ELLIS ACT ORDINANCE
FACT SHEET

ABOUT THE ORDINANCE
The City’s Ellis Act Ordinance outlines the process by which the owner of building with Rent Stabilized Units can permanently remove those buildings from the rental market. The City’s Ellis Act Ordinance applies to buildings with four or more unit until June 8, 2018 after which it applies to buildings with three or more units. The Ordinance creates a standardized process for issuing Ellis Act withdrawal notices to tenants, recording a summary memorandum, and provides for required relocation benefits, and as well as a Tenant's right to return and the re-control of rents for units returned to the market.

Additionally, the City’s Ellis Act Ordinance provides that where buildings with Rent Stabilized and new rental apartments are constructed, currently all newly constructed rental apartments are subject to the City’s Apartment Rent Ordinance Effective June 8, 2018, that requirement will change to require that the greater of: 50% of new apartments built or the same number of apartments as were removed from the market are subject to the City’s Apartment Rent Ordinance. Additionally, there will be an opportunity for an owner to seek an exemption from these re-control requirements if 20% of the new apartments are built as restricted affordable rental housing built on-site consistent with the requirements of the City’s Inclusionary Housing Ordinance and additional .5% of the new units are voluntarily restricted to 100% AMI and built in compliance with the on-site standards in the Inclusionary Housing Ordinance and guidelines.

The City’s Ellis Act Ordinance also extends to apartments built after 1979, allowing landlords not subject to the Apartment Rent Ordinance to use the Ellis Act Ordinance if they provide a 120-day notification of withdrawal and relocation consultant services to impacted tenants. These properties are not subject to the requirement to pay base or qualified relocation assistance or provide a right of return.
