Source: Environmental Protection Agency
Telephone: 703-603-0695
Last EDR Contact: 12/09/2011
Next Scheduled EDR Contact: 03/26/2012
Data Release Frequency: Varies

Federal ERNS list
ERNS: Emergency Response Notification System
Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 10/03/2011
Date Data Arrived at EDR: 10/04/2011
Date Made Active in Reports: 11/11/2011
Number of Days to Update: 38
Source: National Response Center, United States Coast Guard
Telephone: 202-267-2180
Last EDR Contact: 10/04/2011
Next Scheduled EDR Contact: 01/16/2012
Data Release Frequency: Annually

State- and tribal - equivalent NPL
RESPONSE: State Response Sites
Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 11/07/2011
Date Data Arrived at EDR: 11/08/2011
Date Made Active in Reports: 12/13/2011
Number of Days to Update: 35
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
Last EDR Contact: 12/14/2011
Next Scheduled EDR Contact: 02/20/2012
Data Release Frequency: Quarterly

State- and tribal - equivalent CERCLIS
ENVIROSTOR: EnviroStor Database
The Department of Toxic Substances Control’s (DTSC’s) Site Mitigation and Brownfields Reuse Program’s (SMBRP’s) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.
**State and tribal landfill and/or solid waste disposal site lists**

**SWF/LF (SWIS):** Solid Waste Information System

Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or inactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

**Indian Underground Storage Tank (UST) database**

- **INDIAN UST R5:** (Michigan, Minnesota, Wisconsin, and Tribal Nations)
- **INDIAN UST R4:** (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, and Tribal Nations)
- **INDIAN UST R1:** (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, and ten Tribal Nations)

**FEMA UST:**

- A listing of all FEMA owned underground storage tanks.

**State and tribal voluntary cleanup sites**

- **INDIAN VCP R7:** (located on Indian Land located in Region 7.)
- **VCP:**
  - Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.
ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA’s Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities—especially those without EPA Brownfields Assessment Demonstration Pilots—minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA’s Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Local Lists of Landfill / Solid Waste Disposal Sites

ODI: Open Dump Inventory
An open dump is defined as a disposal facility that does not comply with one or more of the Part 257 or Part 258 Subtitle D Criteria.

DEBRIS REGION 9: Torres Martinez Reservation Illegal Dump Site Locations
A listing of illegal dump sites location on the Torres Martinez Indian Reservation located in eastern Riverside County and northern Imperial County, California.
WMUDS/SWAT: Waste Management Unit Database
Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA Program Information, RCRA Program Information, Closure Information, and Interested Parties Information.

Data Release Frequency: Varies

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 06/08/2011
Date Data Arrived at EDR: 09/16/2011
Date Made Active in Reports: 09/29/2011
Number of Days to Update: 13
Source: Drug Enforcement Administration
Telephone: 202-307-1000
Last EDR Contact: 12/05/2011
Next Scheduled EDR Contact: 03/19/2012
Data Release Frequency: Quarterly

HIST CAL-SITES: Calsites Database
The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.
SCH: School Property Evaluation Program
This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSITES category depending on the level of threat to public health and safety or the environment they pose.

TOXIC PITS: Toxic Pits Cleanup Act Sites
Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

CDL: Clandestine Drug Labs
A listing of drug lab locations. Listing of a location in this database does not indicate that any illegal drug lab materials were or were not present there, and does not constitute a determination that the location either requires or does not require additional cleanup work.

US HIST CDL: National Clandestine Laboratory Register
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Local Lists of Registered Storage Tanks
CA FID UST: Facility Inventory Database
The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.
UST MENDOCINO: Mendocino County UST Database
A listing of underground storage tank locations in Mendocino County.
Date of Government Version: 09/23/2009
Date Data Arrived at EDR: 09/23/2009
Date Made Active in Reports: 10/01/2009
Number of Days to Update: 8
Next Scheduled EDR Contact: 03/19/2012
Data Release Frequency: Annually

HIST UST: Hazardous Substance Storage Container Database
The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.
Date of Government Version: 10/15/1990
Date Data Arrived at EDR: 01/25/1991
Date Made Active in Reports: 02/12/1991
Number of Days to Update: 18
Next Scheduled EDR Contact: N/A
Data Release Frequency: No Update Planned

