4. REFERRALS FROM CITY COUNCIL, BOARDS, COMMISSIONS, OR OTHER AGENCIES

a. Comments from City Councilmember Dev Davis

Councilmember Dev Davis explained that she supports the work the Historic Landmark’s Commission is doing and thanked them for their work. She stated that she is the City Council’s liaison to the HLC, and will be following their work closely. She indicated her overall support for designating the Greater Gardner area as a Conservation Area.
b. **Update on City Council Direction for Future Historic Survey Work**

Susan Walsh, Historic Preservation Officer, briefly reviewed the memo that was distributed to the Commission, and explained the Interim Planning Director’s initial survey work plan. She also suggested that the Commission consider the following additional recommendations:

The survey work start in the original City and the earliest annexed growth areas identified in the General Plan 2040, and focus on the Downtown and adjacent areas: Diridon, Urban Villages (including West San Carlos, The Alameda, East Santa Clara/Alum Rock/Five Wounds and North First Street) and the SOFA area.

The work should also include a review of all previous historic surveys done for the City and for private developments, and should update older surveys as needed. New survey work should focus on areas that have not been surveyed.

The survey work should include an update of the 2009 Mid-Century Modern Context Study posted on our website, and should include the preparation of a new historic context survey for Industrial and Manufacturing Buildings (related to agricultural and technology uses).

A searchable database of all historic surveys should also be prepared in the City’s website for public access.

The Commission stated that they are supportive of the Planning Director’s interim survey work plan and agreed with the staff recommendations as well. They recommended that after the initial review of the original City and the first annexed areas, the City should also look at areas that were annexed later that may have potential historic resources, as the budget allows. They recommended that survey work for the Mid Century Modern Context Statement should also include a survey of historic neon signs.

Staff indicated there may be a community meeting in addition to the required public hearings starting in the fall. Staff will forward the Commission’s comments to the Planning Director and to the City Council.

c. **Presentation of the Greater Gardner Area as a Conservation Area Background, Historic Survey, and Review Process for Nomination as a City Conservation Area**

**Recommendation:** HLC acceptance of informational presentation

Staff stated that Archives and Architecture will be finishing the update to the Greater Gardner Survey over the next several weeks. Staff, and Franklin Maggi and Leslie Dill with Archives and Architecture gave a presentation that explained the process for nomination and designation of the Greater Gardner (GG) Area as a Conservation Area, provided an overview of the Historic Context Survey and discussed the work that Archives and Architecture has been doing to update the Historic Survey.

*Alison England,* with the North Willow Glen Neighborhood Association, stated that she founded the North Willow Glen Neighborhood Association, and was one of the original community members. She said her Harvey Darnell also worked hard to get this area designated as a Conservation area.

*Dan Erceg,* with the North Willow Glen Neighborhood Association, speaking on behalf of Harvey Darnell, is excited about this and has been working on this for 30 years. He thanked Franklin Maggi and staff, and said he supports the whole effort.

*Larry Ames,* stated that Harvey Darnell also asked him to speak on his behalf, and said that the Willow Glen residents have written a book and dedicated a whole chapter to this historic neighborhood.
The Commission thanked all who have been involved and congratulated them on their hard work. They were very supportive of designating the Greater Gardner Area as a Conservation Area, and thanked the neighborhood leaders who have been involved with this project for a long time. The Commission said they were pleased with the report and it was very thorough.

The Commission asked whether High Speed Rail (HSR) was proposed to be underground through the Gardner area. Staff indicated that it looks as though they may be proposing the HSR to be located above ground through this area, however, they still haven’t made a final decision. They will be reviewing a few alternatives so residents should try to attend these meetings and voice their concerns. Staff indicated that the City will also be reviewing and commenting on the Draft EIR, and staff will keep the Commission up-to-date on this issue.

One of the Commissioners asked why the area can’t be broader and Franklin and Leslie explained that while there are a lot of other historic residences in the area, there is really only one area that meets the required criteria as a neighborhood that conveys a sense of cohesiveness through design, architecture, setting, materials or natural features and history. They explained the percentage of historic residences in each area, and noted that the area proposed as a conservation area has the highest concentration of historic residences that can be classified as contributors to the conservation area--- almost 80% of the residences in this sub-area contribute to a distinct sense of historic place. They also stated that there is a graphic that shows many other residences outside the proposed Conservation Area that are also proposed to be listed on the Historic Resources Inventory.

Overall, the Commission seemed to agree with the findings of the Historic Context Survey that this area meets the required criteria for a conservation area, and has the highest concentration of historic residences that can be classified as contributors to a distinct sense of historic place.

5. OPEN FORUM

Members of the public are invited to speak on any item that does not appear on today’s Agenda and that is within the subject matter jurisdiction of the Commission. The Commission cannot engage in any substantive discussion or take any formal action in response to the public comment. The Commission can only ask questions or respond to statements to the extent necessary to determine whether to: (1) refer the matter to staff for follow-up; (2) request staff to report back on a matter at a subsequent meeting; or (3) direct staff to place the item on a future agenda. Each member of the public may fill out a speaker’s card and has up to two minutes to address the Commission.

Larry Ames stated that the legal issues pertaining to the Willow Glen Trestle are still on hold. The State listed the Trestle on the State’s Historic Register, however, the City of San Jose has requested a redetermination, which the State will consider on October 27th in Sacramento. If they decide to do a redetermination they will hold the hearing on the same day in Sacramento.

Brian Grayson has supported the Greater Gardner area as a Conservation Area for a long time, and it has taken a long time to get to this point. He announced the Wolfe Higgins Home Tour will take place on August 26th, and thanked the Commission for recommending that signs be added to the historic survey work plan.