SWEEPS UST: SWEEPS UST Listing
Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990’s. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.
Date of Government Version: 06/01/1994
Date Data Arrived at EDR: 07/07/2005
Date Made Active in Reports: 08/11/2005
Number of Days to Update: 35
Next Scheduled EDR Contact: N/A
Data Release Frequency: No Update Planned

Local Land Records

LIENS 2: CERCLA Lien Information
A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.
Date of Government Version: 09/09/2011
Date Data Arrived at EDR: 09/16/2011
Date Made Active in Reports: 09/29/2011
Number of Days to Update: 13
Next Scheduled EDR Contact: 02/13/2012
Data Release Frequency: Varies

LUCIS: Land Use Control Information System
LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.
Date of Government Version: 12/09/2005
Date Data Arrived at EDR: 12/11/2006
Date Made Active in Reports: 01/11/2007
Number of Days to Update: 31
Next Scheduled EDR Contact: 03/05/2012
Data Release Frequency: Varies

LIENS: Environmental Liens Listing
A listing of property locations with environmental liens for California where DTSC is a lien holder.
Date of Government Version: 09/19/2011
Date Data Arrived at EDR: 09/20/2011
Date Made Active in Reports: 10/24/2011
Number of Days to Update: 34
Next Scheduled EDR Contact: 03/26/2012
Data Release Frequency: Varies
DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management
Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program
(SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current
or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed
restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management
Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land
use restriction at the local county recorder's office. The land use restrictions on this list were required by
the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or
part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed
restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 09/12/2011  Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 09/13/2011  Telephone: 916-323-3400
Date Made Active in Reports: 10/07/2011  Last EDR Contact: 12/13/2011
Number of Days to Update: 24  Next Scheduled EDR Contact: 03/26/2012
Data Release Frequency: Semi-Annually

Records of Emergency Release Reports

HMIRS: Hazardous Materials Information Reporting System
Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 10/04/2011  Source: U.S. Department of Transportation
Date Data Arrived at EDR: 10/04/2011  Telephone: 202-366-4555
Date Made Active in Reports: 11/11/2011  Last EDR Contact: 10/04/2011
Number of Days to Update: 38  Next Scheduled EDR Contact: 01/16/2012
Data Release Frequency: Annually

CHMIRS: California Hazardous Material Incident Reporting System
California Hazardous Material Incident Reporting System. CHMIRS contains information on reported hazardous material
incidents (accidental releases or spills).

Date of Government Version: 12/31/2010  Source: Office of Emergency Services
Date Data Arrived at EDR: 05/03/2011  Telephone: 916-845-8400
Date Made Active in Reports: 06/15/2011  Last EDR Contact: 10/31/2011
Number of Days to Update: 43  Next Scheduled EDR Contact: 02/13/2012
Data Release Frequency: Varies

LDS: Land Disposal Sites Listing
The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management
units.

Date of Government Version: 11/10/2011  Source: State Water Quality Control Board
Date Data Arrived at EDR: 11/10/2011  Telephone: 866-480-1028

MCS: Military Cleanup Sites Listing
The State Water Resources Control Board and nine Regional Water Quality Control Boards partner with the Department
of Defense (DoD) through the Defense and State Memorandum of Agreement (DSMOA) to oversee the investigation
and remediation of water quality issues at military facilities.

Date of Government Version: 11/10/2011  Source: State Water Resources Control Board
Date Data Arrived at EDR: 11/10/2011  Telephone: 866-480-1028
Date Made Active in Reports: 12/13/2011  Last EDR Contact: 12/19/2011
Number of Days to Update: 33  Next Scheduled EDR Contact: 04/02/2012
Data Release Frequency: Quarterly

Other Ascertainable Records
### RCRA-NonGen: RCRA - Non Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year
by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately
350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain
some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR’s researchers. Manufactured gas sites were used in the United States from the 1800’s to 1950’s to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.
EDR Historical Auto Stations: EDR Proprietary Historic Gas Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc.

EDR Historical Cleaners: EDR Proprietary Historic Dry Cleaners
EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc.

COUNTY RECORDS

ALAMEDA COUNTY:

Contaminated Sites
A listing of contaminated sites overseen by the Toxic Release Program (oil and groundwater contamination from chemical releases and spills) and the Leaking Underground Storage Tank Program (soil and groundwater contamination from leaking petroleum USTs).

Underground Tanks
Underground storage tank sites located in Alameda county.

CONTRA COSTA COUNTY:
Site List
List includes sites from the underground tank, hazardous waste generator and business plan/2185 programs.

SAN DIEGO COUNTY:

Hazardous Materials Management Division Database
The database includes: HE58 - This report contains the business name, site address, business phone number, establishment 'H' permit number, type of permit, and the business status. HE17 - In addition to providing the same information provided in the HE58 listing, HE17 provides inspection dates, violations received by the establishment, hazardous waste generated, the quantity, method of storage, treatment/disposal of waste and the hauler, and information on underground storage tanks. Unauthorized Release List - Includes a summary of environmental contamination cases in San Diego County (underground tank cases, non-tank cases, groundwater contamination, and soil contamination are included.)

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: Rextag Strategies Corp.
Telephone: (281) 769-2247
U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association’s annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics’ primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics’ primary database on private school locations in the United States.
Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

APPENDIX D: QUALIFICATIONS
Sau San, REA
Project Staff

Education
Bachelor of Science, Environmental Horticulture and Urban Forestry, Emphasis on Restoration and Biodiversity
University of California, Davis

Registrations
Registered Environmental Assessor (REA I #30062) – California
EPA Accredited Asbestos Inspector
ASTM Property Condition Assessment Course

Summary of Professional Experience
Ms. San has 10 years of experience in the environmental consulting industry. She has significant experience in due diligence assessments for a variety of property types and the needs and requirements of varied number of reporting standards, including ASTM standards, EPA’s All Appropriate Inquiry (AAI), and customized client formats and scopes. Specifically, Ms. San has performed Phase I Environmental Site Assessments (ESAs), Limited Environmental Site Assessments (LESAs), Environmental Transaction Screens (ETSs), Database Reviews, Property Condition Assessments (PCAs), Records Search & Risk Assessments (RSRAs), and Radon Studies. In addition, Ms. San has assisted in training of personnel, report reviews, and limited Phase II Site Assessments.

Ms. San is familiar with all aspects of due diligence property assessments. She has completed hundreds of Phase I Environmental Assessments, Environmental Transaction Screens, and other related environmental assessments for sites including multi-family residences, offices, retail shopping centers, gas stations, auto repair facilities, hotels, agricultural land, and industrial/manufacturing facilities.

Professional Experience
Ms. San served as a senior project manager on hundreds of sites involved in the sale, transfer, and/or redevelopment projects including the following:

- Ms. San completed an environmental assessment for a former steel conduit manufacturing facility which operated from the 1960s to the 1990s. Onsite operations consisted of hot-dip zinc galvanizing, electrolytic galvanizing, and zinc wastewater treatment. These operations lead to extensive soil and groundwater contamination and subsequent remediation, which were regulated by the Department of Toxic Substances Control (DTSC), Regional Water Quality Control Board (RWQCB), and Contra Costa County Health Services Department (CCCHSD). After numerous soil sampling, remediation, and groundwater monitoring events, Ms. San completed an environmental assessment for the purchase of the property.
• Ms. San completed an environmental assessment for a former glass manufacturing facility which operated from the 1940s to the 1990s. Environmental concerns associated with the former glass manufacturing facility included a metal and petroleum impacted landfill, petroleum hydrocarbons associated with oil/water separators and fuel storage tanks, and heavy petroleum hydrocarbons with limited impacts by arsenic and lead. These concerns lead to extensive soil and groundwater contamination and subsequent remediation, which were regulated by the Regional Water Quality Control Board (RWQCB) and Contra Costa County Health Services Department (CCCHSD), and portions were ultimately managed in place and the property was sold with a deed restriction in place. After numerous soil sampling, remediation, and groundwater monitoring events, Ms. San completed an environmental assessment for the purchase of the property.

• Ms. San completed environmental assessments for a portfolio of five power plants operated by GWF Energy LLC, which has been in operation since the late 1980s and early 1990s. Ms. San completed five environmental assessments. Onsite operations include the combustion of petroleum coke, a byproduct of the petroleum refining process. Environmental concerns associated with the power plants included petroleum impacts associated with the generator facility and storm water ponds. This site is currently under a regulatory monitoring program.

Ms. San has technical experience working for a diverse group of clients including national and regional lenders, investors, equity stakeholders, and property owners, including:

• California Bank & Trust
• Wells Fargo Bank
• Bay Area Development Company
• United Commercial Bank
• East West Bank
• Citibank
• Mechanics Bank
• US Bank
• California Bank of Commerce
• Cathay Bank
• Bank of the West
• Fremont Bank

Finally, Ms. San’s diversity of experience across residential, industrial, and commercial environments is a major contribution to Partner Engineering and Science’s Associate team in the West region of the United States.
Rachel M. Herrera, REA  
Project Manager

Education
B.S Health Science, California State University, San Bernardino  
   Emphasis in Environmental Health

Registrations
California Registered Environmental Assessor (REA I-30272)  
EPA Accredited Asbestos Inspector

Summary of Professional Experience
Ms. Herrera has over five years experience in the environmental service industry. Ms. Herrera’s background in environmental science and direct experience in environmental consulting allow her to offer the most effective means of regulatory compliance.

Ms. Herrera has project experience in Phase I Environmental Site Assessments (ESAs), Environmental Transaction Screens, radon screening, asbestos inspections, and lead-based paint inspections. Ms. Herrera is familiar with all aspects of due diligence property assessments and the needs and requirements of a varied number of reporting standards, including the new standard ASTM E1527-05, EPA’s All Appropriate Inquiry (AAI), Fannie Mae DUS, Freddie Mac, HUD, and customized client formats.

Ms. Herrera has preformed and completed over 1,000 Phase I Environmental Site Assessments and Environmental Transaction Screens for clients. As a senior member of the Due Diligence staff, Ms. Herrera provides senior review experience to ensure ASTM compliance and satisfaction of client requirements for Phase I Environmental Site Assessments.

Project experience for Ms. Herrera includes:

- Completed hundreds of Phase I Environmental Site Assessments and Environmental Transaction Screens on multi-family properties, commercial office buildings, retail shopping centers, gasoline service stations, hotels, dry cleaning plants, auto repair and auto body shops, industrial warehouse buildings, aerospace manufacturers, plating facilities, and various manufacturing operations throughout the U.S.
- Reviewed and evaluated hundreds of third-party Phase I and Phase II reports
- Perform environmental due diligence of a portfolio of residential property acquisitions for the City of Ontario, California
- Conducted radon testing at several residential properties throughout Southern California
• Perform environmental due diligence and conduct asbestos and lead based paint sampling of a portfolio of financial institutions throughout Southern California.
• Conducted asbestos and lead-based paint inspections of commercial and residential properties
• Facilitate in training of in house staff on projects

Ms. Herrera has technical experience working for the following financial institutions:

- JP Morgan Chase
- Wells Fargo Bank
- Citibank, North America
- Union Bank of California
- City National Bank
- NorthMarq Capital
- Morgan Stanley Mortgage Capital, Inc.
- East West Bank
- United Commercial Bank
- Berkadia Commercial Mortgage
- AmeriSphere Multifamily Finance, LLC
- California Bank & Trust
Summer Gell  
Principal

**Education**  
B.S. in Environmental Health, *Cum Laude* Western Carolina University

**Registrations**  
North Carolina-Licensed Asbestos Inspector (No. 11425)  
South Carolina-Licensed Asbestos Inspector (No. 22156)  
AHERA Certified Asbestos Building Inspector  
OSHA 40-hour Hazardous Materials Safety Certification  
OSHA 8-hour HAZWOPER Annual Refresher

**Summary of Professional Experience**  
Mrs. Gell has over 15 years of experience in the real estate due diligence field. She has a strong background in providing environmental due diligence for debt and equity transactions, as well as the performance of Phase I environmental site assessments, Phase II subsurface investigations, soil and groundwater remediation, National Environmental Policy Act (NEPA) Reviews and Environmental Assessments, regulatory compliance audits, asbestos surveys, lead-based paint surveys, mold assessments, and indoor air quality studies. She also has extensive portfolio management experience throughout the United States.

Mrs. Gell currently serves as a National Client Manager for Partner Engineering and Science, providing solutions to clients’ due diligence and engineering needs. She is responsible for ensuring consistency, quality, and on-time delivery of due diligence and engineering services provided by Partner. Current day-to-day responsibilities include project oversight, staff supervision, report review, and client management.

Mrs. Gell has been personally involved in the details of thousands of real estate transactions for various client types and therefore understands the specific needs and scopes of work required for the different parties involved in the transaction. Mrs. Gell has served as an environmental scientist, project manager, or senior author for projects associated with over 5,000 real estate transactions. Mrs. Gell is familiar with the due diligence requirements of a varied number of reporting standards, including ASTM E1527-05, EPA’s All Appropriate Inquiry (AAI), Fannie Mae DUS, Freddie Mac, HUD, and Federal Communications Commission (FCC) 47 CFR Part 1. She also has experience with fulfilling numerous customized client scopes of work.

Previously, Mrs. Gell was a client manager for a Fortune 500 company and was responsible for managing due diligence projects throughout the United States. Mrs. Gell was also responsible for developing report templates to meet the Phase I ESA requirements of Freddie Mac and Fannie Mae’s small loan program. Her primary clientele focus included real estate investors, DUS lenders, CMBS lenders, insurance lenders, and real estate equity funds.
Mrs. Gell was also the Geoscience Group Manager for an international engineering firm, where she was responsible for business development for due diligence services within North Carolina and South Carolina, staff management, and QA/QC review of all Phase I ESAs, asbestos surveys, and Industrial Hygiene-related reports. In addition, Mrs. Gell was the project manager on multiple Phase II assessments and remedial investigations with cleanups under various regulatory programs for former textile mills, drycleaners, and Brownfields sites located in the southeastern United States.

Prior to being promoted to Geoscience Group Manager, Mrs. Gell was responsible for managing and completing environmental site assessments, and soil and groundwater contamination assessments associated with USTs, drycleaners, and former industrial properties. She was also responsible for conducting asbestos, lead-based paint, and mold surveys, and the oversight of subsequent abatement projects. She also performed regulatory compliance audits and indoor air quality assessments to evaluate potential worker exposure issues.

For a national geoscience company, Mrs. Gell served as a staff environmental scientist and conducted soil and groundwater assessments at multiple petroleum retail sites located throughout Florida.

Some relevant project experience includes:

- Performed, managed, or reviewed due diligence projects associated with more than 5,000 real estate transactions on multi-family properties, agricultural properties, commercial office buildings, retail shopping centers, gasoline service stations, medical and hospitality properties, dry cleaning plants, auto repair shops, industrial properties, and various manufacturing operations throughout the United States.
- Managed a portfolio of Phase I ESAs for over 200 gas stations located in Texas and Utah.
- Managed and served as a team leader for a Phase I and Phase II assessment of five housing areas associated with the Marine Corps Air Station and Parris Island Recruit Depot in Beaufort, South Carolina. Scope of Services included asbestos sampling, lead based paint sampling, mold investigation of housing areas, geophysical surveys for USTs and possible land fill area, and soil and groundwater assessment.
- Managed and performed indoor air monitoring project of a former industrial facility located in Orlando, Florida. Air monitoring parameters consisted of VOCs, formaldehyde, carbon monoxide, carbon dioxide, environmental bacteria, fungi, radon, and lead. Provided expert witness testimony for workers compensation claims filed against the existing property owner.
- Completed UST Closure Reports, Limited Site Assessments, Soil Assessment Reports, Soil Closure Reports, and Corrective Action Plans for submittal to North Carolina Department of Environment and Natural Resources for UST sites owned by various industrial and government entities.
- Completed Tier I, Tier II, and Corrective Action reports for submittal to South Carolina Department of Health and Environmental Control (SCDHEC) for UST sites owned by various developers and industrial entities.
Summer Gell
(Continued)

- Conducted soil and groundwater assessments at multiple petroleum retail sites located throughout Florida. Activities included field oversight of groundwater monitoring well installation using mud-rotary, air-rotary, and hollow-stem augers; soil and groundwater sampling; receptor surveys; and elevation surveys of installed monitoring wells and soil borings. Prepared Contamination Assessment Reports (CARs) documenting field assessment activities and evaluation of laboratory analytical results for submittal to the Florida Department of Environmental Protection (FDEP).
- Field Team Leader for Phase I ESAs and subsequent Phase II investigations conducted of multiple closed furniture manufacturing sites located in North Carolina and South Carolina as part of a joint venture between an international engineering firm and a Brownfields investment company.
